Note 1 - Description of the Plan and Significant Accounting Policies

The following description of The Denver Wholesale Florists Company 401(k) Retirement Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established August 1, 1988, which was amended and restated effective December 31, 2009. The Plan is available to employees age 21 years or older who have completed six months of service. Employees may begin participating in the Plan on either January 1 or July 1 following the date that all eligibility requirements have been met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Denver Wholesale Florists Company (the "Company") administers the Plan. Principal Life Insurance Company ("Principal") serves as custodian and recordkeeper and manages Plan investments. Principal offers Plan participants a variety of investment options through various mutual funds, pooled separate accounts, and a collective investment trust. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Participants may make before-tax and catch-up contributions up to 100% of compensation, not to exceed limits established by the IRS, which are adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company makes matching contributions of 50% of the first 6% of employee deferrals, which are calculated and funded based on the payroll period.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and Plan earnings or losses, expenses, and forfeitures. Allocations are based upon Plan earnings or losses and account balances, as defined in the Plan document. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions and allocated earnings or losses thereon.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting (continued)

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 or more years	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65 or, if later, the fifth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or if the Plan is terminated.

Participant Loans

Participants may borrow from their vested accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the remaining balances in the participants' accounts and bear interest at 6.25%, which is commensurate with local prevailing rates at loan origination as determined quarterly by the Plan administrator at the inception of the loan, and mature at various dates through November 2018. The maximum loan term is five years. Principal and interest are paid ratably through payroll deductions. Participant loans are stated at amortized cost plus accrued interest.

Payments of Benefits

Upon termination of service, death, disability, or attaining normal retirement age, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested account balance. Benefits are recorded when paid.

A separated participant is subject to a mandatory distribution in the form of a lump-sum payment if the vested account balance is less than $1,000. In the event of a mandatory distribution where the participant's balance is greater than $1,000 and less than $5,000, and the participant has not elected a distribution, the Plan administrator will pay the account balance as a distribution to an individual retirement account plan established for the participant and maintained by Principal. In-service withdrawals are allowed with notice of hardship, subject to certain restrictions.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion of the participant's account shall be placed in a separate account and will be reallocated to the Plan's forfeiture account on the earlier of the fifth consecutive one-year break in service or the end of the Plan year following the payment of the vested account balance; otherwise, the funds can be restored to the participant's account upon re-employment with the Plan sponsor. Funds allocated to the Plan's forfeitures account shall be allocated to offset Plan sponsor expenses or future employer contributions. The Plan held $953 and $0 of unused forfeitures at December 31, 2013 and 2012, respectively. During the year ended December 31, 2013, Plan sponsor expenses were reduced by $465 and Plan sponsor contributions were reduced by $3,543 from forfeited accounts.

Valuation of Investments and Income Recognition

Investments are recorded at fair value, as reported to the Plan by Principal. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The Plan invests in a fully benefit-responsive investment contract through a collective investment trust. Consistent with current accounting standards, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment in the collective investment trust as well as the adjustment of the investment in the collective investment trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on the contract value basis.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the fair value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required additional disclosure or recognition in the financial statements.

Note 2 - Investments

Principal has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2013 and 2012 and the income earned on the investments for the year ended December 31, 2013, as reflected in the accompanying financial statements and the supplemental schedule, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by Principal, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule.

Note 2 - Investments (continued)

The fair values of investments greater than 5% of net assets available for benefits were the following:

	December 31, 2013	December 31, 2012
Large Cap S&P 500 Index Separate Account	$ 2,465,179	$ 1,894,121
Stable Value Fund	$ 2,430,765	$ 2,383,601
Lifetime 2025 Separate Account	$ 877,559	$ 668,653
Small Cap Growth Equity A Fund	$ 767,152	$ 504,878
Diversified International Separate Account	$ 725,536	$ 603,720
Lifetime 2020 Separate Account	$ 678,332	$ 527,628

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the year) appreciated in value as follows:

Pooled separate accounts	$ 1,506,348
Mutual funds	316,506
Collective investment trust	20,357
	$ 1,843,211

Note 3 - Fair Value Accounting

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2013 and 2012.

Note 3 - Fair Value Accounting (continued)

Assets at fair value as of December 31, 2013 are as follows:

Description	Level 1	Level 2	Level 3	Total
Large-cap U.S. equity	$ 223,213	$ 2,786,971	$ -	$ 3,010,184
Fixed income	22,906	2,874,208	-	2,897,114
Balanced/asset allocation	-	2,708,745	-	2,708,745

Total	$ 1,431,832	$ 10,246,403	$ -	$ 11,678,235

Assets at fair value as of December 31, 2012 are as follows:

Description	Level 1	Level 2	Level 3	Total
Fixed income	$ 24,189	$ 3,115,007	$ -	$ 3,139,196
Large-cap U.S. equity	116,099	2,223,804	-	2,339,903

International equity	59,281	603,720	-	663,001
Other	-	114,782	-	114,782
Total	$ 821,744	$ 8,849,113	$ -	$ 9,670,857

Level 1 investments are comprised of mutual funds, which are valued based on quoted prices in active markets. Level 2 investments are primarily comprised of pooled separate accounts, which are valued on a per-unit market value basis as determined by Principal, which is based upon the fair value of the investments comprising the separate funds based on quoted market prices. The collective investment trust within Level 2 fixed-income investments is valued by Principal based upon the fair value of the investments comprising the trust.

There were no changes in the valuation techniques utilized for the years ended December 31, 2013 and 2012.

Note 3 - Fair Value Accounting (continued)

(a) The investments seek to invest in a majority of large capitalization companies, such as those located on the S&P 500 Index, with the intent of mirroring the activity of those markets.

Note 3 - Fair Value Accounting (continued)

Reported Net Asset Values (continued)

(b) The investments seek to provide long-term growth of capital and current income with a mix based on the target date. The funds invest in domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund.

(c) The investments seek to generate long-term growth of capital by investing in companies with small- to mid-sized capitalizations. Investment options are set up to mirror the performance of indices such as the S&P SmallCap 600 and MidCap 400 or to invest in companies principally engaged in the real estate market.

(d) The investments seek long-term growth of capital by investing primarily in stocks of non-U.S. companies with a variety of capitalizations.

(e) The investments seek to provide current income through investing in intermediate maturity fixed-income or debt securities rated BBB- or higher by S&P or Baa3 or higher by Moody's at the time of purchase, including securities issued or guaranteed by the U.S. government or its agencies, asset-backed securities or mortgage-backed securities representing an interest in a pool of mortgage loans or other assets, debt securities and taxable municipal bonds, and debt securities issued or guaranteed by foreign governments payable in U.S. dollars.

(f) This investment provides an avenue to invest in Principal Financial Group stock.

(g) This investment seeks stability and liquidity through investing in highly liquid investments with a maturity of three months or less.

** Withdrawals for purposes other than benefit payments and loan advances require 12-month advance notice.

Note 4 - Income Taxes

The Plan administrator has adopted a volume submitter plan and has received an opinion letter from the IRS dated March 31, 2008, which stated that the volume submitter plan document, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan itself, and the Plan has since been amended. The Plan administrator believes that the Plan was designed and continues to be operated and administered in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 4 - Income Taxes (continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.

Note 7 - Party-in-Interest Transactions

Certain Plan investments are pooled separate accounts and a collective investment trust managed by Principal. Principal is the asset custodian, as defined by the Plan. In addition, the Plan allows for loans to participants. These transactions qualify as party-in-interest, which are exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

Excess contributions payable for financial reporting purposes differ from amounts shown on the Plan's Form 5500 as of December 31, 2012 due to the accrual of excess contributions payable. There were no excess contributions payable as of December 31, 2013. Additionally, total net assets available for benefits and investment income for financial reporting purposes differ from the amounts shown on the Plan's Form 5500 for the year ended December 31, 2013, as the collective investment trust is reported at contract value for financial reporting purposes and fair value on the Plan's Form 5500.

Note 9 - Excess Contributions Payable

Contributions received from participants for 2012 are net of corrective distribution payments. These payments were made in January 2013 to active participants to return excess deferral contributions as required to satisfy the relevant non-discrimination provisions of the Plan.
