Participants may contribute up to 60% of their compensation to the Plan. Participants age 50 or older may elect catch-up contributions. If catch-up contributions are elected, the deferral limit is 75%. The Company makes a match contribution of 100% of the first 5% of a participant’s deferred compensation. The Company may also make an additional discretionary profit sharing contribution. No discretionary profit sharing contribution was made during 2013.

### Participant accounts

Each participant's account is credited with the participant's elective contributions and the employer's related matching and discretionary contributions and an allocation of Plan earnings. Allocations of Plan earnings are based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### Vesting

Participants are immediately vested in their voluntary and employer non-discretionary contributions plus actual earnings thereon. Vesting in the employer discretionary matching contributions is based on years of continuous service. A participant is 100% vested after three years of credited service.

### Benefits

Participants are entitled to benefits beginning at normal retirement age (65). Upon termination of service, participants with a balance of $1,000 or less receive a lump sum distribution, no later than sixty days after the end of the Plan year in which they retire or terminate their employment. Those with balances greater than $1,000 may elect to leave their funds in the Plan.

### Death and disability benefits

A death benefit equal to the value of an employee's account will be paid to the employee's beneficiary. Active participants, who become totally and permanently disabled, will receive benefits no later than sixty days after the last day of the Plan year in which the disability occurred.

**Notes receivable from participants**

The Plan permits participants to borrow from their vested account. The maximum amount that may be borrowed is the lesser of $50,000 or 50% of the vested balance of the account. The loans are secured by the balance in the participant's account. The interest rate on the loan is determined by the plan administrator. Loans are payable within five years except for those used to acquire a principal residence. Principal and interest are paid ratably through monthly payroll deductions.

**Forfeitures**
Forfeitures may be used to reduce future employer contributions and pay plan administrative fees. The balance in the forfeiture account available for employer matching contributions was $5,324 and $2,458 at December 31, 2013 and 2012, respectively. Forfeitures used to pay Plan administrative fees were $7,038 in 2013.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

**Basis of accounting**
The financial statements of the Plan are prepared under the accrual method of accounting.

**Use of estimates**
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits as of the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

**Investment valuation and income recognition**
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are reported on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

**Notes receivable from participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded at December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

**Payment of benefits**
Benefits are recorded when paid.

**Administrative expenses**
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account, as are fees for distributions, and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

**Subsequent events**
The Company evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through June 19, 2014, the date on which the financial statements were available to be issued.

## 3. INVESTMENTS:

The Plan provides for participant directed investment programs for individual participants. Investments of employee contributions and related Company contributions can be made into the various funds in accordance with each participant's election.

Fund balances that represent 5% or more of the Plan's net assets as of December 31, 2013 and 2012, are as follows:

| | 2013 | 2012 |
|---|---|---|
| Fidelity Equity Income Fund | $ 712,749 | 574,602 |
| Fidelity Growth Co. Fund | 591,223 | 451,874 |
| Fidelity Blue Chip Growth Fund | 774,535 | 490,508 |
| Fidelity Mid-Cap Stock Fund | 631,771 | 474,035 |
| Fidelity Freedom 2010 Fund | 644,598 | 603,751 |
| Fidelity Freedom 2020 Fund | 1,920,251 | 1,505,362 |
| Fidelity Retirement Money Market Fund | 1,320,853 | 1,000,214 |
| Spartan 500 Index Fund | 800,372 | 590,182 |
| Fidelity Investment Growth Bond Fund | ** | 776,567 |

** Balance was less than 5% of net assets at end of year.

During the year ended December 31, 2013, the Plan's investments in mutual funds (including investments bought, sold and held during the year) appreciated in value by $1,298,752.

## 4. FAIR VALUE MEASUREMENTS:

Financial Accounting Standard Board (FASB) provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: 1. Quoted prices for similar assets or liabilities in active markets; 2. Quoted prices for identical or similar assets or liabilities in inactive markets; 3. Inputs other that quoted prices that are observable for the asset or liability; 4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

*Mutual and money market funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual and money market funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012.

| | Investments at fair value as of December 31, 2013 | | | |
|---|---|---|---|---|

**5. PLAN TERMINATION:**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, each participant will become 100% vested in their account.

**6. TAX STATUS:**

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008. While the Company has not obtained its own determination letter on the Plan, management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2010.

**7. INFORMATION CERTIFIED BY THE TRUSTEE:**

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information included on the statements of net assets available for plan benefits, the statement of changes in net assets available for benefits, and the supplemental schedule of assets (held at end of year), certified by Fidelity Management Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

**8. RISKS AND UNCERTAINITES:**

Investment securities are exposed to various risks, such as interest rate, market and credit risks, Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements and supplemental schedules.

**9. RELATED-PARTY TRANSACTIONS**:

Certain Plan investments are shares of funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

**10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:**

The following is a reconciliation of net assets available for benefits and the net increase in net assets available for benefits December 31, 2013 and 2012 per the Form 5500 to the financial statements:
