Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans. The Company contributes matching contributions equal to 50 percent of the participant's contributions, subject to a maximum matching contribution of \$1,750 per participant in 2013 and 2012. No matching contributions are made for any participant for any year in which the participant has terminated their employment prior to December 31 or for any six month period following a hardship withdrawal when employee deferrals are suspended as required by IRS regulation. Matching contributions totaled \$61,950 and \$52,278 in 2013 and 2012, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions into any of several investment funds or target-date retirement funds. Participants may change their investment option allocations daily.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Employer matching contributions will fully vest after three years of service.

NOTE 1: DESCRIPTION OF THE PLAN (Continued)

Notes Receivable From Participants

Per a plan amendment effective 1/1/2009, participants may borrow from their fund accounts an amount up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Loan terms range from 1-5 years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate as determined by Reuters plus one percent. The current interest rate is 4.25 percent. Principal and interest is paid ratably through payroll deductions.

Payments of Benefits

A participant benefit upon retirement, death, disability, attainment of age 59 ½ or termination is the value of the participant's account, including vested employer contributions, and is payable in one lump sum amount. Earlier distributions may be made from participant's contributions to the extent necessary to meet financial hardship.

Forfeited Accounts

Forfeited balances of terminated participant's non-vested accounts are used to reduce future employer contributions. In 2013 and 2012, employer contributions were reduced by \$3,045 and \$0, respectively, from forfeited non-vested accounts.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the contract value of the investment contracts since contract value approximates fair value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of the financial statements consistent with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA requires the Plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment trustees. See Note 5 for discussion of fair value measurements.

The Vanguard Retirement Savings trust, a collective investment trust, invests in fully benefit-responsive investment contracts. There are currently no redemption restrictions on these investments. Since these contracts are fully benefit responsive, these investments are reported at contract value, which approximates fair value. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. The fair value of the investments was determined based on the quoted market values of the underlying investments, as the collective investment trust itself is not actively traded on an exchange.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administration

Plan recordkeeping expenses are paid for by the Plan sponsor. All other expenses are also paid by the Plan sponsor, except for participant loan fees and asset management fees that are netted against Plan earnings.

Subsequent Events

Subsequent events have been evaluated through July 18, 2014, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this Update cover a wide range of Topic in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

NOTE 5: FAIR VALUE MEASUREMENTS

Generally accepted accounting principles include a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end. NAV is based on the value of underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. NAV is a quoted price in an active market.

Collective investment trust: Valued based on the NAV of units of the collective investment trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

NOTE 5: FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Assets at Fair Value as of December 31, 2013

NOTE 5: FAIR VALUE MEASUREMENTS (Continued)

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2013 and 2012, respectively.

December 31, 2013	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust (a)	\$186,057	n/a	Daily	None

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust (a)	\$162,683	n/a	Daily	None

(a) This category includes a stable value collective investment fund. The fund seeks stable returns comparable to those of short-term fixed income securities by investing in a combination of synthetic contracts (backed primarily by Vanguard bond trust funds), traditional insurance, and bank contracts. The average maturity range of the trust is 2-4 years. Because it invests in contracts designed to preserve a stable net asset value, the trust generated income without the price volatility associated with traditional short-term credit instruments. The trust maintains a strict credit policy, investing with issuers rated AA- and higher, and investing in funds that are rated investment grade or higher.

NOTE 6: RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by an affiliate of Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. These transactions are not prohibited transactions.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the terms of the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE 8: TAX STATUS OF THE PLAN

The Plan obtained its latest determination letter dated February 24, 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management of an organization to evaluate tax positions taken by the organization and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

There are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan allows investments in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
