Note 1: Description of the Plan

The following description of the Cooper Individual Account Retirement Plan for Bargaining Unit Employees (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions, which is available from the plan administrator.

General

The Plan is a defined contribution plan sponsored by Eaton Electric Holdings LLC (the Company) a subsidiary of Eaton Corporation plc (Eaton). Employees may become a participant on their date of hire, as long as he/she is an eligible union employee, as defined in the Plan document. Effective as of the close of business on December 31, 2013, the Plan is hereby merged into and made a part of the Eaton Personal Investment Plan (the EPIP) and the Trust is hereby merged into and made a part of the trust maintained in connection with the EPIP. Effective upon the merger, the provisions of the EPIP shall govern with respect to the interests of participants and their beneficiaries.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes to each participant's account based on hours actively worked at specific rates as set forth in the Plan document. The Company contribution is invested the same as the participant's contributions. Contributions are subject to certain limitations.

Participant Accounts

Each participant account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution is subject to a graded vesting schedule based on years of continuous service. A participant is 100 percent vested after five years of credited service or upon attainment of normal retirement age, death or permanent disability. The nonvested balance in a participant's account is forfeited upon other termination of service.

**Cooper Individual Account Retirement
Plan for Bargaining Unit Employees**
Notes to Financial Statements
December 31, 2013 and 2012

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. Participants may have up to two loans outstanding at any time, each with a maximum term of five years except for a loan obtained for purchase of a principal residence for which the maximum term is ten years. The loans are secured by the balance in the participant's account and bear interest at fixed rates, which are commensurate with local prevailing rates as determined by the plan administrator.

Payment of Benefits

The Plan provides benefits equal to the value of a participant's vested interest in their account balance upon retirement, death, termination, or permanent disability according to the form of payment elected by the participant within the limitations defined in the Plan.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$0 and \$46,707, respectively. Amounts in these accounts, if any, will be used to reduce future employer contributions or administrative expenses. During 2013, employer contributions and administrative expenses were reduced by \$138,589 and \$4,394, respectively, from forfeited nonvested accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully

Notes to Financial Statements

benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes receivable are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits paid directly to participants are recorded when paid.

Plan Management's Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2013, and through April 7, 2014, the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

Note 3: Investments and Related Investment Income (Certified by Trustee)

Notes to Financial Statements
December 31, 2013 and 2012

During 2013, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated in value as follows:

Mutual funds	\$ 3,250,259
Common/collective trusts	<u>1,276,226</u>
	<u>\$ 4,526,485</u>

Interest and dividends realized on the Plan's investments for the year ended December 31, 2013 were \$420,396.

Stable Value Fund

During 2013 and 2012, the Plan held an interest in the Diversified Stable Value Fund (SVF). The SVF invests in actively managed structured investment contracts (SICs). The SVF can invest in guaranteed investment contracts (GICs) which are promises by a bank or insurance company to repay principal plus accrued income at contract maturity subject to the creditworthiness of the issuer. A bank or insurance company issues a wrapper contract for each GIC or SIC that allows participant-directed transactions to be made at contract value. Wrapper contracts are valued as the difference between the fair values of the assets supporting the GICs and SICs, and contract value. Assets supporting the SICs are comprised of U.S. government and agency bonds and notes, and unit investments in collective bond funds. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a 90 day redemption notice to liquidate its entire share in the fund.

Certain events limit the ability of the Plan to transact at contract value with the wrap issuer. However, the Plan's management is not aware of the occurrence or likely occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants. The issuer may terminate a wrap contract for cause at any time.

For the year ended December 31, 2012, the average annual yield for the investment contracts in the SVF was 3.64%. The average yields earned by the Plan for all wrap contracts held by the Plan's common/collective trust funds based on the actual interest rates credited to participants was approximate 3.43% for the year ended December 31, 2012.

Note 4: Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* (FASB ASC 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in an active market for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

December 31, 2013 and 2012

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities.

Level 2

Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for the substantially the full term of the financial instrument.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for the Plan's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Interest bearing cash: Valued at cost, which approximates fair value.

Common/collective trusts: Valued at the net asset value of the shares held by the Plan at year-end, which is based on the fair value of the underlying investments using information reported by the investment advisor at year-end. The objective of the Blackrock Emerging Markets Index Fund (the Fund) is to match the total return performance of Morgan Stanley Capital International (MSCI) Emerging Markets Index by investing in a BlackRock collective trust fund, which invests in stocks that make up the MSCI Emerging Markets Index. There are currently no redemption restrictions on this investment. The fair value of the investment in this category has been estimated using the net asset value per share

Stable Value Fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5: Party-In-Interest Transactions

Certain plan investments are managed by Transamerica Retirement Solutions Corporation (Transamerica) which is the recordkeeper of the Plan. Therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. Fees paid by the Plan included administrative fees for Cooper US Inc. amounted to \$3,832 and plan service fees for Transamerica amounted \$74,762 for the year ended December 31, 2013.

Note 6: Plan Tax Status

The Plan obtained its latest determination letter on October 25, 2002, in which the Internal Revenue Service (IRS) stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires the plan administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing

jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.
