EXOTIC METALS FORMING COMPANY LLC
PROFIT SHARING RETIREMENT AND 401(k) PLAN

Notes to Financial Statements
For the Year Ended August 31, 2013

Note 1 - Description of the Plan and Accounting Policies

The following description of the Exotic Metals Forming Company LLC Profit Sharing Retirement and 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for more complete information regarding the Plan's definitions, benefits, eligibility, and other matters.

General - The Plan is a defined contribution plan under the provisions of Section 401(a) of the Internal Revenue Code (IRC). Employees who have completed the required period of service, as defined by the Plan, are eligible to participate if they meet the eligible employee requirements defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Administration - The Plan is administered by an administrative committee. The Russell Trust Company serves as the trustee of the Plan.

Contributions - Participants may defer up to 75% of eligible compensation as defined by IRC section 415. In addition, the Company may elect to declare a cash bonus based on the profitability of the Company. The allocation of the bonus is based upon a percentage of base wages up to a set maximum. Eligible employees may elect to contribute up to 100% of their cash bonus to the Plan. Both employee elective deferrals and cash bonus contributions are subject to limitations imposed by the IRC. Participants are also allowed to rollover contributions from other qualified employer-sponsored retirement plans.

Effective September 1, 2012, the Plan was restated and adopted Section 401(k) safe-harbor design which means that the Plan automatically complies with the nondiscrimination requirements of the IRC. The safe-harbor provision will provide Company matching contributions equal to 100% of the first 3% of a participant's contribution, plus an additional 50% of the next 4% of a participant's contribution.

The Company may also elect to contribute an annual discretionary profit sharing amount to eligible employees by resolution of its Board of Directors or other governing body or person. The profit sharing contribution is allocated as of the last day of the plan year to the account of each active eligible participant who completes at least 1,000 hours of service and is employed on the last day of the plan year. The actual allocation will occur no later than November 30th the following plan year. The Company made discretionary profit sharing contributions between 3% and 8% of each participant's compensation for the plan year ended August 31, 2013 depending upon the total years of service.

Participant Accounts - Each participant's account is credited with an allocation of (a) the employee's contribution, (b) the Company's contribution, and (c) Plan earnings or losses. Plan earnings or losses are allocated to participants' accounts daily. The allocation of earnings and losses is based on each participant's weighted account balance as a percentage of all participants' account balances for a fund.

Investment Options - Participants may direct their contributions and related earnings into investment options in 1% increments. Investment options are common collective trust funds held and managed by Russell Trust Company. Participants may change their deferral percentage and the allocation of contributions among various investments.

Notes to Financial Statements
For the Year Ended August 31, 2013

Note 1 - Continued

Forfeitures - Unvested amounts are forfeited by terminated participants the earlier of either a five year break in service or a distribution of a participant's account balance. Forfeited amounts will be used to first re-instate employees who return to service prior to a five year break, then to pay reasonable Plan expenses and finally to reduce future employer matching contributions and discretionary contributions. Amounts forfeited during the year ended August 31, 2013, totaled \$405,720 and remained unallocated at August 31, 2013.

Administrative Expenses - Certain administrative expenses of the Plan are paid by the Company. Recordkeeping, trustee, legal and investment management fees are paid by the Plan.

Subsequent Events - The Plan's management has evaluated subsequent events through June 12, 2014, the date on which the Plan's financial statements were available to be issued.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Payment of Benefits - Benefits paid to participants are recognized in the financial statements when they are paid. At August 31, 2013 and 2012, there were no material distributions that had been requested for payment by participants, but had not yet been paid out.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 3 - Fair Value Measurements

Generally Accepted Accounting Principles (GAAP) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Notes to Financial Statements
For the Year Ended August 31, 2013

Note 3 - Continued

The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2013 and 2012.

Collective Trust Fund - Valued using the net asset value (NAV) provided by the fund's trustee. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding at the valuation date. The fund is traded on a private market that is not active; however, the unit price is based primarily on observable market data of the fund's underlying assets.

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31:

<i>Fair Value Measurements as of August 31, 2013</i>

Note 5 - Information Certified by Trustee

The Plan's management elected the method of compliance permitted by Section 2520.103-8 for the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by Russell Trust Company need not be subjected to independent audit.

The plan administrator has obtained certification from the trustee, Russell Trust Company that the following information included in the Plan's financial statements and supplementary information is complete and accurate:

- Fair value of investments as of August 31, 2013 and 2012;

Note 6 - Party-In-Interest

Plan investments are common collective trust funds managed by Russell Trust Company. In addition, Russell Trust Company serves as trustee and performs various maintenance and administrative services for the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid to Russell Trust Company totaled \$447,642 for the plan year ended August 31, 2013. Northwest Plan Services serves as the recordkeeper for the Plan and is also considered a party-in-interest. Fees paid to Northwest Plan Services totaled \$81,735 for the plan year ended August 31, 2013.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and the assets will be distributed to participants in proportion to their respective account balances.

Note 8 - Federal Income Taxes

The Plan obtained its latest determination letter on November 21, 2008, in which the IRC stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan is subject to audits by the IRS for certain tax periods based on applicable laws and regulations; however, there are currently no audits for any tax periods in progress.

Note 9 - Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amount reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for benefits.
