1. PLAN DESCRIPTION

The following is a brief description of the Gray Metal Products, Inc. 401(k) Plan (the "Plan") provided for general informational purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan as permitted under Section 401(k) of the Internal Revenue Code ("IRC"). The Plan is funded by participant and employer contributions and covers substantially all employees of Gray Metal Products, Inc. (the "Company" or "Plan Sponsor") who have attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Participants may contribute any amount of their pre-tax compensation to the Plan, subject to a 1% minimum and 88% maximum, limited to the maximum annual limitations by the IRC.

In accordance with Plan provisions, the Company shall match 25% of participants' deferrals, up to a maximum of 5% of the respective participants' eligible compensation. The Plan also has provisions, whereby the Company, at its discretion, has the option to make non-elective contributions to the accounts of all eligible participants. Such allocations should be made in proportion to the eligible participants' earnings compared to all of the eligible earnings of the other employees who also share in the contribution. The Company made no discretionary contributions during the year ended December 31, 2012.

Vesting – Participants are immediately vested in their voluntary contributions, earnings and any rollover contributions. Vesting in the Company's matching and other contributions is based on years of continuous service (0 to 6 years).

Forfeitures – Forfeitures arising under the Plan can be used to reduce the Company's future contributions to the Plan or administrative expenses. Forfeitures used to reduce employer matching contributions or administrative expenses amounted to $920 for the year ended December 31, 2012. Forfeitures available to reduce future employer matching contributions and administrative expenses amounted to $10 as of December 31, 2012 and 2011, respectively.

Notes Receivable from Participants – Participants may borrow from their accounts a maximum of the lesser of $50,000 or 50% of their vested account balances. Note terms range from one to five years, are secured by the balance in the respective participant's account, and bear interest at rates that commensurate with local prevailing interest rates. Principal and interest are paid ratably through regular payroll deductions. Interest rates ranged from 4.25% to 5.50% at December 31, 2012, maturing through October 2016.

Participant Accounts – Each participant's account is credited with the participant's contributions and an allocation of the employer contributions and Plan earnings (losses). Allocations of earnings (losses) are based on participant account balances and investment selections.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants shall be fully vested in their accounts at the date of such termination.

1. PLAN DESCRIPTION (continued)

Payment of Benefits – Benefits are payable upon death, retirement, termination of employment and special hardship situations. Various benefit distributions are available for account balances in excess of $5,000. Options are fully outlined in the Plan document.

Administrative Expenses – Certain costs of administering the Plan were paid by the Plan Sponsor for the year ended December 31, 2012.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – The Plan determines the fair value of assets and liabilities, which are subject to be reported at fair value based on U.S. generally accepted accounting standards. Those standards establish a hierarchy for the determination of fair value, as well as disclosure requirements relative to those assets and liabilities. The hierarchy identifies three levels of input. Level 1 inputs are generally quoted market prices for identical assets or liabilities, which are actively traded on an exchange. Level 2 inputs generally consist of market prices for identical assets, which are not actively traded, or market prices of similar assets or liabilities, which are actively traded on an exchange. Level 3 inputs are referred to as unobservable inputs and consist primarily of information derived by management where Level 1 and Level 2 inputs are not available. These may include such things as present value of expected future cash flows or other valuation methodologies. Under the hierarchy, Level 1 inputs are the most preferred followed by Level 2, and Level 3. Level 3 inputs are to be used when neither Level 1 nor Level 2 inputs are available.

An investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value as of December 31, 2012 and 2011:

Mutual funds: Valued based on the quoted market price available on an active market, which represents the net asset value of the shares held by the Plan at year end.

Common collective trusts: The Invesco Stable Asset ("ISA") fund primarily holds guaranteed and other similar investment contracts, and is fully benefit-responsive. The fair value of the ISA fund is based on the net asset values of the shares held by the Plan at year-end, with an adjustment to contract value, which represents contributions made under the contract, adjusted for interest earnings, transfers, loan activity, and distributions. The State Street Global Advisors ("SSgA") funds are not fully benefit-responsive and are accordingly stated at fair value. Fair values of the SSgA funds are the amounts Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination, or retirement.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in fair value of investments, which includes unrealized and realized gains and losses on investments that were held or sold during the year.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividend income is recognized on the ex-dividend date.

Payment of Benefits – Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events – Management of the Plan has evaluated the effects of all subsequent events through September 17, 2013, the date which the financial statements were available to be issued, to determine if events or transactions occurring through that date require potential adjustment or disclosure in the financial statements.

Reclassifications – Certain reclassifications have been made to the 2011 financial statements in order to conform to the 2012 presentation.

3. INVESTMENTS

All Plan investments are participant-directed. The following investments represent 5% or more of the Plan's net assets at December 31:

	2012	2011
PIMCO Total Return Fund R	$ 320,571	$ 291,276
T. Rowe Price Target Retirement 2020	146,163	114,500
Oppenheimer Rising Dividends Fund N	100,078	88,245
Invesco Stable Asset, at contract value	83,517	59,948
T. Rowe Price Target Retirement 2030	78,473	47,086
Franklin Templeton Income Fund R	25,949*	47,206

* Indicates an investment that did not meet the 5% threshold in the respective year, but is shown for comparative purposes.

3. INVESTMENTS (continued)

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds	$ 62,800
Common collective trusts	2,933
	$ 65,733

4. FAIR VALUE MEASUREMENTS

The Plan uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures (as discussed in Note 2). The following table presents the balances of the assets of the Plan measured at fair value on a recurring basis at December 31:

	2012	2011
Level 1:		
Mutual funds:		
Bond funds	$ 363,966	$ 321,086
Life cycle funds	316,094	224,878
U.S. large cap funds	168,708	140,695
International funds	99,519	53,008
Level 2:		
Common collective trusts	131,678	87,074
Total investments at fair value	$ 1,079,965	$ 826,741

The following table summarizes investments measured at fair value based on net asset value per share as of December 31, 2012:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
SSgA common collective trusts	$ 45,405	N/A	daily	N/A

The following table summarizes investments measured at fair value based on net asset value per share as of December 31, 2011:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
SSgA common collective trusts	$ 27,126	N/A	daily	N/A

5. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are shares of common collective trusts managed by State Street Bank and Trust. State Street Bank and Trust is the trustee as defined by the Plan and, therefore, transactions with the trustee qualify as party-in-interest transactions.

6. INCOME TAX STATUS

The Plan received a determination letter from the IRS stating the Plan is qualified under Section 401(k) of the IRC, and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualifications. The Plan was amended subsequent to the IRS determination letter. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified and the related trust is tax exempt.

7. SUMMARY OF TRUSTEE INFORMATION

The following is a summary of unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule. The information was prepared by State Street Bank and Trust and furnished to the Plan Sponsor. The trustee has certified that the information is complete and accurate:
