PIVOT INTERIORS, INC. SAVINGS AND INVESTMENT PLAN

Notes to Financial Statements

December 31, 2013

Note 1 - Description of plan:

The following description of the Pivot Interiors, Inc. (the "Company") Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established on January 1, 1988, was merged on April 1, 2000 with the plan of Coordinated Resources, Inc. ("CRI") and was last amended on January 1, 2010. This Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan provides benefits for all employees of Pivot Interiors, Inc. (the "Company") who have attained the age of 21.

The Plan Sponsor is Pivot Interiors, Inc. ("Plan Sponsor").

Massachusetts Mutual Life Insurance Company ("Mass Mutual") serves as the third party administrator and serves as the record keeper for the Plan.

State Street serves as the custodian for the Plan's assets.

Eligibility - Except for excluded employees, all employees who have reached twenty-one years of age are eligible to participate in the Plan. Employees may enter the Plan on the first day of the month following the date of hire. An employee may elect not to participate in the Plan.

Participant contributions - Each year participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their account balances into various investment options offered by the Plan. Participants may change their investment options daily. The Plan currently offers various separate investment accounts (pooled separate accounts) and one guaranteed investment contract as investment options for participants.

Employer matching contributions - The Company may contribute an amount equal to 50% of elective deferrals, up to a maximum matching contribution of $1,500.

The Company may also contribute an additional amount determined at its sole judgment, which will be allocated to all participants, and is distributed based on the participants' compensation as a ratio of all other eligible participants' compensation. For the years ended December 31, 2013 and 2012, the Company made no discretionary contributions.

Note 1 - Description of plan (continued):

Participant accounts - Each participant's account is credited with the participant's contribution, employer's contribution, and allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled to is the valuation of the participant's vested account at the date immediately preceding the commencement of processing the distribution.

Investment options - The Plan provides for investments to be directed by participants into a number of investment options held by the custodian. All Plan investments are units of funds managed by the custodian, therefore, these investments and all investment transactions are party-in-interest transactions. Earnings of each investment fund are allocated to participant's accounts in proportion to each participant's share of that fund.

Vesting - Participants' contributions and rollovers from other qualified plans are 100% vested at all times. The Company's matching contributions are also 100% vested upon the participants' entry date. The Company's discretionary profit sharing contributions vest at a rate of 20% per year starting with the second full year of service. A full year of service is defined as completing 1,000 hours of service at any time during a Plan year.

At December 31, 2013 and 2012, forfeited non-vested accounts totaled approximately $45,000 and $132,000, respectively. These accounts may be used to reduce administrative fees and future employer contributions. In 2013, forfeited non-vested accounts of approximately $118,000 were used to fund employer matching contributions. In 2012, forfeited non-vested accounts were not used to fund employer matching contributions.

Benefits paid to participants - On termination of service due to death, disability, retirement or separation from service, participants may receive benefits in a lump sum or installments, in accordance with the Plan.

Notes receivable from participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance, whichever is less. Loan terms may not exceed five years, except for loans used for a purchase of a primary residence, which may be repaid over a longer period, as defined by the Plan. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant notes fund. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.00%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Note 1 - Description of plan (continued):

Investment management fees and operating expenses - Investment management fees and operating expenses charged to the Plan for investments in the pooled separate accounts and guaranteed investment contract are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Administrative expenses - Substantially all administrative expenses of the Plan are paid by the Company.

Note 2 - Significant accounting policies:

Basis of accounting - The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

Use of estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition - As described by GAAP, investment contracts held by a defined contribution plan are required to be reported at fair value.

The Plan's investments are stated at their fair value except for its investment contract which is stated at contract value (Note 5). The custodian has stated that the best estimate of fair value for the investments which would be considered fully benefit-responsive is contract value, as participants may withdraw investment assets at contract value without restriction, and investment assets are marked-to-market on a daily basis. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

Net appreciation in fair value of investments - The earnings, expenses, realized gains or losses, and unrealized appreciation (depreciation) in registered investment companies are recorded in the accompanying financial statements as net appreciation in fair value of investments.

Note 2 - Significant accounting policies (continued):

Fair value measurements - The Plan performs fair value measurements in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Subsequent events - The Plan has evaluated subsequent events through the date that the financial statements were available to be issued which is the date of the independent auditors' report.

Note 3 - Fair value measurements:

The Plan performs fair value measurements in accordance with ASC 820. ASC 820 defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. The accounting guidance for fair value measurement requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The fair value hierarchy is as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Fair value measurements (continued):

Investments measured at fair value on a recurring basis consisted of the following types of investments as of December 31, 2013 and 2012 (Level 1, 2, and 3 inputs are defined above):

	Fair Value Measurements Using Input Type			
2013	Level 1	Level 2	Level 3	Total

Total investments measured at fair value	$ -	$ 12,466,701	$ 5,132,961	$ 17,599,662

Note 3 - Fair value measurements (continued):

The Plan's valuation methodology used to measure the fair values of the pooled separate accounts were derived from quoted market prices of the underlying assets in the pooled separate accounts as substantially all of these instruments have active markets. The Plan's valuation methodology used to measure the fair values of the separate account guaranteed investment Contract ("SAGIC") bases its determination of the fair value of its SAGIC on the liquidation value of the contract, which is equal to the fair value of the underlying separate account (the SAGIC contract utilizes the underlying separate account as an investment vehicle and provides certain book value guarantees) because there is judgment involved in concluding that the fair value of the SAGIC contract is equal to its liquidation value. Mass Mutual has classified the SAGIC contract as a level 3 asset. The underlying separate account supporting SAGICs can be any of the following:

- Capital Preservation
- Core Bond
- Core Bond II
- Diversified Bond
- Diversified Bond II

The valuation of the underlying separate account held at Mass Mutual for each client's SAGIC is the sole input to the fair value.

The following table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended:

	2013	2012
Balance as of January 1,	$ 5,132,961	$ 4,304,229
Total realized/unrealized losses including changes in net assets	(215,375)	100,275
Issuances, purchases and settlements, net	(587,313)	728,457
Balance as of December 31,	$ 4,330,273	$ 5,132,961

Unrealized gains / (losses) from the SAGIC are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Note 3 - Fair value measurements (continued):

As discussed above, the SAGIC fair value is measured based on the fair values of the underlying assets which the SAGIC is invested in. The valuation of the underlying SAGIC held at Mass Mutual is the sole input to the fair value which is based on units of participation in the underlying SAGIC and the respective unit value.

Note 4 - Investments:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's independent accountants did not perform any auditing procedures with respect to this information certified by State Street, the custodian of the Plan, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The following information included in the financial statements and supplemental schedule was provided by and certified by the Plan's custodian as complete and accurate:

- Investments as shown in the Statement of Net Assets Available for Benefits as of December 31, 2013 and 2012.
- Notes receivable from participants as shown in the Statement of Net Assets Available for Benefits as of December 31, 2013 and 2012.
- Investment and other income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013 and 2012.
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year).

The fair value of individual investments that represents 5% or more of the Plan's net assets available for benefits at December 31, 2013 and 2012 are as follows:

	2013	2012
Fixed Interest Fund	$ 4,330,273	$ 5,132,961
RetireSMART Moderate	2,282,414	1,075,879
Balanced (American)	1,741,456	1,381,959
RetireSMART Moderate Growth	1,740,950	Less than 5%
MM S&P 500 Index/(Northern Trust)	1,498,972	1,038,833
Sel Blue Chip Growth (TRP)	1,171,883	Less than 5%
Select PIMCO Total Return	1,112,130	1,412,696
RetireSMART Conservative	Less than 5%	1,838,103

Note 4 - Investments (continued):

For the years ended December 31, 2013 and 2012, the Plan's investments, including investments purchased and sold, as well as held during the year, net appreciated in fair value from pooled separate accounts of $2,403,181 and $1,350,324, respectively.

Note 5 - Investment contract with insurance company:

During the years ended December 31, 2013 and 2012, the Plan held an investment in a benefit-responsive investment contract with Mass Mutual. Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. As of December 31, 2013 and 2012, the interest rate was 3.10% and 3.65%, respectively. The average yield for the years ended December 31, 2013 and 2012 was 3.10% and 3.65%, respectively.

Note 5 - Investment contract with insurance company (continued):

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974.

Mass Mutual does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6 - Income tax status:

The Plan obtained its latest determination letter on May 11, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan trustee believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 7 - Party-in-interest transactions:

All Plan investments are managed by Mass Mutual. Mass Mutual is the third party administrator as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 8 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will automatically become fully vested in their accounts.

Note 9 - Risks and uncertainties:

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participant account balances.

Note 10 - Reconciliation of financial statements to Schedule H of Form 5500:

The following is a reconciliation of net assets per the financial statements to Schedule H of the Form 5500 at December 31, 2013 and 2012:

Total assets per Form 5500	$ 20,692,147	$ 17,567,312

The following is a reconciliation of total contributions per the financial statements for the year ended December 31, 2013 to Schedule H of the Form 5500:
