DYNOMAX, INC.
401(k) SAVINGS RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

Note 1 – Description of the Plan

The following description of the Dynomax, Inc. (Company) 401(k) Savings Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General.
The Plan is a trusteed 401(k) profit sharing plan (defined contribution plan) covering all full-time employees of the Company who have attained the age of 21 years and have one year of entry service. Entry service is defined as twelve consecutive months of employment that include at least 1,000 hours of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions and Investment Elections.
Contributions are subject to certain Internal Revenue Code (IRC) limitations. Each year, participants may contribute a portion of pretax annual compensation, as defined in the Plan. In accordance with the IRC, participant contributions were limited to $17,500 in the 2013 Plan year and remain subject to periodic adjustment by the Internal Revenue Service (IRS). Participants 50 years of age prior to December 31, 2013 were eligible to make catch-up contributions of up to $5,500 for the 2013 Plan year. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers fifteen mutual funds and one common collective trust account as investment options for participants. The Company makes a matching contribution equal to a uniform percentage of the participant's salary deferrals. The Company contributed an amount equal to 100 percent of the first 3% of the participant's salary deferrals and 50% of the deferral between 3% and 5%.

C. Participant Accounts.
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting.
Participants are immediately vested in their contributions, safe harbor matching contributions, and actual earnings thereon. If the Company is a top-heavy plan the graded vesting schedule provides for twenty percent (20%) vesting after two years of service increasing by twenty percent (20%) each subsequent year with full vesting of one hundred percent (100%) achieved after six-years.

E. Participant Notes Receivable.
Participants may borrow from their account in amounts from a minimum of $1,000 up to a maximum of the lesser of 50% of their vested account balance or $50,000. Participants may not have more than one loan outstanding at any one time. Loan transactions are treated as transfers to (from) the investment fund and to (from) the Participant Notes fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with rates available for similar loans from commercial lending institutions as determined periodically by the loan administrator. Principal and interest payments are due at least quarterly, and are paid ratably through payroll deductions. Outstanding loan balances at December 31, 2013 are being paid bi-weekly through payroll deductions. A loan is considered to be in default on the last day of a calendar year quarter following a quarter which loan payments were not made in accordance with the terms of the promissory note. Related interest income totaled $3,462 for the year ended December 31, 2013.

F. Hardship Withdrawals.
If a Plan participant has a financial hardship, he or she may withdraw an amount up to the elective deferral contributions thereon.

G. Payment of Benefits.
A participant may withdraw the total vested amount in their account as a result of either: (i) termination of employment, (ii) reaching age 59 ½, (iii) disability or (iv) death. The full value of the participant's account may be distributed to the participant upon retirement or permanent disability if elected by the participant and is subject to income taxation upon distribution. If death occurs before retirement, the full value of the participant's account is distributed to designated beneficiary(ies). On termination of service, a participant with a vested account balance may only elect to receive a lump-sum amount equal to the value of the participant's vested interest in his account. If the participant account balance (excluding any rollover contribution account) is greater than $5,000 as of the valuation date coincident with or immediately following the termination of employment, the participant may choose to receive a lump-sum distribution or defer receiving payments until the participant reaches age 70 ½ and is subject to required minimum distributions.

H. Forfeited Accounts.
These accounts are used to reduce future employer contributions after the forfeiture is determined. In 2013 employer contributions were reduced by $0 from forfeited nonvested accounts.

I. The employer bears the costs of administrating the Plan.

Note 2 – Summary of Significant Accounting Policies

A. Basis of Accounting.
The financial statements of the Plan are prepared using the modified cash basis of accounting. Under the modified cash basis of accounting, the assets reported on the Statement of Net Assets Available for Benefits are reflected on the cash basis, except for contributions, which are reported on the accrual basis and investments which are recorded at fair market value.

B. Estimates.
The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

C. Operating Expenses.
The Plan incurs fees from the third party administrator for administrating the Plan. The total fees paid were $12,479 for the year ended December 31, 2013.

D. Investment Valuation and Income Recognition.
The fair value of assets is determined using various methods, which are impacted by a number of factors, including the availability of observable market data over the contractual term of the underlying assets. For some of the Plan's assets, fair value is determined based on directly observable market data or data available for similar assets in similar markets. For other assets, the fair value may be determined based on these inputs as well as other assumptions related to estimates of these assets, such as the creditworthiness of the issuer. Changes in net unrealized appreciation or depreciation are captured in the carrying value of the underlying investments in the Statements of Net Assets Available for Benefits in accordance with accounting principals generally accepted in the United States.

Plan investments in mutual funds are stated at fair value based upon quoted market price. Shares of common/collective trust funds are valued at net asset value.

Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded when received. Net appreciation includes the Plan's gains and losses on investments bought and, sold as well as held during the year.

E. Payment of Benefits.
Benefits are recorded when paid.

Note 3 – Fair Value Measurements

Accounting Standard Codification Topic 820 (formerly SFAS No. 157, *Fair Value Measurements*), defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Standard requires disclosure of the extent to which fair value is used to measure financial and non-financial assets and liabilities, the inputs utilized in calculating valuation measurements, and the effect of the measurement of significant unobservable inputs on earnings, or changes in net assets, as of the measurement date. The Standard establishes a three-level valuation hierarchy based upon the transparency of inputs utilized in the measurement and valuation of financial assets or liabilities as of the measurement date as follows:

Level 1 - unadjusted, quoted prices for identical assets or liabilities in active markets;

Level 2 - quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted market prices that are observable or that can be corroborated by observable market data by correlation;

Level 3 - unobservable inputs based upon the reporting entity's internally developed assumptions that market participants would use in pricing the asset or liability.

The Company's evaluation of Plan financial assets and liabilities that meet the criteria of the aforementioned disclosure requirements and that fall within the fair value framework of Standard are discussed below.

		Fair Value Measurements Using:		
	Fair Value	Level 1	Level 2	Level 3
December 31, 2013				
Mutual Funds	$ 2,956,225	$ 2,956,225	$ -	$ -
Common Collective Trusts	163,049	-	163,049	-
Participant Loans	89,545	-	-	89,545
Total Investments	$3,208,816	$ 2,956,225	$ 163,049	$ 89,545

Level 1 - Mutual Funds
Plan investments include mutual funds. The Company determined that valuation measurement inputs of these equity securities required no adjustment from the quoted market prices. As such, the Plan's investment in mutual funds reflect unadjusted quoted prices from active markets. Accordingly, the Company classified these Plan investments within Level 1 of the Standard's hierarchy framework.

Level 2 - Common / Collective Trust Funds
The Plan has investments in a common / collective trust fund. The Company determined the valuation measurement inputs of all common / collective trust fund investments reflect prices based upon quoted market prices utilizing public information and required no independent third-party valuation or pricing services. Accordingly, the Company concluded that the valuation measurement inputs of these securities reflect, at the lowest level, quoted market prices for identical or similar assets in markets where there are few transactions for the assets and categorized such investments within Level 2 of the Standard's hierarchy framework.

Level 3 - Participant Loans
Participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)	
Beginning balance – December 31, 2012	$ 49,123
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	-
Transfers in, purchases, sales, issuances and net settlements	40,422
Ending balance – December 31, 2013	$89,545

Gains and losses (realized and unrealized) included in changes in net assets for benefits for the year ended December 31, 2013 are reported in net appreciation in fair value of investments.

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants will become 100% vested in their accounts.

Note 6 – Tax Status

The Internal Revenue Service has determined and informed the Company in a letter dated January 31, 2006 that the Prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan administrator and the Plan's trustee believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan administrators to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to December 31, 2011.

Although the Plan attempts to offer a diversified selection of investments, due to the level of risk associated with certain investment securities and certain investment markets, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
