AMERICAN SPECIALTY HEALTH INCORPORATED
401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

1. Description of Plan

The following description of the American Specialty Health Incorporated 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan was established June 1, 1995 by American Specialty Health, Incorporated (the "Company") as a defined contribution plan under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan is administered by the Company as the Plan sponsor.

Effective October 1, 2012, the Plan changed the trustee and recordkeeper from Principal Trust Company to Fidelity Management Trust Company.

b. Eligibility

Employees of the Company and affiliated employers, except for leased employees, are eligible to participate in the Plan upon reaching 18 years of age and completing 1 month of service. Participants can enter the Plan on the date the employee meets the eligibility requirements.

c. Contributions

Participants may contribute up to 80% of their gross compensation, subject to the Internal Revenue Service ("IRS") limits. The Plan includes an automatic enrollment feature whereby new participants are automatically enrolled in the Plan with a 6% deferral rate, unless the participant affirmatively elects otherwise. Participants who are 50 years of age by the end of the Plan year are allowed to make catch-up contributions.

The Plan also allows rollover contributions from other qualified plans. The Company makes non-discretionary matching contributions of 50% of the first 4% of compensation deferred by the employee.

d. Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions, the Company's contributions, and an allocation of the Plan's earnings and expenses, and are valued on a daily basis. The current benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are immediately vested in their employee deferrals, rollover contributions and qualified non-elective employer contributions, if any, and the net earnings thereon. Participants vest in non-discretionary employer matching contributions as follows:

Years of Vesting Service	Vested Percentage
Less than 2 years	0%
2 but less than 3 years	25%
3 but less than 4 years	50%
4 but less than 5 years	75%
5 or more years	100%

f. Investments

Participants may direct the investment of their account balances in one or a combination of investment options offered by the Plan. Participants may change their investment elections or transfer their assets between investments on a daily basis.

g. Forfeitures

Participants who terminate employment forfeit any nonvested portion of Company contributions and earnings thereon. Forfeited amounts may be used to reduce future Company contributions or to pay administrative expenses of the Plan. At December 31, 2013 and 2012, forfeitures totaling approximately $1,400 and $500, respectively, were available to reduce future Company contributions or to pay future administrative expenses. During 2013 and 2012, forfeitures totaling approximately $97,500 and $58,000, respectively, were utilized to offset employer contributions.

h. Payment of Benefits

Upon reaching retirement age, termination of service or death, a participant may elect to receive their vested account balance in a lump-sum distribution, an annuity or installment payments. Account balances less than $5,000 will be paid in a lump sum. If the participant does not elect to take a distribution, the balance will be automatically transferred to an individual retirement account for the benefit of the participant. If the vested balance is less than $1,000, the Plan administrator will make the distribution directly to the participant.

i. Hardship Withdrawals

Upon certain conditions, participants, while still employed by the Company, are permitted to withdraw, in a single sum, a portion of their vested account balance as a result of an immediate and heavy financial need. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of postsecondary education tuition, the payment of burial or funeral costs of immediate family members, the payment of natural disaster clean-up on the participant's principal residence or to prevent eviction or foreclosure from the participant's principal residence. A participant's right to make deferrals to the Plan will be suspended for six months after the receipt of a hardship withdrawal.

j. Notes Receivable From Participants

Participants may borrow the lesser of $50,000 or 50% of their vested account balance, subject to a $1,000 minimum and certain other restrictions. Loans are secured by the vested account balance of the participant and bear interest at a rate equal to the prevailing interest rate that would be charged under similar circumstances as determined by the Company. Loans are repaid through payroll deductions over periods ranging up to five years unless the loan is used to acquire a principal residence, in which case the loan term may be for a period of ten years. The interest rate on outstanding loans at December 31, 2013 ranged from 6.25% to 9.75%, maturing through 2018.

k. Administrative Expenses

The Company pays certain administrative fees of the Plan, including legal, trustee and audit fees. Direct expenses totaling $9,710 and $15,501 were incurred and paid by the Plan during 2013 and 2012, respectively. Certain expenses are included in the transaction prices of investments bought and sold and are not separately quantifiable. The Plan charges certain loan and distribution fees to the impacted participants.

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

b. Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles ("GAAP") requires management of the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Net appreciation in fair value of investments consists of the net change in unrealized gains or losses during the year and the realized gain or loss on investments sold during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date.

d. Notes Receivable From Participants

Notes receivable from participants are carried at amortized cost plus accrued interest.

e. Payment of Benefits

Benefits are recorded when paid.

f. Subsequent Events

The Plan has evaluated subsequent events with respect to the Plan through June 11, 2014, the date the financial statements were available for issuance.

3. Investments

Plan assets are held by Fidelity Management Trust Company, the trustee, as of December 31, 2013 and 2012 and for the year ended December 31, 2013 and the period from October 1, 2012 to December 31, 2012, and Principal Life Insurance Company and Principal Trust Company, the custodians of the Plan for the period from January 1, 2012 to September 30, 2012. Participants may direct their accounts among the various investments offered by the trustee or custodian.

The Wells Fargo Stable Value Fund Class M (the "Stable Value Fund") is a common collective trust investing primarily in investment contracts and security-backed contracts, including guaranteed investment contracts ("GICs") and security-backed contracts issued by insurance companies and other financial institutions. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract comprised of two parts: the first part is a fixed-income security portfolio of fixed-income securities; the second part is a contract value guarantee ("wrapper") provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract at maturity.

The fair value of the Stable Value Fund is based on the present value of future cash flows using the current discount rate. The fair value of a security-backed contract includes the value of the underlying securities and the value of the wrapper contract. The fair value of the wrapper contract provided by a security-backed contract issuer is the present value of the difference between the current wrapper fee and the contract wrapper fee. Wrap contracts are designed to allow a stable value fund to maintain a constant net asset value ("NAV") and to protect the fund from market fluctuations except in extreme circumstances.

Certain events could cause the Stable Value Fund not to transact at contract value including material amendments to the Stable Value Fund's structure or administration; changes to the participating plans' competing investment options including the elimination of equity wash provisions; complete or partial termination of the Stable Value Fund, including the merger with another fund; the failure of the Stable Value Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; the redemption of all or a portion of the interests in the Stable Value Fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees

from coverage under the participating plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan; any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Stable Value Fund or participating plans; or the delivery of any communication to plan participants designed to influence a participant not to invest in the Stable Value Fund.

The overall effective yield and crediting interest rate for that fund was approximately 4.94% and 1.52% for the year ended December 31, 2013 and 1.37% and 1.95%, respectively, for the period from October 1, 2012 to December 31, 2012. Earnings from the investment in the common collective trust are included in dividends and interest income on the accompanying statements of changes in net assets available for benefits.

The following presents the investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2013 and 2012:

Pooled separate accounts	-	2,622,484
	$ 4,511,785	$ 2,456,543

4. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820 *Fair Value Measurements and Disclosures* establishes a framework for fair value measurements. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices

in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at fair value based on quoted market prices.

Common collective trust: Valued at fair value based on the present value of future cash flows using the current discount rate.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2013:

The following table provides information regarding redemption of investments where the NAV has been used as a practical expedient to measure fair value at December 31, 2013 and 2012:

	Fair Value		Redemption Frequency	Redemption Notice Period
	2013	2012		
Common collective trust	$ 2,190,535	$ 1,935,049	Daily	1 – 2 days

The common collective trust is a stable value fund whose primary objective is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, the common collective trust invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments. However, there is no assurance that this objective can be achieved. There were no unfunded commitments at December 31, 2013.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2013 and 2012:

	Level 3 Guaranteed Investment Contract

5. Risks and Uncertainties

The Plan assets are invested in a variety of investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, foreign currency and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits, and therefore participant account balances.

6. Information Certified by the Trustee and Custodians

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the financial statements and supplemental schedule was provided and certified by Fidelity Management Trust Company, the trustee, as of December 31, 2013 and 2012 and for the

year ended December 31, 2013 and for the period from October 1, 2012 to December 31, 2012 and Principal Life Insurance Company and Principal Trust Company, the custodians, for the period from January 1, 2012 to September 30, 2012, as complete and accurate.

- Investments, at fair value (excluding common collective trust)
- Common collective trust, at contract value
- Investment income

- Schedule of assets (held at end of year)

7. Related-Party Transactions

Certain Plan investments are managed by Fidelity Investments, an affiliate of Fidelity Management Trust Company, the trustee, as of December 31, 2013 and 2012 and for the year ended December 31, 2013 and for the period from October 1, 2012 to December 31, 2012, and by Principal Life Insurance Company, the custodian, for the period from January 1, 2012 to September 30, 2012. Therefore, these investments and investment transactions qualify as party-in-interest transactions.

Additionally, the Plan sponsor, American Specialty Health, Incorporated, is a party-in-interest to the Plan; however, there were no transactions with the Plan sponsor other than the funding of contributions to the Plan and payment of certain administrative expenses of the Plan.

8. Tax Status

Effective October 1, 2012, the Plan was restated utilizing a Fidelity Volume Submitter Plan Document. Fidelity received an advisory letter from the IRS on March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the advisory letter. Additionally, the Plan utilized the Principal prototype non-standardized Plan document for the period from January 1, 2012 to September 30, 2012, which received an opinion letter dated March 31, 2008, in which the IRS stated that as of that date the Plan document was designed in compliance with the applicable IRC requirements. The Plan has been amended since Principal Life Insurance Company received the advisory letter. However, management of the Plan believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, management believes that the Plan is qualified and the related trust is tax exempt as of December 31, 2013 and 2012, and for the years then ended.

Assuming it meets certain initial and ongoing requirements, the Plan is generally exempt from federal and state income taxes. However, GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in

progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Plan Termination

Although it has not expressed any intention to do so, the Company may terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in all their accounts.
