401(K) PLAN

Notes to Financial Statements

December 31, 2013

Note A Description of the Plan

The following description of the Blanchard Training & Development, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on October 1, 1989 as a defined contribution plan under the provision of section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC. The Plan was amended and restated in its entirety effective January 1, 2010. The Plan is available to substantially all eligible employees of the Company and its affiliate Blanchard Management Corporation. The Company contracted with Charles Schwab Trust Company ("Schwab") to provide Plan recordkeeping, administrative and investment services and to serve as custodian and trustee of the Plan's assets. Plan participants may choose to invest in publicly traded funds, in addition to those offered by the Plan, with the condition that these accounts are offered by Schwab. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Generally, an employee is eligible to participate in the Plan, for purposes of making voluntary salary deferral contributions, upon attaining age 21 and completing 30 days of service. Plan entry dates are January 1, April 1, July 1 or October 1 following the date eligibility requirements are met. An employee is eligible to participate in matching and profit sharing contributions, at the quarterly entry dates, upon completion of one year of service. A year of service is defined as the first twelve consecutive months of employment in which the employee has been credited with 1,000 or more hours of service.

Participant Contributions

Participants may contribute any portion of their annual compensation into a pre-tax deferral account and/or an after-tax Roth account, subject to the limits allowable under the IRC. Participants may also contribute amounts representing rollover distributions from other qualified plans.

Employer Contributions

The Company matching contribution is a discretionary plan election. Company match was elected for Plan year 2013 at the rate of 25% of the first 12% of salary contributed. The Company may also provide a discretionary profit sharing contribution; however, no such contribution was made or declared for the period presented.

Note A Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contributions and allocations of (a) the Company's profit sharing contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. As permitted under the Plan, participants are able to invest their account balance in the investment alternatives offered by the Plan in proportion they select. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes Receivable from Participants

The Plan allows participants to borrow against their vested account balances. Loans may not be made for less than $1,000 and may not exceed $50,000 or 50% of a participant's vested account balance. Loan transactions are treated as a transfer from (to) the investment fund to (from) the loan fund. Loan repayment periods may not exceed five years. However, loans that are used to purchase a participant's personal residence may be repaid over a period not to exceed ten years. The interest rate for loans is a reasonable rate of interest to be determined based on current interest rates.

Vesting and Forfeitures

Participants are 100% vested in their salary reduction and rollover accounts plus actual earnings thereon. Vesting in the Company matching contributions, is achieved as follows:

Completed Years of Qualified Service	Vesting Percentage
Less than 1	0%
1 or more	33%
2 or more	66%
3 or more	100%

A year of qualified service, for vesting purposes, starts with a participants' hire date and consists of a consecutive twelve month period in each Plan year in which 1,000 or more hours of service are completed. Non-vested balances of employees who terminate prior to becoming fully vested are forfeited and utilized by the Company to reduce matching contributions. Non-vested forfeited account balances at December 31, 2013 and 2012 were $0 and $1,033, respectively. Forfeitures used by the Company during 2013 to offset matching contributions were $1,033.

Distributions

Distribution from a participant's account is generally made upon termination of employment, death, disability or retirement. Participants or their beneficiary may receive payment in the form of a lump-sum distribution, rollover to IRA accounts, or rollover to another qualified plan. Generally, distributions made during a participant's employment are limited to hardship distributions, attainment of age 59½ or an in-service distribution of a rollover account at any time. If a participant's account at termination is $1,000 or less, the Company may distribute the account balance in one lump sum without prior approval of the participant.

Note A Description of the Plan (continued)

Administrative Expenses

Administrative expenses related to the administration of loans are deducted from participant accounts in accordance with the Plan provisions. Participants who invest in the self-directed brokerage account pay a $100 annual account fee for maintaining the Personal Choice Retirement Account. All other administrative expenses are paid directly by the Company.

Certain investment management fees and other charges paid to the custodian are offset against fund performance in the net appreciation section of the statement of changes in net assets available for benefits and are not, therefore, separately reflected as investment expenses.

Plan Termination Provision

Although the Company has not expressed any intent to do so, it has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participant accounts become fully vested and nonforfeitable.

Note B Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are reported on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are stated at fair value which is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note E for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The realized gain or loss on investments is included with unrealized appreciation or depreciation in the current value of investments.

Reclassifications

Certain accounts from the prior year may have been reclassified to conform to the current year presentation.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that may affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Note B Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Date of Management's Review

Subsequent events were evaluated by management through June 24, 2014, which is the date the financial statements were available to be issued.

Note C Plan Investments

Note D Income Tax Status

The Internal Revenue Service has determined and informed the Company in a letter dated May 23, 2008, that the Plan and related Trust are designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan continues to be qualified, and the related Trust continues to be tax-exempt, as of the date of these financial statements. The Plan may be subject to routine audits by taxing jurisdictions generally for a period of three years from filing its Form 5500.

Note E Fair Value Measurements

FASB ASC 820, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include a) quoted prices in active markets for similar assets b) quoted prices in inactive markets for similar assets c) inputs other than quoted prices that are observable for the asset or d) inputs that are derived primarily from observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There have been no changes in the methodologies used at December 31, 2013 and 2012. The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price.

Money market funds/cash equivalents: Valued at cost which approximates market and includes investments such as a certificates of deposit, government agency/commercial papers and cash accounts.

Common collective trusts: Valued based on the underlying investments such as equities, bonds, mutual funds and stable value funds.

Common stock: Valued at the closing price reported in the active market in which the individual security is traded.

Unit investment trust funds: Valued at the closing price reported in the active market in which the underlying Exchange Traded Fund (ETF) is traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Note F Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
