REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator
Retirement Plan for Employees of Bristol Babcock Inc.,
United Steelworkers of America Local 895L

Report on the financial statements

We were engaged to audit the accompanying financial statements of the Retirement Plan for Employees of Bristol Babcock Inc., United Steelworkers of America Local 895L (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in note I, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of September 30, 2013 and 2012,

and for the years then ended, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in note I, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Retirement Plan for Employees of Bristol Babcock Inc., United Steelworkers of America Local 895L (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit plan sponsored by Emerson Electric Co. (the Company) covering all employees hired prior to May 1, 2004, who are covered by the basic labor agreement between the Company and Bristol Babcock Inc., United Steelworkers of America Local 895L. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan's investments are held by The Northern Trust Company (the Trustee).

Pension Benefits

Under terms of the Plan, participants are eligible for monthly benefit payments upon reaching the normal retirement age, being the later of age 65 or five years of pension-credited service. The Plan provides for participant vesting with five years of pension-credited service. Annual benefit payments are determined by multiplying the following benefit multiplier and the years of pension-credited service as of the participant's date of termination.

Credited service period	Benefit multiplier
February 2, 1986 through May 1, 1998	$324
May 2, 1998 through May 1, 2001	360
May 2, 2001 through May 1, 2004	396
May 2, 2004 through March 31, 2007	480
April 1, 2007 through March 31, 2009	486
April 1, 2009 through March 31, 2011	492
April 1, 2011 and thereafter	498

Participants who terminate or request early retirement may receive their benefits prior to their normal retirement date; however, the benefits will be reduced by factors listed in the Plan agreement. Benefits are further reduced by amounts distributed to participants from any public pension other than a benefit under Title II of the Social Security Act or from any other defined benefit plan or defined contribution plan to the extent benefits are not attributable to the participant's own contributions.

Vesting

The Plan provides for participant vesting with five years of pension-credited service.

Death and Disability Benefits

If an employee dies after becoming vested, the participant's surviving spouse shall be paid a survivor annuity for the life of the surviving spouse, equal to the annuity that would be payable to the surviving spouse under an automatic survivor benefit commencing at the date the employee would have become eligible for an early retirement benefit had the employee lived.

Contributions and Funding

Contributions from the Company are subject to Internal Revenue Service (IRS) limitations and are based upon actuarial calculations of normal cost. The Company satisfied the minimum funding requirements of ERISA.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, the actuarial present value of accumulated Plan benefits at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments in the value Emerson Electric Co. Master Trust (Master Trust) are stated at fair value as determined based on the fair value of the underlying investments of the Master Trust. See note D for discussion on fair value measurement.

The Plan's interest in the Master Trust is based on an allocation of the Plan's assets compared to total assets in the Master Trust. Purchases and sales of investments are recorded on a trade-date basis. Investment income is recorded as earned. Dividends are recorded at ex-dividend date.

Investors may use various financial instruments, particularly forward foreign currency contracts, options and futures, commonly referred to as derivatives, to manage risk. No investments are engaged in market making or other speculative activities. Established practices require that derivative financial instruments relate to specific asset, liability or equity transactions, or to currency exposure.

Expenses

Investment management and certain administrative expenses are paid by the Plan. Expenses include Pension Benefit Guaranty Corporation (PBGC) premiums and professional fees.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE C - INTEREST IN MASTER TRUST

The Plan's investments are in the Master Trust that was established for the investment of assets of the Plan and several other Company-sponsored retirement plans. Each plan in the Master Trust has an undivided interest in the Master Trust. At September 30, 2013 and 2012, the Plan's interest in the net assets of the Master Trust was approximately 0.37% and 0.39%, respectively. Investment income and investment expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan. The net assets of the Master Trust at September 30, 2013 and 2012, are summarized as follows (in thousands):

	2013	2012

NOTE D - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board has issued guidance regarding the disclosure of fair value measurements. The guidance establishes a formal hierarchy and framework for measuring fair value and provides guidance on the disclosure of fair value measurements and the reliability of valuation inputs. Under the guidance, measurement assumes the transaction to sell an asset or transfer a liability occurs in the principal or at least the most advantageous market for that asset or liability. Within the hierarchy, Level 1 instruments use observable market prices for the identical item in active markets and have the most reliable valuations. Level 2 instruments are valued through broker/dealer quotations or through market-observable inputs for similar items in active markets, including forward and spot prices, interest rates, and volatilities. Level 3 instruments are valued using inputs that are not observable in an active market, such as company-developed future cash flow estimates, and are considered the least reliable. The following tables are in thousands:

The primary objective for the investment of Plan assets is to secure participant retirement benefits while earning a reasonable rate of return. Plan assets are invested consistent with the provisions of the prudence and diversification rules of ERISA and with a long-term investment horizon. The Company continuously monitors the value of assets by class and routinely rebalances to remain within target allocations. The strategy for equity assets is to minimize concentrations of risk by investing primarily in companies in a diversified mix of industries worldwide, while targeting neutrality in exposure to market capitalization levels, growth versus value profile, global versus regional markets, fund types and fund managers. The approach for bonds emphasizes investment-grade corporate and government debt with maturities matching a portion of the longer-duration pension liabilities. The bonds strategy also includes a high-yield element, which is generally shorter in duration. A small portion of the U.S. Plan assets is allocated to private equity partnerships and real assets fund investments for diversification, providing opportunities for above-market returns. Leveraging techniques are not used and the use of derivatives in any fund is limited to exchange-traded futures contracts and is inconsequential.

U.S. equities reflect companies domiciled in the U.S., including multi-national companies. International equities are comprised of companies domiciled in developed nations outside the U.S. Emerging market equities are comprised of companies domiciled in portions of Asia, Africa, Eastern Europe and Latin America.

Government bonds include investment-grade instruments issued by federal, state and local governments, primarily in the U.S. Corporate bonds represent investment-grade debt of issuers primarily from the U.S. High-yield bonds include non-investment-grade debt from a diverse group of developed market issuers.

Other assets include cash, interests in mixed asset funds investing in commodities, natural resources, agriculture and exchange-traded real estate funds, life insurance contracts (U.S.) and shares in certain general investment funds of financial institutions or insure arrangements (non-U.S.) that typically ensure no market losses or provide for small minimum return guarantee.

Valuations of Level 1 assets for all classes shown above are based on quoted closing market prices from the principal exchanges where the individual securities are traded. Cash is valued at cost, which approximates fair value.

Equity securities categorized as Level 2 assets are primarily non-exchange-traded commingled or collective funds in which the underlying securities have observable prices available from active markets. Valuation is based on the net asset value (NAV) of fund units held as derived from the fair value of the underlying assets. Funds based on NAV are valued daily and no redemption restrictions.

Debt securities categorized as Level 2 assets are generally valued based on independent broker/dealer bids or by comparison to other debt securities having similar durations, yields and credit ratings. Other Level 2 assets are valued based on a NAV of fund units held, which is derived from either broker/dealer quotations or market-observed pricing for the underlying assets. Funds based on NAV are valued daily and have no redemption restrictions.

Limited partnerships are valued at NAV based on units/shares held at year-end, which are obtained from a third-party pricing source obtained by fund manager. Insurance contracts are valued by the applicable insurance company. These are Level 3 investments.

A reconciliation of the change in value for Level 3 assets, primarily limited partnerships, are as follows as of September 30, 2013 and 2012 (in thousands):

	2013	2012
Beginning balance	$133,050	$149,285
Realized loss	26,694	12,307
Unrealized loss	(21,561)	(14,407)
Purchases	20,053	19,195
Sales	(33,480)	(33,330)
Ending balance	$124,756	$133,050

NOTE E - PLAN TERMINATION AND PBGC MATTERS

The Company has not expressed any intention to terminate the Plan. However, in the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

NOTE F - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees of their beneficiaries.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of September 30, 2012 and 2011, are as follows:

Discount rate	4.00% in 2012; 4.75% in 2011
Mortality	RP2000 Mortality Table without collar or amount adjustments, projected to 2017, using Scale AA
Retirement age	Varies by age between 55 and 69 with 100% retired by age 70

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits as of September 30, 2012, is as follows:

Actuarial present value of accumulated Plan benefits	
Vested benefits	
Participants and/or beneficiaries currently receiving benefits	$11,873,218
Other participants	3,557,374
Total vested benefits	15,430,592
Non-vested benefits	13,400
Total actuarial present value of accumulated Plan benefits	$15,443,992

The changes in the actuarial present value of accumulated Plan benefits for the year ended September 30, 2012, consist of the following:

Actuarial present value of accumulated Plan benefits, September 30, 2011	$14,794,415
Increase (decrease) during the year attributable to	
Benefits accumulation	74,313
Interest accumulation	577,591
Benefits paid	(1,292,207)
Change in assumptions	1,289,880
Net increase	649,577
Actuarial present value of accumulated Plan benefits, September 30, 2012	$15,443,992

NOTE G - INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated August 1, 2011, that the Plan and related Master Trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan and related Master Trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

NOTE H - RISKS AND UNCERTAINTIES

The Plan's investment in the Master Trust is exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and may impact the funded position of the Plan. As a result, the Plan may require additional funding in subsequent years.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE I - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Plan interest in Emerson Electric Co. Master Trust, as shown in the statements of net assets available for benefits as of September 30, 2013 and 2012.

- Plan interest in Emerson Electric Co. Master Trust net investment income, as shown in the statements of changes in net assets available for benefits for the years ended September 30, 2013 and 2012.

- Master Trust net assets and net investment income as of and for the years ended September 30, 2013 and 2012, as shown in note C.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

NOTE J - PARTIES-IN-INTEREST

The Plan's investments are held in the Master Trust at the Trustee. The Trustee charges fees for the management of the account. Fees charged to the Master Trust are ordinary and customary. These fees qualify as permitted party-in-interest transactions under ERISA.

NOTE K - SUBSEQUENT EVENTS

Plan management evaluated subsequent events after the balance sheet date of September 30, 2013 through June 30, 2014, the date the financial statements were available to be issued. Plan management is not aware of any subsequent events that would require recognition or disclosure in the accompanying financial statements.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality:

- **Healthy**

  Separate rates for non-annuitants (based on RP-2000 "Employees" table without collar or amount adjustments, projected to 2027 using Scale AA) and annuitants (based on RP-2000 "Healthy Annuitants" table without collar or amount adjustments, projected to 2019 using Scale AA).

- **Disabled**

  Separate rates for non-annuitants (based on RP-2000 "Employees" table without collar or amount adjustments, projected to 2027 using Scale AA) and annuitants (based on RP-2000 "Healthy Annuitants" table without collar or amount adjustments, projected to 2019 using Scale AA).

Termination

Rates varying by age and service, per 1,000 participants as follows:

Representative Termination Rates

Percentage leaving during the year

	Years of Service		
Attained Age	0-3	3-5	5+
20	200	150	150
25	200	150	150
30	200	150	120
35	200	150	100
40	200	150	90
45	200	150	80
50	200	150	70
55	200	150	60
60	200	150	50
65	0	0	0

Disability

Rates at which participants become disabled varying by age and gender, per 1,000 participants as follows:

Percentage becoming disabled during the year

Age	Males	Females
39 or less	0.68	0.82
40-44	1.41	2.38
45-49	2.70	3.29
50-54	5.11	4.72
55-59	9.28	7.18
60-64	12.42	8.14

Retirement

Rates varying by age, per 1,000 participants as follows:

Percentage retiring during the year	
Age	Rate
55-59	70
60-61	110
62	300
63-64	210
65-69	300
70	1,000

Form of payment

Normal form of payment as described in plan provisions. For ENP – ES plan, employees are assumed to take a lump sum distribution.

Percent married

80%

Spouse age

Wife three years younger than husband.

Valuation pay

In general, reported 2011 W-2 pay. This pay is projected by the Salary Increase Rate assumption to approximate pay for the October 1, 2012 plan year.

Plan-related expenses

Emerson Retirement Plan	$ 3,708,000
Bristol Union	35,000
Copeland Hourly	114,000
ENP – ES	46,000
Fisher Bargaining	94,000
Kato Local #1999	48,000
Kop-Flex Hourly	9,000
McGill Hourly #1	54,000
Power & Water Solutions	93,000
Urick Hourly	0

Timing of benefit payments

Annuity payments are payable mid-year.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued.
Change in assumptions and methods since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of June 2011 to June 2012. The segment rates used to determine minimum funding requirements and benefit restrictions were revised by applying the corridors of MAP-21, but, as required by MAP-21, such rates have not been reflected in Section 2.6: Calculation of Estimated Maximum Deductible Contribution. The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements. The salary increase rate and the assumed rates of retirement were revised to reflect anticipated experience, based on the results of a recent experience study. The assumed plan-related expenses added to the target normal cost were changed to reflect the amount expected to be paid during the plan year beginning October 1, 2012.
Data Sources	Towers Watson used asset data supplied by the trustee. Emerson furnished participant data. Emerson furnished the dates and amounts of the 2011 plan year contributions that were paid during the 2012 plan year. Data was reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made by the Towers Watson actuaries when no data was available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
