(1) Description of Plan

The following brief description of the Coconut Grove Bank (the "Bank") 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering substantially all employees of the Bank who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is sponsored by the Bank. The Plan's trustees consist of three officers from the Bank. Pension Studios is the Plan administrator and record-keeper. The Bank replaced ING Life Insurance and Annuity Company ("ING") with Great-West Life and Annuity Insurance Company ("Great-West") as the Plan's custodian on March 1, 2013. The Plan's investments were sold and reinvested as directed by each participant on May 15, 2014.

Contributions. Each year, contributions to the Plan are made by the participants. Participants may elect to defer the receipt of a portion of their compensation on a pre-tax basis, not to exceed the maximum contribution limits specified by ERISA. Additionally, participants may rollover or transfer to the Plan any portion or all of the property received from another qualified employee benefit trust (rollover contribution). Catch-up contributions are permitted for participants reaching age fifty during the Plan year.

Each year, the Bank may, at its option, make a contribution. This contribution is determined by the Bank and is based on the greater of 3% of eligible compensation or $1,500 per participant as long as the participant is employed on the last day of the calendar year and has completed 1,000 hours of service. The Bank may make an additional discretionary contribution.

Investment Options. Upon enrollment in the Plan, a participant may direct contributions into any of several investments (mutual funds) offered by the Plan. Participants may change their investment options at their discretion. As of March 1, 2013, the Plan no longer offered a group annuity investment contract or a money-market fund as its investment options.

Participant Accounts. An employee who has completed three months of service has met the eligibility requirements and may enter the Plan on the first day of the month coinciding with eligibility or the first day of the following month. Each participant's account is credited with the participant's contribution and an allocation of the Bank's matching and profit sharing contributions, if any. Allocations of earnings are based on participant account balances, as defined.

Vesting. Participants are immediately vested in their elective deferrals plus actual earnings thereon. Participant's portion of the Bank's profit sharing or matching contributions vest 20% per year and are 100% vested after five years of credited service.

(continued)

(1) Description of Plan, Continued

Notes Receivable from Participants. A participant may borrow from the Plan an aggregate amount not to exceed the lesser of: (a) $50,000 or (b) 50% of the participant's vested account balance. Loan terms range from one to five years, except in the case of a loan for the purchase of a primary residence, which shall be determined by the Bank. The loans are secured by the vested balance in the participant's account and bear interest at a market rate. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits. Upon termination of service, a participant may request to receive a lump-sum amount equal to his or her vested account. A participant is entitled to 100% of his or her vested account balance upon retirement, death or disability.

Forfeited Accounts. The Bank's profit sharing or matching contributions, that portion of the participant's account balance that is not fully vested, will be forfeited upon participant termination. Forfeitures of matching contributions are reallocated as a discretionary matching contribution. Forfeitures of profit sharing contributions are reallocated as an additional profit sharing contribution. Forfeitures amounted to $6,126 and $10,681 in the years ended December 31, 2013 and 2012, respectively. The 2012 and 2013 forfeited accounts have been reallocated as an additional profit sharing contribution in 2013 and 2014, respectively.

(2) Summary of Significant Accounting Policies

Basis of Financial Statement Presentation. The accompanying financial statements have been prepared on the accrual basis of accounting.

Subsequent Events. Management has evaluated all significant events occurring subsequent to the financial statements date through July 10, 2014, which is the date the financial statements were available to be issued, determining no events require additional disclosure in the financial statements.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes, therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value and are based on the framework for measuring fair value. Fair values of mutual funds are determined using unit values calculated by Great-West at December 31, 2013 and ING at December 31, 2012.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(continued)

(2) Summary of Significant Accounting Policies, Continued

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits. Benefits are recorded when paid.

Reclassifications. Certain accounts have been reclassified to conform to the current year's presentation.

(3) Investments

Investments that represent 5% or more of fair value of the Plan's net assets are as follows:

	At December 31,	
	2013	**2012**
Mutual funds:		
Federated Capital Preservation Fund R6	$ 576,098	-
Massachusetts Investors Growth Stock Fund R5	226,719	-
Pimco Total Return Fund	238,326	-
Vanguard Target Retirement 2045 Fund	451,784	-
Vanguard Target Retirement 2035 Fund	242,632	-
Vanguard Target Retirement 2025 Fund	459,437	-

ING Index Solution 2035 Portfolio – Adviser Class	-	191,788
ING Index Solution 2025 Portfolio – Adviser Class	-	345,235
Franklin Growth Fund – Class R	-	186,610
ING GNMA Income Fund - Class A	-	303,514
ING Fixed Account (Group Annuity Investment Contract), at contract value	-	452,366

During 2013, all of the Plan's investments with ING were replaced with similar investments with Great-West.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $611,034, all of which related to investments in pooled separate accounts.

(continued)

(4) Group Annuity Investment Contract with Insurance Company

In 2007, the Plan entered into a benefit-responsive guaranteed investment contract with ING. Upon replacement of ING with Great-West, the contract was sold and the proceeds were transferred to Great-West. The effective termination date of the guaranteed investment contract was April 29, 2013.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $498,300 and $465,239, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	**2012**
Based on actual earnings	3.0%
Based on interest rate credited to participants	3.0%

(5) Fair Value Measurements

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy requires the Bank to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy describes three levels of inputs that may be used to measure fair value:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; and model-driven valuations whose inputs are observable or whose significant value drivers are observable. Valuations may be obtained from, or corroborated by, third-party pricing services.

Level 3: Unobservable inputs to measure fair value of assets and liabilities for which there is little, if any market activity at the measurement date, using reasonable inputs and assumptions based upon the best information at the time, to the extent that inputs are available without undue cost and effort.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds. Values at the quoted net asset value (NAV) of shares held by the plan at year end.

Group Annuity Investment Contract. Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Money-Market Fund. The carrying value of the fund approximates fair value.

(continued)

(5) Fair Value Measurements, Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by Level, within the fair value hierarchy, the Plan assets at fair value:

	Level 1	Level 2	Level 3	Total

(5) Fair Value Measurements, Continued

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Group Annuity Investment Contract
Balance, beginning of year	$ 498,300
Unrealized gains	700
Sales and settlements	499,000
Balance, end of year	$ -

(6) Related Party Transactions and Service Fees

At December 31, 2013, the Plan no longer offers a group annuity investment contract or a money-market fund as its investment options. The Plan offers pooled separate accounts which include mutual funds and collective investment trust funds managed by Great-West. Since Great-West is a related party, the transactions qualify as party-in-interest. Fees charged by Great-West and ING for providing custodian services are paid by the Plan and were $17,475 during 2013.

(7) Plan Termination

Although it has not expressed any intent to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, regardless of the Plan's current vesting schedule.

(continued)

(8) Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. Form 5500 is subject to examination by the respective federal authorities generally three years from the filing date.

GAAP requires the Bank to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Bank has analyzed the tax positions taken by the Bank, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Bank believes it is no longer subject to income tax examinations for years prior to 2010.

(9) Information Certified by the Custodians (Great-West and ING)

The information contained in the financial statements and supplemental schedule, which was certified by the Plan's custodians, is as follows:

Statements of Net Assets Available for Benefits

Investments:
- Mutual funds
- Group annuity investment contract
- Money-market fund

Statement of Changes in Net Assets Available for Benefits

Investment income, net appreciation in fair value of mutual funds

Schedule of Assets Held for Investment Purposes

All information except for notes receivable from participants

(10) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest-rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
