JCI INDUSTRIES, INC. PROFIT SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The following description of the JCI Industries, Inc. Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

General – The Plan is a defined contribution plan covering all eligible employees of JCI Industries, Inc. (the "Company") who are 20½ years of age and have completed three months of service. Eligible employees may enter the Plan on the first day of January or July that coincides with or next follows the date on which the requirements are satisfied. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was restated effective January 1, 2009.

Reliance Trust Co. ("RTC") serves as the Plan's custodian and DailyAccess Corporation serves as the Plan's recordkeeper. An officer of the Company serves as the Plan's trustee.

Contributions – Participants may contribute amounts up to certain Internal Revenue Code ("IRC") limitations. The Company may make discretionary matching contributions to the Plan. In 2013, the Company made discretionary matching contribution of 25% up to 6% of eligible compensation to the plan. The Company may also make a discretionary nonelective contribution. In order to share in the discretionary nonelective contribution, if any, a participant must be employed on the last day of the Plan year and have 1,000 hours of service during that Plan year. No discretionary nonelective contribution was made by the Company during 2013.

Participant Accounts – Each participant's account is credited with the participant's contribution and an allocation of Company contributions and Plan earnings and is charged with the participant's withdrawals and distributions. Allocations are based on participant earnings as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments – Participants direct their contributions into various mutual funds or a collective investment trust.

Vesting – Participants are vested immediately in their voluntary salary deferral contributions. Vesting for the discretionary matching contribution and the discretionary nonelective contribution is 25% after two years of service, with an additional 25% accruing with each additional year of service. Full vesting occurs after five years of service.

Forfeitures – Forfeitures occur upon termination of employment by a participant who is not fully vested in the Plan. Forfeitures will be used by the Company to reduce future employer contributions, and any remaining amounts will be used to pay administrative expenses. There is \$309 and \$0 available in forfeitures as of December 31, 2013 and 2012, respectively.

Payment of Benefits – Upon termination of service due to any reason, a participant with a balance of less than \$1,000, will be distributed in a lump sum payment. For balances greater than \$1,000, a participant may elect to receive an amount equal to the value of their vested interest in his or her account in the form of a lump sum payment or rollover.

In-Service Withdrawals – As described below, certain participants may make withdrawals prior to termination of employment. Hardship withdrawals are available to Plan participants, as defined by the Plan Document and permitted by the IRC. Hardship withdrawals are limited to the participant's account balance that is 100% vested. A participant taking a hardship withdrawal may not make deferral contributions for six months.

Participants who have obtained the age of 59½ may elect to receive a distribution of all or any portion of their vested account balances in a single lump sum payment.

Notes Receivable from Participants – Participants may borrow a minimum of \$1,000 and a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1-5 years, but may be longer if the loan is for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Administrative Expenses – Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Plan. Expenses include advisor fees of \$5,212 and professional service fees of \$20,322. Total expenses were \$25,534.

Termination of the Plan – Although the Plan Sponsor has not expressed any intent to do so, it has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants will become fully vested in their account balances.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurements attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Contributions – Company and employee contributions are reported in the year services are rendered to the Company by the Plan participants.

Investment Valuation and Income Recognition – The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date, interest is accrued when earned.

The Plan invests in a common and collective trust ("CCT") with Federated Investors Trust Company ("Federated") that is fully benefit-responsive. The investments are held in the Federated Capital Preservation Fund ("Fund"). The Fund invests in stable value products, including Guaranteed Investment Contracts ("GIC's"), synthetic GIC's, and money market funds. The Fund seeks to outperform money market funds in a normal yield curve environment and attempts to maintain a stable unit value of \$10.00. Valuation occurs daily and dividends are declared daily and paid monthly. Contract value represents contributions made to the account, plus earnings on the underlying investment, less participant withdrawals and administrative expenses. The Fund's contract value has been adjusted and reported at fair value in the financial statements, as determined by Federated.

A portion of the management fees and operating expenses charged to the Plan for investments in mutual funds and the CCT are deducted from income earned on a daily basis and are not separately reflected. Consequently, a portion of management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for doubtful account is considered necessary.

Payment of Benefits – Benefit payments are reported in the year paid.

Date of Management's Review – Subsequent events have been evaluated through July 9, 2014 which is the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The hierarchy consists of three broad levels, described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies at December 31, 2013 and 2012.

Mutual Funds – Valued at the published net asset value (NAV) of shares held by the plan at year end.

Collective Investment Trust – Valued at the trust NAV per unit based on fair value of the underlying investments, adjusted for trustee fees accrued daily, if applicable.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The Plan's investments are reported at fair value as follows at December 31, 2013 and 2012.

		Fair Value Measurements Using:		
	Fair Value	Level 1	Level 2	Level 3

	<u>\$ 4,781,187</u>	<u>\$ 4,218,878</u>	<u>\$ 562,309</u>	<u>\$ -</u>

(a) These investments are measured at fair value based on NAV per share at December 31, 2013 and 2012. They are valued daily, may be redeemed daily without restrictions, and with no notice requirements. Additionally, there are no unfunded commitments.

4. INVESTMENTS

The following represents the fair value of investments that represent 5% or more of net assets available for benefits of the Plan at December 31:

	2013	2012
American AM Balanced	\$ 305,211	\$ 247,308
American Growth Fund of America	795,183	617,688
American Investment Co. of America - A	470,584	370,715
American New Perspective - A	523,393	468,522
Franklin US Govt Securities Fund - A	*	288,821
Oppenheimer Global - N	290,619	275,825
Federated Capital Preservation Fund	634,456	562,309
Wells Fargo Advantage Discovery Fund	1,108,910	907,163

* Value of investment did not exceed stated threshold on that particular date.

During 2013, the Plan's investments (including gains and losses on investments bought, sold, as well as held during the year) in mutual funds appreciated in value by \$871,451.

The Plan invests in mutual funds and a collective investment trust, which hold various securities, including U.S. Government Securities, corporate debt instruments and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

5. INFORMATION CERTIFIED BY THE CUSTODIAN

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments as of December 31, 2013 and 2012, and for the year ended December 31, 2013:

- Investments, at fair value, except the Collective Investment Trust at contract value
- Net appreciation in fair value of investments
- Dividend income
- Schedule of Assets (Held at End of Year), excluding Notes Receivable from Participants

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. TAX STATUS

The Company adopted a Prototype Non-Standardized Profit-Sharing Plan which received a favorable opinion letter from the IRS on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since the date of the opinion letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements

of the IRC and that, therefore, the Plan and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.
