Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
KAY MANUFACTURING COMPANY PENSION PLAN

Report on the Financial Statements

We have audited the accompanying financial statements of **KAY MANUFACTURING COMPANY PENSION PLAN**, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of January 1, 2013, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the net assets available for benefits of **KAY MANUFACTURING COMPANY PENSION PLAN** as of December 31, 2013 and 2012, and changes in its net assets available for benefits for the years then ended, and its financial status as of January 1, 2013, and the changes in its financial status for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information, as listed in the table of contents, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

KAY MANUFACTURING COMPANY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1. DESCRIPTION OF THE PLAN

The following description provides only general information on the provisions of **KAY MANUFACTURING COMPANY PENSION PLAN** (the "Plan"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory, defined benefit pension plan established by **Kay Manufacturing Company** (the "Company") on January 1, 1979 for all of the Company's eligible employees, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Amendments

Effective December 5, 2012, the Plan was amended and restated to meet the requirements of the Internal Revenue Code.

Eligibility and Participation

All nonunion employees of the Company who have attained age 21 and completed one year of service are eligible to participate in the Plan. If the eligibility requirements are met in the first six months of the plan year, the employee shall become a participant effective at the beginning of that plan year. If the eligibility requirements are met in the last six months of the plan year, the employee will become a participant effective as of the first day of the succeeding plan year.

On May 19, 2007, the Plan was amended and restated to freeze the participation in the Plan and to freeze any future benefit accruals.

Funding Policy

The Plan is funded annually by the Company based on actuarial determinations. These contributions are at least equal to the minimum funding standards required by ERISA. The Plan met its minimum funding requirements in 2013.

Pension Benefits

The amount of monthly retirement benefit to be provided for each participant who retires on the participant's normal retirement date shall be equal to the participant's accrued benefit. A participant's accrued benefit is based on the sum of the participant's frozen accrued benefit as of December 31, 1993 and a retirement benefit formula equal to the sum of (1) 0.65% of such participant's average monthly compensation multiplied by the participant's total number of years of service (up to a maximum of 35 years), plus (2) 0.65% of such average monthly compensation in excess of one-twelfth of covered compensation (defined in the agreement as the 35 year average of the Social Security wage base) multiplied by the participant's total number of years of service (up to a maximum of 35 years), computed to the nearest dollar. The Plan also contains provisions for early retirement at age 62.

DECEMBER 31, 2013 AND 2012

NOTE 1. DESCRIPTION OF THE PLAN - Continued

Married participants will receive their benefit in the form of a joint and survivor annuity, and single participants will receive their pension benefit in the form of a single-life annuity unless another form of payment is elected.

Death and Disability Benefits

Upon death prior to retirement date, the participant's beneficiary shall receive a death benefit equal to the actuarial equivalent of the accrued benefit determined as of the anniversary date subsequent to or coinciding with the date of death.

Active employees who become totally disabled receive annual disability payments that are equal to the normal retirement benefits they have accumulated as of the time they became disabled.

Vesting

A participant's accrued benefit is valued annually, and the participant is vested according to the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than 3	0%
3 but less than 4	20%
4 but less than 5	40%
5 but less than 6	60%
6 but less than 7	80%
7 or more	100%

Participants also become fully vested upon plan termination, reaching their normal retirement age or upon date of death or disability.

Administrative Expenses

Certain expenses incurred in the administration of the Plan are paid directly by the Company.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are valued by Brown Brothers Harriman (BBH), the custodian, based on quoted market prices. Purchases and sales of securities are recorded on a trade-date basis.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan are based on an employee's highest consecutive five-year average of compensation. Benefits payable under all circumstances - retirement, death, disability and termination of employment are included to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Madison Pension Services, Inc. and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2013 were (a) life expectancy of participants based on the 2013 applicable mortality table; (b) an assumed retirement age of 65 with the completion of five years of participation; and (c) an assumed rate of return on investments of 0.97% to 4.60% (a rate of 1.99% to 5.26% was used for the year ended January 1, 2012). The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payments of Benefits

Benefits are recorded when paid.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

NOTE 3. FAIR VALUE MEASUREMENTS

VALUATION OF INVESTMENTS - FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

LEVEL 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

LEVEL 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money Markets, Common Stock and U.S. Government Securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

During 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	<u>2013</u>	<u>2012</u>
Common Stocks	\$ 331,959	\$ 207,808
Mutual Funds	11,655	28,618
U.S. Government Securities	<u>(4)</u>	<u>(1)</u>
Total	<u>\$ 343,610</u>	<u>\$ 236,425</u>

NOTE 5. PARTY-IN-INTEREST TRANSACTIONS

The Plan has given discretionary authority to BBH to manage its investment assets. BBH is also the custodian of the Plan and, therefore, qualifies as a party-in-interest. Fees paid to BBH during 2013 and 2012 totaled \$14,036 and \$13,477, respectively.

NOTE 6. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will generally be allocated, as prescribed by ERISA and its related regulations, to provide the following benefits in the order indicated:

KAY MANUFACTURING COMPANY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 6. PLAN TERMINATION - Continued

1. Benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
2. Costs for former employees or their beneficiaries who have been receiving benefits or who have been eligible to receive normal retirement benefits for less than three years.
3. Costs for former employees or their beneficiaries who were eligible to receive early retirement benefits as of the date of Plan termination.
4. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed elsewhere.
5. All other vested benefits (that is, vested benefits not insured by the PBGC).
6. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the amount of benefit protection from the PBGC is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For some annuitants, or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

KAY MANUFACTURING COMPANY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 7. INCOME TAX STATUS

The Plan obtained its latest determination letter on July 29, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan has adopted recently issued accounting principles related to uncertain tax positions and has evaluated its tax positions taken from all open tax years. Currently, the 2010, 2011 and 2012 tax years are open and subject to examination by the Internal Revenue Service and Department of Labor.

Based on evaluation of the Plan's tax positions, the Plan administrator believes all positions taken would be upheld under an examination. Therefore, no provision for the effects of uncertain tax positions has been recorded for the years ended December 31, 2013 and 2012.

NOTE 8. RISKS AND UNCERTAINTIES

As of December 31, 2013 and 2012, cash in the amounts of \$230,621 and \$200,466, respectively, were held by BBH, which is a private bank subject to state regulation but not covered by Federal Deposit Insurance Corporation (FDIC) deposit insurance. However, since BBH is a member of the Securities Investor Protection Corporation (SIPC), \$100,000 of the Plan's cash and \$500,000 of the Plan's total assets held at BBH are covered by SIPC insurance.

Substantially all of the Plan's remaining cash and cash equivalents are held in bank deposit and money market accounts. There were no amounts in excess of the FDIC limits at December 31, 2013 and 2012. The Plan has not experienced any losses in its cash and cash equivalents, and the Plan's administrator believes that the Plan is not exposed to any significant credit risk on cash and cash equivalents.

The Plan's investments are exposed to various risks, such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9. SCHEDULES REQUIRED BY DEPARTMENT OF LABOR FOR FORM 5500

The Schedule of Reportable Transactions and Schedule of Loans or Fixed Income Obligations in Default or Classified as Uncollectible have been excluded from the supplemental information. For the years ended December 31, 2013 and 2012, the Plan did not have any reportable transactions or loans or fixed income obligations that were in default or classified as uncollectible.

NOTE 10. SUBSEQUENT EVENTS

The Plan has evaluated events subsequent to December 31, 2013 for possible adjustment or disclosure to the accompanying financial statements. The evaluation was done through the date of the Independent Auditors' Report, which is the date the financial statements were available to be issued.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

KAY MANUFACTURING CO. PENSION PLAN

Schedule SB, line 22 - Description of Weighted Average Retirement Age

Plan Name: KAY MANUFACTURING CO. PENSION PLAN

The weighted average retirement age of 65 is the average of the assumed retirement ages for all active participants as of the valuation date rounded to the nearest whole age. For an active late retiree, the assumed retirement age may be later than the Plan's normal retirement age. Each participant's rate of retirement is assumed to be 100% of his/her assumed retirement age.
