Report on the Financial Statements

We were engaged to audit the accompanying financial statements of TDMG Retirement Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the custodians of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certification from the custodians as of December 31, 2013 and 2012 and for the year ended December 31, 2013 that the information provided to the plan administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2013 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TDMG RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the TDMG Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

General: The Plan is a defined contribution profit sharing plan covering substantially all full time employees of ThinkDirect Marketing Group, Inc. (the Company), with the exception of union employees, SSA home agents, acquired employees (exclusion applies only during transition period) and independent contractors, who have completed six months of service and have attained 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute a portion of their pretax annual compensation, as defined in the Plan and subject to certain limitations. The Plan provides for automatic participant enrollment into the Plan at a deferral rate of 2 percent with an automatic increase of 1 percent each year up to a maximum of 10 percent, unless elected otherwise by the participant. Participants age 50 or older are permitted to defer "catch-up" contributions under Internal Revenue Code (IRC) section 414(v), which are not to exceed a \$5,500 limit. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may contribute a discretionary matching contribution and additional discretionary contributions to the Plan. Additional qualified non-elective contributions (QNEC) may be made. For the year ended December 31, 2013, there were no discretionary matching contributions or additional discretionary contributions made by the Company. Plan participants direct the investment of their contributions and employer contributions into various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with the participant's contributions and an allocation of Company contributions, Plan earnings, and forfeitures of employer matching contributions, and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan. Participants may change their investment options daily.

Retirement, Death and Disability: A participant is entitled to 100 percent of his or her account balance upon retirement, death or disability.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts, plus earnings thereon, is based on years of continuous service at the rate of 20 percent per year.

Payment of Benefits: Upon retirement, death, disability or termination of service, a participant may elect to receive the value of the vested interest in his or her account either in a lump-sum distribution or in installments over a period not to exceed the life expectancy (determined at the time of distribution) of the participant or their spouse.

Notes Receivable from Participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid through payroll deductions over periods ranging up to 5 years or longer, i.e. mortgage, in which case the period cannot exceed 10 years.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Hardship Withdrawals: Subject to the approval of the Plan administrator, participants may withdraw all or a portion of their employee pretax contributions, if any, to satisfy immediate and heavy financial need, as determined by the Plan agreement.

Forfeited Accounts: Participant forfeitures of discretionary employer contributions shall be used to offset the Company's contributions.

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's record keeping and custodial fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment loss reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value as further described in Note 5. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Excess Contributions: Refunds of excess participant deferral contributions may be required to satisfy the relevant nondiscrimination provisions of the Plan. Such refunds are accrued as a liability and reduction in contributions in the Plan year in which the excess deferrals were made to the Plan.

TDMG RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates. It is at least reasonably possible that a significant change may occur in the near term in the estimated fair value of the Plan's investments.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of assets available for benefits.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in a fully benefit-responsive contract. No adjustment from fair value to contract value is presented in the statement of net assets available for benefits at December 31, 2013, as fair value has been determined to approximate contract value. An adjustment from fair value to contract value is presented in the statement of net assets available for benefits as of December 31, 2012, as fair value was determined to approximate liquidation value.

NOTE 3 - RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions and earnings thereon.

NOTE 4 - INVESTMENTS - UNAUDITED INFORMATION

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income (loss), was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Principal Life Insurance Company (Principal) and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the custodians of the Plan. This information has not been audited by independent accountants.

NOTE 4 - INVESTMENTS - UNAUDITED INFORMATION (Continued)

The following presents the fair values of investments that represent 5 percent or more of the Plan's net assets available for benefits.

	December 31,	
	<u>2013</u>	<u>2012</u>
Pooled separate accounts:		
Principal Lifetime 2020	\$ 514,160	\$ 448,470
Principal Lifetime 2030	394,081	356,110
Principal Lifetime 2025	315,447	288,857
Principal Lifetime 2015	164,103 *	153,218
Guaranteed investment contract:		
Principal Fixed Income Guaranteed Option (contract value: 2013 - \$253,308; 2012 - \$225,577;)	253,308	214,298

* Disclosed for comparative purposes only

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Pooled separate accounts	\$ 353,167
Mutual funds	<u>120,563</u>
Net appreciation	<u>\$ 473,730</u>

The custodians reported that the Plan earned interest and dividends totaling \$16,382 during 2013.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. The effect of a change in valuation technique or its application on a fair value estimate is accounted for prospectively as a change in accounting estimate. When evaluating indications of fair value resulting from the use of multiple valuation techniques, the Plan is to select the point within the resulting range of reasonable estimates of fair value that is most representative of fair value under current market conditions. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. Transfers between hierarchy measurement levels are recognized by the Plan as of the end of the reporting period.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Pooled Separate Accounts: The fair values of participation units held in pooled separate accounts are based on their net asset values, as reported by the managers of the pooled separate accounts as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (level 2 inputs). Pooled separate accounts categorized as balanced/asset allocation seek a total return consisting of long-term growth of capital and current income by allocating the assets more conservatively over time by investing in underlying Principal domestic and foreign equity, real estate investments, or fixed-income funds according to the asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. The Principal Large Cap S&P 500 Index Separate Account seeks long-term growth of capital by investing mainly in common stocks of companies that compose the S&P 500 Index in an attempt to mirror the investment performance of the index before expenses by allocating assets in approximately the same weightings as the S&P 500 Index. The Principal Large Cap Growth Separate Account seeks long-term growth of capital by investing primarily in common stocks of companies having large market capitalizations at the time of purchase and guided by high quality management teams however the separate account may invest up to 25% of assets in foreign securities. The Principal Small Cap Growth Separate Account seeks long-term growth of capital by investing at least 80% of its net assets, plus borrowings, in growth equity securities of companies with small market capitalizations at the time of purchase in which the earnings are expected to be above average. The Principal Small Cap S&P 600 Index Separate Account seeks long-term growth of capital by investing mainly in common stocks of companies that compose the S&P 600 Index in an attempt to mirror the investment performance of the index before expenses by allocating assets in approximately the same weightings as the S&P 600 Index. The Principal Small Cap Value Separate Account seeks long-term growth of capital by investing at least 80% of its net assets in value equity securities of U.S. companies with small market capitalizations at the time of purchase that appear to be undervalued while also investing a percentage of the separate account assets in real estate investment trusts. The Principal Mid Cap S&P 400 Index Separate Account seek long-term growth of capital by investing the majority of its assets in common stocks of companies that compose the S&P MidCap 400 Index in an attempt to mirror the investment performance of the index before expenses by allocating assets in approximately the same weightings as the S&P MidCap 400 Index. The Principal Mid Cap Value Separate Account seeks long-term growth of capital by investing at least 80% of its net assets, plus any borrowings for investment purposes, in a diversified portfolio of equity securities of companies with a medium market capitalization at the time of purchase that appear to be undervalued while also investing a percentage of the separate account assets in real estate investment trusts. Pooled separate accounts categorized as international equity seek long-term growth by investing in companies in different countries throughout the world, including emerging markets, with no restriction of investment percentage in any one country. With the exception of the Principal U.S. Property Separate Account, pooled separate accounts categorized as real estate seek to generate a total return by investing at least 80% of their net assets in equity securities of small, medium and large capitalization companies principally engaged in the real estate industry. The Principal Money Market Separate Account invests in multiple high-quality, short-term securities with minimal credit risks such as commercial paper which seeks a high level of current income consistent with preservation of principal and maintenance of liquidity. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

Guaranteed Investment Contract: The fair value of the Plan's investment contract has been determined to approximate contract value (Level 3 input), as the terms of the contract prohibit transfer or assignment of rights under the contract and provide for all distributions at contract value, frequent re-setting of contractual interest rates based upon market conditions, no significant liquidity restrictions and no defined maturities. Contract value, as determined by Principal, represents contributions made under the agreement, plus earnings, less participant withdrawals and administrative expenses. In addition, management has determined that no adjustment from contract value is required for credit quality considerations. The investment objective is to provide stated rate of return backed by the General Account of Principal Life Insurance Company.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below.

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

The table below presents a reconciliation of Plan investments measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the year ended December 31, 2013, including the reporting classifications for the applicable gains and losses included in the 2013 statement of changes in net assets available for benefits.

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013.

	<u>Investment Contract</u>
Balance, January 1, 2013	\$ 214,298
Total realized and unrealized gains or losses included in change in net assets available for benefits:	
Interest income on investment contract held at end of year	3,318
Change in adjustment from fair value to contract value of fully benefit-responsive investment contract	11,279
Purchases	31,051
Sales	<u>(6,638)</u>
Balance, December 31, 2013	<u>\$ 253,308</u>

NOTE 6 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan holds a fully benefit-responsive investment contract with Principal Life Insurance Company (Principal; Issuer). Principal maintains the contributions in its general account. Principal's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination, Plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contract. Examples of circumstances which would allow the Issuer to terminate the contract include the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

(Continued)

NOTE 6 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

The crediting interest rate of the contract is based on an agreed-upon formula with the Issuer, as defined in the contract agreement, but cannot be less than zero percent. Such interest rates are reviewed on a semi-annual basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contract. The resulting gain or loss in the fair value of the investment contract relative to its contract value, if any, is reflected in the Statement of Net Assets Available for Benefits as *Adjustment from fair value to contract value for fully benefit-responsive investment contract*.

	<u>2013</u>	<u>2012</u>
Average yields:		
Based on annualized earnings ⁽¹⁾	2.00%	2.21%
Based on interest rate credited to participants ⁽²⁾	2.00%	2.21%

- ⁽¹⁾ Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the contract investments on the same date.
- ⁽²⁾ Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the contract investments on the same date.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. The Plan holds units of pooled separate accounts managed by Principal and a fully benefit-responsive investment contract with Principal. Principal is the Plan custodian and record keeper and, therefore, these transactions and the Plan's payment of custodial fees, record keeping fees, and investment management fees to Principal qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 8 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the IRC. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the IRC.

NOTE 9 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through July 8, 2014, which is the date the financial statements were available to be issued.
