Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Robbins & Myers, Inc. Consolidated Pension Plan (formerly known as the Robbins & Myers, Inc. Cash Balance Pension Plan), which comprise the statements of net assets available for benefits as of September 30, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by JP Morgan Chase Bank, N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended September 30, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) as of September 30, 2013 and Schedule of Reportable Transactions for the year ended September 30, 2013 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Schedule SB, line 9—Explanation of Credit Balance Discrepancy

A funding balance election for the 2012 plan year was revoked due to passage of the Moving Ahead for Progress in the 21st Century Act (MAP-21) and entries on line 35 reflect the net effect of the original election and reversal. The plan sponsor has elected to apply the following amounts of Funding Standard Carryover Balance (FSCB) and Prefunding Balance (PB) to the minimum required contribution of the Plan for the 2012 plan year as of the date shown below. After MAP-21, the plan sponsor has elected to revoke the prior election to apply the amounts of FSCB and PB shown below, as permitted under Treasury Regulation section 1.430(f)-1(f)(3)(ii). The total of these amounts (\$0) is reported on line 35.

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month look-back (as of June 2012), each adjusted as needed to fall within the 25-year average interest rate corridor under MAP-21
1st Segment Rate	5.54%
2nd Segment Rate	6.85%
3rd Segment Rate	7.52%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month look-back (as of June 2012), without regard to the MAP-21 interest rate corridor
1st Segment Rate	1.84%
2nd Segment Rate	4.79%
3rd Segment Rate	5.90%
Cash Balance Interest Crediting Rate	3.50%
Optional Payment Form Election Percentage	90% of participants covered by the final average pay formula are assumed to elect a lump sum distribution and 10% are assumed to elect a life annuity.
	100% of participants covered by the cash balance plan are assumed to elect a lump sum distribution.

Disability Rates	See Table 3
Decrement Timing	Middle of year decrements, with 100% retirement occurring at beginning of year
Surviving Spouse Benefit	It is assumed that 90% of males and 90% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$200,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2010 Plan Year	6.68%
2011 Plan Year	6.34%

Schedule SB, Part V—Summary of Plan Provisions

Cash Balance Provisions

Effective Date February 1, 1957. Amended and restated effective October 1, 2010.

Coverage Salaried employees of an Employing Unit are eligible to participate on their date of hire provided they are employed to work at least 1,000 hours per year. The plan was frozen effective December 31, 2005, so employees hired after this date are not eligible for plan participation.

Employing Unit	Date Credits Effective
Chemineer	July 1, 1994
Edlon	July 1, 1994
Pfaunder	July 1, 1994
Corporate	January 1, 2000
Moyno	January 1, 2000
Energy Systems	January 1, 2000

Cash Balance Accounting
Pay-Based Credits to Account

For each calendar quarter that an individual is both a participant and an eligible employee on and after the pay credit date and prior to the benefit commencement date, there shall be credited to his account an amount equal to a percentage of his compensation for such quarter, the percentage varying depending on the number of years of service standing to the participant's credit as of the last day of such quarter. The plan was frozen effective December 31, 2005, therefore, participants do not receive any more pay based credits after this date.

Years of Service	Percentage of Compensation
Less than 15	5.0%
15+	6.5%

Notwithstanding the above, participants who were participants in the Pfaudler Salaried plan on August 1, 1990 received for a period of ten years, double the pay credits specified above. Additionally, Moyno Oilfield participants in the R&M Salaried final average pay plan on December 31, 1999 who transferred to R&M Energy Systems shall receive double pay credits for nine years.

Interest Credits to Accounts

Regular interest credits will be added to Accounts quarterly, based upon the greater of (a) or (b) below:

- a. 3.50%; or
- b. The average of the U.S. Government One-Year Treasury Constant Maturities for the last business day of the 12 months ending August preceding the plan year for plan years beginning October 1, 1994 or later.

Although the plan was frozen as of December 31, 2005, interest credits continue to be earned on the accounts.

Disability

Either (a) or (b):

- a. Accrued Benefit as of disability retirement date.
- b. Continued accrual of Pay Based Credits to Account at the same rate of Compensation immediately prior to becoming totally and permanently disabled until Normal Retirement Date. At age 65, the benefit is payable as a normal retirement benefit.

Deferred Vested

Vested Accrued Benefit determined by multiplying the Accrued Benefit by the following vesting schedule:

Completed Years of Service	Percentage of Accrued Benefit
Less than 3	0%
3 or more	100%

The Accrued Benefit is 100% vested if separation from service is by reason of death or total and permanent disability.

Death Benefit

If the beneficiary is not the participant's spouse, the beneficiary will receive the value of the deceased participant's Account the first day of the month following the month in which the participant dies.

If the beneficiary is the participant's spouse, the spouse may elect to receive either the value of the deceased participant's Account anytime between the date of death and the participant's Normal Retirement Date or a monthly annuity equal to the actuarial equivalent value of the participant's Accrued Benefit.

Accrued Benefit

An annual amount of benefit in the form of a single life annuity, commencing at Normal Retirement Date, where the single life annuity is the actuarial equivalent of the then current value of the Account.

Actuarial Equivalent

Actuarial equivalent with respect to any specified annuity or benefit means another annuity or benefit, commencing at a different date and/or a different form, but with the same present values as the specified annuity or benefit when measured on:

- i. The Mortality Table prescribed under section 417(e)(3)(A)(ii)(I) ("Applicable Mortality Table").
- ii. The applicable segment rates specified in section 417(e)(3)(A)(ii)(II) for the month of August (the "look-back month") that precedes the Plan Year (the "stability period") in which the distribution is made.

Compensation

The annual basic wage paid inclusive of (i) and (ii), but exclusive of (iii):

- i. Overtime, bonus and commissions as reported on Form W-2.
- ii. 401(k) or 125 contributions on behalf of an individual.
- iii. Severance compensation and other extraordinary items of compensation.

Optional Payment Forms

Life annuity, 10-year certain and life annuity, 50%, 75%, and 100% contingent annuities, and lump sum.

Final Average Pay Provisions

History of the Plan

The Robbins & Myers, Inc. Pension Plan for Salaried Employees was established effective February 1, 1957. The plan covered salaried employees of the Company on the Springfield, Ohio, payroll, which includes all salaried employees based in Springfield, Ohio, the exempt salaried employees located in Gallipolis, Ohio, and upper management at the remote locations of other divisions of the Company. Effective October 1, 1977, coverage under the Plan was extended to the Columbia employees.

The plan was amended and restated in its entirety effective October 1, 1976. Before the amendment the plan was an excess plan integrated at a \$4,800 breakpoint level. The amendment directly integrated the plan with Social Security by modifying the basic monthly benefit to be 80% of final five-year average compensation up to \$750 plus 50% of such compensation in excess of \$750 minus 100% of the Social Security benefit. For Credited Service less than 35 years, proportionate benefits were payable. A minimum benefit of \$7 a month multiplied by years of continuous service was provided. Eligibility for participation was liberalized from age 25 and three years of service to age 25 and one year of service in order to comply with ERISA.

The amended plan provided unreduced benefits on early retirement after age 55 when age plus service totaled 90 points. Unreduced early retirement benefits were first provided by the plan to employees retiring on or after October 1, 1971, who were age 62 and who had completed 30 years of service. The age 62 requirement was lowered to age 60 on October 1, 1974. The plan amendments removed the maximum limitation on pensions of \$15,000 and reflected a newly adopted LTD plan by replacing the immediate disability benefit with a deferred disability benefit based on service which included the period of disability.

Effective October 1, 1979, the plan was amended and completely restated. The name was changed to Robbins & Myers, Inc. Pension Plan. The plan was changed to a participating group plan containing one plan document with separate Supplements, each of which identifies the participating group included in the Supplement and defines the benefit formulas applicable to that group. The plan specifies separate accounting for the assets of each participating group. Thus each Supplement represents a separate plan.

Under the amendments, the salaried employees on the Springfield, Ohio, payroll and the employees on the Columbia payroll were split into two separate participating groups (Supplement 1 and Supplement 2 respectively). Two other groups of salaried employees, who had previously been covered by plans with the same eligibility and benefit provisions as under Plan 2 became covered by the participating group plan. These were the salaried employees at the Twin City Monorail Facility (Supplement 3) and the salaried employees of Hunter Division (Supplement 4). A fifth group of employees, salaried employees on the Fairfield payroll, became covered by the Plan on October 1, 1979, under Supplement 5.

Under the October 1, 1979, amendments, the basic benefit formula was liberalized by increasing the compensation breakpoint from \$750 to \$1,000 per month. The minimum age required for participation, age 25, remained unchanged but the service requirement was changed to comply with the most recent ERISA regulations, providing for participation after 1,000 hours of service in the year following employment, with an alternative service requirement defined for employees unable to meet that requirement.

The amendments defined the procedures to be used to determine benefits for transferred employees. For retired and terminated employees (and their beneficiaries) whose benefits were in pay status on September 30, 1979, benefits were increased 10%.

Effective January 1, 1980, a sixth Supplement was added, which covered salaried employees on the Salisbury payroll. This group had previously been covered under the Cheshire, Connecticut, Plant Pension Plan. Assets equal to the present value of benefits accrued under that Plan were transferred to the Supplement 6 Plan.

Effective October 1, 1980, the plan was amended to remove the 35-year maximum on service.

The Salisbury Salaried Plan (Supplement 6) was terminated effective December 31, 1980.

Effective January 1, 1981, two new participating groups became covered by the Plan. Salaried employees at the Tallahassee facility were covered under Supplement 7 and salaried employees at the Foley facility were covered under Supplement 8.

The name of the Hunter group was changed to Comfort Conditioning.

The Twin City Monorail Facility Plan (Supplement 3) was terminated effective March 31, 1982.

Effective August 1, 1982, the plan was amended to provide a special early retirement supplement to eligible employees who elected to retire during a special temporary period.

The Columbia Participating Group (Supplement 2) and Tallahassee Participating Group (Supplement 7) were terminated effective February 28, 1983.

The Foley Participating Group (Supplement 8) was terminated effective August 31, 1983.

The Comfort Conditioning Salaried Participating Group (Supplement 4) was terminated effective December 31, 1984.

Effective October 1, 1984, the plan was amended and completely restated. For employees hired after this date, there is a 35-year maximum on service. In addition, an early retirement reduction applies if the sum of age plus Vesting Service equals 90 or more. This reduction equals $\frac{1}{4}\%$ for each month, if any, by which the benefit commencement date precedes age 65.

Effective October 1, 1985, the plan was amended to comply with the Retirement Equity Act. The age eligibility for participation was reduced from age 25 to age 21. In addition, the eligibility for a surviving spouse death benefit was expanded to include all active vested employees, and, at employee expense, all terminated vested employees who do not elect out of the coverage.

Effective October 1, 1987, the Plan was amended to provide full vesting after five years of service. In addition, for employees who retire April 1, 1988 or later, the Plan was amended to provide a supplemental pension payment at age 65 of \$3.50 per month per year of Vesting Service (maximum 35 years of service).

Under the October 1, 1987 amendments, the Gallipolis exempt employees (Motors division) in Plan 21 were spun off into a new supplement (31) named the Robbins & Myers, Inc. Motion Control Participating Group. This new plan was then amended to provide eligibility for exempt employees in the Electro-Craft and Renco divisions.

The following changes occurred effective October 1, 1989:

- Fairfield Salaried Plan 25 was merged into R&M Salaried Plan 21. The newly merged plan retains the provisions of the R&M Salaried Plan.
- The RKL Profit Sharing Plan was terminated effective September 30, 1989. The RKL employees joined R&M Salaried Plan 21, receiving an "all service" benefit with the profit sharing account balance converted to annuities and used to offset past service.
- The salaried plan formula was revised to comply with Social Security integration regulations. The new formula is an excess formula and is subject to a minimum of the Accrued Benefit under the old plan formula as in effect September 30, 1989.
- Early retirement eligibility was revised from age 55 and ten years of service to age 55 and five years of service.
- A maximum of \$200,000 was applied to compensation, as required by the Tax Reform Act of 1986.

Effective October 1, 1990, the salaried plan formula was improved from 0.80% to 1.0% of final average earnings plus 0.4% of final average earnings in excess of covered compensation multiplied by years of Credited Service (maximum 35 years of service).

Effective March 15, 1991, the Renco division in Plan 31 was sold, and, effective August 31, 1991, the remainder of the Group was sold. All employees were vested. Accrued Benefits were calculated as of the dates of sale and lump sum distributions made available. This plan continued in effect for inactive employees only.

Effective January 1, 1993, the monthly benefits for the retirees and beneficiaries (retired on or before January 1, 1993) in R&M Salaried (Plan 21) and Motion Control Exempt (Plan 31) were increased in accordance with the following schedule based on years since retirement:

Years of Retirement	Amount of Monthly Increase
1970 or earlier	\$30
1971–1980	\$25
1981–1985	\$20
1986–1993	\$15

Effective September 30, 1993, Motion Control Exempt (Plan 31) and Motion Control Nonexempt (Plan 3) were merged into R&M Salaried (Plan 21).

For employees that terminate after October 1, 1994, the charge to employees for preretirement death benefit coverage has been eliminated.

OBRA '93 legislation reduced the maximum annual compensation limit to \$150,000 beginning with the 1994 plan year. Robbins & Myers elected to use the extended wear away method to determine the Accrued Benefit.

Effective October 1, 1998, the monthly pension supplement increased from \$3.50 to \$5.00 per month per year of Vesting Service (maximum 35 years of service).

A one-time early retirement incentive was offered to eligible participants in the Robbins & Myers, Inc. Pension Plan (Plan 21): lump sums reflected the value of the age 62 early retirement subsidy. Six people took the window.

Effective October 1, 1999, the Robbins & Myers, Inc. Pension Plan (Plan 21) was merged into the Cash Balance Pension Plan (Plan 40) with the following provisions effective January 1, 2000:

- Moyno Oilfield employees who transferred to R&M Energy Systems converted from the final average pay formula to the cash balance formula. Double pay credits are awarded for nine years.
- Salaried employees in Springfield or Corporate hired on or after January 1, 1999 become Cash Balance participants on the later of January 1, 2000 or their date of hire.

The trustee for the plan is Bank One.

Effective October 1, 2002, EGTTTRA legislation increased the 401(a)(7) maximum annual compensation limit from \$170,000 to \$200,000. The \$200,000 pay limit was applied retroactively for final average pay participants. The 415(b) annual limit increased from \$140,000 to \$160,000 and is no longer actuarially reduced at ages 62 or above.

Effective December 31, 2005, the plan was frozen such that service and pay after this date is not considered when determining the amount of the Accrued Benefit. However, service continues to grow for vesting and eligibility purposes.

Summary of Plan Provisions

Effective Date	February 1, 1957. Amended and restated effective October 1, 2010.
Coverage	An employee in a participating group is eligible after the later of attainment of age 21 and completion of a 12-month period during which he completes 1,000 hours of service. Coverage is extended to all salaried employees of Robbins & Myers, Inc. hired before January 1, 1999, regardless of their age or service, who are on the Springfield, Ohio, payroll, which includes all salaried employees based in Springfield, Ohio, and upper management at the remote locations of other divisions of the Company. Employees hired on or after January 1, 1999 are not covered under the final average pay formula. The plan was frozen as of December 31, 2005.
Retirement Age	
Normal	Age 65 and five years of Vesting Service.
Early	Age 55 and five years of Vesting Service.
Disability	None. Vesting Service and Credited Service continue to accrue while the participant is receiving LTD benefits.
Deferred Vested	Five years of Vesting Service.

Amount of Retirement Benefit

Normal

The normal retirement benefit is basically the sum of (1) and (2):

1. 1.0% of Final Average Earnings plus 0.40% of Final Average Earnings in excess of Covered Compensation, multiplied by years of Credited Service (maximum 35 years of service).

For employees who retire April 1, 1988 or later, a supplemental pension is paid, at age 65, equal to \$5.00 per month per year of Vesting Service (maximum 35 years of service).

2. The amount accrued while a participant in another plan in the participating group prior to becoming a transferred participant; based on his Credited Service accrued while a participant in each such participating group, his Final Average Earnings computed and the benefit rates in effect thereunder at his termination of Vesting Service. The term "transferred participant" means a participant in one participating group who is transferred to another participating group.

If the participant becomes an inactive participant (one who is transferred to an employee group which is not a participating group) his benefit will be as described in (2) above but based on his Final Average Earnings and the benefit rate in effect at the date he becomes an inactive participant.

The plan was frozen effective December 31, 2005. Pay and service earned after this date are not considered when determining the amount of Accrued Benefit.

Early

Accrued normal retirement benefit based on Final Average Earnings and Credited Service at date of retirement and reduced by $\frac{1}{2}\%$ for each month, if any, up to a maximum of 120 months, by which the benefit commencement date precedes age 65. If, however, the sum of the participant's age at retirement and his Vesting Service equals 90 or more, the reduction is $\frac{1}{4}\%$ for each month, if any, by which the benefit commencement date precedes age 65.

Late	Benefit computed as for normal retirement but based on Final Average Earnings and Credited Service at date of late retirement.
Disability	None. Participant continues to accrue Vesting Service and Credited Service under this Plan while receiving benefits under the Company's long-term disability program. However, such period shall not be credited for purposes of computing any minimum benefit described in any Supplement.
Deferred Vested	Accrued normal retirement benefit based on Final Average Earnings and Credited Service at date of termination. Benefit payable at age 65, or after age 55 with the early retirement reduction.
Normal Form of Annuity	A monthly annuity for life for participants with no eligible spouse. A participant with an eligible spouse will receive 90% of his regular retirement benefit for his lifetime with 55% of his benefit to be continued to his surviving spouse for the remainder of the spouse's lifetime, unless he elects otherwise. The 90% is increased by $\frac{1}{2}$ of 1% (to a maximum of 100%) for each 12 months that the spouse's age exceeds the member's age. The 90% is reduced in the same manner for each year that the spouse is younger than the member.
Optional Payment Forms	Life annuity, 10-year certain and life annuity, 55% and 75% contingent annuities, and lump sum.
Death Benefits	The surviving spouse of an active participant who dies prior to retirement but after becoming vested will receive 55% of the reduced benefit the participant would have received had he retired on the day before his date of death and had elected the joint and survivor option. The surviving spouse's benefit is payable for the life of the spouse beginning on the later of the participant's date of death or date he would have attained age 55. This benefit is also available to terminated vested employees. If the participant dies before early retirement age, benefits to the surviving spouse are deferred until the date at which the participant would have been able to elect earliest retirement.

Definitions

Plan Year	October 1 to September 30.
Actuarial Equivalence	7% interest, 1971 Group Annuity Table, 80% male/20% female weighting of annuity values. The Mortality Table prescribed under section 417(e)(3)(A)(ii)(I) ("Applicable Mortality Table"), and the applicable segment rates specified in section 417(e)(3)(A)(ii)(II) for the month of August (the "look-back month") that precedes the Plan Year (the "stability period") in which the distribution is made is used for lump sum distributions.
Vesting Service	Vesting Service is used to determine a participant's eligibility for benefits and his minimum benefit, if applicable. Continuous period of employment with the Company subject to the Break In Service rules of the Plan.
Credited Service	Credited Service is used to determine a participant's amount of benefits. It consists of the participant's Vesting Service reduced by: service before age 21 (age 25 prior to October 1, 1985) and completion of one year of service; service as an inactive participant; periods of layoff or non-military leave of absence in excess of three months; military leave of absence in excess of 36 months; any remaining Vesting Service before his eligibility to participate in the Plan; and any remaining Vesting Service he receives credit for while not employed by the employer.
Compensation	All compensation received for services rendered.
Final Average Earnings	The average of monthly compensation for the 60 months out of the last 120 months preceding retirement or termination for which such average is highest. Monthly compensation is determined by dividing calendar year pay by number of months worked.

Covered Compensation

A participant's Covered Compensation is selected from a table which varies by year of birth. The amount represents the average of the Social Security Wage Base for the 35 years up to and including the year of the individual's Social Security Normal Retirement Age. For employees who terminate or retire before Social Security Normal Retirement Age, the Social Security Wage Base in the year of termination is used for all future years.

Transferred Employees
Transferred Out

A participant transferred to employment status not covered by this Plan continues to accrue Vesting Service for purposes of eligibility (but not Credited Service) after his transfer. His benefit amount under this Plan will be based on his Credited Service at time of transfer and on the plan provisions in effect on such date.

Transferred In

An employee who becomes a participant on transfer to employment status covered by this Plan is credited with his Vesting Service for all his employment with the Company before and after such transfer. His Credited Service will include his Credited Service under the plan of which he was a participant at the time of transfer but his benefit under this plan shall be reduced by any other pension based on such pre-transfer Credited Service. However, his benefit under this Plan will not be less than the benefit based solely on his Credited Service accrued under this Plan.

Prior Plan Benefits

A participant's normal retirement benefit shall not be less than an amount equal to the Accrued Benefit which he would have been entitled to receive under the terms of the Plan as in effect on September 30, 1989, based on his Credited Service and Final Average Earnings on that date.

Limitation Year

Schedule SB, line 9—Explanation of Credit Balance Discrepancy

A funding balance election for the 2012 plan year was revoked due to passage of the Moving Ahead for Progress in the 21st Century Act (MAP-21) and entries on line 35 reflect the net effect of the original election and reversal. The plan sponsor has elected to apply the following amounts of Funding Standard Carryover Balance (FSCB) and Prefunding Balance (PB) to the minimum required contribution of the Plan for the 2012 plan year as of the date shown below. After MAP-21, the plan sponsor has elected to revoke the prior election to apply the amounts of FSCB and PB shown below, as permitted under Treasury Regulation section 1.430(f)-1(f)(3)(ii). The total of these amounts (\$0) is reported on line 35.

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month look-back (as of June 2012), each adjusted as needed to fall within the 25-year average interest rate corridor under MAP-21
1st Segment Rate	5.54%
2nd Segment Rate	6.85%
3rd Segment Rate	7.52%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month look-back (as of June 2012), without regard to the MAP-21 interest rate corridor
1st Segment Rate	1.84%
2nd Segment Rate	4.79%
3rd Segment Rate	5.90%
Cash Balance Interest Crediting Rate	3.50%
Optional Payment Form Election Percentage	90% of participants covered by the final average pay formula are assumed to elect a lump sum distribution and 10% are assumed to elect a life annuity.
	100% of participants covered by the cash balance plan are assumed to elect a lump sum distribution.

Disability Rates	See Table 3
Decrement Timing	Middle of year decrements, with 100% retirement occurring at beginning of year
Surviving Spouse Benefit	It is assumed that 90% of males and 90% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$200,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2010 Plan Year	6.68%

Schedule SB, Part V—Summary of Plan Provisions

Cash Balance Provisions

Effective Date February 1, 1957. Amended and restated effective October 1, 2010.

Coverage Salaried employees of an Employing Unit are eligible to participate on their date of hire provided they are employed to work at least 1,000 hours per year. The plan was frozen effective December 31, 2005, so employees hired after this date are not eligible for plan participation.

Employing Unit	Date Credits Effective
Chemineer	July 1, 1994
Edlon	July 1, 1994
Pfautler	July 1, 1994
Corporate	January 1, 2000
Moyno	January 1, 2000
Energy Systems	January 1, 2000

Cash Balance Accounting
Pay-Based Credits to Account

For each calendar quarter that an individual is both a participant and an eligible employee on and after the pay credit date and prior to the benefit commencement date, there shall be credited to his account an amount equal to a percentage of his compensation for such quarter, the percentage varying depending on the number of years of service standing to the participant's credit as of the last day of such quarter. The plan was frozen effective December 31, 2005, therefore, participants do not receive any more pay based credits after this date.

Years of Service	Percentage of Compensation
Less than 15	5.0%
15+	6.5%

Notwithstanding the above, participants who were participants in the Pfaudler Salaried plan on August 1, 1990 received for a period of ten years, double the pay credits specified above. Additionally, Moyno Oilfield participants in the R&M Salaried final average pay plan on December 31, 1999 who transferred to R&M Energy Systems shall receive double pay credits for nine years.

Interest Credits to Accounts

Regular interest credits will be added to Accounts quarterly, based upon the greater of (a) or (b) below:

- a. 3.50%; or
- b. The average of the U.S. Government One-Year Treasury Constant Maturities for the last business day of the 12 months ending August preceding the plan year for plan years beginning October 1, 1994 or later.

Although the plan was frozen as of December 31, 2005, interest credits continue to be earned on the accounts.

Disability

Either (a) or (b):

- a. Accrued Benefit as of disability retirement date.
- b. Continued accrual of Pay Based Credits to Account at the same rate of Compensation immediately prior to becoming totally and permanently disabled until Normal Retirement Date. At age 65, the benefit is payable as a normal retirement benefit.

Deferred Vested

Vested Accrued Benefit determined by multiplying the Accrued Benefit by the following vesting schedule:

Completed Years of Service	Percentage of Accrued Benefit
Less than 3	0%
3 or more	100%

The Accrued Benefit is 100% vested if separation from service is by reason of death or total and permanent disability.

Death Benefit

If the beneficiary is not the participant's spouse, the beneficiary will receive the value of the deceased participant's Account the first day of the month following the month in which the participant dies.

If the beneficiary is the participant's spouse, the spouse may elect to receive either the value of the deceased participant's Account anytime between the date of death and the participant's Normal Retirement Date or a monthly annuity equal to the actuarial equivalent value of the participant's Accrued Benefit.

Accrued Benefit	An annual amount of benefit in the form of a single life annuity, commencing at Normal Retirement Date, where the single life annuity is the actuarial equivalent of the then current value of the Account.
Actuarial Equivalent	Actuarial equivalent with respect to any specified annuity or benefit means another annuity or benefit, commencing at a different date and/or a different form, but with the same present values as the specified annuity or benefit when measured on: i. The Mortality Table prescribed under section 417(e)(3)(A)(ii)(I) ("Applicable Mortality Table"). ii. The applicable segment rates specified in section 417(e)(3)(A)(ii)(II) for the month of August (the "look-back month") that precedes the Plan Year (the "stability period") in which the distribution is made.
Compensation	The annual basic wage paid inclusive of (i) and (ii), but exclusive of (iii): i. Overtime, bonus and commissions as reported on Form W-2. ii. 401(k) or 125 contributions on behalf of an individual. iii. Severance compensation and other extraordinary items of compensation.
Optional Payment Forms	Life annuity, 10-year certain and life annuity, 50%, 75%, and 100% contingent annuities, and lump sum.

Final Average Pay Provisions

History of the Plan

The Robbins & Myers, Inc. Pension Plan for Salaried Employees was established effective February 1, 1957. The plan covered salaried employees of the Company on the Springfield, Ohio, payroll, which includes all salaried employees based in Springfield, Ohio, the exempt salaried employees located in Gallipolis, Ohio, and upper management at the remote locations of other divisions of the Company. Effective October 1, 1977, coverage under the Plan was extended to the Columbia employees.

The plan was amended and restated in its entirety effective October 1, 1976. Before the amendment the plan was an excess plan integrated at a \$4,800 breakpoint level. The amendment directly integrated the plan with Social Security by modifying the basic monthly benefit to be 80% of final five-year average compensation up to \$750 plus 50% of such compensation in excess of \$750 minus 100% of the Social Security benefit. For Credited Service less than 35 years, proportionate benefits were payable. A minimum benefit of \$7 a month multiplied by years of continuous service was provided. Eligibility for participation was liberalized from age 25 and three years of service to age 25 and one year of service in order to comply with ERISA.

The amended plan provided unreduced benefits on early retirement after age 55 when age plus service totaled 90 points. Unreduced early retirement benefits were first provided by the plan to employees retiring on or after October 1, 1971, who were age 62 and who had completed 30 years of service. The age 62 requirement was lowered to age 60 on October 1, 1974. The plan amendments removed the maximum limitation on pensions of \$15,000 and reflected a newly adopted LTD plan by replacing the immediate disability benefit with a deferred disability benefit based on service which included the period of disability.

Effective October 1, 1979, the plan was amended and completely restated. The name was changed to Robbins & Myers, Inc. Pension Plan. The plan was changed to a participating group plan containing one plan document with separate Supplements, each of which identifies the participating group included in the Supplement and defines the benefit formulas applicable to that group. The plan specifies separate accounting for the assets of each participating group. Thus each Supplement represents a separate plan.

Under the amendments, the salaried employees on the Springfield, Ohio, payroll and the employees on the Columbia payroll were split into two separate participating groups (Supplement 1 and Supplement 2 respectively). Two other groups of salaried employees, who had previously been covered by plans with the same eligibility and benefit provisions as under Plan 2 became covered by the participating group plan. These were the salaried employees at the Twin City Monorail Facility (Supplement 3) and the salaried employees of Hunter Division (Supplement 4). A fifth group of employees, salaried employees on the Fairfield payroll, became covered by the Plan on October 1, 1979, under Supplement 5.

Under the October 1, 1979, amendments, the basic benefit formula was liberalized by increasing the compensation breakpoint from \$750 to \$1,000 per month. The minimum age required for participation, age 25, remained unchanged but the service requirement was changed to comply with the most recent ERISA regulations, providing for participation after 1,000 hours of service in the year following employment, with an alternative service requirement defined for employees unable to meet that requirement.

The amendments defined the procedures to be used to determine benefits for transferred employees. For retired and terminated employees (and their beneficiaries) whose benefits were in pay status on September 30, 1979, benefits were increased 10%.

Effective January 1, 1980, a sixth Supplement was added, which covered salaried employees on the Salisbury payroll. This group had previously been covered under the Cheshire, Connecticut, Plant Pension Plan. Assets equal to the present value of benefits accrued under that Plan were transferred to the Supplement 6 Plan.

Effective October 1, 1980, the plan was amended to remove the 35-year maximum on service.

The Salisbury Salaried Plan (Supplement 6) was terminated effective December 31, 1980.

Effective January 1, 1981, two new participating groups became covered by the Plan. Salaried employees at the Tallahassee facility were covered under Supplement 7 and salaried employees at the Foley facility were covered under Supplement 8.

The name of the Hunter group was changed to Comfort Conditioning.

The Twin City Monorail Facility Plan (Supplement 3) was terminated effective March 31, 1982.

Effective August 1, 1982, the plan was amended to provide a special early retirement supplement to eligible employees who elected to retire during a special temporary period.

The Columbia Participating Group (Supplement 2) and Tallahassee Participating Group (Supplement 7) were terminated effective February 28, 1983.

The Foley Participating Group (Supplement 8) was terminated effective August 31, 1983.

The Comfort Conditioning Salaried Participating Group (Supplement 4) was terminated effective December 31, 1984.

Effective October 1, 1984, the plan was amended and completely restated. For employees hired after this date, there is a 35-year maximum on service. In addition, an early retirement reduction applies if the sum of age plus Vesting Service equals 90 or more. This reduction equals $\frac{1}{4}\%$ for each month, if any, by which the benefit commencement date precedes age 65.

Effective October 1, 1985, the plan was amended to comply with the Retirement Equity Act. The age eligibility for participation was reduced from age 25 to age 21. In addition, the eligibility for a surviving spouse death benefit was expanded to include all active vested employees, and, at employee expense, all terminated vested employees who do not elect out of the coverage.

Effective October 1, 1987, the Plan was amended to provide full vesting after five years of service. In addition, for employees who retire April 1, 1988 or later, the Plan was amended to provide a supplemental pension payment at age 65 of \$3.50 per month per year of Vesting Service (maximum 35 years of service).

Under the October 1, 1987 amendments, the Gallipolis exempt employees (Motors division) in Plan 21 were spun off into a new supplement (31) named the Robbins & Myers, Inc. Motion Control Participating Group. This new plan was then amended to provide eligibility for exempt employees in the Electro-Craft and Renco divisions.

The following changes occurred effective October 1, 1989:

- Fairfield Salaried Plan 25 was merged into R&M Salaried Plan 21. The newly merged plan retains the provisions of the R&M Salaried Plan.
- The RKL Profit Sharing Plan was terminated effective September 30, 1989. The RKL employees joined R&M Salaried Plan 21, receiving an "all service" benefit with the profit sharing account balance converted to annuities and used to offset past service.
- The salaried plan formula was revised to comply with Social Security integration regulations. The new formula is an excess formula and is subject to a minimum of the Accrued Benefit under the old plan formula as in effect September 30, 1989.
- Early retirement eligibility was revised from age 55 and ten years of service to age 55 and five years of service.
- A maximum of \$200,000 was applied to compensation, as required by the Tax Reform Act of 1986.

Effective October 1, 1990, the salaried plan formula was improved from 0.80% to 1.0% of final average earnings plus 0.4% of final average earnings in excess of covered compensation multiplied by years of Credited Service (maximum 35 years of service).

Effective March 15, 1991, the Renco division in Plan 31 was sold, and, effective August 31, 1991, the remainder of the Group was sold. All employees were vested. Accrued Benefits were calculated as of the dates of sale and lump sum distributions made available. This plan continued in effect for inactive employees only.

Effective January 1, 1993, the monthly benefits for the retirees and beneficiaries (retired on or before January 1, 1993) in R&M Salaried (Plan 21) and Motion Control Exempt (Plan 31) were increased in accordance with the following schedule based on years since retirement:

Years of Retirement	Amount of Monthly Increase
1970 or earlier	\$30
1971–1980	\$25
1981–1985	\$20
1986–1993	\$15

Effective September 30, 1993, Motion Control Exempt (Plan 31) and Motion Control Nonexempt (Plan 3) were merged into R&M Salaried (Plan 21).

For employees that terminate after October 1, 1994, the charge to employees for preretirement death benefit coverage has been eliminated.

OBRA '93 legislation reduced the maximum annual compensation limit to \$150,000 beginning with the 1994 plan year. Robbins & Myers elected to use the extended wear away method to determine the Accrued Benefit.

Effective October 1, 1998, the monthly pension supplement increased from \$3.50 to \$5.00 per month per year of Vesting Service (maximum 35 years of service).

A one-time early retirement incentive was offered to eligible participants in the Robbins & Myers, Inc. Pension Plan (Plan 21): lump sums reflected the value of the age 62 early retirement subsidy. Six people took the window.

Effective October 1, 1999, the Robbins & Myers, Inc. Pension Plan (Plan 21) was merged into the Cash Balance Pension Plan (Plan 40) with the following provisions effective January 1, 2000:

- Moyno Oilfield employees who transferred to R&M Energy Systems converted from the final average pay formula to the cash balance formula. Double pay credits are awarded for nine years.
- Salaried employees in Springfield or Corporate hired on or after January 1, 1999 become Cash Balance participants on the later of January 1, 2000 or their date of hire.

The trustee for the plan is Bank One.

Effective October 1, 2002, EGTTRA legislation increased the 401(a)(7) maximum annual compensation limit from \$170,000 to \$200,000. The \$200,000 pay limit was applied retroactively for final average pay participants. The 415(b) annual limit increased from \$140,000 to \$160,000 and is no longer actuarially reduced at ages 62 or above.

Effective December 31, 2005, the plan was frozen such that service and pay after this date is not considered when determining the amount of the Accrued Benefit. However, service continues to grow for vesting and eligibility purposes.

Summary of Plan Provisions

Effective Date	February 1, 1957. Amended and restated effective October 1, 2010.
Coverage	An employee in a participating group is eligible after the later of attainment of age 21 and completion of a 12-month period during which he completes 1,000 hours of service. Coverage is extended to all salaried employees of Robbins & Myers, Inc. hired before January 1, 1999, regardless of their age or service, who are on the Springfield, Ohio, payroll, which includes all salaried employees based in Springfield, Ohio, and upper management at the remote locations of other divisions of the Company. Employees hired on or after January 1, 1999 are not covered under the final average pay formula. The plan was frozen as of December 31, 2005.
Retirement Age	
Normal	Age 65 and five years of Vesting Service.
Early	Age 55 and five years of Vesting Service.
Disability	None. Vesting Service and Credited Service continue to accrue while the participant is receiving LTD benefits.
Deferred Vested	Five years of Vesting Service.

Amount of Retirement Benefit

Normal

The normal retirement benefit is basically the sum of (1) and (2):

1. 1.0% of Final Average Earnings plus 0.40% of Final Average Earnings in excess of Covered Compensation, multiplied by years of Credited Service (maximum 35 years of service).

For employees who retire April 1, 1988 or later, a supplemental pension is paid, at age 65, equal to \$5.00 per month per year of Vesting Service (maximum 35 years of service).

2. The amount accrued while a participant in another plan in the participating group prior to becoming a transferred participant; based on his Credited Service accrued while a participant in each such participating group, his Final Average Earnings computed and the benefit rates in effect thereunder at his termination of Vesting Service. The term "transferred participant" means a participant in one participating group who is transferred to another participating group.

If the participant becomes an inactive participant (one who is transferred to an employee group which is not a participating group) his benefit will be as described in (2) above but based on his Final Average Earnings and the benefit rate in effect at the date he becomes an inactive participant.

The plan was frozen effective December 31, 2005. Pay and service earned after this date are not considered when determining the amount of Accrued Benefit.

Early

Accrued normal retirement benefit based on Final Average Earnings and Credited Service at date of retirement and reduced by $\frac{1}{2}\%$ for each month, if any, up to a maximum of 120 months, by which the benefit commencement date precedes age 65. If, however, the sum of the participant's age at retirement and his Vesting Service equals 90 or more, the reduction is $\frac{1}{4}\%$ for each month, if any, by which the benefit commencement date precedes age 65.

Late	Benefit computed as for normal retirement but based on Final Average Earnings and Credited Service at date of late retirement.
Disability	None. Participant continues to accrue Vesting Service and Credited Service under this Plan while receiving benefits under the Company's long-term disability program. However, such period shall not be credited for purposes of computing any minimum benefit described in any Supplement.
Deferred Vested	Accrued normal retirement benefit based on Final Average Earnings and Credited Service at date of termination. Benefit payable at age 65, or after age 55 with the early retirement reduction.
Normal Form of Annuity	A monthly annuity for life for participants with no eligible spouse. A participant with an eligible spouse will receive 90% of his regular retirement benefit for his lifetime with 55% of his benefit to be continued to his surviving spouse for the remainder of the spouse's lifetime, unless he elects otherwise. The 90% is increased by $\frac{1}{2}$ of 1% (to a maximum of 100%) for each 12 months that the spouse's age exceeds the member's age. The 90% is reduced in the same manner for each year that the spouse is younger than the member.
Optional Payment Forms	Life annuity, 10-year certain and life annuity, 55% and 75% contingent annuities, and lump sum.
Death Benefits	The surviving spouse of an active participant who dies prior to retirement but after becoming vested will receive 55% of the reduced benefit the participant would have received had he retired on the day before his date of death and had elected the joint and survivor option. The surviving spouse's benefit is payable for the life of the spouse beginning on the later of the participant's date of death or date he would have attained age 55. This benefit is also available to terminated vested employees. If the participant dies before early retirement age, benefits to the surviving spouse are deferred until the date at which the participant would have been able to elect earliest retirement.

Definitions

Plan Year

October 1 to September 30.

Actuarial Equivalence

7% interest, 1971 Group Annuity Table, 80% male/20% female weighting of annuity values. The Mortality Table prescribed under section 417(e)(3)(A)(ii)(I) ("Applicable Mortality Table"), and the applicable segment rates specified in section 417(e)(3)(A)(ii)(II) for the month of August (the "look-back month") that precedes the Plan Year (the "stability period") in which the distribution is made is used for lump sum distributions.

Vesting Service

Vesting Service is used to determine a participant's eligibility for benefits and his minimum benefit, if applicable. Continuous period of employment with the Company subject to the Break In Service rules of the Plan.

Credited Service

Credited Service is used to determine a participant's amount of benefits. It consists of the participant's Vesting Service reduced by: service before age 21 (age 25 prior to October 1, 1985) and completion of one year of service; service as an inactive participant; periods of layoff or non-military leave of absence in excess of three months; military leave of absence in excess of 36 months; any remaining Vesting Service before his eligibility to participate in the Plan; and any remaining Vesting Service he receives credit for while not employed by the employer.

Compensation

All compensation received for services rendered.

Final Average Earnings

The average of monthly compensation for the 60 months out of the last 120 months preceding retirement or termination for which such average is highest. Monthly compensation is determined by dividing calendar year pay by number of months worked.

Covered Compensation	A participant's Covered Compensation is selected from a table which varies by year of birth. The amount represents the average of the Social Security Wage Base for the 35 years up to and including the year of the individual's Social Security Normal Retirement Age. For employees who terminate or retire before Social Security Normal Retirement Age, the Social Security Wage Base in the year of termination is used for all future years.
Transferred Employees Transferred Out	A participant transferred to employment status not covered by this Plan continues to accrue Vesting Service for purposes of eligibility (but not Credited Service) after his transfer. His benefit amount under this Plan will be based on his Credited Service at time of transfer and on the plan provisions in effect on such date.
Transferred In	An employee who becomes a participant on transfer to employment status covered by this Plan is credited with his Vesting Service for all his employment with the Company before and after such transfer. His Credited Service will include his Credited Service under the plan of which he was a participant at the time of transfer but his benefit under this plan shall be reduced by any other pension based on such pre-transfer Credited Service. However, his benefit under this Plan will not be less than the benefit based solely on his Credited Service accrued under this Plan.
Prior Plan Benefits	A participant's normal retirement benefit shall not be less than an amount equal to the Accrued Benefit which he would have been entitled to receive under the terms of the Plan as in effect on September 30, 1989, based on his Credited Service and Final Average Earnings on that date.
Limitation Year	Calendar year.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Robbins & Myers, Inc. Consolidated Pension Plan (formerly known as the Robbins & Myers, Inc. Cash Balance Pension Plan), which comprise the statements of net assets available for benefits as of September 30, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by JP Morgan Chase Bank, N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended September 30, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

1. DESCRIPTION OF THE PLAN:

The following description of the Robbins & Myers, Inc. Consolidated Pension Plan (the "Plan") provides only general information. Participants should refer to the *Summary Plan Description* for a complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan, which covers substantially all eligible employees of Chemineer, Edlon, Pfaudler, Moyno, R&M Energy Systems and the Corporate Office of Robbins & Myers, Inc. (the Company). Eligible employees include any employee of Chemineer, Edlon, Pfaudler, Moyno, R&M Energy Systems or the Corporate Office who is compensated on a salaried basis and who is not currently an active participant in any other defined benefit pension plans sponsored by the Company. The Plan provides retirement, death, and disability benefits.

On February 20, 2013, Robbins & Myers, Inc. was acquired by National Oilwell Varco, Inc. With the purchase, National Oilwell Varco, Inc. has assumed responsibility for the employees' vested benefits in the Plan. The employees' eligibility, participation and vested benefits in the Plan will continue with the same terms and conditions as before the acquisition.

Effective September 30, 2013, National Oilwell Varco, Inc. merged the Robbins & Myers, Inc. Pension Plan for Hourly Employees (the "Hourly Employees Plan") and the Chemineer, Inc. Collective Bargaining Pension Plan (the "Chemineer Plan") with and into the Robbins & Myers, Inc. Cash Balance Pension Plan. The Robbins & Myers, Inc. Cash Balance Pension Plan, as merged, was renamed as the Robbins & Myers, Inc. Consolidated Pension Plan (the "Consolidated Plan"). The assets of the Hourly Employees Plan and the Chemineer Plan were transferred to the Consolidated Plan in September and October 2013. Effective October 1, 2013, eligible employees began participating in the Consolidated Plan.

Funding policy

The Company has agreed to contribute such additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants. It is the intention of the Company to make annual contributions in amounts sufficient to fund the Plan's current year's service cost and the initial past service cost plus interest (all normal costs and to fund the unfunded accrued liability) over a period of 30 years. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements.

Plan termination

The Company has the right to terminate the Plan and to discontinue contributions. Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC's guarantee, while other benefits may not be provided for at all.

Pension benefits

Eligible employees become Plan participants and begin accruing Pay Credits (equal to 5% of eligible compensation for participants with less than 15 years' service and 6.5% of eligible compensation for those with 15 plus years of service) and Interest Credits (determined each plan year) as of the date of employment. The total amount of Pay Credits and Interest Credits equals the participant's accrued benefit. Participants with five years service credit are vested in the plan. If the lump sum present value of a vested terminated participant's accrued benefit as of the date of termination of employment exceeds \$5,000 the participant may elect to begin receiving the benefit as soon as practicable thereafter in the form of a monthly annuity or in a lump sum payment. Accrued benefits with a lump sum present value of less than \$1,000 are paid out in a lump sum. Normal retirement age is 65 with 5 years of service. Early retirement is permitted under Supplement One of the Plan at age 55 for a participant who has at least one hour of service after October 1, 1989, and who has completed at least 5 years of vesting service but the benefit is reduced.

Eligible employees of Moyno, Inc. and Robbins & Myers, Inc. Corporate Office who were either covered under the Robbins & Myers Pension Plan on September 30, 1999, or would have been eligible to participate in the plan as of December 31, 1999, are covered under Supplement One of the Plan.

These employees with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65). The monthly normal retirement benefit is equal to:

- (A) one percent of final average monthly earnings plus 4/10 of one percent of final average earnings in excess of the participant's covered compensation; multiplied by
- (B) the participant's years of credited service (maximum of 35 years).

Effective December 31, 2005, the Plan was frozen. There is presently no intention to terminate the Plan. As a result of freezing the Plan, credited service and final average pay accruals terminated effective December 31, 2005. No further pay credits will be credited to the participant accounts after December 31, 2005. Vesting service continues to accrue for participants who were not vested prior to December 31, 2005. Account balances will continue to be credited with interest payments. There will be no new entrants to the Plan.

2. SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan.

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

With respect to the Plan's investment in the Robbins & Myers, Inc. Master Trust (Master Trust), the Master Trust records purchases and sales of securities on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

With respect to the Plan's investment in money market assets, interest income is recorded on the accrual basis.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits (see Note 3) are those estimated future periodic payments that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired and terminated vested participants or their beneficiaries, and (b) present participants or their beneficiaries.

Benefits for retired and terminated vested participants or their beneficiaries are based on the monthly pension benefit rate per the Plan times years of credited service, plus interest calculated on the hypothetical balance. The accumulated plan benefits for active participants are based on the monthly pension benefit rate per the Plan times years of credited service through the valuation date, plus interest calculated on the hypothetical balance. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements, and certain expenses are paid by the Plan.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through July 15, 2014, the date on which the financial statements were available to be issued.

3. ACCUMULATED PLAN BENEFITS:

A consulting actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of the beginning of each plan year is as follows:

	October 1	
	2012	2011
Vested benefits:		
Participants currently receiving payment	\$ 8,463,794	8,298,250
Vested benefits for other participants	<u>22,478,891</u>	<u>20,351,580</u>
	30,942,685	28,649,830
Nonvested benefits	<u>21,680</u>	<u>23,004</u>
	<u>\$ 30,964,365</u>	<u>28,672,834</u>
Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 28,672,834</u>	<u>30,219,225</u>
Increase (decrease) during the year attributable to:		
Interest accumulation	1,224,589	1,218,700
Benefit payments	(1,700,843)	(2,430,110)
Assumption changes	2,749,275	(261,567)
Other changes	<u>18,510</u>	<u>(73,414)</u>
Net (decrease) increase	<u>2,291,531</u>	<u>(1,546,391)</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 30,964,365</u>	<u>28,672,834</u>

Significant assumptions underlying the actuarial computations at the beginning of each plan year are:

Interest rate	3.40% (4.40% in the prior year)
Retirement age	Based on age when first eligible to retire with unreduced benefits
Actuarial method	Projected unit credit cost method
Mortality rates	2012 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e) (RP2000CH projected to 2012 with scale AA in the prior year)

The significant assumption change reflected in the October 1, 2012 and 2011 actuarial valuations was due to changes in the discount rate. The discount rate at October 1, 2012, 2011 and 2010 was 3.40%, 4.40%, and 4.20%, respectively.

Actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. INVESTMENTS:

All investment information disclosed in the accompanying financial statements, notes and supplemental schedules, including investments held at September 30, 2013 and 2012, and net appreciation (depreciation) in fair value of investments, interest and dividends and investment expenses for the years ended September 30, 2013 and 2012, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

The Master Trust was established for the investment of assets of the Plan and several other Company sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At September 30, 2013 and 2012, the Plan's interest in the net assets of the Master Trust was approximately 72.47% and 30.69%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the Plan based upon its pro rata share in the net assets of the Master Trust.

The following table presents the fair value of investments of the Master Trust at September 30:

	<u>2013</u>	<u>2012</u>
Assets:

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2013:

	September 30, 2013	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money Market Fund	\$ 8,965	8,965	-	-

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2012:

	September 30, 2012	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money Market Fund	\$ 178,759	178,759	-	-

- (1) The money market fund is valued at the closing price reported on the active market on which it is traded.

The following table summarizes the bases used to measure certain financial assets of the Master Trust at their fair market value on a recurring basis as of September 30, 2013:

	September 30, 2013	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total	\$ 88,574,616	72,271,500	16,303,114	2

- (2) U.S. Government and Agency obligations, Common and Foreign stocks, and Mutual funds are valued at the closing price reported on the active market on which the individual securities are traded.
- (3) Corporate and Foreign obligations are estimated using recent transactions, broker quotations and/or bond spread information.
- (4) Investments in Joint venture/partnerships are carried at estimated net asset value as determined by and reported by their management and represent the proportionate share of the estimated fair value of the underlying assets of the joint venture/ partnerships.

For investments measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during 2013 and 2012, a reconciliation of the September 30, 2013 and 2012 balances is as follows:

Balance, September 30, 2011	\$	2
Unrealized appreciation		-
Balance, September 30, 2012		2
Unrealized appreciation		-
Balance, September 30, 2013	\$	2

6. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. RELATED-PARTY TRANSACTIONS:

The Plan invests in Robbins & Myers, Inc. common stock through the Master Trust. The Master Trust received dividends of \$7,247 and \$5,985 on behalf of the Plan in the years ended September 30, 2013 and 2012, respectively.

8. INCOME TAX STATUS:

The Plan has received a determination letter from the Internal Revenue Service dated April 19, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust is exempt from taxation.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of September 30, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years ended prior to September 30, 2010.
