AIR-LAND TRANSPORT SERVICE, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The following description of the Air-Land Transport Service, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Air-Land Transport Service, Inc. and Management Investment Corporation (Companies) who have attained age 18 and completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 90% of their annual compensation, subject to certain Internal Revenue Code limitations. Participants may make modifications to their contributions monthly and terminate their contributions at their discretion. The Companies may make a discretionary matching contribution. The Companies made a discretionary matching contribution of $96,175 and $84,333 for the years ended December 31, 2013 and 2012, respectively. Also the Companies may make a discretionary profit sharing contribution. No profit sharing contributions were made for the years ended December 31, 2013 and 2012.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Companies' contribution and an allocation of Plan earnings. The allocations of Plan earnings are based on the performance of the participants' individual investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the Companies' contributions and earnings thereon is based on years of service. The participant is fully vested after three years of credited service from the date of employment for the discretionary profit share and the employer matching contributions. In addition, participants become 100% vested upon normal retirement age, death or disability.

Payment of Benefits

Upon termination of service, a participant will receive an amount equal to the value of his or her account in a lump sum payment in cash.

Participant Loans

The Plan does not allow participants to borrow from the Plan.

Forfeited Accounts

Forfeited non-vested accounts are first used to reduce administrative expenses of the Plan and then used to reduce employer contributions. Forfeitures of $1,250 were used to reduce administrative expenses for the year ended December 31, 2013. There were no forfeitures used to reduce administrative expenses for the year ended December 31, 2012, or employer contributions for the years ended December 31, 2013 and 2012. Unused forfeitures included in net assets available for benefits were $3,631 and $896 as of December 31, 2013 and 2012, respectively.

Plan Termination

Although they have not expressed any intent to do so, the Companies have the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants are 100 percent vested in their accounts.

Tax Status

The Companies adopted the Fidelity Nonstandardized Profit Sharing/401(k) Plan on December 30, 2005. The prototype plan provider has received a favorable determination letter for the prototype plan dated March 31, 2008. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan files a Federal informational return annually. Management believes the returns are no longer subject to examination for years prior to 2010.

Administrative Expenses

Significant costs of Plan administration are currently paid by the employer.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

All deposits are stated at fair value based on quoted market prices. See Note 7 for discussion of fair value measurements.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates based on management's knowledge and experience. Due to their prospective nature, actual results could differ from those estimates.

NOTE 7. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013, from prior year.

Shares of registered investment companies: Valued daily at unit values based on the price from each fund house after the close of the stock market. The unit values include the net asset value and any dividends or capital gains declared.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

AIR-LAND TRANSPORT SERVICE, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The following description of the Air-Land Transport Service, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Air-Land Transport Service, Inc. and Management Investment Corporation (Companies) who have attained age 18 and completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 90% of their annual compensation, subject to certain Internal Revenue Code limitations. Participants may make modifications to their contributions monthly and terminate their contributions at their discretion. The Companies may make a discretionary matching contribution. The Companies made a discretionary matching contribution of $96,175 and $84,333 for the years ended December 31, 2013 and 2012, respectively. Also the Companies may make a discretionary profit sharing contribution. No profit sharing contributions were made for the years ended December 31, 2013 and 2012.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Companies' contribution and an allocation of Plan earnings. The allocations of Plan earnings are based on the performance of the participants' individual investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the Companies' contributions and earnings thereon is based on years of service. The participant is fully vested after three years of credited service from the date of employment for the discretionary profit share and the employer matching contributions. In addition, participants become 100% vested upon normal retirement age, death or disability.

Payment of Benefits

Upon termination of service, a participant will receive an amount equal to the value of his or her account in a lump sum payment in cash.

Participant Loans

The Plan does not allow participants to borrow from the Plan.

Forfeited Accounts

Forfeited non-vested accounts are first used to reduce administrative expenses of the Plan and then used to reduce employer contributions. Forfeitures of $1,250 were used to reduce administrative expenses for the year ended December 31, 2013. There were no forfeitures used to reduce administrative expenses for the year ended December 31, 2012, or employer contributions for the years ended December 31, 2013 and 2012. Unused forfeitures included in net assets available for benefits were $3,631 and $896 as of December 31, 2013 and 2012, respectively.

Plan Termination

Although they have not expressed any intent to do so, the Companies have the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants are 100 percent vested in their accounts.

Tax Status

The Companies adopted the Fidelity Nonstandardized Profit Sharing/401(k) Plan on December 30, 2005. The prototype plan provider has received a favorable determination letter for the prototype plan dated March 31, 2008. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan files a Federal informational return annually. Management believes the returns are no longer subject to examination for years prior to 2010.

Administrative Expenses

Significant costs of Plan administration are currently paid by the employer.

NOTE 7. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013, from prior year.

Shares of registered investment companies: Valued daily at unit values based on the price from each fund house after the close of the stock market. The unit values include the net asset value and any dividends or capital gains declared.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
