1. Description of Plan

The following description of People's Trust Insurance Co 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of People's Trust Insurance Company ("Plan Sponsor"). The Plan was established on January 1, 2009, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ('ERISA'). The Plan is intended to be a qualified defined contribution plan which satisfies the requirements of Section 401(k) of the Internal Revenue Code (the "Code"). Under the Code, participants are not liable for federal income taxes on employee contributions, Plan Sponsor contributions or Plan earnings until such time as they are partially or completely withdrawn from the Plan. The Plan's Trustee and recordkeeper are State Street Bank and Trust Company and Automatic Data Processing Retirement Services, Inc., respectively.

Eligibility

Employees become eligible to participate in the Plan upon attaining age 18. There is no minimum service requirement.

Contributions

Participants may elect to contribute pre-tax dollars to the Plan by having their compensation reduced by a maximum of the lesser of (a) 85% of compensation, (b) the IRS defined limit for the year, or (c) such other amount as shall be determined by the plan administrator from time to time. Participants may elect to make after-tax contributions to the Plan. Upon consent of the plan administrator, participants can also elect a direct rollover of an existing balance from a tax-qualified retirement or savings plan into the Plan. Participants who reach age 50 during the calendar year may be eligible to make catch-up contributions in addition to the IRS defined limit for the year. The Plan currently offers various mutual funds and a guaranteed investment contract as options for participants. Participants may elect to contribute to any of the investment options approved by the Plan's Trustee and may transfer among funds as often as is permitted under the investment alternatives chosen.

The Plan Sponsor has the option of making qualified non-elective contributions. If a participant meets certain requirements related to age, the Plan Sponsor may contribute to the participant's account. Plan Sponsor contributions are invested in the investment funds in the same allocation percentages as each participant's contributions.

Participants direct the investment of their contributions as well as the Plan Sponsor contributions into various investment options provided by the Plan.

1. Description of Plan (Continued)

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Plan Sponsor's non-elective contribution, if any, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant account balances. The benefit for a participant is the amount that can be provided from the participant's vested account. Forfeitures are used to reduce future Plan Sponsor contributions to the Plan.

Vesting

Participants are immediately vested in their contributions and actual earnings thereon. Vesting in the Plan Sponsor's contribution portion of their account is based on continuous years of service. A participant is 100% vested after four years of credited service. Notwithstanding, a participant shall become fully vested upon his/her normal retirement date, total disability, or death, as defined by the Plan.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant's account is distributed to the participant or his/her beneficiary in the form of a single lump-sum payment equal to the value of the participant's vested interest in his or her account. Participants may also request a hardship withdrawal in a lump-sum of his or her vested interest. For termination of service due to other reasons, a participant may receive the value of the vested interest in his/her account as a lump-sum distribution.

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account, and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator.

All loans are required to be repaid within five years unless the purpose of the loan is to acquire a primary residence. Principal and interest is paid ratably through bi-weekly payroll deductions.

Forfeitures

Forfeitures of employer non-elective contributions are used to reduce employer contributions.

Administrative Expenses

Fees and expenses of the Plan for legal, accounting and other administrative services may be paid directly by the Plan Sponsor, or at the Plan Sponsor's discretion, may be paid in whole or in part out of the Plan's assets.

2. Summary of Significant Accounting Policies and Other Information

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

B. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates that affect reported amounts of net assets available for benefits. Actual results could differ from those estimates.

C. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

C. Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

D. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are classified as distributions based upon the terms of the plan document.

E. Benefit Payments

Benefit payments are recognized when paid.

3. Investments

The Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits, the accompanying notes to the financial statements, and the Schedule of Assets Held (at End of Year) were prepared in part or entirely from information certified by the Trustee, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The Plan's investments are maintained by the Trustee who has certified to the completeness and accuracy of the investments of the Plan as of December 31, 2012. The following summarized information has been reproduced from the Trustee's certification without audit:

Investments, at fair value	$ 237,241
Notes receivable from participants	$ 11,867

The following are investments that represent 5% or more of the Plan's net assets as of December 31, 2012:

BlackRock Global Allocation R	$ 73,125
Prudential High Yield-R	61,770
Amercent One Choice 2035 R	29,938
Perkins Mid Cap Value FD-R	17,013
Thornburg International Value Fund - R	12,959

For the year ended December 31, 2012, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $14,212.

4. Fair Value Measurements

Financial Accounting Standards Board ("FASB"), Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to valuation methodology include (a) quoted prices for similar assets or liabilities in active markets, (b) quoted prices for identical or similar assets or liabilities in inactive markets, (c) inputs other than quoted market prices that are observable for the asset or liability, (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If

4. Fair Value Measurements (Continued)

the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common/collective trust: Valued at the net asset value of units held by the Plan at year end.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

		Fair Value Measurement Using:		
	Total	Level 1	Level 2	Level 3
Mutual funds				
Growth	$ 222,329	$ 222,329	$ -	$ -
Income	9,573	9,573	-	-
Common/Collective Trust	5,339		5,339	-
	$ 237,241	$ 231,902	$ 5,339	$ -

5. Guaranteed Investment Contract

In 2010, the Plan entered into a benefit-responsive guaranteed investment contract with State Street Bank and Trust Company. State Street Bank and Trust Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

5. Guaranteed Investment Contract (Continued)

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract valuing arriving at net assets available for benefits. Contract value, as reported by State Street Bank and Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 was $5,339. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rate is reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that may cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the Plan to terminate the agreement prior to the scheduled maturity date.

The following is a reconciliation of the average yield earned by the Plan and the actual interest rate credited to participants' in the Plan in 2013:

Average yield earned	0.00%
Average interest credited to particpants	0.00%

6. Party-In-Interest Transactions

The Plan engages in investment transactions with funds managed by the Trustee's investment advisor, a party-in-interest with respect to the Plan. The Plan Sponsor acts as the Plan administrator and, therefore, transactions with the Plan Sponsor are party-in-interest transactions. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the Code.

7. Administration of Plan Assets

The Plan's assets are held by the Plan's Trustee. Participant contributions are held and managed by the Trustee, who invests contributions, interest and dividend income, and makes distributions to participants. Trustee's fees and other expenses of the Plan are paid directly from the Plan assets.

Certain administrative functions are performed by officers and employees of the Plan Sponsor. The officers and employees receive no compensation from the Plan.

8. Plan Termination

While it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to provisions of ERISA. In the event of termination, participants become 100% vested in their accounts as of the date of termination and Plan assets are payable to each participant in a lump sum equal to the balance in the participant's account.

9. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

Net assets available for benefits per the financial statements	$ 252,635
Particpant accounts receivable, end of year	(3,526)
Net assets available for benefits per the Form 5500	$ 249,109

Schedule H Part II

The following is a reconciliation of contributions per the financial statements to the Form 5500:

Total contributions per the financial statements	$ 91,848
Participant contributions receivable, beginning of year	(3,446)
Participant contributions receivable, end of year	3,526
	$ 91,928

10. Tax Status of the Plan

The Plan is exempt from income taxes under Code Section 401(a). The Plan adopted a Prototype Non-standardized Profit Sharing Plan with a cash and deferral arrangement developed by Automatic Data Processing Retirement Services, Inc., which obtained a favorable IRS determination letter, in which the IRS stated that the form of the underlying prototype plan was acceptable under provisions of the Code and that any employer adopting this form of plan will be considered to have a plan qualified under the Code. The Plan has been amended since the determination letter; however, the Plan's administrator

10. Tax Status of the Plan (Continued)

believes that the Plan is in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been made.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

11. Risks and Uncertainties

The Plan invests in various investment securities, which are exposed to various risks including interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

12. Subsequent Events

Management has evaluated the impact of subsequent events on the Plan through April 16, 2014, the date these financial statements were available to be issued. There were no subsequent events requiring recognition or disclosure in the financial statements.

Re: Request for Penalty Abatement

To: Whom It May Concern:

I am writing to request the abatement of penalties for the late filing of the form 5500.

The reason for People's Trust Insurance filing the form late is because our HR Director at the time had fallen ill unexpectedly and there was a change in management. Prior to 2012 we had less than a 100 employees eligible to participate and an audit wasn't required. It wasn't until we went to submit the form that we realized an audit was necessary. We have since completed the audit and are filing the 5500.

Please accept People's Trust petition for the abatement of penalties owed. If you have any questions or need additional information, you can reach me at 561-417-1104 or via e-mail at jkuntz@peoplestrustinsurance.com.

Sincerely,

Jennifer Kuntz
