INDEPENDENT AUDITOR'S REPORT

June 17, 2014

To the Plan Trustees of the
Solarity Credit Union
401(k) Plan and Trust

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Solarity Credit Union 401(k) Plan and Trust (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2013, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. However, because of the matter described in the Basis for Disclaimer of Opinion paragraph, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by the CMFG Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements.

We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the custodian as of and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2013 financial statements. Accordingly, we do not express an opinion on the 2013 financial statements.

Other Matter - Supplemental Schedule

The supplemental Schedule H, line 4I-Schedule of Assets (Held at End of Year) as of December 31, 2013, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Other Matter - 2012 Financial Statements

The financial statements of the Plan as of December 31, 2012, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the predecessor auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the custodian. Their report, dated August 6, 2013, indicated that (a) because of the significance of the information they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the custodian, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1: DESCRIPTION OF PLAN

The following description of the Solarity Credit Union 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan, established January 1, 1999, as Catholic Credit Union 401(k) Retirement Plan, was amended and restated as of January 1, 2012, as Solarity Credit Union 401(k) Plan and Trust. The Plan is a 401(k) salary deferral and profit sharing plan covering all eligible employees of Solarity Credit Union (the Credit Union) who are age 18 or older and have completed at least one year of service. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In October 2011, Catholic Credit Union (CCU) and Yakima Valley Credit Union (YVCU) merged to become Solarity Credit Union (Solarity). The former eligible employees of YVCU could contribute to the Plan as of January 1, 2012. During February 2012, the assets of YVCU 401(k) Plan and Trust were transferred into the Plan.

The Retirement Plan Investment Committee is responsible for the oversight of the Plan, determining the appropriateness of the Plan's investment offerings, and monitoring investment performance.

Contributions: Each year, participants may contribute between 1-100% of pretax annual compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit or defined contribution plans.

Effective, January 1, 2012, the Plan included an automatic salary deferral feature. Upon becoming eligible to participate, the Credit Union will automatically withhold 3% of each employee's eligible wages each payroll period and contribute that amount to the Plan as a Pre-Tax 401(k) deferral. The automatic deferral provisions apply to all participants, except those who have a salary deferral agreement in effect on the automatic deferral provision's effective date. The automatic deferral amount will increase by 1% of compensation per year up to a maximum of 6%.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

The Credit Union is allowed to make contributions to the Plan in the form of matching contributions and profit-sharing contributions, as defined in the Plan and as approved by the Board of Directors. The Plan provides for safe harbor matching contributions equal to 100% of an eligible participant's contribution up to a maximum of 5% of the participant's eligible wages, per year.

Note 1: (continued)

The Credit Union may elect to make discretionary profit-sharing contributions to the Plan. Profit-sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participant's compensation. Contributions are subject to regulatory limitations.

Participant Accounts: Each participant's account is increased by the participant's contributions and allocation of (a) the Credit Union's contributions and (b) Plan earnings, and reduced by distributions and the allocation of administrative expenses. Allocations are based on participants' earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Prior to the merger of CCU and YVCU on January 1, 2012, CCU administered a Money Purchase Pension Plan, and funds from this plan vested ratably over a six-year period. Prior to January 1, 2012, there were also employer matching contributions; these funds vested ratably over a period of five years. As of January 1, 2012, discretionary profit-sharing contributions vest ratably over a period of five years. As of January 1, 2012, safe harbor matching contributions will vest after two years.

Notes Receivable From Participants: A participant may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.40% to 5.25%. Loan terms may range from 1 - 5 years, except for a loan used to acquire a dwelling as the principal residence of the participant. Principal and interest payments are paid through payroll deductions.

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time not to exceed the participant's life expectancy, or partial withdrawals. A lump-sum distribution is required if a participant's vested balance is less than $1,000. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account in a lump-sum distribution.

Forfeited Accounts: Forfeited balances of terminated participants' non-vested accounts are used to pay Plan expenses and to reduce future Credit Union contributions. During the year ended December 31, 2013, forfeitures used to reduce the Credit Union's safe harbor matching contributions were approximately $25,600. No forfeitures were used for the payment of plan expenses during 2013. As of December 31, 2013 and 2012, forfeited non-vested accounts totaled approximately $1,400 and $3,800, respectively.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan's financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a deposit administration group annuity contract and a guaranteed investment contract (GIC) which are both fully benefit-responsive. No adjustment from fair value to contract value is presented in the Statements of Net Assets Available for Benefits for the these contracts, as fair value approximates contract value. The Statement of Change in Net Assets Available for Benefits is prepared using the contract value basis the for the fully benefit-responsive investment contracts.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make use of estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the Plan's custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are charged to expense when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits: Benefits are recorded when paid.

Reclassification: Certain amounts in the 2012 financial statements have been reclassified to conform to their 2013 presentation.

Note 2: (continued)

Expenses: Certain expenses of maintaining the Plan are paid directly by the Credit Union and are excluded from these financial statements. Certain fees associated with distributions and the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events: The Plan has evaluated subsequent events through June 17, 2014, the date the financial statements were available to be issued. See note 11 for discussion of subsequent events.

NOTE 3: INVESTMENTS

The fair value of individual investments that represent 5 percent or more of the Plan's net assets as of December 31, 2013 and 2012 are presented below.

	As of December 31,	
	2013	**2012**
Group variable annuity contract	$4,664,700	$4,787,711
Deposit administration group annuity contract	$897,837	$980,239

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) within the group variable annuity contract (GVA) appreciated in value by $738,192.

NOTE 4: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

Note 4: (continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Group variable annuity contract: Valued at the Plan's units of participation multiplied by the unit value for the rate level chosen by the Retirement Plan Investment Committee. Further valued at its fair value less operating expenses accrued but not deducted, if any. If there is no readily available market, its value is the fair value of the underlying investments held in such separate account as determined by CMFG Life Insurance Company (CMFG) using generally accepted accounting practices and applicable laws.

Deposit administration group annuity contract: Fair value is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. The amount a participant would receive is valued using a discounted cash flow model and approximates contract value. In determining the reasonableness of the methodology, the Retirement Plan Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Unobservable inputs are substantiated utilizing available market data.

Guaranteed investment contract: Fair value is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. If the applicable interest rate is equal to or less than the interest rate on the account, the fair value is equal to the contract value. If the applicable interest rate is greater than the interest rate on the account, the fair value is the contract value reduced by a percentage. This percentage is equal to the difference between the applicable interest rate and the interest rate on the account, multiplied by the number of years (including fractional parts of a year) until the maturity date. In determining the reasonableness of the methodology, the Retirement Plan Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Unobservable inputs are substantiated utilizing available market data.

Note 4: (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2013			
	Level 1	**Level 2**	**Level 3**	**Total**
Group variable annuity contract	$—	$4,664,700	$—	$4,664,700
Deposit administration group annuity contract	—	—	897,837	897,837
Guaranteed investment contract	—	—	137,022	137,022
Total assets at fair value	$—	$4,664,700	$1,034,859	$5,699,559

	Assets at Fair Value as of December 31, 2012			
	Level 1	**Level 2**	**Level 3**	**Total**
Group variable annuity contract	$—	$4,787,711	$—	$4,787,711
Deposit administration group annuity contract	—	—	980,239	980,239

Total assets at fair value	$—	$4,787,711	$1,113,211	$5,900,922

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets:

	Level 3 Assets Year Ended December 31, 2013	
	Deposit administration group annuity contract	**Guaranteed investment contract**
Balance, beginning of year	$980,239	$132,972
Interest credited	25,965	4,050
Purchases	261,813	—
Sales	(370,180)	—
Balance, end of year	$897,837	$137,022

Note 4: (continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those instruments, and the significant unobservable inputs and ranges of values for those inputs as of December 31, 2013 and 2012, respectively:

	As of December 31, 2013				
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Deposit administration group annuity contract	$897,837	Discounted cash flow	Discount rate	3.00%	3.00%
Guaranteed investment contract	$137,022	Discounted cash flow	Discount rate	1.75%	1.75%

	As of December 31, 2012				
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Deposit administration group annuity contract	$980,239	Discounted cash flow	Discount rate	3.00%	3.00%
Guaranteed investment contract	$132,972	Discounted cash flow	Discount rate	2.00%	2.93%

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2013 and 2012:

	As of December 31, 2013 Fair Value	2012 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Group variable annuity contract (a)	$4,664,700	$4,787,711	$—	Daily	Daily
Deposit administration group annuity contract (b)	$897,837	$980,239	$—	Daily	Daily
Guaranteed investment contract (c)	$137,022	$132,972	$—	Daily	Daily

(a) The group variable annuity contract is a segregated investment account of CMFG. The separate account is divided into subaccounts which invest in numerous underlying funds. The investment objective of each subaccount corresponds to the investment objective of the underlying fund.

Note 4: (continued)

(b) The deposit administration group annuity contract's objective is provide a high level of current income consistent with preservation of capital by investing in U.S. government securities. The contract provides guaranteed protection of principal with a set rate of return.

(c) The guaranteed investment contract's objective is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds. This investment option is available under a guaranteed investment contract issued by CMFG and provides for a guarantee of principal and interest.

NOTE 5: INVESTMENT CONTRACTS

The Plan invests in a GVA. The GVA's underlying assets are registered mutual funds. Additionally, the Plan invests in a deposit administration group annuity contract and a GIC. These contracts are fully benefit-responsive investment contracts issued by CMFG. CMFG maintains the contributions in a general account which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC's issuer CMFG is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the deposit administration group annuity contract and the GIC are fully-benefit responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to these contracts. The GIC is presented on the face of the Statements of Net Assets Available for Benefits at fair value as fair value approximates contract value as of December 31, 2013 and 2012. Contract value, as reported to the Plan by CMFG, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. The terms of this contract require all permitted participant-initiated transactions with the Plan to occur at contract value. For the deposit administration group annuity contract, all participant-initiated transactions are at contract value. For the GIC, there is a six month penalty for early withdrawal.

For the GIC, the average yield based on actual earnings and the average interest rate credited to participants was approximately 2.94% and 2.95% for 2013 and 2012, respectively. The crediting rate is based on a formula agreed upon with the issuer, but may not be less than zero percent. Such rates are reviewed on a monthly basis for resetting. For the deposit administration group annuity contract, the average yields based on actual earnings and the average interest rates credited to participants was approximately 3.00% for 2013 and 2012. The crediting interest rates are based on a formula agreed upon with the issuer. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Specifically, in the event of contract termination, a fair value adjustment may apply on certain deposit administration group annuity contracts. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 5: (continued)

In general, CMFG does not terminate fully benefit-responsive investment contracts with its clients for reasons other than contract termination by the Credit Union. As noted above, contract termination by the Credit Union may result in the settlement of investments at an amount different from contract value.

NOTE 6: PLAN TERMINATION

Although management has not expressed any intent to do so, management has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 7: TAX STATUS

The Plan document is a prototype defined contribution plan that received a favorable determination letter from the Internal Revenue Service (IRS), dated March 31, 2008, which stated that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the IRS determination letter, the Plan Administrator believes the Plan is designed and currently operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2010.

NOTE 8: INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian, CMFG, has supplied the Plan Administrator with a certification as to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, and the related investment activity and interest income on notes receivable from participants reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013, Note 3, and the supplemental Schedule H, line 4I-Schedule of Assets (Held at End of Year) as of December 31, 2013. The information obtained from the Plan Administrator was not audited by independent public accountants, except for comparing such information to the related information included in the financial statements and supplemental schedule, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 9: PARTY-IN-INTEREST TRANSACTIONS

Plan investments consist of a GVA managed by CMFG, and a deposit administration group annuity contract and GIC, underwritten by CMFG. CMFG is the custodian as defined by the Plan, and therefore, transactions in these Plan investments qualify as party-in-interest transactions as defined by ERISA. Fees paid by the Plan for administrative services amounted to approximately $2,000 for the year ended December 31, 2013.

NOTE 10: RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 11: SUBSEQUENT EVENT

On March 20, 2014, the Retirement Plan Investment Committee approved a motion that will move the Plan to a multi-employer platform to be administered by CMFG Life Insurance Company. This new platform will become effective January 1, 2015. The multi-employer Plan structure will require several representatives from other employers to form a joint Board of Trustees that will take on fiduciary responsibility for the Plan.
