NOTE A - DESCRIPTION OF PLAN

The following description of the Derrel's Mini Storage, Inc. (the Company) 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time non-excluded employees who are at least twenty-one or older, have completed one year of service, and have completed 1,000 hours of service with Derrel's Mini Storage, Inc. Excluded employees are those who terminate employment during the Plan year with not more than 500 hours of service and who are not employees as of the last day of the Plan year.

Effective Date

The Plan became effective July 1, 1990. All non-excluded employees employed on that date were eligible to participate immediately. The plan was modified in 2012 for the change of third party administration and investment Custodian Company.

Plan Year

The plan year is the twelve consecutive month period beginning January 1 and ending December 31. Plan records are maintained on this basis.

Contributions

The Participants may contribute up to 90% of their annual compensation to the Plan on a tax deferred basis up to the legal maximum. Non-elective contributions are not permitted. Matching contributions are not permitted, either. It is intended that the Plan meets the requirements of ERISA section 404(c) by providing the participants with sufficient information for them to make informed investment choices. This information will be provided by the financial institutions managing the investment options.

Participant Accounts

Each participant's account is credited with the participant's contribution. Allocation of the Company's contributions, Plan earnings, forfeitures, and administrative expenses, are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

NOTE A - DESCRIPTION OF PLAN (con't)

Vesting

Participants are immediately vested in their elective contributions, plus actual earnings thereon.

Investment Options

Upon enrollment into the Plan, a participant may direct contributions to any of the investment options which include investments in a registered insurance company's mutual funds.

Investment of Contribution

As a participant in the plan, an individual directs the investment of his or her accounts. He or she can also discontinue deferrals at anytime, upon written notice to the plan administrator.

Distribution

The participant will reach the plans' normal retirement age when they reach age 65.

The participants may elect in-service distribution of their salary deferral amounts when they reach age after 59 1/2.

Hardship distributions of the participants' pre-tax salary deferrals and Roth deferrals are permitted.

Participant Loans/Notes Receivable from Participants

The Plan has adopted a participant loan program that is intended to comply with Labor Regulation 2550.408(b)-1, and Treasury Regulation sec1.72(p)-1. Loan will be made pursuant to the term of the Plan and Trust with the provisions listed in the Plan document.

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4% to 8%, which are commensurate with local prevailing rates as determined by the Plan administrator.

NOTE A - DESCRIPTION OF PLAN (con't)

Administrative Expenses

Most part of the expenses incurred in the administration of the Plan is paid directly by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan maintains its books and records on the cash basis of accounting, modified to reflect the Sponsor's contribution receivable and to reflect the increase or decrease in the fair value of investments. This is a basis of accounting other than Generally Accepted Accounting Principles of the United States of America. Investment income is recorded when occurred while benefit is recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefit

Benefits are recorded when paid.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES (con't)

Investment Valuation and Income Recognition

The investments in all of the funds are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2012 and 2011. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

All expenses of maintaining the Plan are paid by the Plan.

Subsequent Events

For the year ended December 31, 2013, the Plan has evaluated subsequent events for potential recognition and disclosure through May 31, 2014, the date the financial statements were available to be issued.

NOTE C – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis and recognized in the accompanying balance sheet, as well as, the general classification of such instruments pursuant to the valuation hierarchy.

NOTE C – DISCLOSURES ABOUT FAIR VALUE MEASUREMENTS (cont'd)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Interest Option: The Group Variable Annuity Contract ("Contract") funding the plan provides a number of investment options, including a Guaranteed Interest Account ("GIO"). The GIO does not provide for a defined maturity date. The actual rate of interest credited during the time which funds are invested in the GIO option is declared periodically and therefore is subject to change. The value in the GIO at any time will equal the contributions and transfers to that option, plus interest, minus withdrawals and transfers out of the option and charges deduct (as specified in the contract). Since GIO is presented as contract value, Management is responsible for making the fair value measurements and disclosures included in the financial statements.

The following table set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012.

NOTE D – ADMINISTRATIVE EXPENSES

The administrative expense in the amount of $5,880 was paid by the Plan in 2013.

NOTE E – USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE F – INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

At December 31, 2013 and 2012, the Plan's investments were held by the Trustee. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2013 and 2012 as reported by the trustee is summarized as follows:

NOTE G – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Total Investment per Form 5500 Schedule H, Line 4i	$4,054,117	$3,069,913

NOTE H – TAX STATUS

The internal Revenue Service has determined and informed the company by a letter dated June 29, 2012, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE I – CHANGE OF THE PARTICIPANTS LOANS REPORTING REQUIREMENT

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans.* ASU 2010-25 changed the reporting of loans to participants. Prior to ASU 2010-25, loans to participants were reported as investments at fair value. ASU requires that loans to participants be reported as notes receivable from participants at the unpaid principal balance plus any accrued but unpaid interest. ASU 2010-25 is effective for periods ending after December 15, 2010.

Statement of net assets available for benefits of Derrel's Mini Storage, Inc. 401 (K) Savings Plan for December 31, 2013 and 2012 follows the required format.

NOTE J – RISK AND UNCERTAINTIES

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE K – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The plan has guaranteed interest option contract (GIO) with AXA Equitable Life Insurance Company. The GIO becomes part of AXA general account, and AXA Equitable is the owner of the asset in the general account.

The GIO is significantly different from a (GIC) Guaranteed Investment Contract or (BIC) Bank Investment Contract. A GIC or BIC credits a specified and guaranteed rate of interest over a fixed period to a defined maturity date. The GIO does not provide for a defined maturity date. In addition, although the GIO provides for a minimum guaranteed interest rate, the actual rate of interest credited during the time over which funds are invested in the GIO option (the "current rate" as described further below) is declared periodically and therefore is subject to change. Further, withdrawals for participant benefits from the GIO are permitted as specified in the contract and are not subject to any market value adjustment. The GIO also does not have characteristics similar to a synthetic GIC contract. The election of the GIO investment option does not give participant's the right to participate in the investment returns on AXA Equitable's general account assets. Rather, as noted above it gives participant's the right to earn the rates of interest that we periodically declare and guarantee on amounts that participant's deposit into the GIO. In addition, participant's withdrawals from the GIO are not subject to any market value adjustment. The value in the GIO at any time will equal to the contributions and transfers to that option, plus interest, minus withdrawals and transfers out of the option and charges that we deduct (as specified in the contacts).

NOTE K – INVESTMENT CONTRACT WITH INSURANCE COMPANY (con't)

AXA credit interest daily to amounts have in the GIO. There are three levels of interest in effect at the same time in the GIO:

1) the minimum interest rate guaranteed over the life of the contract,
2) the annual minimum guaranteed interest rate for the calendar year, and
3) the current interest rate.

AXA set current interest rates periodically, according to our procedures that we have in effect at the time. All interest rates are effective annual rates, but before deduction of annual administrative charges or withdrawal charges. The annual minimum guarantee interest rate will never be less than the lifetime minimum guaranteed interest rate.

The guarantee interest contract has interest and dividend income of $18,591 and the fair value is similar to contract value of:

1) Contract Account Value for the GIO as of 12/31/2013 was $763,557.26;
2) Contract Cash Surrender Value for the GIO as of 12/31/13 was $763,557.26;
3) The GIO crediting rate as of 12/31/2013 was 2.00%;
4) Changes (including rate and date of change) in GIO crediting rates 1/1/2013 through 12/31/2013 was 2.00%.
5) The contract minimum interest rate is 2.00%.
6) General account had assets of $44,854,856,278, liabilities of $41,220,798,339 and capital and surplus of $3,825,470,177 as of December 31, 2013.
