Report on the Financial Statements

We have audited the accompanying financial statements of Retirement Plan for the Employees of The Toledo Museum of Art (the Plan), which comprise the statements of net assets available for benefits as of June 30, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The Audit Committee of the Board of Trustees

The Toledo Museum of Art

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of June 30, 2013 and 2012, and the changes in financial status for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and schedule of reportable transactions referred to as "supplemental information" are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies followed in preparing the financial statements of Retirement Plan for the Employees of The Toledo Museum of Art (the Plan) are presented below.

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. Such financial statements present the net assets available for benefits and changes in such net assets.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments, other than the allocated fund of the Aetna Life Insurance Company (Aetna) general investment account, are stated at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The allocated fund of the general investment account represents a reserve established by Aetna but does not represent funds allocated by the custodian to purchase insurance or annuities for individual participants. The allocated fund is reported at contract value which represents contributions made plus interest earned, less funds used to pay benefits and administrative expenses.

Investment purchases and sales are recorded on the trade date. The net appreciation (depreciation) in fair value of investments includes investments purchased, sold and held during the year.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments to participants or their beneficiaries are recorded upon payment.

Administrative Expenses

Administrative expenses represent actuarial and other professional fees incurred in administering the Plan, as well as PBGC premiums in 2013. All internal costs of administering the Plan are absorbed by The Toledo Museum of Art (the Museum), the sponsor of the Plan.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Event

Management evaluated subsequent events through April 11, 2014, the date the financial statements were available to be issued. Events or transactions occurring after June 30, 2013, but prior to April 11, 2014 that provided additional evidence about conditions that existed at June 30, 2013, have been recognized in the financial statements for the year ended June 30, 2013. Events or transactions that provided evidence about conditions that did not exist at June 30, 2013 but arose before the financial statements were available to be issued, have not been recognized in the financial statements for the year ended June 30, 2013.

NOTE 2 - DESCRIPTION OF PLAN

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document or Summary Plan Description for more complete information.

General

The Plan is a non-contributory defined benefit pension plan. Except as described below, all non-bargaining employees of the Museum who have at least one year of service, have completed at least 1,000 hours of service, and are at least age 21 are covered by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In September 2007, the Museum's Board of Trustees approved the partial curtailment of Plan benefits effective July 1, 2008. As a result, no new employees are eligible to participate in the Plan after June 30, 2008.

Participants who had at least 10 years of credited service (as defined) as of June 30, 2008, and whose age plus their years of service totalled at least 60 as of June 30, 2008, had the opportunity to elect not to have their accrued benefit frozen. An eligible participant who made this election continues to participate in the Plan and earn additional credited service.

All investments are held by The Vanguard Group (Vanguard) or Aetna as described in Note 3.

Funding Policy

The Museum contributes to the Plan an amount, determined by actuarial calculation, designed to fund the Plan's normal cost requirement and to amortize unfunded accrued liabilities over periods of 10 to 30 years. The recorded contributions for the plan years ended June 30, 2013 and 2012 met the minimum funding requirements of ERISA. Voluntary employee contributions to the Plan are not permitted.

NOTE 2 - DESCRIPTION OF PLAN (CONTINUED)

Benefits

Under the terms of the Plan, participants are eligible for normal retirement benefits upon reaching age 65 or early retirement benefits upon reaching age 55. Benefits under the Plan are based on each employee's years of service and compensation during the five consecutive calendar years of service which result in the highest average compensation. In the event that a participant does not have five consecutive years of service, the average compensation will be based on the total consecutive years of service immediately preceding retirement. Such benefits are subject to the annual benefit limitation established by the Internal Revenue Code and are subject to the guarantee provisions of the Pension Benefit Guaranty Corporation (PBGC). The Plan also provides for deferred retirement and termination benefits due to death or reasons other than normal retirement.

Vesting

Participants in the Plan become fully vested in their accrued benefit once they have completed five years of service. However, once participants become eligible for early retirement, they are automatically fully vested in their accrued benefit whether or not they have completed five years of service.

NOTE 3 - ASSETS HELD FOR INVESTMENT

The Plan's mutual funds are held by Vanguard and managed by The Vanguard Group of Investment Companies. All other investments are held and managed by Aetna, under an immediate participation contract.

The Investment Review Committee of the Board of Trustees of the Museum may direct the manner in which all or a portion of the Plan's assets are invested.

During the years ended June 30, 2013 and 2012, the Plan's investments (including investments purchased, sold, and held during the year) appreciated (depreciated) in fair value, as follows:

	<u>2013</u>	<u>2012</u>
Mutual funds	\$ 885,793	\$(167,812)
Aetna Life Insurance Company – general investment account	<u>(1,279)</u>	<u>731</u>
Net appreciation (depreciation) in fair value of investments	<u>\$ 884,514</u>	<u>\$(167,081)</u>

The fair value of individual investments that represent 5% or more of the Plan's net assets available for benefits at June 30, 2013 and 2012, are as follows:

	<u>2013</u>	<u>2012</u>
The Vanguard Group – mutual funds:		
Total Stock Market Index Fund Signal Shares	\$ 4,622,057	\$ 3,716,965

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair Value Measurements, FASB ASC 820-10 (ASC 820-10) requires the use of valuation techniques that should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, ASC 820-10 establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of the asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

THE TOLEDO MUSEUM OF ART
NOTES TO FINANCIAL STATEMENTS
June 30, 2013 and 2012**

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets of the Plan measured at fair value:

Mutual Funds: Valued at the quoted net asset value ("NAV") of shares held by the Plan at year end.

General Investment Account: The unallocated fund of the general investment account consists primarily of investment grade, medium to long-term high quality public bonds and commercial mortgages. The fair value of the unallocated general investment account is the withdrawal value calculated using the current basis for computing market value adjustments for contracts of this type. The allocated general investment account is carried at contract value.

Investment Service Account: The fair value of the investment service account, which consists of money market funds, is considered to be cost.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2013 and 2012 (all measured on a recurring basis):

<u>2013</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions for the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or vested terminated participants or their beneficiaries, beneficiaries of participants who have died, and present participants or their beneficiaries.

Calculations of the actuarially determined present value of accumulated plan benefits were made by the Plan's consulting actuary. Significant assumptions underlying the actuarial calculations as of July 1, 2013 and 2012 include: (a) assumed rate of return on investments of 8.5%; (b) salary growth of 5.5%; (c) retirement at normal retirement age; and (d) assumed mortality rate and employee turnover based on RP2000 Static, Nongenerational Mortality Tables.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Based on the latest available actuarial valuations, as of July 1, 2013 and 2012, the actuarial present value of accumulated plan benefits is summarized as follows:

	<u>2013</u>	<u>2012</u>
Vested benefits:		
Participants currently receiving payments	\$ 4,598,546	\$ 3,706,097
Other vested benefits	<u>2,932,500</u>	<u>3,348,720</u>
Total vested benefits	7,531,046	7,054,817
Non-vested benefits	<u>94,687</u>	<u>94,992</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 7,625,733</u>	<u>\$ 7,149,809</u>

Changes in the actuarial present value of accumulated plan benefits are summarized as follows:

	<u>2013</u>	<u>2012</u>
Beginning of year	\$ 7,149,809	\$ 7,012,859
Increase (decrease) attributable to:		
Increase for interest due to decrease in discount period	584,010	575,408
Benefits accumulated, including net actuarial gains and losses	407,183	11,499
Benefits paid	<u>(515,269)</u>	<u>(449,957)</u>
Net increase	<u>475,924</u>	<u>136,950</u>
End of year	<u>\$ 7,625,733</u>	<u>\$ 7,149,809</u>

**RETIREMENT PLAN FOR THE EMPLOYEES OF
THE TOLEDO MUSEUM OF ART
NOTES TO FINANCIAL STATEMENTS
June 30, 2013 and 2012**

**NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED
PLAN BENEFITS (CONTINUED)**

The discount rate and expected rate of return on plan assets are critical assumptions which significantly affect pension accounting. Even relatively small changes in these rates would significantly change the recorded pension expense and accrued liability. Management believes the discount rate and expected rate of return on plan assets used in determining its year-end pension accounting are reasonable based on currently available information. However, it is at least reasonably possible that these assumed rates will be revised in the near term, based on future events and changes in circumstances.

NOTE 6 - PLAN TERMINATION

While the Museum has not expressed any intent to terminate the Plan or to discontinue contributions, it may do so at any time, subject to the provisions of ERISA. If the Plan is terminated at some future time, all participants would become fully vested in benefits earned as of the termination date. In the event of termination of the Plan, after reserving an amount in the trust fund sufficient to pay expenses, the following priorities will apply:

- (a) The benefits of participants or their beneficiaries which were in "pay" status as of the beginning of the three-year period ending on the termination date of the Plan;
- (b) All other benefits of the Plan guaranteed by the PBGC;
- (c) All other nonforfeitable benefits of the Plan; and
- (d) All other benefits of the Plan.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 - PARTY-IN-INTEREST

All of the Plan's investments are held either by Vanguard or Aetna, with certain assets being managed by Vanguard. Therefore, transactions with Vanguard and Aetna qualify as party-in-interest. Party-in-interest fees for investment management services amounted to \$4,753 and \$4,834 for the years ended June 30, 2013 and 2012, respectively. Administrative expenses include party-in-interest fees for administrative services provided by Aetna of \$8,562 and \$9,620 for the years ended June 30, 2013 and 2012, respectively.

**RETIREMENT PLAN FOR THE EMPLOYEES OF
THE TOLEDO MUSEUM OF ART
NOTES TO FINANCIAL STATEMENTS
June 30, 2013 and 2012**

NOTE 8 - FEDERAL INCOME TAXES

The Internal Revenue Service has determined in a letter dated November 8, 2002 that the Plan, as amended through June 27, 2002, is qualified under Section 401(a) of the Internal Revenue Code and is exempt from federal income taxes under Section 501(a) of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore, continues to qualify as a tax-exempt plan.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to June 30, 2011.

NOTE 9 - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

This information is an integral part of the accompanying financial statements.

***Assumptions Made
In Valuing Spouse's
Benefit***

Sixty percent of the male and fifty percent of the female employees included in the valuation projected to die prior to retirement are assumed to be married. The wife is assumed to be three years younger than the husband.

Optional Form

All employees are assumed to elect the life annuity benefit.

***Annual Increases to
Maximum Benefits
and Plan
Compensation Limits***

Funding: 0.00%

***Provision for
Expenses***

The expected administrative (i.e. non-investment) expenses that will be paid from plan assets, which were assumed to equal actual expenses during the prior year, were included in the Target Normal Cost for minimum contribution purposes.

Standing Elections

The client has signed an election that provides for the automatic use of the Carryover and/or Prefunding Balance if necessary at the end of the plan year to meet the minimum funding requirement.

MAP-21 Elections

The MAP-21 segment rates have been used for minimum funding purposes as well as for the calculation of the AFTAP.

APPENDIX B (Continued)

Asset Method

Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.

Employees Valued

Only participants as of the valuation date were valued.

APPENDIX A (Continued)

Normal Retirement Benefit

Eligibility:

Age 65.

Monthly Benefit: (generally **frozen** 6/30/2008)

A monthly life annuity equal to the greater of --

- (i) 1% of Final Average Earnings times years of service prior to 9/1/78, but not less than the benefit purchased prior to 9/1/78,
plus
1.3% of Final Average Earnings times years of service from 9/1/78 (with no offset and no cost of living increases).
- ii) the accrued benefit as of 8/31/87, offset to reflect a return of employee contributions, and increased after retirement for changes in the cost of living.

Accrual of benefits continues for a closed group of employees.

Effective July 1, 2011 accruals of benefits are frozen for Highly Compensated Employees.

Cost of Living Adjustments

On September 1 of each year after retirement, benefit (ii) is increased for changes in the cost of living (COLA) and compared with benefit (i). The greater amount is then paid for the coming year. COLAs are applicable ONLY to annuities purchased on or before September 1, 1978 (COLABENS) and are applied only after benefits commence. Late Retirement Benefit

Eligibility:

After normal retirement date.

Monthly Benefit:

A benefit calculated in accordance with the normal retirement formula. The amount payable will be no less than the greatest of 1) the accrued benefit (possibly \$0) as of the April 1 following the calendar year in which the employee attains age 70½ (or January 1, 1997, if later) actuarially increased to actual benefit commencement and 2) the accrued benefits as of the end of each subsequent plan year with each actuarially increased to actual benefit commencement.

If early retirement (termination) is after age 62, the benefit is unreduced.

Representative reduction factors:

Alternatively, if a vested active or former participant dies after having been married for one year, his surviving spouse shall receive a monthly benefit for life commencing at the time the participant would have been eligible for retirement. The benefit is equal to 50% of the benefit vested on the date of death, adjusted as appropriate for early commencement and the 50% Joint and Survivor Annuity form of payment.
