Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012, in accordance with accounting principles generally accepted in the United States of America.

Other Matter – Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, Line 4i, Schedule of Assets Held for Investment Purposes as of December 31, 2012, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Clayton Williams Energy, Inc. (the “Company”) 401(k) Plan and Trust (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan, as amended and restated, is a defined contribution plan established by Clayton Williams Energy, Inc. (the “Company” or “CWEI”) under the provisions of Section 401(a) of the Internal Revenue Code (“IRC”), which includes a qualified deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company who become entitled to participate in the Plan. Employees who have 90 days of service and are age 21 or older are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Plan Administration

The Plan is administered by the Company. ADP Retirement Service, Inc. (“ADP”) is the Plan’s recordkeeper and holds the Plan’s assets. ADP is also the Trustee and is responsible for accepting funds, managing them and distributing them to beneficiaries.

Contributions

The Plan requires that the amounts of all participant and Company contributions comply with limitations established by the IRC. Subject to these limitations, participants may contribute to the Plan up to 100% of pre-tax annual compensation, as defined by the Plan, and the Company, in its sole discretion, may provide a matching contribution equal to a percentage of participants’ contributions. The Company makes matching contributions equal to 100% of participants’ contributions, limited to 6% of compensation. The Company may also make discretionary profit-sharing contributions to the Plan which are allocated to participants’ accounts based on each participant’s compensation as a percentage of total compensation.

Vesting

Participants are fully vested in their contributions and the earnings thereon. The Plan has been established as a safe-harbor plan; therefore, participants are fully vested in Company matching and discretionary contributions upon entry into the Plan.

Benefits

Upon termination of service due to death, disability or retirement, participants may request and receive a lump-sum distribution in an amount equal to the value of the vested interest in their respective accounts. Participants may also receive hardship withdrawals of their accounts, subject to certain limitations, as defined by the IRC.

Participant Accounts

Individual accounts are maintained to reflect each participant’s allocated share of the Plan’s income, the Plan’s administrative expenses, the Company’s contributions, and the participant’s contributions. Allocation of investment income is based on participant account balances.

401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Investment Options

As directed by participants, the Plan purchases units of participation in twenty distinct investment portfolios sponsored and administered by ADP. In addition, the Plan makes participant-directed investments and matching contributions in the Company's common stock. Under the Plan, participants are allowed to transfer funds between any investment options, including the Company stock fund.

Administrative Expenses

At its discretion, the Company may pay all or any portion of administrative expenses on behalf of the Plan. Administrative expenses paid by the Company were not significant.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements and supplemental schedule are prepared on the accrual basis of accounting.

Payment of Benefits

Benefit payments are recognized when paid. Benefits due to participants who have elected to withdraw from the Plan but have not been paid are deducted from net assets available for benefits. At December 31, 2013 and 2012, there were no amounts allocated to withdrawing participants.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value. Securities traded in public markets are valued at their quoted market prices. Purchases and sales of securities are reflected on a trade-date basis. Changes in the market value of investments from one period to the next, combined with realized gains and losses based on differences between revalued costs and market value of investments on the trade date are recognized as net appreciation or depreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Reinvested income is reflected as additions to the cost basis of investments.

Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting periods. Actual results could differ from those estimates.

3. INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets as of December 31, 2013 and 2012:

	December 31,	
	2013	2012
Putnam Stable Value Fund	\$ 4,450,366	\$ 4,121,352

Clayton Williams Energy, Inc. common stock	13,611,822	6,779,154

(a) Investment did not exceed 5% of more of the Plan's net assets.

The Stable Value Fund is a collective investment trust organized in order to provide participants with a stable, fixed-rate return on investment and protection of principal from changes in market interest rates.

The Stable Value Fund's rate to be credited to participants is set at the start of the contract and resets on a quarterly basis. The average yield of the entire Stable Value Fund based on actual earnings was 1.86% and 2.36% at December 31, 2013 and 2012, respectively. The average yield of the pooled separate accounts based on the interest rate credited to participants was .86% and 1.44% at December 31, 2013 and 2012, respectively. To calculate the required yield, the amount credited to participants for the last day of the period is annualized and divided by the fair value of the investment portfolio on that date.

The Stable Value Funds are in the Statements of Net Assets Available for Benefits at fair value in the investments total, and adjusted to contract value in determining the net assets available for benefits.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ASC Topic 820 ("ASC 820"), *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- Common stock: Valued at the closing price reported on the active market on which the individual securities are traded;
- Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end;
- Stable Value Fund: Valued at the net fair value per unit of the fund's underlying investments.

401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:
