AACE EMPLOYEE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
August 31, 2013

NOTE A: PLAN DESCRIPTION

The following description of AACE Employee Savings Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more detailed description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of Archer Wire International Corp. and Capron Manufacturing ("the Company"), a controlled group, who have completed one hour of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility. Employees of the Company are eligible to participate in the Plan after they have completed the service requirement.

Entry Dates. Entry dates are each business day of the plan year, and the Plan contains an automatic enrollment arrangement. In the absence of an election to opt out of participation within 30 days of meeting the service requirement, employees are automatically enrolled into the Plan to defer 3% of compensation. Employees have the option to defer another rate of compensation and to self direct investments. If an employee is automatically enrolled into the Plan, contributions will be directed to the Plan's default investment option.

Contributions. Participants may contribute up to 100% of their pay each year, up to maximum amounts established by IRS regulations. The Company may make discretionary matching contributions at a rate of 25% with a maximum match of $1,500 per participant. The Company may make a discretionary profit-sharing contribution on an annual basis. The Company's contribution for the year will be allocated to the accounts of eligible participants on a compensatory-based formula.

Participant Accounts. Each participant's account is credited with the participant's 401(k) contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. Forfeitures will be applied first against plan administrative expenses. If forfeitures are not sufficient, administrative expenses may be paid out of the Plan and participants are charged with an allocation of expense unless administrative expenses are paid by the Company. Total forfeitures during the years ended August 31, 2013 and 2012 were $7,544 and $4,466, respectively. At August 31, 2013 and 2012 unallocated forfeitures were $0 and $0, respectively. These amounts may be used to offset future administrative expenses and to reduce future employer contributions. Forfeiture account balances of $7,544 and $4,477 were used to fund administrative expenses during the years ended August 31, 2013 and 2012, respectively.

NOTE A: PLAN DESCRIPTION (CONTINUED)

Vesting. Participants are 100% vested in salary deferrals, rollover contributions and matching contributions. Participants are vested in the Company profit-sharing contributions based on years of continuous service. A participant is 100% vested after six years of credited service. A participant's vested percentage in their account attributable to profit-sharing contributions is determined under the following schedule:

Vesting Schedule
Profit-Sharing Contributions

Years of Service	Percentage
Less than 2	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6	100 %

Participant shall become fully vested in their account balance if they:

a. Attain normal retirement age, or
b. Meet requirements for early retirement, or
c. Become totally and permanently disabled, or
d. Die.

Notes Receivable. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 1% above the prime rate of interest at the loan date. Principal and interest is paid ratably through payroll deductions. The Plan sponsor assesses outstanding balances for determination of the amount of a loan considered collectible to determine any valuation allowance for loans deemed uncollectible. There were no amounts in the allowance for doubtful accounts for the plan years ended August 31, 2013 and 2012.

Benefit Payments. Upon termination of service due to death, disability, retirement or standard departure, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments.

Pre-Retirement Withdrawals. A participant who has attained the age of 59 ½ years may withdraw all or any part of amounts credited to their participant account. However, no distribution from the participant's account shall occur prior to 100% vesting. The Plan provides for pre-retirement withdrawals due to hardship. A participant who elects pre-retirement withdrawals will continue to participate in the plan on the same basis as any other employee.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Valuation of Investments

Investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

The net unrealized appreciation or depreciation in aggregate fair value of investments represents the change in the difference between the fair value and the original cost of investments during the year. The net realized gain or loss on investments is the difference between the proceeds received and the average cost of investments sold.

As required by generally accepted accounting principles, the Plan did not disclose the net appreciation or depreciation in fair value for each significant class of investments nor did the Plan segregate between investments whose fair values have been measured by quoted prices in an active market and those whose fair values have been otherwise determined. The Plan also did not disclose activity for each investment fund option as required by generally accepted accounting principles. Information required to be disclosed was not available from the Plan custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

In preparing these financial statements, the Plan sponsor has evaluated events and transactions for potential recognition or disclosure through June 2, 2014, the date the financial statements were available to be issued.

NOTE C: PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances.

NOTE D: TAX STATUS OF PLAN

The Internal Revenue Service (IRS) determined and informed the Company by letter dated June 10, 2011, that the volume submitter plan document and related trust were designed and operated in accordance with applicable sections of the Internal Revenue Code (IRC). On January 11, 2012 the sponsor adopted a prototype Plan which had previously received Internal Revenue Service (IRS) determination on March 31, 2008 that it is designed in accordance with applicable sections of the Internal Revenue Code (IRC).

The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan's federal annual returns for 2009, 2010, 2011, and 2012 are subject to examination by the IRS, generally for three years after they were filed.

NOTE E: FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying Comparative Statement of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three levels.

Level 1 – Fair value is based on inputs that are observable/quoted prices (unadjusted) in active markets for identical assets and liabilities that the reporting entity has the ability to access at measurement date. An active market is a market in which transactions for the asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 – Fair value is based on inputs that are observable, either directly or indirectly, but that are not quoted prices included within Level 1.

NOTE E: FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 – Fair value is based on inputs that are unobservable for the asset. Unobservable inputs shall be used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset at the measurement date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of August 31, 2013 and 2012:
