United Paradyne Corporation 401(k) Plan
Notes to Financial Statements
December 31, 2011

Note 1: Description of Plan

The following description of the United Paradyne Corporation (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a type of defined contribution plan under which each participant has a specific account balance. The Plan covers all employees of the Company who have attained age twenty-one except for leased employees and certain nondiscriminatory classification of employees employed by one or more specified divisions by the Board of Directors. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Effective August 1, 2011, an employee may make an elective deferral from eligible earnings of 1% to 90%. Prior to this date, employees could elect to defer 1% to 25% of eligible earnings. Participants contribute to the Plan through salary reductions. The Company may elect to make a discretionary matching contribution, however no matching contribution was made for the year ended December 31, 2011.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures

Employees are 100% vested in their elective deferrals and the Company's non-elective contributions. Vesting in the Company's matching contributions to their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested in the Company's matching contributions after six years of service.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$500 up to a maximum of \$50,000 equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime plus 2%, as of the loan date. Principal and interest are paid through payroll deductions.

Basis of Accounting

The accrual basis of accounting is used in preparation of information regarding net assets available for Plan benefits and related changes.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balances plus any accrued interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

In September 2010, FASB issued an amendment, *Plan Accounting - Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Plans* (ASU 2010-25), which provides for guidance on how loans to participants should be classified and measured by defined contribution plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from Plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment required retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. There was no impact to investments at December 31, 2010 as participants loans have been separately classified in the statement of net assets available for Plan benefits. There was no impact to net assets at December 31, 2010, as a result of this adoption.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Fair Value Measurement and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. If quoted prices in an active market are not available, the investments are reported at estimated fair value. Many factors are considered in arriving at fair value. For example, corporate bonds could be valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Participant loans are valued at their outstanding balance, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification (the "Topic"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. The Topic also established a three-tier hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes to Financial Statements

Page 4

Note 2: Summary of Significant Accounting Policies (Continued)

The asset's and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Mutual funds are stated at fair value as determined by observable Level 1 quoted pricing inputs on an active market or by quoted prices for similar assets in active markets.

In September 2009, FASB issued an amendment "*Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*" (ASU 2009-12), which provides guidance on how entities should estimate fair value on certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using NAV per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosures of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods after December 15, 2009, with early adoption permitted. Adoption of this guidance has no impact on the financial statements of the Plan.

In January 2010, FASB issued amendments to the Fair Value Measurements and Disclosures Topic (ASU 2010-06) which requires new disclosures and reasons for transfers of financial assets and liabilities between Level 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes.

With respect to matters other than Level 3 measurements, the amendment was effective for periods beginning on or after December 15, 2009 and has been adopted. There were no transfers between Level 1 and 2 investments during the years ended December 31, 2011 and 2010. The guidance related to Level 3 measurements was effective for periods beginning on or after December 15, 2010 and was adopted.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included in the accompanying financial statements and supplemental schedule which was prepared or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator from the trustee related to the following assets is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosures under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears through the financial statements and supplemental schedule.

The following table presents this certified information, including fair value of investment funds that include 5% or more of the Plan's net assets as of December 31:

Note 4: Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 5: Additional Financial Statement Disclosures

Under ERISA, the Department of Labor and the Internal Revenue Service have the authority to issue regulations covering reporting and disclosure requirements, certain administrative responsibilities, and enforcement powers. The items enumerated below are required to be disclosed to meet ERISA guidelines.

1. The Plan uses a prototype plan document sponsored by ADP. ADP received an opinion letter from the IRS dated November 6, 2001, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS. The Plan has been amended since receiving the opinion letter, however the Company and the Plan's management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.
2. All reportable transactions have been disclosed in supplemental schedules of the annual report made available to the Plan participants.

During the year ended December 31, 2010, the FASB issued new guidance on accounting for uncertainty in income taxes under the Income Taxes Topic of the FASB Accounting Standards Codification. The Plan adopted this new guidance for the year ended December 31, 2010. Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Note 6: Related-Party Transactions

Certain plan investments are shares of mutual funds managed by Reliance Trust Company. Reliance Trust Company is the trustee as defined by the plan and, therefore, these transactions qualify as party-interest transactions. Fees paid by the plan for the investment management services are included in net appreciation in fair value investments.

United Paradyne Corporation 401(k) Plan**Notes to Financial Statements****December 31, 2011****Page 9****Note 7: Reconciliation of Financial Statements to the Form 5500**

A reconciliation of the net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2011 and 2010, is as follows:

	<u>2011</u>	<u>2010</u>
Net assets available for benefits per financial statements	\$ 3,480,765	\$ 3,150,203
Adjustments to net assets		
Net assets available for benefits per Form 5500	<u>\$ 3,480,765</u>	<u>\$ 3,150,203</u>

Note 8: Recent Accounting Pronouncements

In May 2011, the FASB issued amendments to the Fair Value Measurements and Disclosures Topic (ASU 2011-04) *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 9: Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
