Independent Auditor's Report

Glasforms, Inc. Retirement Plan
Retirement Plan Committee

We have audited the accompanying financial statements of Glasforms, Inc. Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits as of September 30, 2013 and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the 2013 financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2013 financial statements.

Opinion

In our opinion, the 2013 financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of September 30, 2013 and the changes in net assets for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audit of the Plan's financial statements as of and for the year ended September 30, 2013 was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of September 30, 2013 and reportable transactions for the year ended September 30, 2013 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Report on Prior Year Financial Statements

The financial statements of Glasforms, Inc. Retirement Plan (f/k/a Restated Employee Stock Ownership Plan and Trust of Glasforms, Inc.) as of September 30, 2012 were audited by other auditors, whose report dated July 11, 2013 expressed an unmodified opinion on those statements.

Note 1 - Plan Description

The following description of Glasforms, Inc. Retirement Plan f/k/a Restated Employee Stock Ownership Plan and Trust of Glasforms, Inc. (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all employees of Glasforms, Inc. (the "Company") who have completed one year of service and have worked at least 1,000 hours. Plan entry dates are March 31 and September 30 upon satisfying eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On December 19, 2012, the Company entered into a Share Purchase Agreement with PolyOne Corporation (PolyOne) whereby PolyOne acquired all of the outstanding shares of Glasforms, Inc. stock. Subsequently, all shares of Glasforms, Inc. common stock were exchanged for cash (see Note 4 for additional information). Additionally, all assets of the Plan were transferred from RBC (the "Former Custodian") to New York Life Trust Company (the "Custodian"). At the time of this transfer, all investments were converted from nonparticipant-directed to participant-directed investments.

Contributions - The Plan provides for discretionary employer profit-sharing contributions to a participant's account. There were no profit-sharing contributions made during 2013.

Participant Accounts - Each participant's account is credited with the allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Beginning in 2013, participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company 20 percent after two years of service and an additional 20 percent per year thereafter until they become fully vested after six years of service.

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to pay plan administrative expenses and reduce future Company contributions. At September 30, 2013 and 2012, the forfeiture account in the Plan totaled $7,231 and $3,848, respectively.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by New York Life Trust Company (the "Custodian") or its affiliates. These transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including July 11, 2014, which is the date the financial statements were available to be issued.

Subsequent to year end, the Plan changed its fiscal year end from September 30 to December 31.

Note 3 - Investments

Investments that exceed 5 percent of end of year net assets are as follows:

	2013	2012
Mutual funds at fair value:		
T. Rowe Price Retirement 2015	$ 2,120,862	$ -
T. Rowe Price Retirement 2020	618,036	-
T. Rowe Price Retirement 2025	422,145	-
T. Rowe Price Retirement 2030	731,163	-
T. Rowe Price Retirement 2035	364,701	-
Glasforms, Inc. common stock at fair value:		
Glasforms, Inc. Class A Common Stock	-	1,716,789
Glasforms, Inc. Class B Common Stock	-	3,089,901

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at September 30, 2013 and 2012.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Note 4 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Mutual funds and corporate stocks are valued based on quoted active market prices and are classified within Level 1 of the valuation hierarchy.

The Plan holds the Anchor Account, which is comprised of the New York Life Insurance Company's Pooled Separate Account. The Anchor Account is a pooled separate account made available to participating plans through a group annuity contract. The group annuity contract is an investment contract that is benefit-responsive, meaning it provides for a stated return on principal invested over a specified period and permits withdrawals at contract value for benefit payments, loans, or transfers to other investment options offered to the participant by the Plan. The investment contract is recorded at fair value; however, since the contract is benefit-responsive, an adjustment is reflected in the statement of net assets available for benefits to present the investment at contract value. Contract value is the relevant measurement attributable to benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Under the fair value hierarchy, the fair value of these assets would be classified under Level 2 of the valuation hierarchy.

The Company entered into a Share Purchase Agreement with PolyOne effective December 19, 2012 (the "Closing Date") whereby PolyOne acquired all of the outstanding shares of Glasforms, Inc. common stock. On December 20, 2012, the Plan received $4,522,388 in exchange for all shares of Glasforms, Inc. common stock held by the Plan, consisting of 53,700 Glasforms, Inc. Class A voting shares and 96,600 Glasforms, Inc. Class B nonvoting shares. On March 27, 2013 and April 16, 2013, the Plan received a total of $284,302 of deferred purchase consideration. The fair value of Glasforms, Inc. common stock at September 30, 2012 of $31.97 per share is based on proceeds from the Share Purchase Agreement received by the Plan.

The Share Purchase Agreement provides for deferral of $5 million of the total purchase price to an indemnity escrow account to satisfy claims by PolyOne against selling stockholders for an 18-month period beginning on the Closing Date. The Plan is entitled to additional consideration of up to approximately $911,000 on release of these funds. This portion of the purchase price has not been recognized as realization is uncertain.

Note 4 - Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Total	$ 180,762	$ -	$ 4,806,690	$ 4,987,452

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period. There were no significant transfers between levels of the fair value hierarchy during 2013.

Note 4 - Fair Value Measurements (Continued)

Investments in Entities that Calculate Net Asset Value Per Share - The New York Life Insurance Company Anchor Account (the "Stable Value Fund") is invested in high-quality fixed-income securities. It seeks to provide a low-risk stable investment, offering competitive yields and limited volatility, with guarantee of principal and accumulated interest.

At September 30, 2013, the fair value and contract value of the Stable Value Fund was $51,307 and $50,996, respectively. There are no reserves against contract values for credit risk of contract issuer or otherwise.

The average yield was approximately 2.17 percent in 2013. The average yield of the fund with an adjustment to reflect the actual interest rate credited to participants in the fund was 1.52 percent for 2013. The crediting interest rate for these investment contracts is reset daily by the issuer but cannot be less than zero. The crediting interest rate is based upon a formula and is a function of timing of the cash flow activity, overall interest rates, the reinvestment of maturing proceeds, and the impact of credit losses and impairments.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Withdrawals and transfers resulting from certain events, including employer initiated events, may limit the ability of the fund to transact at book or contract value. These events may cause liquidation of all or a portion of a contract at market value. The Plan administrator does not believe that the occurrence of any event which would limit the Plan's ability to transact at book or contract value is probable. Further, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund.

Changes in Level 3 assets measured at fair value on a recurring basis for the years ended September 30, 2013 and 2012 are as follows:

	Glasforms, Inc. Common Stock
Balance at October 1, 2012	$ 4,806,690
Sales	(4,806,741)
Total realized gains	51
Balance at September 30, 2013	$ -

The plan administrator considered observable inputs based on transactions that occurred subsequent to the date of the financial statements to be the best inputs to use in estimating the fair value of Glasforms, Inc. common stock as of September 30, 2012.

Note 5 - Tax Status

The Plan obtained its latest determination letter on May 18, 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Company has applied for a new determination letter and the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

Note 6 - Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at September 30, 2013 and 2012 to Form 5500:
