EVERGLADES FARM EQUIPMENT 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
September 24, 2013 and November 30, 2012

NOTE 1: Description of plan

The following description of the Everglades Farm Equipment Co. ("the Company") 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have at least one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may elect to defer up to 92% of annual compensation, as defined in the Plan, each year instead of receiving that amount in cash. In addition, participants may elect to defer up to 92% of any bonus paid during the year. However, total deferrals in any taxable year may not exceed federally established guidelines. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company has the option of making matching contributions, discretionary profit sharing contributions, and/or qualified non-elective contributions each year at the discretion of the Company's Board of Directors. For the periods ended September 24, 2013 and November 30, 2012, the Company contributed a matching contribution equivalent to 50% of the first \$1,000 contributed by each employee.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. Each participant is also charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions portion of their accounts plus actual earnings thereon is based upon years of service. A vesting schedule for the Plan is as follows:

<u>Years of Service</u>	<u>Percentage</u>
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Participant loans

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear an interest rate that is deemed to be a reasonable rate of interest as determined by reviewing interest rates charged for similar types of loans by other lenders. Principal and interest is paid ratably through weekly payroll deductions.

Payment of benefits

On termination of service due to death, disability or retirement, a participant will receive a single lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of services due to reasons other than death, disability, or retirement, the participant may elect to have their vested benefits distributed as soon as administratively possible. However, if the value of the vested benefits is less than \$5,000, a lump-sum distribution will be made to the participant regardless of whether they elected to receive it.

NOTE 8: Fair value measurement

FASB ASC 820, *Fair Value Measurement*, established a fair value hierarchy that categorizes the inputs to valuation methods, used to measure fair value, into three unique levels, they are:

Level 1 inputs – are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Association can access at the measurement date. Level 1 inputs are given the highest precedence.

Level 2 inputs – are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. An example of a Level 2 input would be quoted prices in active markets for similar, but not identical, assets or liabilities.

Level 3 inputs – are unobservable for the asset or liability. Level 3 inputs are given the lowest precedence.

The following schedule details the fair value of the Plan's assets, by level, at September 24, 2013:
