NOTE A - DESCRIPTION OF THE PLAN

The following description of the U.S. Pole Company, Inc. 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan was established in 1985 and covers substantially all employees of U.S. Pole Company, Inc. and Alcastco, Inc., a 100% owned subsidiary (collectively the "Company"). An employee becomes eligible for the Plan when he or she has attained age 21 and has completed three months of service with the Company. An employee may enroll in the first day of the Plan year quarter after becoming eligible. The trustee of the Plan is Reliance Trust Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2013, the Plan sponsor closed its operations for Alcastco, Inc., the wholly owned subsidiary. The closure did not have a significant impact on the Plan's financial statements.

2. Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, to the maximum extent allowed by law ($17,500 for 2013). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to $5,500 for 2013. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company has the option to make a matching contribution for Plan participants but is not required to do so under the Plan. During the year ended December 31, 2013, the Company elected to match 50% of participant contributions up to 6% of participant compensation. Contributions are subject to certain IRS limitations.

3. Investment Options

Participants can direct employee and employer contributions, as desired, in any of a variety of investment options held by Massachusetts Mutual Life Insurance Company. Participants can change their investment options daily.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

4. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Vesting

Participant contributions, rollovers, Company qualified non-elective contributions and actual earnings on all such contributions are fully vested at all times. Vesting of the Company's matching contributions, non-elective contributions, and actual earnings on such contributions are based upon the participant's years of service with the Company as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

6. Benefit Payments

Upon termination of service or retirement, participants are entitled to receive a lump-sum amount equal to the value of his or her vested account balances. In the event of death or disability, a participant's beneficiary or the participant is entitled to the total value of the participant's account.

7. Forfeitures

Forfeitures of terminated participants' nonvested accounts are applied against future Company matching contributions or reallocated to participants, during 2013 and 2012 applied forfeitures were $2,542 and $407, respectively. As of December 31, 2013 and 2012, there were no outstanding forfeitures available.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

8. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. All notes receivables are secured by the balance in the participant's account and bear interest at rates ranging from 7% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through weekly payroll deductions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The accompanying financial statements have been prepared based on the accrual basis of accounting.

2. Plan Administration

The Company is the Plan sponsor and the Plan administrator. The Plan administrator is responsible for carrying out the duties imposed under ERISA.

3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

4. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Risks and Uncertainties

The Plan provides for various investment options in mutual funds. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

The Plan invests, through mutual funds, in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

6. Payment of Benefits

Benefits are recorded when paid.

7. Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

8. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2013 and 2012.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

9. Subsequent Events

The Plan has evaluated subsequent events through July 9, 2014, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS AND CERTIFICATION BY TRUSTEE

The trustee, Reliance Trust Company, has been granted discretionary authority to invest and reinvest the assets of the trust, subject to the investment discretion of the individual participants over Company contributions and participant contributions.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Reliance Trust Company, the directed trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

Total investments and notes receivable from participants held and certified by Reliance Trust Company, the directed trustee, in the accompanying statements of net assets available for plan benefits were $3,149,298 and $2,994,664 as of December 31, 2013 and 2012, respectively. Net investment income and interest on notes receivable from participants certified by Reliance Trust Company was $458,570 at December 31, 2013.

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $323,613. These investments consist of mutual funds offered by the trustee.

NOTE C - INVESTMENTS AND CERTIFICATION BY TRUSTEE (Continued)

Investments that represent 5% or more of total net assets available for benefits as of December 31, 2013 and 2012 were as follows:

	2013	2012
Investments at fair value as determined by quoted market price:

Munder Index 500 R	$ 303,691	*

NOTE D - FAIR VALUE MEASUREMENTS

Fair value framework provides a hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

NOTE E - PARTY-IN-INTEREST TRANSACTIONS

Reliance Trust Company is the Plan's trustee. All investments were held with the trustee. Massachusetts Mutual Life Insurance Company provides recordkeeping series for the Plan. Notes receivable from Plan participants and the related interest income are also considered party-in-interest transactions.

During the years ended December 31, 2013 and 2012, the Company processed loan repayments totaling $63,640 to the Plan on an untimely basis, in accordance with Department of Labor Regulations. As a result, the Company intends to reimburse the Plan for lost earnings for late remittances as soon as reasonably possible.

NOTE F - INCOME TAX STATUS

The Employer adopted a volume submitter document, which received a favorable opinion letter from the Internal Revenue Service (IRS) on January 1, 2009, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. Administration errors, if any, that are insignificant or operational in nature, are handled by the Plan administrator in accordance with applicable IRS correction policies.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2010.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of compensation paid with respect to the product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2013 - 12/31/2013 and indirect compensation is presented on a calendar year basis ending 12/31/2013.

This report includes compensation actually paid to or by MassMutual within the indicated plan year as part of your MassMutual-serviced product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your MassMutual customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than MassMutual). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your MassMutual Service Team should you require additional information regarding the compensation paid to or by MassMutual with respect to your plan.

****

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan's service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

[1] Please refer to the Schedule C of the Form 5500 and its instructions (available at: http://www.dol.gov/ebsa/5500main.html), and please confer with experienced benefits counsel and other professionals, to determine the applicability of Schedule C to your plan.

Total Direct Compensation Paid **$5,385.00**

The total amount identified above reflects all fees deducted from plan assets at the plan administrator's direction for the plan year. Service providers which have received portions of these direct fees are listed below, along with the amount of fees they received. Please note that if there is a discrepancy between the total direct fees reported above and the sum of the direct fees reported below, you should contact your other service providers or your plan records to identify the recipient(s) of the fees and any other information relevant to your Schedule C filing.

Recipient: MassMutual Retirement Services, LLC EIN: 26-1589907

Service Codes: 15, 37, 38, 49, 59, 60, 62, 63, 64, 65, 72, 99, 50 (if direct compensation amount reflected below)

Direct Compensation **$5,385.00**

The total amount identified above reflects fees deducted from plan assets at the plan administrator's direction for the 2013 plan year for the above named recipient. Please review other service providers, below, to determine whether direct fees were also paid to them. Also, please review your records to determine whether other service providers may have received any compensation not reported below (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, or a plan auditor).

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation and amounts reported as paid to MassMutual Retirement Services, LLC ("MMRS") are the net result of aggregating direct compensation after the effects of adjustments processed in 2013, some of which may have pertained to prior years.

Please review the detailed breakdown at the end of the report for further information.

Indirect Compensation

Float compensation Payor: Reliance Trust Company EIN: 58-1428634 **$1.98**

This is an estimate based on the average annual rate of float compensation (0.01% for 2013) earned on certain processing bank accounts for the 2013 calendar year multiplied by an estimate of the assets related to uncashed checks*. This estimate does not include float earned for any other reason (e.g., if amounts remitted to MassMutual cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding for your plan is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor. The Plan Sponsor should consult with their tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Non Monetary Compensation

Please note that items of nonmonetary compensation need to be reported for Schedule A or C (Form 5500) purposes if they exceed certain *de minimus* amounts. Transactions generating nonmonetary compensation may include gifts, gratuities, or certain types of in-kind benefits. MassMutual's Code of Conduct generally restricts MassMutual employees from giving to or receiving gifts from customers and/or business partners having a value of over $100, in any individual situation, without prior approval. However, it is possible that one or more of your service providers for the calendar year, including MassMutual, engaged in transactions generating nonmonetary compensation. Information concerning reportable transactions undertaken between or among non-MassMutual parties may not be available to MassMutual.

Please consult with your legal or tax advisors if you have any questions.

The list includes any investment option held by the plan on at least one month end during the 2013 calendar year. To arrive at an estimate of the dollar amount that MassMutual received from each fund, multiply the rate of fees received from each fund by your plan's year-end balance (or if the fund was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the fund at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

[*] Please note that Hartford Securities Distribution Company, Inc., received the sales compensation (12b-1 fees) portion of this amount. After compensating the plan's broker-dealer firm, if applicable, any residual amount is paid to MassMutual Retirement Services, LLC ("MMRS") or it's affiliate.

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Reliance Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions.

The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the U.S. Pole Company, Inc. 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan was established in 1985 and covers substantially all employees of U.S. Pole Company, Inc. and Alcastco, Inc., a 100% owned subsidiary (collectively the "Company"). An employee becomes eligible for the Plan when he or she has attained age 21 and has completed three months of service with the Company. An employee may enroll in the first day of the Plan year quarter after becoming eligible. The trustee of the Plan is Reliance Trust Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2013, the Plan sponsor closed its operations for Alcastco, Inc., the wholly owned subsidiary. The closure did not have a significant impact on the Plan's financial statements.

2. Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, to the maximum extent allowed by law ($17,500 for 2013). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to $5,500 for 2013. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company has the option to make a matching contribution for Plan participants but is not required to do so under the Plan. During the year ended December 31, 2013, the Company elected to match 50% of participant contributions up to 6% of participant compensation. Contributions are subject to certain IRS limitations.

3. Investment Options

Participants can direct employee and employer contributions, as desired, in any of a variety of investment options held by Massachusetts Mutual Life Insurance Company. Participants can change their investment options daily.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

4. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Vesting

Participant contributions, rollovers, Company qualified non-elective contributions and actual earnings on all such contributions are fully vested at all times. Vesting of the Company's matching contributions, non-elective contributions, and actual earnings on such contributions are based upon the participant's years of service with the Company as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

6. Benefit Payments

Upon termination of service or retirement, participants are entitled to receive a lump-sum amount equal to the value of his or her vested account balances. In the event of death or disability, a participant's beneficiary or the participant is entitled to the total value of the participant's account.

7. Forfeitures

Forfeitures of terminated participants' nonvested accounts are applied against future Company matching contributions or reallocated to participants, during 2013 and 2012 applied forfeitures were $2,542 and $407, respectively. As of December 31, 2013 and 2012, there were no outstanding forfeitures available.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

8. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. All notes receivables are secured by the balance in the participant's account and bear interest at rates ranging from 7% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through weekly payroll deductions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The accompanying financial statements have been prepared based on the accrual basis of accounting.

2. Plan Administration

The Company is the Plan sponsor and the Plan administrator. The Plan administrator is responsible for carrying out the duties imposed under ERISA.

3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

4. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Risks and Uncertainties

The Plan provides for various investment options in mutual funds. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

The Plan invests, through mutual funds, in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

6. Payment of Benefits

Benefits are recorded when paid.

7. Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

8. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2013 and 2012.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

9. Subsequent Events

The Plan has evaluated subsequent events through July 9, 2014, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS AND CERTIFICATION BY TRUSTEE

The trustee, Reliance Trust Company, has been granted discretionary authority to invest and reinvest the assets of the trust, subject to the investment discretion of the individual participants over Company contributions and participant contributions.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Reliance Trust Company, the directed trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

Total investments and notes receivable from participants held and certified by Reliance Trust Company, the directed trustee, in the accompanying statements of net assets available for plan benefits were $3,149,298 and $2,994,664 as of December 31, 2013 and 2012, respectively. Net investment income and interest on notes receivable from participants certified by Reliance Trust Company was $458,570 at December 31, 2013.

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $323,613. These investments consist of mutual funds offered by the trustee.

NOTE C - INVESTMENTS AND CERTIFICATION BY TRUSTEE (Continued)

Investments that represent 5% or more of total net assets available for benefits as of December 31, 2013 and 2012 were as follows:

NOTE D - FAIR VALUE MEASUREMENTS

Fair value framework provides a hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

NOTE E - PARTY-IN-INTEREST TRANSACTIONS

Reliance Trust Company is the Plan's trustee. All investments were held with the trustee. Massachusetts Mutual Life Insurance Company provides recordkeeping series for the Plan. Notes receivable from Plan participants and the related interest income are also considered party-in-interest transactions.

During the years ended December 31, 2013 and 2012, the Company processed loan repayments totaling $63,640 to the Plan on an untimely basis, in accordance with Department of Labor Regulations. As a result, the Company intends to reimburse the Plan for lost earnings for late remittances as soon as reasonably possible.

NOTE F - INCOME TAX STATUS

The Employer adopted a volume submitter document, which received a favorable opinion letter from the Internal Revenue Service (IRS) on January 1, 2009, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. Administration errors, if any, that are insignificant or operational in nature, are handled by the Plan administrator in accordance with applicable IRS correction policies.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2010.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

An employee may enroll in the first day of the Plan year quarter after becoming eligible. The trustee of the Plan is Reliance Trust Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2013, the Plan sponsor closed its operations for Alcastco, Inc., the wholly owned subsidiary. The closure did not have a significant impact on the Plan's financial statements.

2. Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, to the maximum extent allowed by law ($17,500 for 2013). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to $5,500 for 2013. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company has the option to make a matching contribution for Plan participants but is not required to do so under the Plan. During the year ended December 31, 2013, the Company elected to match 50% of participant contributions up to 6% of participant compensation. Contributions are subject to certain IRS limitations.

3. Investment Options

Participants can direct employee and employer contributions, as desired, in any of a variety of investment options held by Massachusetts Mutual Life Insurance Company. Participants can change their investment options daily.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Vesting

Participant contributions, rollovers, Company qualified non-elective contributions and actual earnings on all such contributions are fully vested at all times. Vesting of the Company's matching contributions, non-elective contributions, and actual earnings on such contributions are based upon the participant's years of service with the Company as follows:

In the event of death or disability, a participant's beneficiary or the participant is entitled to the total value of the participant's account.

7. Forfeitures

Forfeitures of terminated participants' nonvested accounts are applied against future Company matching contributions or reallocated to participants, during 2013 and 2012 applied forfeitures were $2,542 and $407, respectively. As of December 31, 2013 and 2012, there were no outstanding forfeitures available.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

8. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. All notes receivables are secured by the balance in the participant's account and bear interest at rates ranging from 7% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through weekly payroll deductions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The accompanying financial statements have been prepared based on the accrual basis of accounting.

2. Plan Administration

The Company is the Plan sponsor and the Plan administrator. The Plan administrator is responsible for carrying out the duties imposed under ERISA.

3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

4. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Risks and Uncertainties

The Plan provides for various investment options in mutual funds. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

The Plan invests, through mutual funds, in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

6. Payment of Benefits

Benefits are recorded when paid.

7. Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

8. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2013 and 2012.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

9. Subsequent Events

The Plan has evaluated subsequent events through July 9, 2014, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS AND CERTIFICATION BY TRUSTEE

The trustee, Reliance Trust Company, has been granted discretionary authority to invest and reinvest the assets of the trust, subject to the investment discretion of the individual participants over Company contributions and participant contributions.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Reliance Trust Company, the directed trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

Total investments and notes receivable from participants held and certified by Reliance Trust Company, the directed trustee, in the accompanying statements of net assets available for plan benefits were $3,149,298 and $2,994,664 as of December 31, 2013 and 2012, respectively. Net investment income and interest on notes receivable from participants certified by Reliance Trust Company was $458,570 at December 31, 2013.

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $323,613. These investments consist of mutual funds offered by the trustee.

NOTE C - INVESTMENTS AND CERTIFICATION BY TRUSTEE (Continued)

NOTE D - FAIR VALUE MEASUREMENTS

Fair value framework provides a hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

NOTE E - PARTY-IN-INTEREST TRANSACTIONS

Reliance Trust Company is the Plan's trustee. All investments were held with the trustee. Massachusetts Mutual Life Insurance Company provides recordkeeping series for the Plan. Notes receivable from Plan participants and the related interest income are also considered party-in-interest transactions.

During the years ended December 31, 2013 and 2012, the Company processed loan repayments totaling $63,640 to the Plan on an untimely basis, in accordance with Department of Labor Regulations. As a result, the Company intends to reimburse the Plan for lost earnings for late remittances as soon as reasonably possible.

NOTE F - INCOME TAX STATUS

The Employer adopted a volume submitter document, which received a favorable opinion letter from the Internal Revenue Service (IRS) on January 1, 2009, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. Administration errors, if any, that are insignificant or operational in nature, are handled by the Plan administrator in accordance with applicable IRS correction policies.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2010.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
