1. DESCRIPTION OF PLAN:

The following description of the Parsec, Inc. ("Company") Profit Sharing/401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of the Company that are not members of a collective bargaining agreement, and have six months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Parsec, Inc., the Plan sponsor, is a member of the Budco Group of Corporations under common ownership.

Contributions

Each year, participants may contribute up to 60% of their pretax annual compensation, as defined in the Plan. Participant deferral contributions are also subject to Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company provides an employer matching contribution which is determined at the Company's discretion and is invested as directed by the participants. Additional profit sharing amounts may be contributed at the Company's discretion and are also invested as directed by the participants. Contributions are subject to certain limitations. The Plan provides for automatic enrollment of eligible employees starting at a 2% deferral rate, which increases an additional 1% per year with a maximum contribution of 10%. Employees may opt out of automatic enrollment at any time.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations of Plan earnings are based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service.

A participant is 100 percent vested in the Company's matching contributions and discretionary profit sharing contributions after six years of credited service as follows:

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than two	0%
Two but less than three	20%
Three but less than four	40%
Four but less than five	60%
Five but less than six	80%
Six or more	100%

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, or 50% of their account balance. Loan terms range from 1 year to 5 years, but may be longer for the purchase of a home. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Forfeitures

In the event a participant terminates employment prior to 100% vesting, the portion of the employer contributions which is not vested is forfeited at that time. The forfeited amounts may be used to reduce future employer contributions. At December 31, 2013 and 2012 there were \$203,270 and \$147,149 of forfeited non-vested accounts, respectively, available to offset future employer contributions. During 2013, \$147,649 was used to offset employer contributions.

Payment of benefits

Upon termination of service, death, disability or retirement, a participant shall receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

2. SUMMARY OF ACCOUNTING POLICIES:

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded at December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account, as are fees for distributions, and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events

The Company evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through June 26, 2014, which is the date the financial statements were available to be issued.

3. INVESTMENTS:

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31:

Fidelity Contra Fund	\$ 6,192,351	4,484,538
Spartan 500 Index Fund – Fidelity Advantage CL	3,144,646	2,391,380

JPMorgan SmartRetirement 2040 Fund Select CL Shares	2,424,070	**
Fidelity Limited Term Government Fund	2,160,364	**

* * Investment balance did not exceed 5% of net assets or was not held by the Plan at year end.

During the year ended December 31, 2013 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$4,400,394.

4. FAIR VALUE MEASUREMENTS:

Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include: 1. Quoted prices for similar assets or liabilities in active markets; 2. Quoted prices for identical or similar assets or liabilities in inactive markets; 3. Inputs other than quoted prices that are observable for the asset or liability; 4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

Mutual Funds and Money Market Fund: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual and money market funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of:

<u>Investments at fair value as of December 31, 2013</u>

5. INFORMATION CERTIFIED BY TRUSTEE:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information included on the statements of net assets available for benefits, the statement of changes in net assets available for benefits, and the supplemental schedule of assets (held at end of year), certified by Fidelity Management Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

6. INCOME TAX STATUS:

The prototype plan document provider for the Plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service (IRS) ruled that the Plan, as then designed, was in compliance with the applicable requirements of the Code. Since receiving the 2008 opinion letter, the Plan has been amended. The Plan administrator believes the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. The Company has elected not to apply for its own determination letter covering the Plan.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine tax

audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. RELATED PARTY TRANSACTIONS:

Certain Plan investments are shares of mutual and money market funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid for the investment management services are paid directly by the plan sponsor or charged within the fund prior to the allocation of earnings.

8. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. RECONCILIATION TO THE FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	<u>2013</u>	<u>2012</u>
Net Assets Available for Benefits per the Financial Statements	\$ 34,946,289	28,380,538

The following is a reconciliation of changes in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2013:
