NOTE A - DESCRIPTION OF THE PLAN

The following description of the Emerson Network Power, Energy Systems, North America, Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a combined defined contribution money purchase pension plan available to qualifying employees of Emerson Network Power, Energy Systems, North America, Inc. (the Company), a wholly owned subsidiary of Emerson. An employee is eligible to participate in the Plan on the first entry date after he or she has met the Plan's service requirements. An employee must meet the minimum age requirement of 18 years of age and be considered an employee as defined by the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

The Company makes contributions in an amount equal to 1.5% of participants' eligible compensation on behalf of active participants who have completed at least 501 hours of service during the Plan year. Participants who were hired prior to April 1, 2002, receive an additional 2.5% contribution based on eligible compensation, for a total contribution equal to 4% of compensation. In addition, participants hired prior to April 1, 2002, receive a contribution equal to 2% of eligible compensation earned in excess of the Social Security Wage Base in effect at the beginning of the Plan year. Company contributions are allocated to participants' accounts following the end of the Plan year.

Participant Accounts

Participants may direct the investment of their account balances into various investment options offered by the Plan. Each participant's account is credited with Company contributions and earnings thereon. Earnings are allocated pro rata based on the value of the participant's account in an investment fund related to the total assets in the fund as of the earnings determination date.

Notes Receivable from Participants

Loans to participants are currently not allowed in the Plan.

Vesting

Participants vest in Company contributions after completing three years of service. For purposes of vesting service, a year is defined as each consecutive 12-month period ending on the anniversary of a participant's hire date during which the participant completes at least 501 hours of service.

Payment of Benefits

Participants are eligible for benefit distributions upon retirement, disability, death or termination of employment. Upon termination due to normal retirement, death or total and permanent disability, the entire balance in a participant's account becomes 100% vested. The normal form of distribution per the terms of the Plan is a life insurance contract containing an automatic survivor benefit. The normal benefit form is a joint

and survivor annuity for married participants and a single annuity for non-married participants. Participants may also elect to receive a lump-sum payment.

Forfeitures

Forfeitures of a terminated participant's accounts and earnings thereon are held in a suspense account until the terminated participant has completed five one-year breaks in service. Forfeitures are then used to reduce future Company contributions. The 2013 Company contribution was offset by $4,516 in forfeited participant account funds. The balance in the forfeiture account at September 30, 2013 and 2012, was $4,328 and $8,484, respectively.

Administration and Expenses

The Plan is administered by a Management Review Committee (MRC) appointed by authority of the Company's board of directors. The MRC, with the approval of the board of directors, has appointed a trustee to manage and maintain the Plan's assets in accordance with a trust agreement. The costs incurred in administering the Plan, including expenses of the Plan administrator, custodian and counsel, are paid by the Company. Investment expenses are paid by the Plan.

Investment Options

Participants designate, in increments of 1%, the percentage of their total contribution to be invested in any of the Plan's investment funds.

The Plan utilizes Vanguard Group, Inc. (Vanguard) as administrator and record keeper, and Vanguard Trust Company is the trustee of the Plan. The Plan, through its participation in the Emerson Electric Co. Master Trust (the Master Trust), currently offers the Emerson common stock fund, which invests in Emerson's common stock, the Emerson Stable Value Fund, which consists mainly of investment contracts or similar investments issued by insurance companies, banks and similar financial institutions, various mutual funds and commingled funds.

All funds may invest in cash equivalents as temporary investments and to maintain liquidity. Participants may change their investment options at any time. Participants may transfer (subject to certain restrictions on transfers into or out of the Emerson common stock fund by the Company's executive officers), in 1% increments, all or part of an existing account balance in a fund among the other investment funds to the extent permitted by the underlying investment contracts. Transfers may be made up to six times per quarter.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the use of estimates and assumptions that affect the reported amounts in the financial statements. Actual results could differ from those estimates.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Investment Valuation

The Plan's investments, through its participation in the Master Trust, are stated at fair value. See notes C and D regarding investments in the Master Trust.

Risks and Uncertainties

The Master Trust utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

NOTE C - INVESTMENT IN MASTER TRUST

Each participating plan's interest in the funds of the Master Trust is based on participant-directed account balances. At September 30, 2013 and 2012, the Plan's interest in the net assets of the Master Trust was 0.26% and 0.25% respectively. Investment income and expenses relating to the Master Trust are allocated to the Plan based on balances invested in the Master Trust.

The Plan's investments in the Master Trust are stated at fair value. The fair value of mutual funds and Emerson common stock are based on quoted market prices. Cash is stated at cost, which approximates fair value. Shares of collective funds are valued at the net asset value of shares held by the Plan at year-end, which is derived from either broker/dealer quotation or market-observed pricing for the underlying assets. There are no restrictions on the redemption of these investments. Contracts with insurance companies are valued at fair value determined by the discounted cash flows expected to be received from the contracts, based on market-derived yields for instruments with familiar duration and issuer credit rating. The cost of investments held under the Plan is determined using the average cost method of accounting. The Plan has no unfunded commitments related to these assets.

The Stable Value Fund includes investment contracts with insurance companies, which are fixed income, fully benefit-responsive contracts known as synthetic guaranteed investment contracts (synthetic GICs). Synthetic GICs are designed to preserve principal, provide a stable rate of interest for Plan participants and ensure that participant-initiated withdrawals will be paid at contract value. Interest rates on synthetic GICs reset quarterly and cannot be less than zero. Assets underlying the synthetic GICs are portfolios of fixed income investments owned by the Plan, which are maintained by a third-party custodian separate from the contract issuer's general assets. The contracts provide that realized and unrealized gains and losses of the underlying assets are not immediately reflected in the value of the Stable Value Fund, but rather are amortized over the remaining duration of the underlying contracts through adjustments to the future interest crediting rate, which is computed based on the current yield to maturity of the covered investments, plus or minus amortization of realized gains or losses at the time of computation. At September 30, 2013 and 2012, the weighted-average yield for the Stable Value Fund was 3.46% and 3.44%, respectively, and net of fees was 3.36% and 3.35%, respectively.

The statements of net assets available for benefits are required to present the fair values of these investment contracts plus an adjustment of the synthetic GICs from fair value to contract value. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses. Certain events can limit the Plan's ability to transact at contract value with the issuers of its investment contracts or may allow for the termination of the contract at less than contract value. Examples of such events include, but are not limited to, default by contract provider, partial or complete legal termination of the Plan, improper communications to participants, group terminations and significant divestitures. The Plan does not believe that the occurrence of any such event is probable.

The investments of the Master Trust are summarized as follows at September 30:

	2013	2012
Mutual funds		
Equity funds	$ 680,096,070	$ 553,659,593

Total Master Trust investment income	$638,387,126

NOTE D - FAIR VALUE MEASUREMENTS

Under Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, there exists a formal hierarchy and framework for measuring fair value and making disclosures about fair value measurements and the reliability of valuation inputs. Measurement assumes the transaction to sell an asset or transfer a liability occurs in the principal or at least the most advantageous market for that asset or liability. Within the hierarchy, Level 1 instruments use observable market prices for the identical item in active markets and have the most reliable valuations. Level 2 instruments are valued through broker/dealer quotation or through market-observable inputs for similar items in active markets, including forward and spot prices, interest rates and volatilities. Level 3 instruments are valued using inputs not observable in an active market, such as entity-developed future cash flow estimates, and are considered the least reliable.

The tables below categorize the Master Trust's investments by level, within the fair value hierarchy, as of September 30:

	2013

NOTE E - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 14, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of September 30, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE F - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to amend and terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants will become fully vested.

NOTE G - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified that the following data included in the accompanying financial statements is complete and accurate:

- Interest in Emerson Electric Co. Master Trust, as shown in the statements of net assets available for benefits as of September 30, 2013 and 2012.
- Plan interest in Emerson Electric Co. Master Trust net investment income, as shown in the statement of changes in net assets available for benefits for the year ended September 30, 2013.
- Investment information included in the Master Trust (note C) as of September 30, 2013 and 2012.
- Adjustment from fair value to contract value for fully benefit-responsive investment contracts as of September 30, 2013 and 2012, as shown in the statements of net assets available for benefits

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

NOTE H - RELATED-PARTY TRANSACTIONS AND PARTIES-IN-INTEREST

Certain investments in the Master Trust are shares of mutual funds and commingled trusts that are managed by Vanguard, the Plan's record keeper, and Vanguard Trust Company, the Plan's trustee.

Additionally, Plan investment options include shares of Emerson common stock. Emerson is the parent company of the Plan sponsor. These transactions qualify as party-in-interest transactions and are allowable under ERISA regulations.

NOTE I - SUBSEQUENT EVENTS

In connection with the preparation of the Plan's financial statements, Plan management evaluated subsequent events after the balance sheet date of September 30, 2013 through July 3, 2014, the date the financial statements were available to be issued. Management is not aware of any subsequent events that would require recognition or disclosure in the accompanying financial statements.
