Notes to Financial Statements

December 31, 2013 and 2012

Note 1 - Description of the Plan

The following description of the Schnipke Engraving (“the Company”) 401(k) Profit Sharing Plan and Trust (“the Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan covering all employees of the Company who have six months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to ten percent of pretax annual compensation to a traditional 401(k) or after-tax annual compensation to a Roth 401(k), as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers one guaranteed certificate fund and 24 mutual funds as investment options for participants.

The Company contributes a maximum of four percent of employee wages by matching 100 percent of the first three percent plus 50 percent of employee contributions over three percent up to five percent. The matching Company contribution is invested as directed by the participants. Additional profit sharing amounts may be contributed at the option of the Board of Directors of the Company and are also invested as directed by the participants. Participants may share in the additional profit sharing amounts provided they have completed one year of service (minimum of 1,000 hours) and are actively employed on the last day of the Plan year. Contributions are subject to certain limitations.

Participant Accounts - Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contributions, (b) Plan earnings, and (c) forfeitures of terminated participants’ nonvested discretionary accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six or more full years of service as follows:

<u>Years of Service</u>	<u>Percentage Vested</u>
Two but less than three	20%
Three but less than four	40%
Four but less than five	60%
Five but less than six	80%
Six or more	100%

Note 1 - Description of the Plan (cont.)

Participant Loans - Participants may borrow from their fund accounts an amount not to exceed \$50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.75% to 7.50%, which is commensurate with local prevailing rates and considered reasonable by the Plan Trustee.

Payment of Benefits - There are various methods by which benefit payments may be distributed to participants. The method depends on marital status, as well as elections made by the participant and his or her spouse. All methods, however, have equivalent values and apply to all distributions from the Plan, whether by reason of retirement, termination, or any other event which may result in a distribution of benefits. At the date that benefits begin, married participants will automatically receive a joint and 50 percent survivor annuity, unless otherwise elected. Unmarried participants will automatically receive a life annuity, unless otherwise elected. In both situations, participants may elect one of the following alternative forms of payment:

- a single lump-sum payment in cash; or
- the purchase of a different form of annuity; or
- installments over a period of not more than life expectancy.

Forfeitures - Forfeited amounts attributable to the Company matching portion of a participant's account will be applied to reduce the Company matching contribution for the Plan year in which such forfeitures occur. Forfeited amounts attributable to the Company discretionary portion of a participant's account will be reallocated to all participants based on compensation, as defined. At December 31, 2013 and 2012, forfeited amounts used during the year totaled \$130 and \$15,207, respectively.

Administrative Expenses - The Employer serves as the plan administrator. Principal Trust Company serves as the trustee of the Plan. The plan administrator and trustee are responsible for the general administration and interpretation of the Plan.

Note 2 - Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities as of the date of the financial statements. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (cont.)

Basis of Accounting - The accompanying financial statements of the Plan present the net assets available for benefits of the Plan and changes in those net assets on the accrual basis of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and ASC 962-325-50-3 (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measure attributable for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statements of Net Assets Available for Benefits presents the fair value of the investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on the contract value basis.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly fashion between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Net appreciation or depreciation in fair value of investments is reflected in the Statements of Changes in Net Assets Available for Benefits and includes realized gains and losses on investments bought and sold and the change in appreciation from one period to the next. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payment of Benefits - Benefits are recorded when paid.

Information Certified by Trustee - The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from Principal Trust Company that all information relating to the Plan's investments and related investment income is complete and accurate. Information as to the value of the investments in the trust fund managed by the trustee, investment income (loss), is presented in reliance solely upon those certifications.

Reclassifications - Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year financial statements.

Note 3 - Investments (Unaudited)

At December 31, 2013 and 2012, all investments listed on the supplemental Schedule of Assets held for investment purposes were certified and held by the Principal Trust Company ("Principal"). Investments included in the Plan's net assets available for plan benefits at December 31, 2013 and 2012, are as follows. Amounts that represent 5% or more of the net assets at either December 31, 2013 or 2012 are displayed separately.

During 2013 and 2012, the Plan's investments including gains and losses on investments bought and sold, as well as held during the year, appreciated in value by \$3,070,228 and \$1,830,550, respectively. Interest and dividends on all investments totaled \$333,713 and \$348,962 for the years ended December 31, 2013 and 2012, respectively.

Note 4 - Investment Contract with Insurance Company

The Plan has a benefit-responsive investment contract with Principal. Principal maintains the contributions in a pooled account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measure attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Note 4 - Investment Contract with Insurance Company (cont.)

Contract value, as reported by the Plan to Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was \$2,719,200 and \$2,927,907, respectively. The credit interest rate is based on the Composite Crediting Rate. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on completing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that causes a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:		
Based on Actual Earnings	2.30%	2.43%
Based on Interest Rate Credited to Participants	2.30%	2.43%

Note 5 - Fair Value Measurements

Financial Accounting Standards Board ASC 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Notes to Financial Statements

Note 5 - Fair Value Measurements (cont.)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stock, corporate bonds, and U.S. Government securities are based on quoted market prices.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significantly other observable inputs are not available. Guaranteed Investment Contracts cannot be sold, transferred, or assigned externally and most participant transactions are executed using contract value without adjustment. These contracts do have a surrender charge of 5% if a plan terminates its interest in the contract without 12 months' advance notice. The plan has no intentions to terminate these contracts within the next 12 months. Therefore, the fair value of the guaranteed investment contract is considered to be equal to the contract value. Participant loan fair value is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

Note 6 - Plan Terminations

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to amend, modify, or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balance.

Note 7 - Related Party Transactions

Certain plan investments are shares of funds managed by Principal Trust Company (Principal). Principal is the Plan's trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Participant loans also qualify as party-in-interest transactions. Participant loans totaled \$712,654 and \$781,939 as of December 31, 2013 and 2012, respectfully. Interest received on participant loans totaled \$45,016 and \$47,995 for the years ended December 31, 2013 and 2012, respectively.

Notes to Financial Statements

Note 8 - Income Tax Status

The Plan is designed based on a prototype plan established by Principal Trust Company. The Internal Revenue Service has provided an opinion to Principal Trust Company by a letter dated March 31, 2008, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has not requested a letter of determination from the Internal Revenue Service, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 10 - Subsequent Events

Management has evaluated subsequent events through July 2, 2014, the date on which the financial statements were available to be issued. There are no subsequent events to disclose.
