Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, line 9—Explanation of Credit Balance Discrepancy

A funding balance election for the 2012 plan year was revoked due to passage of the Moving Ahead for Progress in the 21st Century Act (MAP-21) and entries on line 35 reflect the net effect of the original election and reversal. The plan sponsor has elected to apply the following amounts of Funding Standard Carryover Balance (FSCB) and Prefunding Balance (PB) to the minimum required contribution of the Plan for the 2012 plan year as of the date shown below. After MAP-21, the plan sponsor has elected to revoke the prior election to apply the amounts of FSCB and PB shown below, as permitted under Treasury Regulation section 1.430(f)-1(f)(3)(ii). The total of these amounts (\$0) is reported on line 35.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

1. DESCRIPTION OF THE PLAN:

The following description of the Pfudler (United States), Inc. Steelworkers (Local No. 1498) Retirement Plan (the Plan) provides only general information. Participants should refer to the *Summary Plan Description* for a complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan which covers substantially all hourly employees of Pfudler (United States), Inc. who are members of the collective bargaining unit, Local Union No. 1498, United Steelworkers of America and who meet eligibility requirements of the Plan. The Plan provides pension, death, and permanent disability benefits.

Pfudler (United States), Inc. was a wholly owned subsidiary of Robbins & Myers, Inc. (the Company). On February 20, 2013, Robbins & Myers, Inc. was acquired by National Oilwell Varco, Inc. With the purchase, National Oilwell Varco, Inc. has assumed responsibility for the employees' vested benefits in the Plan. The employees' eligibility, participation and vested benefits in the Plan will continue with the same terms and conditions as before the acquisition.

Funding policy

The Company has agreed to contribute such additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants. It is the intention of the Company to make annual contributions in amounts sufficient to fund the Plan's current year's service cost and the initial past service cost plus interest (all normal costs and to fund the unfunded accrued liability) over a period of 30 years. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements.

Plan termination

The Company has the right to terminate the Plan and to discontinue contributions. However, no action shall alter the Plan or its operation that would violate the provisions of any collective bargaining agreements pertaining to pension benefits. Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC's guarantee, while other benefits may not be provided for at all.

Pension benefits

Eligible employees who have completed at least five years of service are entitled to monthly retirement benefits beginning at normal retirement age (62) as computed below:

A member who is eligible to receive a normal retirement benefit is entitled to a monthly benefit equal to the member's years of credited service multiplied by the following rate:

- (1) \$13.00, if his last day worked is on or after January 1, 1982 but prior to October 1, 1982;
- (2) \$14.00, if his last day worked is on or after October 1, 1982 but prior to October 1, 1983;
- (3) \$15.00, if his last day worked is on or after October 1, 1983 but prior to October 1, 1984;
- (4) \$15.50, if his last day worked is on or after October 1, 1984 but prior to October 1, 1989;
- (5) \$16.50, if his last day worked is on or after October 1, 1989 but prior to October 1, 1990;
- (6) \$17.50, if his last day worked is on or after October 1, 1990 but prior to October 1, 1991;
- (7) \$18.50, if his last day worked is on or after October 1, 1991 but prior to October 1, 1992;
- (8) \$19.50, if his last day worked is on or after October 1, 1992 but prior to October 1, 1993;
- (9) \$20.00, if his last day worked is on or after October 1, 1993 but prior to October 1, 1994;

- (10) \$20.50, if his last day worked is on or after October 1, 1994 but prior to September 17, 1995;
- (11) \$22.50, if his last day worked is on or after September 17, 1995 but prior to September 20, 1998;
- (12) \$25.00, if his last day worked is on or after September 20, 1998 but prior to September 17, 2001;
- (13) \$30.00, if his last day worked is on or after September 17, 2001 but prior to September 19, 2004;
- (14) \$34.00, if his last day worked is on or after September 19, 2004, but prior to September 17, 2008;
and
- (15) \$38.00, if his last day worked is on or after September 17, 2008.

On and after January 1, 1988, if a member delays retirement beyond normal retirement age, his delayed normal retirement benefit will be calculated based on the benefit multiplier in effect on the date of his actual retirement plus the amount of credited service at his actual retirement.

The plan permits early retirement beginning at age 55 with no benefit reduction when age plus years of credited service total 85. Early retirement at age 55 with at least ten years of credited service is permitted but the benefit is reduced by one-third of one percent for each month by which the member's first benefit payment precedes the month of his attainment of normal retirement age. Pension benefits may be paid in the form of joint and survivor annuities. Terminated vested members with a lump sum actuarial equivalent benefit of less than \$1,000 may take their benefit in a lump sum. Employees terminating before rendering five years of service forfeit the right to receive any portion of accumulated plan benefits.

Effective September 18, 2008, the Plan was formally amended to comply with Modification to the Internal Revenue Code section 415 limits made by the Pension Funding Equity Act of 2004, the Pension protection Act of 2006 and the final regulations released on April 4, 2007 under Code Section 415, and to add a Qualified Optional Survivor Annuity option as required under the Pension Protection Act.

Effective January 1, 2011, the Plan was frozen. There is presently no intention to terminate the Plan. As a result of the freezing of the Plan, credited service will not include any period of service after December 31, 2010 for the purposes of determining the amount of a participant's normal retirement benefit. There will be no new entrants to the Plan on or after January 1, 2011.

2. SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the plan.

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

With respect to the Plan's investment in the Robbins & Myers, Inc. Master Trust (Master Trust), the Master Trust records purchases and sales of securities on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

With respect to the Plan's investment in money market assets, interest income is recorded on the accrual basis.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits (see Note 3) are those estimated future periodic payments that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired and terminated vested participants or their beneficiaries, and (b) present participants or their beneficiaries.

Benefits for retired and terminated vested participants or their beneficiaries are based on the monthly pension benefit rate per the Plan times years of credited service. The accumulated plan benefits for active participants are based on the monthly pension benefit rate per the Plan times years of credited service through the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Operating expenses

Certain expenses of maintaining the Plan are paid by the Company and certain expenses are paid by the Plan.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through July 15, 2014, the date on which the financial statements were available to be issued.

3. ACCUMULATED PLAN BENEFITS:

A consulting actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of the beginning of each plan year is as follows:

	October 1	
	<u>2012</u>	<u>2011</u>
Vested benefits:		
Participants currently receiving payment	\$ 14,350,650	13,212,985

	27,422,357	24,686,949

Pfaudler (United States), Inc. Steelworkers (Local 1498) Retirement Plan
Notes to Financial Statements
September 30, 2013 and 2012

	October 1	
	<u>2012</u>	<u>2011</u>
Actuarial present value of accumulated plan benefits at beginning of year	\$ <u>25,203,920</u>	<u>25,258,332</u>
Increase (decrease) during the year attributable to:		
Interest accumulation	1,228,551	1,158,546
Benefit payments	(1,281,418)	(1,230,988)
Assumption changes	2,796,538	31,159
Other changes	<u>(50,935)</u>	<u>(13,129)</u>
Net (decrease) increase	<u>2,692,736</u>	<u>(54,412)</u>
Actuarial present value of accumulated plan benefits at end of year	\$ <u>27,896,656</u>	<u>25,203,920</u>

Significant assumptions underlying the actuarial computations at the beginning of each plan year are:

Interest rate	4.10% (5.00% in the prior year)
Retirement age	Based on age when first eligible to retire with unreduced benefits
Actuarial method	Projected unit credit cost method
Mortality rates	2012 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e) (RP2000CH projected to 2012 with scale AA in the prior year)

The significant assumption change reflected in the October 1, 2012 and 2011 actuarial valuations was due to changes in the discount rate. The discount rate at October 1, 2012, 2011 and 2010 was 4.10%, 5.00%, and 4.70%, respectively.

Actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. INVESTMENTS:

All investment information disclosed in the accompanying financial statements and notes including investments held at September 30, 2013 and 2012, and net appreciation (depreciation) in fair value of investments, interest and dividends and investment expenses for the years ended September 30, 2013 and 2012, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

The Master Trust was established for the investment of assets of the Plan and several other Company sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust.

Pfaudler (United States), Inc. Steelworkers (Local 1498) Retirement Plan
Notes to Financial Statements
September 30, 2013 and 2012

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At September 30, 2013 and 2012, the Plan's interest in the net assets of the Master Trust was approximately 27.53% and 27.08%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the Plan based upon its pro rata share in the net assets of the Master Trust.

The following table presents the fair value of investments of the Master Trust at September 30:

	<u>2013</u>	<u>2012</u>

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2013:

	September 30, 2013	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

6. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of net assets available for benefits.

7. RELATED-PARTY TRANSACTIONS:

The Plan invests in Robbins & Myers, Inc. common stock through the Master Trust. The Master Trust received dividends of \$2,753 and \$5,280 on behalf of the Plan in the years ended September 30, 2013 and 2012, respectively.

8. INCOME TAX STATUS:

The Plan has received a determination letter from the Internal Revenue Service dated March 26, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust is exempt from taxation.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of September 30, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years ended prior to September 30, 2010.
