NOTE 1 - DESCRIPTION OF PLAN

The following description of the Mesa Systems, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Mesa Systems, Inc. (the Company) who have completed three months of service with the Company. Additionally, an employee who has completed three months of service with the Company, and has not incurred a termination of employment is eligible to participate in the Company's discretionary matching and profit sharing contributions, which are subject to a vesting period. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA) and includes a deferred compensation arrangement under Internal Revenue Code (IRC) Section 401(k), which allows eligible employees to make elective deferral contributions to the Plan as a percentage of their compensation.

Contributions

Under the terms of the Plan, employees may elect to make both pre-tax and after-tax contributions. The total of each participant's annual pre-tax and after-tax contributions are subject to applicable IRC limits. Under the terms of the Plan, the Company can match elective deferral contributions made by their employees to the Plan up to an agreed-upon percentage subject to the discretion of the Company. The Company may also make a profit sharing contribution each year at its discretion. The amount that can be added each year to a participant's account, which includes contributions made by the participant and the Company on the participant's behalf, is subject to restrictions imposed by the IRC. The Company made no contributions for the years ended December 31, 2013 and 2012.

The Plan allows for participants to rollover contributions into the Plan from another qualified plan or individual retirement account. Such rollovers are included in other contributions in the accompanying statements of changes in net assets available for benefits.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions made on the participant's behalf, and an allocation of Plan earnings. Allocations are based on participant account balances as of the beginning of the Plan year.

Vesting

Participants are immediately vested in their elective deferral contributions plus earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions plus earnings thereon is based on years of continuous service. Effective July 1, 2013, participants become 100% vested after five years of credited service, as defined by the Plan document. Prior to July 1, 2013 and for the year ended December 31, 2012, participants became 100% vested after working two consecutive years of at least 1,000 hours per year. In addition, a participant becomes 100% vested in the Company's contributions if the participant dies, becomes disabled, or upon termination of the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the loan fund. The maximum loan term is five years unless the loan is used for purchase of a principal residence. Effective July 1, 2013, participants may only have one loan outstanding at any time. For the period from January 1, 2013 to June 30, 2013 and for the year ended December 31, 2012, participants were able to have a maximum of two loans outstanding at any time. The loans are secured by the vested balance in the participant's account. Interest rates are determined by the trustee and plan administrator at the time the loan is processed. The interest rate for participant loans at December 31 was 4.25% (2013) and 6% (2012).

Payment of Benefits

Upon termination of service, a participant will receive a lump-sum payment equal to the value of his or her account, provided the account does not have a value greater than $1,000. Distributions greater than $1,000 must be directly rolled over to an IRA on behalf of the terminated participants who do not select a payout option. A participant with a vested account balance greater than $5,000 may continue holding investments within the Plan, or elect to withdraw. Prior to separation from service, a participant may elect to receive a distribution of all or any portion of the participant's account balance attributable to their pre-tax and after-tax contributions as well as discretionary matching and profit sharing contributions made by the Company if the participant has attained the age of 59 1/2 and has completed six years of service with the Company, or the participant has incurred a disability. For participants who select a payout option, they may elect to receive a lump sum distribution, partial payment, a monthly life income annuity to be paid in monthly installments over a period not to exceed the employee's lifetime, or the vested portion of their account may be applied toward the purchase of an annuity contract.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 6).

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid by the third-party administrator.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 3 - TAX STATUS

On March 31, 2008, the Internal Revenue Service stated that the prototype plan adopted by the Plan and effective for the year ended December 31, 2012, as then designed, was acceptable for use by employers for the benefit of their employees under Section 401 of the IRC. The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator and tax counsel believe that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements as of December 31, 2012.

On January 30, 2006, the Internal Revenue Service stated that the prototype plan adopted by the Plan and effective as of July 1, 2013, as then designed, was acceptable for use by employers for the benefit of their employees under Section 401 of the IRC. The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator and tax counsel believe that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements as of December 31, 2013.

With few exceptions, as of December 31, 2013, the plan administrator believes the Plan is no longer subject to examinations by tax authorities for years before 2010.

NOTE 5 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, OFI Trust Company, trustee of the Plan for the year ended December 31, 2012, Frontier Trust Company, trustee of the Plan for the period from January 1, 2013 to June 28, 2013, and Fidelity Management Trust Company, trustee of the Plan as of December 31, 2013, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, the supplemental Schedule H, Line 4i-Schedule of Assets (Held at End of Year) as of December 31, 2013 and the related investment activity

reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012.

NOTE 6 - FAIR VALUE MEASUREMENTS

The Plan complies with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures* (ASC 820), which defines fair value, establishes a consistent framework for measuring fair value and expands disclosure requirements for fair value measurements. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

Assets and liabilities are grouped into three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1 – Valuation is based upon quoted prices for identical instruments traded in active markets.
- Level 2 – Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.
- Level 3 – Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobserved assumptions reflect Plan management's own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

The Plan bases fair values on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements for assets and liabilities where there exists limited or no observable market data and, therefore, are based primarily upon Plan management's own estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other such factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, that could significantly affect the results of current or future values.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds and Money Market Fund: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Common Collective Trust Fund: The Plan's common collective trust investment consists of units of participation in the OFI Stable Value Trust Class N (the Trust). The Plan's investment in the Trust is valued at the NAV of the units of participation held by the Plan at year-end.

The Trust calculates the NAV value of its units based upon the NAV of the Union Bond & Trust Company Stable Value Fund (the Fund). The NAV of the Fund is determined each business day by Union Bond & Trust Company (UBTC), by dividing the value of the Fund's net assets by the number of outstanding units on that day.

To determine the NAV of the Fund UBTC values conventional, synthetic and separate account investment contracts on a contractual basis and with respect to which there are facts and circumstances providing evidence that contract value is impaired, at fair value as determined by the trustees of UBTC. Synthetic investment contracts are comprised of both investment and contractual components. The investment component consists of securities or shares of units of a pooled portfolio of fixed-income

securities, referred to as underlying investments. The investment component is "wrapped" by contracts issued by third-party financial institutions. These wrap contracts provide for benefit withdrawals and investment exchanges at the full contract value of the synthetic investment contracts notwithstanding the actual market value of the underlying investments. In this manner, wrap contracts are designed to smooth out the impact of normal market fluctuations associated with the performance of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair value measurements for assets recorded at fair value on a recurring basis at December 31, 2013 are as follows:

Description	Level 1	Level 2	Level 3	Total Fair Value

NOTE 7 - PLAN AMENDMENT

Effective July 1, 2013, the Plan was amended to reflect a change in the trustee from OFI Trust Company to Fidelity Management Trust Company. As a result of this change, participants can no longer contribute to investment options offered by OFI Trust Company. The Plan Sponsor and investment advisor completed a mapping of the previous investment options to the new investment options provided by Fidelity Management Trust Company. Additionally, effective July 1, 2013, the Plan provisions related to vesting and notes receivable from participants were amended with the change in the trustee (see Note 1).

NOTE 8 - PLAN TERMINATION

Although it has expressed no intention to do so, the Company has the right under the Plan, at any time, to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 9 - FORFEITURES

Forfeitures are determined at year-end and may be used to reduce the Company's contributions if any, for the plan year immediately following the plan year in which the forfeiture occurs or to pay Plan expenses. For the years ended December 31, 2013 and 2012 the Company did not make contributions to the Plan; therefore, no forfeitures were applied towards reducing employer contributions. Unallocated forfeitures are not considered assets available for benefits as of year-end. At December 31, unallocated forfeitures totaled $20,869 (2013) and $20,534 (2012).

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements for the years ended December 31, to the Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	$ 3,946,753	$ 3,350,806
Corrective distributions payable	28,837	-
Net Assets Available for Benefits per Form 5500	$ 3,975,590	$ 3,350,806

NOTE 11 - RELATED PARTY TRANSACTIONS

Fidelity Management Trust Company, the trustee of the Plan, manages certain Plan investments. Therefore, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental Schedule H, Line 4i-Schedule of Assets (Held at End of Year).

The Plan pays for certain expenses while the Company absorbs certain administrative expenses, such as accounting fees.

NOTE 12 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 13 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through June 17, 2014, the date at which the financial statements were available to be issued, and determined that no events have occurred that required disclosure.
