PARSONS COMPANY, INC. PROFIT SHARING AND 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The following description of the Parsons Company, Inc. Profit Sharing and 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Parsons Company, Inc. (Company). Employees are eligible for plan entry once the age of 21 is attained and upon completion of one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 100% of their annual compensation, subject to certain Internal Revenue Code limitations. Participants may make modifications to their contributions quarterly and terminate their contributions at their discretion. The Company contributes 25% of the first 4% of base compensation that a participant contributes to the Plan. The Company may also make a discretionary contribution that is allocated to eligible employees based on total compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and an allocation of Plan earnings. Allocations are based on the performance of the participants' individual investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on covered years of service. A covered year of service is any twelve-month period ending on the Plan year-end during which the participant worked at least 1,000 hours. Vesting in employer matching and discretionary contributions is based on a six-year graded schedule. In addition, participants become 100% vested upon normal retirement age, death or disability.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant account may be distributed in a lump sum payment or annuity payments over a certain term.

Notes Receivable From Participants

Participants may borrow a maximum of 50% of their vested account balance, or $50,000, whichever is less. The minimum loan amount allowed is $500. The participant's vested account balance serves as security for the loan and a fixed rate of interest is charged based on the going commercial loan rate at the time the funds are borrowed. Participants are required to sign a promissory note with repayment terms no longer than 5 years. Payments are required at least quarterly, generally through payroll deduction, and the loan is due on demand when a participant terminates.

Forfeited Accounts

Forfeited non-vested accounts may be used to pay Plan expenses or to reduce employer contributions. For the years ended December 31, 2013 and 2012, forfeitures of $19,224 and $12,505, respectively, were used to reduce employer contributions. At December 31, 2013, there were $46,514 of unallocated forfeitures. This amount will be allocated in 2014.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants are 100% vested in their accounts.

Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Administrative Expenses

Significant costs of Plan administration are currently paid by the employer.

Subsequent Events

The Plan has evaluated subsequent events through June 30, 2014, the date which the financial statements were available to be issued, and has determined there are no subsequent events that require recognition or disclosure in these financial statements.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates based on management's knowledge and experience. Due to their prospective nature, actual results could differ from those estimates.

Investment Valuation

Investments are reported at fair value. See Note 6 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3. INFORMATION PREPARED AND CERTIFIED BY CUSTODIANS

The following information included in the financial statements was obtained from data that has been prepared and certified as complete and accurate by the custodians:

NOTE 4. INVESTMENTS

The Plan has entered into a deposit contract with Principal Financial Group (Principal). Principal, as directed by the Plan's participants, maintains the contributions in either pooled separate accounts, in general fixed accounts, or in mutual funds held at Principal Trust Company. The pooled separate accounts and mutual funds are credited with actual earnings on the underlying investments (units of participation in mutual funds). The general fixed accounts are credited with a guaranteed minimum interest rate under the terms of the guaranteed investment contract.

The guaranteed investment contracts earned guaranteed rates ranging from .05% to .07% for the year ended December 31, 2013 (.06% to .11% in 2012). According to the terms of the contract, interest rates may be reset annually or as considered necessary by Principal to avoid significant hardship and are not fully benefit responsive. Both accounts are charged for Plan withdrawals and administrative expenses incurred by Principal.

The following presents investments that represent 5% or more of the Plan's net assets:

LPL Financial Corporation	Investment advisor	Investment earnings are reported net of expenses.
Parsons Company, Inc.	Plan sponsor	Contributions of $576,654 and $943,995 in 2013 and 2012, respectively.

NOTE 6. FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification (FASB ASC Topic 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in non-active markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013, from prior year.

Mutual funds: Valued at publicly traded prices that are quoted daily.

Separate accounts with insurance companies: Valued daily at the net asset value (NAV) based on the market value of the applicable underlying investments. The NAV is not a publicly-quoted price in an active market.

Guaranteed investment contracts: Contracts are not fully benefit responsive and are valued at fair value, which is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:
