Part I	Asset and Liability Statement		(a) Beginning of Year	(b) End of Year
1	Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

INDEPENDENT AUDITORS' REPORT

To the Administrator of the
RR Donnelley Savings Plan
Chicago, Illinois

We have audited the accompanying financial statements of the RR Donnelley Savings Plan (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of net assets available for benefits for the years ended December 31, 2013 and 2012, and the related notes to the financial statements.

Administrator's Responsibility for the Financial Statements

The Plan Administrator is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the RR Donnelley Savings Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

Other Matter - Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Supplemental Schedule H, line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2013, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's Administrator and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

RR DONNELLEY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 and 2012

NOTE 1 – PLAN DESCRIPTION

The following description of the RR Donnelley Savings Plan (the “Plan”) is provided for general information purposes only. The Plan is a defined contribution plan sponsored by R. R. Donnelley & Sons Company (the “Company”) designed to allow eligible employees to save for retirement on a tax-advantaged basis. The Plan is intended to qualify as a cash or deferred arrangement under Section 401(k) of the Internal Revenue Code of 1986, as amended (the “Code”), and is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The description covers current Plan provisions, except as specifically noted otherwise. For more complete information, refer to the Summary Plan Description and the Plan document, including any modifications and amendments thereto.

Administration

The Plan is administered by the Plan’s Benefits Committee and its delegates. The Plan’s assets are held in the RR Donnelley Savings Plan Trust (the “Trust”). The Bank of New York Mellon is the trustee of the Trust and custodian of the Plan’s assets, other than with respect to assets invested through the self-directed brokerage accounts. Charles Schwab & Co., Inc. (“Schwab”) is the custodian of assets invested through the self-directed brokerage accounts. Administrative and record keeping services are provided by Aon Hewitt, LLC (“Aon Hewitt”).

Administrative Expenses

Administrative expenses paid by the Plan include recordkeeping fees, investment consulting fees, investment management fees, and most other administrative fees, including various printing and postage charges. Expenses paid by the Company include audit fees, legal fees, and some other administrative fees.

Eligibility

Generally, all employees of the Company and its U.S. subsidiaries are eligible to become Plan members (“participants”), unless they are part of a bargaining unit that does not participate in the Plan. Except with respect to certain contingent employees, eligible employees are not required to satisfy any service or age requirements to participate in the Plan and, accordingly, become eligible to participate in the Plan on their first day of employment with the Company or one of its participating affiliates. Elections to participate in the Plan are effective as soon as administratively practicable. Automatic enrollment provisions under the Plan became effective January 1, 2012. Generally, employees not actively participating in the Plan effective November 30, 2011 were automatically enrolled on January 1, 2012, and employees hired on or after December 1, 2011 are automatically enrolled 30 days after being hired, in each case unless the employee opted, or opts, out of automatic enrollment or elected, or elects, to be enrolled earlier. Individuals who are automatically enrolled make contributions on a before-tax basis equal to 3% of eligible compensation.

Contributions

Eligible employees may elect to make before-tax, after-tax and Roth 401(k) contributions under the Plan. Subject to certain limitations, the contribution election percentages allowed are from 1%-85% of eligible compensation for before-tax, after-tax and Roth 401(k) contributions, and the total of all elections cannot exceed 85% of eligible compensation. Before-tax, after-tax and Roth 401(k) contributions are funded by payroll deductions and must be made in whole percentages of employee eligible earnings, although contributions designated as “catch-up” contributions must be designated in full dollar amounts. Participants can change contribution elections at any time. Earnings of the Plan attributable to before-tax, after-tax and matching contributions, as well as such before-tax contributions and matching contributions to the Plan, generally are not taxable to the participants until withdrawn.

Effective during fiscal year 2012, the Company made matching contributions equal to 40% of a participant’s before-tax and Roth 401(k) contributions on up to 6% of eligible compensation each payroll period. The per payroll period matching contributions ceased effective December 31, 2012. The Company did not make any matching contributions during the 2013 Plan year. In addition, the Plan permits the Company to provide a discretionary matching contribution to certain employees. The Company did not make any such discretionary matching contributions for the 2012 or 2013 Plan years. Matching contributions, when made, are contributed to the Plan in cash and invested according to the participant’s investment elections.

Employees may also roll over amounts to the Plan that were distributed from certain types of retirement plans and accounts.

RR DONNELLEY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 and 2012

NOTE 1 – PLAN DESCRIPTION (continued)

Vesting

Participants are always 100% vested in their before-tax, after-tax, Roth 401(k) and rollover contributions and investment earnings thereon. Except with respect to certain members of collective bargaining units, participants first hired before January 1, 2012 are always 100% vested with respect to matching and discretionary matching contributions (and earnings thereon), whereas participants first hired on or after January 1, 2012 do not become vested in such matching and discretionary matching contributions (and earnings thereon) until they have earned three years of service under the Plan, at which time they are 100% vested in such contributions and earnings. Different vesting rules apply to contingent employees.

Notes Receivable from Participants

Participants are permitted to borrow up to the lesser of 50% of their vested before-tax, after-tax, Roth 401(k), matching and rollover account balance, or \$50,000, reduced by the highest outstanding loan balance in the last 12 months. The minimum loan amount is \$1,000. Subject to certain exceptions for historical loans and loans originated under other plans, participants are allowed only one outstanding loan at any time and the maximum loan repayment period is four and a half years. The loans are secured by the balance in the participants' accounts and bear interest at a rate equal to 1% over the prime rate, as published in the Wall Street Journal. The interest rate for the loans outstanding as of December 31, 2013 ranged from a low of 4.0% to a high of 9.5%. The participant pays an administrative fee of \$100 to the Plan's recordkeeper, Aon Hewitt, at the inception of the loan. Notes receivables are valued at cost plus accrued interest.

Benefit Payments and Withdrawals

A participant's account balance may be distributed on retirement or other termination of employment. Distributions may be made in the form of lump sum distribution of all or a portion of the participant's account, or in installment payments. Amounts invested in the TRASOP Fund and, beginning in April 2013, the RR Donnelley Stock Fund, may be distributed in the form of shares of Company stock. All other payments are made in cash.

A participant may withdraw his or her after-tax contributions and rollover contributions, and the value of the participant's Fund B account, if any, at any time, and may withdraw an amount from his or her vested account (other than his or her TRASOP Account) while he or she is still employed if he or she incurs a financial hardship, or has attained age 59.5. A participant may withdraw all or part of his or her before-tax or Roth 401(k) contributions if he or she is performing service in the uniformed services while on active duty for more than 30 days. A participant may withdraw any portion of his or her vested account after attaining age 70.5, and will be required to begin taking distributions upon the later of his or her attainment of age 70.5 or termination of employment.

Investment Options

Participants are permitted to direct how their account balance under the Plan is invested. Subject to certain restrictions, participants can change investment elections on a daily basis. Generally, participants may invest up to 20% of their account balance and up to 20% of their current contributions in the RR Donnelley Stock Fund, and may shift their contributions into and out of the RR Donnelley Stock Fund at any time. As of December 31, 2013, the following investment options were offered under the Plan:

Core Investment Funds— investment funds that invest in different asset classes, such as fixed income funds, bond funds, stock funds, and funds that invest in alternative investments. Examples offered under the Plan as of December 31, 2013 include the following funds: stable value, fixed income index, fixed income core plus, Treasury inflation protected securities index, large cap core index, large cap value, large cap growth, small cap core index, small cap value, small-mid cap growth, international core index, international equity core plus, emerging markets index, real estate investment trust, and diversified real asset.

Target Date Funds— mix of investments in core investment funds that automatically reduce their level of equity risk over time and target retirement at age 65.

Conservative Income Fund— a conservative portfolio comprised of a mix of investments in core investment funds with equity risk maintained lower than any Target Date Fund.

RR DONNELLEY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 and 2012

NOTE 1 – PLAN DESCRIPTION (continued)

RR Donnelley Stock Fund and TRASOP Fund— unitized funds that invest primarily in shares of common stock of the Company and hold a certain percent of assets in cash-equivalents for liquidity purposes. Due to investments in cash—equivalents, the RR Donnelley Stock Fund and the TRASOP Fund may not reflect the exact performance of Company stock over any given time period. The TRASOP Fund has been considered an “employee stock ownership plan” during all periods covered by these financial statements. Effective April 2013, the RR Donnelley Stock Fund is also considered an “employee stock ownership plan.” Dividends paid on the shares of Company stock held in the TRASOP Fund have historically been passed through and paid out to participants, whereas dividends paid on the shares of Company stock held in the RR Donnelley Stock Fund have been reinvested in the fund. Effective April 2013, participants whose accounts are invested in the RR Donnelley Stock Fund and/or the TRASOP Fund are entitled to elect whether to have dividends reinvested or paid out. The TRASOP Fund is closed to new investments.

Self-Directed Brokerage Account— participants may invest a portion of their account balance under the Plan in investment options not otherwise offered under the Plan, such as certain mutual funds, stocks, or bonds, by directing such portion of their account balance to be invested through the self-directed brokerage account offered under the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”). The accounts of the Plan are maintained on the accrual basis of accounting. The Plan has evaluated subsequent events through June 17, 2014, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan’s financial statements.

Reclassifications

Certain amounts previously reported have been reclassified to conform to the current-year presentation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan’s investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements, including details on inputs, valuation techniques and the fair value levels within the fair value hierarchy.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation or depreciation of investments included in the accompanying Statement of Changes in Net Assets available for Benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in the fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Plan Distributions

Benefit payments to participants are recorded upon distribution. The Trustee uses a distribution account to make all benefit payments. Amounts are transferred from the participant’s investment fund(s) to this account as directed by the Plan administrator.

RR DONNELLEY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 and 2012

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Risks and Uncertainties

The Plan provides various options for investing in securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Recent Accounting Pronouncements

In December 2011, the FASB issued Accounting Standards Update No. 2011-11 "Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities" ("ASU 2011-11"), which requires disclosures of gross and net information about financial and derivative instruments eligible for offset in the statement of financial position or subject to a master netting agreement. In January 2013, the FASB issued Accounting Standards Update No. 2013-01 "Balance Sheet (Topic 210): Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities" ("ASU 2013-01"), which narrows the scope of the disclosure requirements to derivatives, securities borrowings, and securities lending transactions that are either offset or subject to a master netting arrangement. ASU 2011-11 and ASU 2013-01 were effective for and adopted by the Plan in 2013 and did not have a material impact on the Plan's Statements of Net Assets Available for Benefits.

NOTE 3 – PLAN MERGERS/BATCH ROLLOVERS

The Plan did not merge with any other plan during 2013 or 2012, but did accept batch rollovers during 2013 in connection with the acquisition of Meisel Photographic Corporation.

NOTE 4 – INVESTMENT IN RR DONNELLEY SAVINGS PLAN

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The amounts relating to the investment contract fair value, and related adjustment, are broken out in the Statements of Net Assets Available for Benefits.

Interest and dividends, along with net appreciation (depreciation) in the fair value of investments, are accounted for on a daily basis based upon the Plan's participation in the various investment funds and portfolios.

Net assets.....	\$ 2,518,629,256	\$ 2,235,735,892

The 2013 balances reflect adjustments to correct the classification of certain investments. The impact of these adjustments at December 31, 2012 is a decrease to Fixed income securities of \$32.6 million, an increase to Cash and money market funds of \$33.2 million, and a decrease to equity securities of \$0.6 million. This reclassification had no impact on net assets reported on the Statements of Net Assets Available for Benefits.

Investment income of the Plan for the years ended December 31, 2013 and 2012 is summarized as follows:

	2013	2012
Net appreciation (depreciation) in fair value of investments:		
U.S. equity securities.....	\$ 151,195,295	\$ 43,481,207

NOTE 4 – INVESTMENT IN RR DONNELLEY SAVINGS PLAN (continued)

The fair values of the Plan's investments that represent 5% or more of the Plan's net assets, at December 31, 2013 and 2012, are summarized as follows:

	2013	2012
Vanguard Large Cap Core Index	\$ 309,194,270	\$ 247,192,100
Wells Fargo Fixed Income Fund F	231,583,389	210,948,446
Wells Fargo Fixed Income Fund A	*	123,350,803
Wells Fargo Fixed Income Fund L	*	123,082,433

* Investments were less than 5% of Plan net assets at December 31, 2013.

Lending of Portfolio Securities

To generate additional income, a fund may lend a percentage of its investment securities to approved institutional borrowers who need to borrow securities provided a number of conditions are satisfied, including that the loan is fully collateralized in the form of cash or U.S. government securities. Investment funds that are separately managed for the Plan do not participate in securities lending. However, the Plan invests in collective trusts and mutual funds that participate in securities lending.

Each loan is initially collateralized, in the case of: (a) loaned securities denominated in U.S. dollars or whose primary trading market is located in the U.S. to the extent of 102% of the market value of the loaned securities, or (b) loaned securities not denominated in U.S. dollars or whose primary trading market is not located in the U.S. to the extent of 105% of the market value of the loaned securities.

By lending its investment securities, a fund attempts to increase its net investment income through the receipt of interest on the loan. Any gain or loss in the market price of the securities loaned that might occur during the term of the loan would belong to a fund. Each investment option within the Plan that participates in the program receives its pro-rata share of the income or loss earned by the collateral investment fund monthly and is reflected in the calculation of the investment option's net asset value ("NAV").

NOTE 5 – GALLIARD STABLE VALUE FUND

The Plan assets entered into benefit-responsive investment contracts via investment in the Galliard Stable Value Fund ("the Fund").

The Fund primarily invests in security-backed contracts issued by insurance companies and other financial institutions. A security-backed contract is an investment contract issued by an insurance company or other financial institution, backed by a portfolio of bonds or units of a collective fund that are owned by the Fund. The portfolio underlying the contract is maintained separately from the contract issuer's general assets, usually by a third party custodian. These contracts typically allow for realized and unrealized gains and losses on the underlying assets to be amortized, usually over the duration of the underlying investments, through adjustment to the future interest crediting rate, rather than reflected immediately in the net assets of the Fund. The security-backed contracts are designed to reset their respective crediting rates on a quarterly basis and cannot credit an interest rate that is less than 0%. The issuer guarantees that all qualified participant withdrawals will be at contract value.

Risks arise when entering into any investment contract due to the potential inability of the issuer to meet the terms of the contract. In addition, security-backed contracts have the risk of default or the lack of liquidity of the underlying portfolio assets.

The credit risk of each issuer is evaluated and monitored through Galliard's credit analysis, and the underlying portfolio assets are rated investment grade at the time of purchase.

RR DONNELLEY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 and 2012

NOTE 5 – GALLIARD STABLE VALUE FUND (continued)

The primary variables impacting the future crediting rates of security-backed contracts include:

- The current yield of the assets underlying the contract;
- The duration of the assets underlying the contract; and
- The existing difference between the fair value and contract value of the assets within the contract.

The yield earned by the Galliard Fund at December 31, 2013 and 2012 was 1.48% and 1.09%, respectively. This represents the annualized earnings of all investments in the Fund, including the earnings recorded at the underlying collective trust funds, divided by the fair value of all investments in the Fund at December 31, 2013, or 2012, as applicable.

The yield earned by the Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund at December 31, 2013 and 2012, was 1.88% and 2.45%, respectively. This represents the annualized earnings credited to participants in the Fund divided by the fair value of all investments in the Fund at December 31, 2013, or 2012, as applicable. The crediting rate of security-backed contracts will track current market yields on a trailing basis. The rate reset allows the contract value to converge with the fair value of the underlying portfolio over time, assuming the portfolio continues to earn the current yield for a period of time equal to the current portfolio duration.

To the extent that the underlying portfolio of a security-backed contract has unrealized and/or realized losses, a positive adjustment is made to the adjustment from fair value to contract value under contract value accounting. As a result, the future crediting rate may be lower over time than the then-current market rates. Similarly, if the underlying portfolio generates unrealized and/or realized gains, a negative adjustment is made to the adjustment from fair value to contract value, and the future crediting rate may be higher than the then-current market rates. The adjustment from fair value to contract value for fully benefit-responsive investment contracts was (\$6,307,273) and (\$20,153,978) for the years ended December 31, 2013 and 2012, respectively.

Security-backed contracts generally provide for withdrawals associated with certain events which are not in the ordinary course of Fund operations and are paid with a market value adjustment. Events that may trigger a market value adjustment can include the following:

- Material amendments to the Fund's structure or administration;
- Changes to the participating plans' competing investment options including the elimination of equity wash provisions;
- Complete or partial termination of the Fund, including merger with another fund;
- The failure of the Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA;
- The redemption of all or a portion of the interests in the Fund held by a participating plan including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan, the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan;
- Any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Funds or participating plans; and
- The delivery of any communication to plan participants designed to influence a participant not to invest in the Fund.

At this time, the Fund does not believe that the occurrence of any such market value event, which would limit the Fund's ability to transact at contract value with participants, is probable.

Participants may redeem their shares at any time at contract value. However, there is a 90 day equity wash restriction for transfers from the Stable Value Fund to the Schwab PCRA (Brokerage) option.

NOTE 6 – FAIR VALUE MEASUREMENTS

Various inputs are used in determining the fair value of the Plan's investments. These inputs are categorized in the three tier value hierarchy, which prioritizes valuation methodology based on the reliability of inputs, as listed below:

Level 1 – Valuations based on quoted prices for identical assets and liabilities in active markets.

Level 2 – Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Valuations based on unobservable inputs reflecting the Plan's own assumptions, consistent with reasonably available assumptions made by other market participants.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of the input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description by major asset categories of the valuation methodologies and levels used for determining fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

Cash and other assets – Carrying value approximates fair value. Cash and other assets are classified as Level 1.

Collective trust funds – Collective trust funds are priced using the NAV and are classified as Level 2. The net asset value is deemed appropriate as these funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions. The investments include the Galliard Stable Value Fund as discussed in Note 5. Prices for government, agency, municipal, corporate mortgage backed, and asset backed securities of the Fund are primarily obtained from independent pricing services. These prices are based on observable market data for the same or similar securities, including quoted prices in markets that are not active, or internal matrix pricing models or other similar techniques that use observable market inputs, such as benchmark yields, expected prepayment speeds and volumes, and issuer ratings.

Equity securities – The values of individual equity securities were based on quoted prices in active markets. As such, these assets are classified as Level 1. This includes all U.S. and Non-U.S. equity securities, the RR Donnelley Stock Fund and the TRASOP fund. The individually managed self-directed brokerage accounts are also classified as Level 1 since the underlying investments are actively traded on the market or exchange.

Fixed income securities – Fixed income securities are typically priced based on a valuation model rather than a last trade basis and are not exchange-traded. These valuation models involve utilizing dealer quotes, analyzing market information, estimating prepayment speeds and evaluating underlying collateral. Accordingly, these fixed income securities are classified as Level 2.

Mutual funds – Valued at the NAV of shares held by the Plan at year end. NAV is derived by the quoted prices of underlying investments. All funds that are separately managed and not traded on an exchange are classified as Level 2. The valuation methodologies described above may generate a fair value calculation that may not be indicative of net realizable value or future fair values. While the Plan believes the valuation methodologies used are appropriate, the use of different methodologies or assumptions in calculating fair value could result in different amounts. The Plan invests in various assets in which valuation is determined by NAV. The Plan believes that the NAV is representative of fair value at the reporting date, as there are no significant restrictions on redemption of these investments or other reasons to indicate that the investment would be redeemed at an amount different than the NAV.

The impact of these adjustments at December 31, 2012 is a decrease to Level 2 Fixed income securities of \$32.6 million, an increase to Level 1 Cash and money market funds of \$33.2 million, and a decrease to Level 1 equity securities of \$0.6 million. This reclassification had no impact on net assets reported on the Statements of Net Assets Available for Benefits.

RR DONNELLEY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 and 2012

NOTE 7 – TAX STATUS OF THE PLAN

The Plan obtained its latest determination letter on September 16, 2013, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code, including Sections 401(a) and 401(k) of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator, having consulted with the Plan's counsel, believes that the Plan remains tax-exempt as of the financial statement date.

US GAAP requires Plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan has not recognized interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the rights of the participants in their account balances will, to the extent not already vested, become 100% vested.

NOTE 9 – RELATED PARTY TRANSACTIONS

At December 31, 2013, the Plan held an aggregate of 2,083,555 units of Company common stock in the TRASOP Fund and the RR Donnelley Stock Fund, which funds are primarily invested in common shares of Company stock with an original cost of \$39,731,648 and a market value of \$42,254,495. At December 31, 2012, the Plan held an aggregate of 2,428,238 units of Company common stock in the TRASOP Fund and the RR Donnelley Stock Fund, which funds are primarily invested in common shares of Company stock with an original cost of \$46,642,305 and a market value of \$22,766,838.

These investments qualify as party-in-interest transactions. However, they are exempt from the prohibited transactions rules of ERISA. Certain plan investments are shares of mutual funds managed by the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are with the Trustee and are party-in-interest transactions. These fees are netted against investment income for the years ended December 31, 2013 and 2012.

The Plan reimburses the Company for certain employees' compensation and related benefit costs related to the administration of the Plan.

NOTE 10 – RECONCILIATION TO FORM 5500

The following table reconciles the financial statements to the Plan Form 5500 as filed by the Company:

RR DONNELLEY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 and 2012

NOTE 10 – RECONCILIATION TO FORM 5500 (continued)

The following is a reconciliation of benefits paid to participants per the financial statements to the Plan Form 5500 for the years ended December 31, 2013 and 2012:

	2013	2012
Benefits paid to participants per the financial statements.....	\$ 192,490,804	\$ 195,952,021
Add: amounts allocated to withdrawing participants at December 31, 2013 and 2012, respectively	1,192,036	1,778,068
Less: amounts allocated to withdrawing participants at December 31, 2012 and 2011, respectively	(1,778,068)	(2,197,938)
BENEFITS PAID TO PARTICIPANTS PER THE FORM 5500	\$ 191,904,772	\$ 195,532,151

Amounts allocated to withdrawing participants are recorded on the Plan Form 5500 for withdrawals that have been processed and approved for payment prior to December 31st, but not yet paid as of that date.

NOTE 11 – PLAN AMENDMENTS

In 2013, the Plan was amended to (i) designate the RR Donnelley Stock Fund as an “employee stock ownership plan” and to permit participants invested in the TRASOP Fund to elect to have dividends on shares held in the TRASOP Fund to be reinvested, (ii) reflect current default investment election provisions, (iii) include the availability of hardship withdrawals on account of Hurricane Sandy, and (iv) reflect certain changes involving the Plan’s claims procedures and the recovery of fees related to lawsuits involving the Plan. The Plan was amended and restated effective January 1, 2012 to reflect certain plan design changes, including the reinstatement of a Company matching contribution (and the formula for such contributions), automatic enrollment, and a new vesting schedule as described in Note 1. Subsequently in 2012, the Plan was amended to (i) provide for different automatic enrollment provisions for members of certain collective bargaining units, (ii) add service requirements and different vesting provisions for contingent employees effective November 1, 2012, (iii) provide that any discretionary matching contributions made with respect to any Plan year would be allocated to eligible participants employed on December 31 of such year (rather than in March of the following year), and (iv) cease the per pay period matching contributions effective December 31, 2012.

NOTE 12 – SUBSEQUENT EVENTS

Effective April 1, 2014, the Plan changed to The Northern Trust Company as the Plan’s trustee, J.P. Morgan Securities LLC as the custodian of Plan assets through self-directed brokerage accounts, and J.P. Morgan Retirement Plan Services as the Plan’s recordkeeper.
