A. Description of Plan

The following description of RP Automotive II Retirement Savings Plan (the Plan) provides only general information. The Plan was established September 1, 2008. The following descriptions reflect the provisions of the plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the company who have three months of service and have attained the age of eighteen. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The company exercises a negative deferral election where it automatically withholds 3% of an employee's compensation for purposes of being contributed into the Plan as a salary deferral, unless an election for an alternative deferral amount or an election not to participate in the Plan is made. Currently, participants may contribute up to 75% of pretax annual compensation. Total contributions per participant for the years ended December 31, 2012 may not exceed $17,000 and for 2011 may not exceed $16,500. Participants who are at least 50 years of age by December 31, 2012 or 2011 may contribute catch-up contributions up to an additional $5,500. The company may provide a discretionary profit sharing contribution determined on an annual basis. The company may also provide a matching contribution based on employee salary deferrals. For the plan year ended December 31, 2012, no matching or profit sharing contributions were made. All contributions under the Plan are to be invested in shares of investment companies for which Wells Fargo Bank, N.A. acts as transfer agent and which are selected by the employer as investment options under the Plan. The Plan allows participants to self direct their account balance among available investments. As of December 31, 2012, all funds held for investment in the Plan were self directed by the participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the company's contribution and Plan investment earnings or losses of the trust fund. Participants will only realize the gain or loss of their individual investment selections. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are first used to defray the reasonable expenses of administrating the plan. Any remaining amounts will be used to reduce the company's matching contributions for the year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. Description of Plan (Concluded)

Vesting

Participants are immediately vested in their 401(k) contributions plus actual earnings thereon. Vesting in the company's matching and profit sharing portions, if any, of their accounts plus actual earnings thereon is based on years of continuous service. A participant becomes 100% vested after three years of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, based upon approval by the plan administrator. All loans must have a definite repayment period and be amortized on a level basis over a reasonable period of time, not to exceed five years. However, if the loan is used to acquire a primary residence, the repayment period can exceed five years. The loans are secured by the participant's vested account balance. All loans must bear a reasonable rate of interest, one a bank or other professional lender would charge for making a loan in a similar circumstance. The current loan interest rates range from 5.25% to 9.25%. Principal and interest are paid ratably through payroll deductions on not less than a quarterly basis.

Payment of Benefits

All distributions from the plan are made as a lump-sum amount equal to the value of the participant's vested interest in his or her account balance.

Plan Administrator Fees

All routine plan administrative expenses including, but not limited to, fees of accountants, counsel, and other specialists and their agents, and other costs of administering the plan may be paid out of the trust fund unless paid by the employer. Investment income is reported net of these administrative expenses by fund. For the plan year ended December 31, 2012, administrative fees totaled $9,249.

Forfeited Accounts

These accounts remain available to first pay administrative expenses then to reduce employer contributions. At December 31, 2012 and 2011, forfeitures available to reduce the Plan's administrative expenses totaled $57,721 and $54,044.

B. Summary of Accounting Policies

Date of Management's Review

For the year ended December 31, 2012, the Plan has evaluated subsequent events for potential recognition and disclosure through August 13, 2013, the date on which the financial statements were available to be issued. It has been determined that no subsequent events or transactions need to be recognized or disclosed in these financial statements.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments, except notes receivable from participants, are presented at fair value. Fair value of the funds is determined based on the underlying investments of the related funds as reported by Wells Fargo Bank, N.A., based on quoted market prices. Such investments are credited with earnings of the underlying investments and charged for Plan withdrawals and administrative expenses incurred.

Notes receivable from participants are valued at the outstanding balance which approximates fair value.

Purchases and sales of these investments are reflected on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investments

The following presents investments at December 31, 2012 and 2011 that represent 5% or more of the Plan's net assets:

	2012		2011	
	shares	value	shares	value
Stable Return Fund	20764.5631	$1,038,394	21878.4114	$1,072,020
Aston Mid Cap Fund	2219.2150	$ 74,100	n/a	n/a
Notes receivable from participants	n/a	$ 84,016	n/a	$ 86,748

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $33,475 as follows:

Mutual funds	$ 55,191
Interest on notes receivable	4,047
Dividends	7,574
Transfer of assets, net	(33,337)
	$ 33,475

D. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of their future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lower priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the Plan.

D. Fair Value Measurements (Continued)

Level 1 Fair Value Measurements

The fair value of common and mutual funds are based on net asset values of the shares held by the Plan at year-end.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012.

E. Information Certified by the Custodian (Unaudited)

At December 31, 2012 and 2011, the Plan's investments were held by the custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

E. Information Certified by the Custodian (Unaudited) (Concluded)

The fair value of investments at December 31, 2012 and 2011, as reported by the custodian is summarized as follows:

	2012	2011
Investments at fair value	$ 1,349,450	$ 1,349,177
Dividends	$ 7,574	
Investment gains	$ 55,191	
Transfer of assets, net	$ (33,337)	

F. Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Wells Fargo Bank, N.A. Wells Fargo maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Wells Fargo. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of events that would cause the plan to transact at less than contract value is not probable. Wells Fargo may not terminate the contract at any amount less than contract value.

G. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

H. Tax Status

The Internal Revenue Service has determined and informed Wells Fargo Bank, N.A. by a letter dated May 14, 2004 that the prototype Plan and related trust are qualified under applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

H. Tax Status (Concluded)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statement. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

I. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

J. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amount to $9,249 for the year ended December 31, 2012.

K. Excess Contributions

There were no excess deferral contributions for the year ended December 31, 2012.

L. Reconciliation of Financial Statements to Form 5500

	2012	2011

A. Description of Plan

The following description of RP Automotive II Retirement Savings Plan (the Plan) provides only general information. The Plan was established September 1, 2008. The following descriptions reflect the provisions of the plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the company who have three months of service and have attained the age of eighteen. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The company exercises a negative deferral election where it automatically withholds 3% of an employee's compensation for purposes of being contributed into the Plan as a salary deferral, unless an election for an alternative deferral amount or an election not to participate in the Plan is made. Currently, participants may contribute up to 75% of pretax annual compensation. Total contributions per participant for the years ended December 31, 2012 may not exceed $17,000 and for 2011 may not exceed $16,500. Participants who are at least 50 years of age by December 31, 2012 or 2011 may contribute catch-up contributions up to an additional $5,500. The company may provide a discretionary profit sharing contribution determined on an annual basis. The company may also provide a matching contribution based on employee salary deferrals. For the plan year ended December 31, 2012, no matching or profit sharing contributions were made. All contributions under the Plan are to be invested in shares of investment companies for which Wells Fargo Bank, N.A. acts as transfer agent and which are selected by the employer as investment options under the Plan. The Plan allows participants to self direct their account balance among available investments. As of December 31, 2012, all funds held for investment in the Plan were self directed by the participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the company's contribution and Plan investment earnings or losses of the trust fund. Participants will only realize the gain or loss of their individual investment selections. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are first used to defray the reasonable expenses of administrating the plan. Any remaining amounts will be used to reduce the company's matching contributions for the year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. Description of Plan (Concluded)

Vesting

Participants are immediately vested in their 401(k) contributions plus actual earnings thereon. Vesting in the company's matching and profit sharing portions, if any, of their accounts plus actual earnings thereon is based on years of continuous service. A participant becomes 100% vested after three years of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, based upon approval by the plan administrator. All loans must have a definite repayment period and be amortized on a level basis over a reasonable period of time, not to exceed five years. However, if the loan is used to acquire a primary residence, the repayment period can exceed five years. The loans are secured by the participant's vested account balance. All loans must bear a reasonable rate of interest, one a bank or other professional lender would charge for making a loan in a similar circumstance. The current loan interest rates range from 5.25% to 9.25%. Principal and interest are paid ratably through payroll deductions on not less than a quarterly basis.

Payment of Benefits

All distributions from the plan are made as a lump-sum amount equal to the value of the participant's vested interest in his or her account balance.

Plan Administrator Fees

All routine plan administrative expenses including, but not limited to, fees of accountants, counsel, and other specialists and their agents, and other costs of administering the plan may be paid out of the trust fund unless paid by the employer. Investment income is reported net of these administrative expenses by fund. For the plan year ended December 31, 2012, administrative fees totaled $9,249.

Forfeited Accounts

These accounts remain available to first pay administrative expenses then to reduce employer contributions. At December 31, 2012 and 2011, forfeitures available to reduce the Plan's administrative expenses totaled $57,721 and $54,044.

B. Summary of Accounting Policies

Date of Management's Review

For the year ended December 31, 2012, the Plan has evaluated subsequent events for potential recognition and disclosure through August 13, 2013, the date on which the financial statements were available to be issued. It has been determined that no subsequent events or transactions need to be recognized or disclosed in these financial statements.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments, except notes receivable from participants, are presented at fair value. Fair value of the funds is determined based on the underlying investments of the related funds as reported by Wells Fargo Bank, N.A., based on quoted market prices. Such investments are credited with earnings of the underlying investments and charged for Plan withdrawals and administrative expenses incurred.

Notes receivable from participants are valued at the outstanding balance which approximates fair value.

Purchases and sales of these investments are reflected on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investments

The following presents investments at December 31, 2012 and 2011 that represent 5% or more of the Plan's net assets:

	2012		2011	
	shares	value	shares	value
Stable Return Fund	20764.5631	$1,038,394	21878.4114	$1,072,020
Aston Mid Cap Fund	2219.2150	$ 74,100	n/a	n/a
Notes receivable from participants	n/a	$ 84,016	n/a	$ 86,748

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $33,475 as follows:

Mutual funds	$ 55,191
Interest on notes receivable	4,047
Dividends	7,574
Transfer of assets, net	(33,337)
	$ 33,475

D. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of their future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lower priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the Plan.

D. Fair Value Measurements (Continued)

Level 1 Fair Value Measurements

The fair value of common and mutual funds are based on net asset values of the shares held by the Plan at year-end.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012.

The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

E. Information Certified by the Custodian (Unaudited) (Concluded)

The fair value of investments at December 31, 2012 and 2011, as reported by the custodian is summarized as follows:

	2012	2011
Investments at fair value	$ 1,349,450	$ 1,349,177
Dividends	$ 7,574	
Investment gains	$ 55,191	
Transfer of assets, net	$ (33,337)	

F. Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Wells Fargo Bank, N.A. Wells Fargo maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Wells Fargo. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of events that would cause the plan to transact at less than contract value is not probable. Wells Fargo may not terminate the contract at any amount less than contract value.

G. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

H. Tax Status

The Internal Revenue Service has determined and informed Wells Fargo Bank, N.A. by a letter dated May 14, 2004 that the prototype Plan and related trust are qualified under applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

H. Tax Status (Concluded)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statement. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

I. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

J. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amount to $9,249 for the year ended December 31, 2012.

K. Excess Contributions

There were no excess deferral contributions for the year ended December 31, 2012.
