Fashion Glass & Mirror, Inc. 401(k) Retirement Savings Plan

NOTES TO THE FINANCIAL STATEMENTS

Note A - Description of the Plan

The following description of the Fashion Glass & Mirror, Inc. 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 1993 as a defined contribution plan for the benefit of eligible employees of Fashion Glass & Mirror, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Income Security Act of 1974 ("ERISA").

Administration

MassMutual Life Insurance Company has been appointed the Custodian (the "Custodian") of the Plan. Resource Benefits Administrators has been appointed Third Party Administrator ("TPA") of the Plan.

Eligibility

Employees of the Company, who have completed one year of service and attained the age of 21, are generally eligible to participate in the Plan. The entry date of the Plan for eligible participants is on the first day of the 1st and 7th month of the plan year following the date that a participant first satisfies eligibility requirements.

The plan excludes from participation collectively bargained employees, non-resident aliens and leased employees.

Contributions

Each year Participants may contribute a percentage of their pre-tax annual compensation not to exceed the limitation ($17,500.00 and $17,000.00 in 2013 and 2012 respectively) set forth in Section 402(g) of the Internal Revenue Code ("IRC"). Participants may make after-tax Roth contributions. Participants who are (or will be) age 50 or older by the end of the calendar year may make pre-tax catch-up contributions that exceed the annual elective deferral limit. Participants' total catch-up contributions during 2013 and 2012 cannot exceed $5,500.00 and $5,500.00, respectively.

Note A - Description of the Plan, continued

The Company may contribute a discretionary matching contribution. During 2013 and 2012, the Company made no discretionary matching contributions.

The Plan also provides for discretionary Company profit sharing contributions. During 2013 and 2012, the Company made no discretionary employer profit sharing contributions.

Participant Accounts

Each Participant's account is credited with the Participant's contribution, the Company's matching contribution and an allocation of any non-elective contribution and earnings (losses) on the investments selected by the Participant. Allocations are based on Participant compensation or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested interest in his or her account.

Investment Options

Upon enrollment in the Plan, Participants may direct the investment of their contributions and the Company's contributions into various investments offered by the Plan.

Vesting

Participants are vested immediately in their elective contributions and rollover contributions plus any earnings on such contributions. The vesting of discretionary Company contributions plus any earnings thereon is based on years of continuous service (as defined) accrued by the Participant while in covered employment. Participants become 100% vested on a six-year graded vesting schedule.

Participant Loans

Participants may borrow from their accounts on a pro-rata basis from all contribution sources up to a maximum equal to the lesser of $50,000.00 or 50% of the Participant's vested account balance. Loan terms must not exceed five (5) years unless the loan is to be used in the financing of the Participant's homestead in which case the loan may be payable in terms of similar length provided by conventional lending institutions. The loans are secured by the vested balance in the Participant's account and bear an interest rate of 3.25 percent. Principal and interest payments are made by means of payroll withholdings according to the terms of the promissory note. A participant may have only one loan outstanding at any time. Participants are allowed to transfer or rollover funds into the Plan from other qualified plans.

Payment of Benefits

Upon termination of employment due to death, disability, attainment of age 59 ½ or retirement a participant (or his/her designated beneficiary in the event of death) may elect to receive a lump-sum amount. For termination of employment due to other reasons, the vested interest in his or her account may be distributed as rollover to another plan, a lump-sum distribution or it may be left in the Plan if the account balance is greater than $1,000.00.

Forfeited Accounts

All employer contributions credited to a Participant's account, but not vested, are forfeited by the Participant upon his/her termination from the Plan. Per the Plan document forfeitures may be used to offset future employer contributions. During the years ended December 31, 2013 and 2012, there were $125 and $0, respectively. As of December 31, 2013, there were $11,214 of forfeitures that have not yet been applied.

Administrative Expenses

Certain expenses incurred in the administration of the Plan are paid directly by the Plan.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of net assets available for the benefits and changes therein. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investment options. These investment options are exposed to market risk, which generally means the risk of loss in the value to certain investment securities due to changes in interest rates, commodity prices and general market conditions. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in risks in the near term could materially affect Participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

Investments in registered investment companies are stated at fair value, which is determined using quoted market prices. Investments in money market funds are valued at amortized cost, which approximates fair value. Participant loans are recorded at their outstanding balances, which approximate fair value. Net appreciation (depreciation) in fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation (depreciation) of investments held at the end of the year. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis.

Insurance Investment Contract

MassMutual Retirement Services ("MMRS") general investment account investment option for defined contribution plans is a guaranteed interest account provided through a group annuity contract. Under the terms of the group annuity contract, a crediting rate is established for amounts invested in the guaranteed interest account and participants may direct permitted withdrawal and /or transfer transactions of all or a portion of their account balance at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees. Contract value is also often referred to as "book value." MMRS considers this investment option to be fully-benefit responsive notwithstanding the liquidation value events under the contract that limit the ability to the plan to transact at contract value.

The contract value, as reported to the Plan by MMRS, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may direct the withdrawal or transfer of all or a portion of their investment at contract value.

All bona-fide participant-initiated withdrawals from the GIA, including benefit payments at termination or retirement, loans and transfers to other non-competing investment options, are paid at book value. Similar to other stable value alternatives, transfers to competing fixed income investments are not allowed. Employer-initiated events such as layoffs, a sale of a business unit, a company merger, or a change in the stable value option offered under a plan are considered market value events and are subject to the plan sponsor liquidity

Upon full or partial contract or plan termination and certain other sponsor-initiated events, distributions from the GIA may be subject to a liquidation value (market value) adjustment pursuant to a formula specified in the contract. The market value formula may produce a value that is more or less than the book value of the plan's investment in the GIA

The average yield, based upon the guaranteed interest rate credited to participants for the years ended December 31, 2013 and 2012 are 3.00% and 3.00%, respectively. The average yield based upon actual earnings (loss) for the years ended December 31, 2013 and 2012 are 2.54% and 2.72%, respectively.

This contract is reported on the Form 5500 at contract value and on the Statement of Net Assets Available for Benefits at fair market value with an adjustment to contract value.

Subsequent Events

The Plan has evaluated subsequent events through May 30, 2014, the date which the financial statements were available to be issued. No events have occurred subsequent to the date of the statement of net assets available for benefits that would require adjustment to, or disclosure in, the financial statements.

Contributions

Contributions from employees and the Company are recorded in the period in which the Company makes the payroll deductions from Participant accounts.

Note C - Investments

The following investments each represent five percent or more of the Plan's net assets at December 2013 and 2012:

	2013	2012
Guaranteed Interest Account	$556,246	$619,479
Select Large Cap Value	108,910	81,130
Total	$665,156	$700,609

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated/ (depreciated) in value by $168,003 as follows:

GIA	$16,739
Bonds	629
Mutual Funds	150,635
	$168,003

Note D - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That frame work provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted process for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;

Note D - Fair Value Measurements, continued

- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted process that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset of liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use to unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at the end of the year.
Fixed contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness.
Bonds/Money Market: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

Assets at Fair Value as of December 31, 2013

	Level 1	Level 2	Level 3	Total
Mutual Funds		$683,158		$683,158

Note E – Information Certified by the Custodian (Unaudited)

At December, 2013 and 2012, the Plan's investments were held by the custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The fair value of investments at December, 31, 2013 and 2012, as reported by the custodian is summarized as follows:

	2013	2012
Mutual Funds	$683,158	$557,517
Fixed Account	613,016	703,723
Total	$1,296,174	$1,261,124

Each of the above investments represents 5% or more of the net assets of the Plan at December 31, 2013.

The following is information in the Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2013:

	2013
Investment Income:	
Interest and dividends	$3,228
Net appreciation in fair value of investments	168,003
Total investment (loss) income	$171,123

Note F – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants will become 100% vested in their accounts.

Note G – Tax Status

The IRS has determined and informed the Company by an opinion letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been made in the financial statements.

Note H – Party-in-Interest Transactions

The plan invests in Participant loans. These transactions qualify as party-in-interest transactions. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

Certain Plan investments are funds managed by the Trustee and the Custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services and certain administrative fees related to the related to the administration of the Plan were paid by the Plan or by the Company. These transactions qualify as party-in-interest transactions.

Note I – Benefit Claims Payable

At December 31, 2013 and 2012, net assets available for benefits included $0.00 and $0.00 respectively, for distributions to participants who requested a distribution from the Plan prior to the end of the Plan year.

Note J – Recent Accounting Pronouncements

In September, 2012, FASB issued Accounting Standards Update ("ASU") 2013-25. ASU 2012-25 requires that participant loans be reported as a receivable rather than an investment and that the loans be valued at their outstanding principal plus accrued unpaid interest.
