1. Description of Plan

The following description of the MAI Systems Corporation Retirement Benefit Plan (the Plan), formerly the MAI Basic Four, Inc. Retirement Benefit Plan, provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan designed for the purpose of providing retirement benefits for all eligible employees of MAI Systems Corporation (MAI). SoftBrands, Inc. (SoftBrands) acquired MAI effective August 14, 2006. SoftBrands was subsequently acquired by Infor, Inc. (the Company or Sponsor) in 2009. The Plan became effective January 15, 1988, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The operations of the Plan are directed by a plan administrator, appointed by the Board of Directors or Benefits Committee of the Company. The contract holder of the Plan is Metropolitan Life Insurance Company (MetLife).

Eligibility and Vesting

In 1988, MAI purchased Sorbus, which had an existing defined benefit plan (the Sorbus Plan). Each employee who was a participant in the Sorbus Plan on or before January 14, 1988, and became an employee of MAI on January 15, 1988, became a participant in the Plan as of January 15, 1988. Employees who were not previously enrolled in the Sorbus Plan became eligible in the first year after they had attained 21 years of age during or after the first year of service and completed 1,000 hours of service, provided they were employed by Sorbus prior to the acquisition of MAI.

The Plan's management and Sponsor's Board of Directors elected to freeze the accrual of plan benefits as of April 30, 1992. Therefore, no further benefits accrued after April 30, 1992. All participants continued to vest in their benefits subsequent to the plan benefit freeze. As of September 30, 1995, all participants were 100 percent vested. Although the accrual of benefits has been frozen, the Sponsor will remain responsible for future funding obligations as required by ERISA. The amount of funding will depend upon the value of the Plan's assets in relation to its obligations.

Funding

The Company has voluntarily established the Plan and has agreed to make annual contributions to the Plan that will be sufficient to provide pension benefits to participants. The Company's funding policy is to make quarterly contributions and a final adjusting contribution to the Plan each year as necessary to meet the funding requirements of ERISA. The Company's annual contributions to the Plan are calculated by applying actuarial assumptions to adjust the accumulated plan benefits for the time value of money and the probability of payment. These actuarial assumptions are anticipated to reflect actual future experience and are reviewed periodically and adjusted as necessary. The actuarial cost method and significant assumptions underlying this estimate are set forth in Note 5. The Company's contributions for 2013 and 2012 met the minimum funding requirements of ERISA.

Payment of Benefits

Upon retirement on or after the normal retirement date (the participant's 65th birthday), a participant shall be entitled to receive a lifetime annual pension, payable monthly or distributed as a lump-sum if the lump-sum does not exceed $5,000, where the annual pension amount is equal to the greater of:

(i) One percent of the participant's total career income while an employee of MAI, or

(ii) One hundred dollars multiplied by the number of years in the participant's period of service accumulated while an employee of MAI.

If an employee is eligible for and elects early retirement (the participant's 55th birthday with 10 years of vesting), the employee's benefit will be reduced to account for the change in retirement date.

If a married participant who is vested in any portion of his accrued benefit should die prior to the retirement pension starting date, the spouse shall be entitled to receive a pre-retirement survivor annuity. The annuity will be distributed to the spouse as a lump-sum distribution if the amount of such distribution does not exceed $5,000. The spouse may elect to receive a lump-sum distribution rather than monthly annuity payments if the distribution is over $5,000.

If a married participant should die subsequent to the retirement pension starting date, the spouse shall be entitled to receive a survivor annuity in either a lump-sum distribution or monthly annuity payments.

Administrative Expenses

The Plan's administrative and investment fees are paid from plan assets and all other expenses of the Plan are paid by the Sponsor.

2. Summary Of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual method of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of plan assets and the actuarial present value of accumulated plan benefits, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets available for benefits and accumulated benefits. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Realized gains and losses related to sales of investments are recorded on a trade-date basis and unrealized gains and losses are recorded based on the fair values at the end of the reporting period.

Net Appreciation (Depreciation) in Fair Value of Investments

The statements of changes in net assets available for benefits include the net appreciation (depreciation) in the fair value of investments which consists of the realized gains or losses on investments sold and the change in unrealized appreciation (depreciation) on held investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

3. Fair Value Measurements

In accordance with GAAP, the Plan utilizes a fair value hierarchy for valuation inputs that gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, inputs other than quoted prices that are observable for the asset, inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Pooled separate accounts are valued at the net asset value (the NAV) of the underlying securities held by the Plan at year end less its liabilities. The fair value of the units held in pooled separate accounts is based on quoted market prices of the underlying investments in the account. The NAV, as provided by the contract holder, is used as a practical expedient to estimate fair value.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of:

	Fair Value Measurements			
September 30, 2013	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Equity	$ -	$ 1,339,815	$ -	$ 1,339,815
Bonds	-	947,163	-	947,163
Total	$ -	$ 2,286,978	$ -	$ 2,286,978

	Fair Value Measurements			
September 30, 2012	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Equity	$ -	$ 1,170,949	$ -	$ 1,170,949
Bonds	-	989,244	-	989,244
Total	$ -	$ 2,160,193	$ -	$ 2,160,193

For the year ended September 30, 2013, there were no transfers between levels 1, 2 or 3.

4. Net Asset Value Per Share

The following tables set forth a summary of the Plan's investments measured at fair value based on the NAV:

September 30, 2013

Pooled Separate Account Investments	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Equity[1]	$ 1,339,815	None	Monthly	31 days
Bonds[2]	947,163	None	Monthly	31 days
	$ 2,286,978			

September 30, 2012

Pooled Separate Account Investments	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Equity[1]	$ 1,170,949	None	Monthly	31 days
Bonds[2]	989,244	None	Monthly	31 days
	$ 2,160,193			

(1) The equity pooled separate account's objective is to outperform the S&P 500 Index and the median manager in an appropriate universe of equity managers.

(2) The bond pooled separate account's objective is to outperform the Barclays ® U.S. Aggregate Bond Index, net of fees, over a full market cycle.

5. Actuarial Present Value Of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died.

The actuarial present value of accumulated plan benefits is determined by Aon Hewitt (the Actuary) and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death or retirement) between the valuation date and the expected date of payment. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The following significant assumptions were used in the actuarial valuations:

October 1,	2012	2011
Long-term investment rate	8.00%	8.00%
Interest rate - contributions	6.80%	5.29%
Normal retirement age	2% at ages 55 to 59; 5% at ages 60 to 61; 10% at ages 62 to 64; 75% at age 65; and 100% over 65	2% at ages 55 to 59; 5% at ages 60 to 61; 10% at ages 62 to 64; 75% at age 65; and 100% over 65
Mortality table	2012 static mortality table for annuitants and non-annuitants	2011 static mortality table for annuitants and non-annuitants
Actuarial method	Standard unit credit cost	Standard unit credit cost

At October 1, 2012 (beginning of Plan fiscal year), the present value of accumulated plan benefits was as follows:

Actuarial present value of accumulated plan benefits:	
Participants and beneficiaries currently receiving benefits	$ 1,794,018
Other participants	658,270
Total actuarial present value of accumulated plan benefits	$ 2,452,288

The changes in the actuarial present value of accumulated plan benefits were as follows:

Actuarial present value of accumulated plan benefits, October 1, 2011	$ 2,793,093
Increase (decrease) during the year attributable to:	
Benefits paid	(191,278)
Increase for interest due to decrease in discount period	183,534
Changes in actuarial assumptions	(310,550)
Other	(22,511)
Actuarial present value of accumulated plan benefits, October 1, 2012	$ 2,452,288

6. Investments

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by MetLife, except for comparing such information certified by MetLife to information included in the Plan's financial statements and supplemental schedules.

MetLife has provided the Plan Administrator with a certification as to the completeness and accuracy of the investments aggregating $2,286,978 and $2,160,193 at September 30, 2013 and 2012, respectively, and the related net appreciation (depreciation) in fair value of investments of $150,129 and $297,599 and interest and dividends of $45,864 and $51,775 for the years ended September 30, 2013 and 2012, respectively. Such amounts are included in the accompanying financial statements and supplemental schedules based on the certification from MetLife.

The following table presents the fair values of investments that represent 5 percent or more of the Plan's net assets:

September 30,	2013	2012
Metropolitan Life Insurance Company Large Cap Core Equity Fund (Pooled Separate Account No. 40)	$ 1,339,815	$ 1,170,949
Metropolitan Life Insurance Company Broad Market Bond Fund (Pooled Separate Account No. 41)	947,163	989,244

The Plan's investments (including investments purchased, sold and held during the year) appreciated (depreciated) in fair value as follows:

Years Ended September 30,	2013	2012
Equity	$ 181,281	$ 263,088
Bond	(31,152)	34,511
Net Appreciation (Depreciation) in Fair Value of Investments	$ 150,129	$ 297,599

7. Plan Termination

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. If such a termination were to occur, the net assets of the Plan would be allocated in the order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan agreement. Any funds remaining in the Plan after satisfaction of all liabilities to plan participants shall be returned to the Company.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of any individual's monthly benefit.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

8. Tax Status

The Plan obtained its latest determination letter on June 20, 2012, in which the Internal Revenue Service (IRS) stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of September 30, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Parties-In-Interest And Related Party Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain plan investments are shares of funds managed by MetLife. MetLife is the contract holder; therefore, these transactions qualified as parties-in-interest transactions. However, such transactions are exempt from the prohibited transaction rules of ERISA.

10. Subsequent Events

Plan management has evaluated all other subsequent events, for potential recognition or disclosure in the financial statements, through July 10, 2014, the date the financial statements were available to be issued.
