GAF Materials Corporation 401(k) Plan

Notes to Financial Statements

December 31, 2013

1. Plan Description

The following plan description is provided for general information purposes only. Participants of the GAF Materials Corporation 401(k) Plan (the “Plan”) should refer to the Plan document for a more detailed and complete description of the Plan’s provisions.

General

The Plan is a participant-directed defined contribution plan sponsored by Building Materials Corporation of America and its subsidiaries (“GAF”, the “Company”, or the “Plan Sponsor”) covering eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Participants are required to determine into which investment funds individual contributions are directed. Contributions may be allocated to any combination of funds in multiples of 1%. Participants are also permitted to change the allocation among investment funds of future and previous contributions. Such changes are subject to certain Plan limitations.

Automatic Enrollment

Effective July 1, 2013, the Plan was amended to increase the deferral percentages for employees automatically enrolled from 3% to 6%. In addition, the Plan was also amended to increase the maximum annual contribution limit for automatically enrolled participants from 10% to 15%.

Under the terms of the Plan, allowable contributions are outlined as follows:

Elective Contributions

Participants may elect to defer up to 75% of their annual compensation, as defined, and contribute such amount to the Plan. In addition, effective July 1, 2013, the Plan was amended so that participants may elect up to a 3% automatic annual increase to their rate of contribution to the Plan each year versus the prior year limit of 1%.

In order to satisfy the nondiscrimination requirements of Section 401(k) of the Internal Revenue Code of 1986 (the “Code”), contributions are limited to the extent necessary so that the actual deferral percentage for the highly compensated group is in compliance with the limitations, as defined, by the Code. In addition, pretax contributions and Roth 401(k)

1. Plan Description (continued)

contributions were limited to a maximum of \$17,500 and \$17,000 for 2013 and 2012, respectively, plus a “catch-up” contribution up to 10% of annual compensation, as defined, up to a maximum of \$5,500 for 2013 and 2012, respectively, for participants who have attained the age of 50 as of December 31 in such calendar year. Furthermore, in order to satisfy the rules of Section 415 of the Code, in no event shall the annual additions, as defined, exceed the lesser of \$51,000 for 2013 or \$50,000 for 2012 or 100% of a participant’s compensation, as defined.

Voluntary Contributions

Participants may elect to make voluntary after-tax contributions to the Plan which shall not exceed 10% of their compensation, as defined, for the Plan year.

Matching Contributions

In accordance with the Plan, GAF makes matching contributions for each participant equal to 66-2/3% of the sum of the first 6% of each participant’s pre-tax and/or Roth salary deferrals but not in excess of 4% of the participant’s eligible earnings for the Plan year, as defined. Additionally, for each Plan year, the employer contributes a non-matching contribution equal to 3% of each participant’s eligible earnings, as defined.

Eligibility

All full-time permanent employees are eligible to participate in the Plan immediately upon employment. Part-time and temporary employees are eligible on the first day of the calendar month immediately following the date on which the employee completes 1,000 hours of service in the first 12 months of employment or in any calendar year thereafter.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the employer’s contribution portion of the accounts of certain employees of GAF who are transferees in from other plans is based on years of continuous service, as defined. All other employees of GAF are vested immediately in the employer’s matching contribution. For 2013 and 2012, forfeitures used to reduce employer matching contributions or administrative

expenses were \$0 and \$6,301, respectively. As of December 31, 2013 and 2012, forfeitures available to be used to reduce future employer matching contributions were \$2,557 and \$20,995, respectively.

Participant Accounts

Each participant's account reflects the participant's contributions and an allocation of the employer's matching contribution, and Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Rollovers

Participants may elect to roll over amounts from other qualified plans into this Plan upon submitting a Rollover Contribution form to Vanguard Fiduciary Trust Company (the "Trustee"). Rollover contributions are self-certified by the participant.

Transfers from/to Other Qualified Plans

Participants may elect to transfer amounts from other qualified plans into the Plan as follows:

- (a) Participants who have an interest in another qualified employee benefit plan (as described in Section 401(a) of the Code) may transfer the lump-sum value of their accrued pension benefits directly into the Plan.
- (b) Participants may contribute amounts which were received from a qualified employee benefit plan in which they previously participated and which are permitted to be contributed to the Plan in accordance with the Code.

Payment of Benefits

Participants may withdraw funds from their vested account in the event of normal retirement, late retirement, death, termination, or hardship withdrawal, as defined. In addition, upon attainment of 59½ years of age, participants may withdraw all or any portion of their remaining participant account balance in the Plan. 1. Plan Description (continued)

account balance will be distributed to a participant or beneficiary either in the form of a lump-sum payment, rollover, or periodic installments. If the value of a participant's vested account balance exceeds \$5,000, the participant or beneficiary may elect to defer distribution in accordance with Plan provisions.

Hardship Withdrawals

The Plan allows a participant who has not attained the age of 59½ the ability to withdraw all or part of his or her vested participant account, except that portion which represents earnings on elective contributions, but only upon determination by the plan administrator that the participant has suffered a financial hardship within the meaning of the final regulations issued under Code Section 401(k). Such withdrawal shall not exceed the amount necessary to meet the need created by such hardship.

Notes Receivable from Participants (Participant Loans)

The Plan allows participants to borrow against their aggregate balance outstanding in the Plan. Total loans to a participant cannot exceed the lesser of 50% of the participant's account balance based upon the most recent valuation up to a maximum amount of \$50,000 (reduced by the highest outstanding loan balance in the previous 12 months). The minimum amount of any loan granted to a participant shall be at least \$1,000. Each loan bears interest at a reasonable rate as determined by the Plan's Administrative Committee. Loans are required to be repaid within five years, unless used to purchase or acquire a qualified dwelling. Loans are offset against the participant's account and the related portion does not share in any income, expenses, gains, or losses (other than the interest on the loan) which are realized by the Plan. The entire unpaid principal amount of the loan will become immediately due either upon the participant's termination of employment or a default in payment of either principal or interest. In the event of a default in payment, if the outstanding loan balance is not paid in full, it is treated as a deemed distribution, which the participant is required to pay taxes and penalties. For financial reporting purposes, these deemed distributions remain in notes receivable from participants in the accompanying statements of net assets available for benefits for as long as the participant is an active member of the Plan or until the loan has been repaid.

Plan Termination

Although it has not expressed any intent to do so, GAF reserves the right under the Plan to discontinue or terminate the Plan at any time subject to the provisions of ERISA. In the event that such termination occurs, all amounts credited to participant accounts will become 100% vested. The net assets of the Plan would then be distributed to the participants in lump-sum form.

2. Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies of the Plan:

Basis of Accounting

Accounting records of the Plan are maintained on the accrual basis of accounting. Purchases and sales transactions are recorded on a trade-date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date. Capital gains and losses are included in dividend income. Benefits are recorded when paid.

Investment Valuation and Income Recognition

The fair value of the Plan's interest in the Master Trust (see Note 3) is based on the beginning of year value of the Plan's interest in the trust plus contributions and allocated investment income or loss less distributions and allocated administrative expenses.

The Master Trust's investments in money market, common stocks, bonds and commingled funds are stated at fair value. Quoted market prices are used to value such investments. Shares of money market funds are valued at the net asset value of shares held by the Plan at year end. Securities transactions are recorded on the trade date (the day the order to buy or sell is executed). Dividend income is recorded on the ex-dividend date.

The Master Trust holds an investment in the Vanguard Retirement Savings Trust V (the "Trust"), which holds investment contracts issued by high-quality insurance companies and banks as rated by Vanguard (the advisor to the trust's sponsor). These are interest bearing contracts in which the principal and interest are guaranteed by the issuing companies. The contracts are considered fully benefit-responsive and are comprised of Guaranteed Investment Contracts ("GICs"). The fair value of GICs is modeled using observable inputs. The fair value of GICs equals the total of the fair value of the underlying assets calculated using the present value of contract cash flows.

GAF Materials Corporation 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In determining the net assets available for benefits in the Trust, the GICs are recorded at fair value with a corresponding adjustment to reflect these investments at their contract values, which are equal to contributions plus interest less benefit payments and expenses. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

The Trust is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Certain Plan events limit the ability of the Master Trust to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan administrator or other plan administrator events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (iv) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Master Trust's ability to transact at contract value with participants, is probable.

The investment in the Trust, at fair value, is reflected in the Plan's interest in the Master Trust. An adjustment to reflect the investment at contract value is included in the accompanying statement of net assets available for benefits.

Fair Value Measurements

The accounting guidance on fair value measurements and disclosures establishes a valuation hierarchy that prioritizes the inputs used to measure fair value based on three defined levels or criteria. The hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the reporting entity's market assumptions. The three levels of inputs that may be used to measure fair value are as follows:

- **Level 1** – Quoted prices for identical instruments in active markets;

GAF Materials Corporation 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

- **Level 2** – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose significant inputs are observable; and
- **Level 3** – Instruments whose significant inputs are unobservable and for which estimates of fair value are determined using related market data.

The following is a description of the valuation methodology used for the assets measured at fair value at December 31, 2013 and 2012:

Common Stocks, Bonds and Commingled Funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Money Market Funds: Valued at quoted net asset value of shares held by the Plan at year-end reported on the active market.

Guaranteed Investment Trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table provides the fair value hierarchy of the Master Trust investments as of December 31, 2013:

	Level 1	Level 2	Total

Tax Status

The Plan has received a determination letter from the Internal Revenue Service (the “IRS”) dated August 3, 2012, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt. In addition, the plan administrator indicated that they will take the necessary steps, if any, to bring the Plan’s operations into compliance with the Code, if necessary.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Administrative Expenses

Expenses attributable to the management and investment of each investment fund shall be charged against the respective fund. As provided by the Plan, administrative expenses are paid by either the Plan or the Company. In 2013 and 2012, administrative expenses were paid by the Plan.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires the plan administrator to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants (Participant Loans)

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued and unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012.

3. Investments

The "Master Trust" includes the investment assets of the Plan, the GAF Materials Corporation Hourly Capital Accumulation Plan and the GAF Materials Corporation Union Capital Accumulation Plan.

3. Investments (continued)

The Plan's interest in the Master Trust as a percentage of net assets of the Master Trust was 89.8% and 89.7% at December 31, 2013 and 2012, respectively. The Plan's share of the net investment activity of the Master Trust was 90.5% and 90.6% in 2013 and 2012, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.
