Plymouth Tube Company 401(k) Savings Plan and Trust

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Plymouth Tube Company 401(k) Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined-contribution plan. All salaried and hourly employees of Plymouth Tube Company (Company) who have completed 30 days of service and who are not covered by a collective bargaining agreement are eligible to participate. Pursuant to certain collective bargaining agreements, collectively bargained employees at Winamac and East Troy locations were eligible to participate effective January 1, 1998 and January 1, 2005, respectively. The Plan is subject to the provisions of ERISA.

Contributions: The Plan allows eligible employees to contribute between 2 percent and 100 percent of their pre-tax compensation, up to the maximum amount allowed by the Internal Revenue Code (IRC). The Plan provides for automatic enrollment. Participants are treated as having elected to contribute 3 percent of their pre-tax compensation, unless a different amount or an election not to contribute has been submitted. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Plan is designated as a safe-harbor plan. For participants not covered by a collective bargaining agreement, employer contributions are 100 percent of deferral that do not exceed 3 percent of compensation plus 50 percent of the salary deferrals between 3 and 5 percent of compensation. For collectively bargained employees at the Winamac location, employer contributions are 100 percent of deferrals that do not exceed 3 percent of compensation. Pursuant to a collective bargaining agreement, participants of the East Troy location are not eligible for discretionary employer matching contributions.

In addition, the Company's Board of Directors will determine the amount of any additional profit sharing contributions to be made. There were no additional profit sharing contributions during the year ended December 31, 2013.

Contributions are subject to certain limitations as provided in the IRC and described by the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and plan earnings, and charged with an allocation of administration expenses. Allocations are based on a participant's compensation or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants not covered by collective bargaining agreements are immediately vested in their contributions, safe-harbor employer contributions and the earnings thereon. Vesting in Company contributions made prior to the January 1, 2006, safe-harbor amendment, the earnings thereon and vesting for employees covered by collective bargaining agreements is determined in accordance with the following schedule:

Years of Service	Vesting Percentage
Less than 1 year	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance, whichever is less. The loans are secured by 50 percent of the vested balance in the participant's account. Only one loan may be outstanding at any time. Interest rates are established at loan origination as prime plus 1 percent. Interest rates on loans currently outstanding range from 4.25 to 5 percent. Loan repayment must be monthly over a period not to exceed five years, except for loans used to purchase a primary residence where the repayment period may be as long as 30 years. The loans are collateralized by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions.

Investment options: Participants may direct the allocation of contributions to select investments as made available and determined by the Plan Administrator. Participants may transfer monies between funds and change the allocation of their investment elections monthly.

Payment of benefits: On termination of service due to death, disability, or retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested balance in his or her account. Partial payments are allowed in the minimum amount necessary to satisfy IRC 401(a)(9). In-service withdrawals prior to termination of service are allowed for any reason after attaining age 59½.

Forfeitures: At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$5,244 and \$1,220, respectively. These accounts will be used to reduce future employer contributions. In 2013, \$1,511 of forfeited nonvested accounts was used to reduce employer contributions.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Significant Accounting Policies (Continued)

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: The Company pays all administrative costs of the Plan except those incurred and assumed by individual participants.

Recent accounting pronouncement: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update are effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of this update was not significant to these financials.

Subsequent events: The Plan Administrator has evaluated subsequent events through July 9, 2014, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Putnam Fiduciary Trust Company, the Plan Trustee

The following is a summary of the Plan's asset and income information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These shares are required to publish their daily net asset value (NAV) and to transact at that price. The shares held by the Plan are deemed to be actively traded.

Collective investment trust: Valued based on the NAV of units of the collective investment trust. The NAV, as provided by Putnam Fiduciary Trust Company, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 5. Investments (Continued)

During the year ended December 31, 2013, the Plan's investments, including gains and losses on investments bought and sold as well as held during the year, appreciated in value by \$5,164,858 as follows:

	<u>2013</u>
Shares of registered investment companies	\$ 4,321,943
Collective investment trust	<u>842,915</u>
	<u>\$ 5,164,858</u>

The contract value of the Plan's investment in Putnam Stable Value Fund, which invests in fully benefit-responsive investment contracts, is \$4,711,214 and \$5,380,998 at December 31, 2013 and 2012, respectively.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers in or out of Level 3.

Note 6. Related Party Transactions

Certain funds of the Plan are managed by Putnam Fiduciary Trust Company. Putnam Investments is related to the trustee by common ownership. Therefore, these are party-in-interest transactions.

Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for these services.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Tax Status

The Plan has adopted a prototype plan of the trustee. The trustee requested that the Internal Revenue Service (IRS) provide an opinion related to the acceptability of the prototype plan under Section 401 of the IRC and received a favorable opinion. The Plan has been amended since receipt of the IRS determination letter. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for the years before 2010.
