Note 1: Plan Description -

The following description of the Villager Construction, Inc. Prevailing Wage Rate and 401(K) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Villager Construction, Inc. (the Company). Employees are eligible to participate in the Plan immediately upon hiring and must be 21 years of age before the entry date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

The Plan is administered by the Company. All Plan assets are held in trust and managed by Principal Mutual Life Insurance Company (the Custodian or Principal). Administrative expenses are paid by the Company, except for administrative expenses related to personal retirement accounts, which are deducted from the related participants' accounts.

Contributions

Participants may make contributions up to the maximum percentage of compensation and dollar amount permissible under the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching contributions to the Plan on a discretionary basis. The Company made no matching contributions during 2013 or 2012.

Prevailing wage rate contributions are made for each participant who is working on a project covered by a prevailing rate schedule. The amount should be equal to the fringe benefit pension rate determined for such participant multiplied by each hour of service performed.

Participant Accounts

Participants' accounts are credited with their contributions and allocations of (a) the Company's contribution and (b) the Plan's earnings. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service or upon death, disability, or reaching the age of 65. Prevailing wage rate contributions are fully vested.

Note 1: Plan Description (Continued) -

Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions in any of the investment options as indicated by the Plan sponsor, which provide diversified investment allocations. Participants may change their investment options electronically at any time during the year.

Payment of Benefits

On termination of service due to health, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested balance in his or her account, or annual installments over a specified period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Hardship Withdrawals

Hardship withdrawals from the Plan are permitted from fully-vested accounts.

Forfeitures

Any forfeitures arising under the Plan are applied against future employer contributions to the Plan or employer administrative expenses related to the Plan. Prevailing wage rate contributions are non-forfeitable. There were no forfeitures during 2013 or 2012.

Note 2: Summary of Significant Accounting Policies -

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis in conformity with accounting principles generally accepted in the United States.

Investments

The Plan's investments are stated at market value. Mutual funds and pooled separate accounts are valued at quoted market prices that represent the net value of shares held by the Plan at year end. The market value of the Principal Guaranteed Interest Account is the value paid any time funds are withdrawn prior to their maturity for an event other than death, disability, termination, or retirement, and reflects the applicable surrender charge.

Benefit Payments

Benefit Payments are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2: Summary of Significant Accounting Policies (Continued) –

Fair Value of Financial Instruments

The Company follows the provisions of ASC Topic 820-10, *Fair Value Measurements*. This statement establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10 are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

  The Plan's mutual funds are valued utilizing Level 1 inputs.

- Level 2 – Inputs to the valuation methodology include:

  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.

  The Plan's pooled separate accounts, other than the Principal U.S. Property SEP account, are valued utilizing level 2 inputs.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

  The Plan's guaranteed interest account and Principal U.S. Property SEP account are valued utilizing Level 3 inputs.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 2: Summary of Significant Accounting Policies (Continued) -

Fair Value of Financial Instruments (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled separate accounts – Valued at the net asset value (NAV) of the underlying shares held by the Plan at year-end.

Principal U.S. Property SEP account – Invests mainly in commercial real estate. Real estate investments are stated at fair value as determined by an annual independent appraisal conducted of the related real estate.

Mutual Funds – Stated at fair value based on quoted market prices.

Guaranteed Interest – Valued at the amount plan participants or plan sponsors would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income Taxes

The Company follows the provisions of ASC Topic 740, *"Accounting for Uncertainty in Income Taxes"*. ASC Topic 740 requires the Plan sponsor to determine whether a tax position of the Plan is more likely than not to be sustained upon examination by the applicable taxing authority, based on the technical merits of the position. As of December 31, 2013, the Plan has not recorded any provisions for accrued interest and penalties related to uncertain tax positions. By Statute, tax years 2011 through 2013 remain open to examination by the major taxing jurisdictions to which the Plan is subject.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Events Occurring After Reporting Date

The Plan has evaluated events and transactions that occurred between December 31, 2013 and July 15, 2014, which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements. No such events or transactions were noted.

Note 3: Fair Value Measurements -

The following table sets forth, by level, the Plan's assets at fair value as of December 31, 2013:

Note 4: Summary of Information Certified by the Plan's Custodian -

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Investment activity as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012.
- The schedule of assets held for investment purposes as of December 31, 2013, as shown on Schedule I.

Note 4: Summary of Information Certified by the Plan's Custodian (Continued) -

The market value of individual investments that represent 5% or more of the net assets available for benefits as of December 31, 2013 or 2012, or both, are as follows:

	2013	2012
Principal Lifetime 2030 Sep Account	$ 1,141,137	$ 755,136
Principal Mid Cap Blend Sep Account	893,362	580,824

All other investments, individually < 5%	4,046,947	2,915,896
	$ 10,380,469	$ 8,752,707

During 2013 and 2012, the Plan's investments (including realized and unrealized gains and losses on investments bought, sold and held during the year) appreciated as follows:

	2013	2012
Pooled separate accounts	$ 1,554,165	$ 831,453
Mutual funds	15,675	41,831
	$ 1,569,840	$ 873,284

Note 5: Investment Contract with Insurance Company -

The Plan has an investment contract with Principal Mutual Life Insurance Company. Principal maintains the contributions in a guaranteed interest account. The account is credited with earnings on the underlying investments and charged for the Plan withdrawals and administrative expenses charged by Principal. In accordance with the terms of ASC Sub-Topic 962-325-35, (formerly Statement of Position 94-4-1), the contract is not considered to be fully benefit responsive. As such, the contract is included in the financial statements at fair value. The fair value of the investment contract at December 31, 2013 and 2012 was $632,821 and $657,643, respectively. The crediting interest rate for employer and elective deferrals was an average of 1.12% and 1.84%, and the crediting interest rate for prevailing wage contributions was an average of 1.06% and 1.71%, for the years ending December 31, 2013 and 2012, respectively.

Note 6: Tax Status -

The Plan obtained its latest determination letter on May 30, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7: Plan Termination -

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100 percent vested in their account balances.

Note 8: Party-In-Interest Transactions -

Certain Plan investments are held in pooled separate accounts managed by Principal Mutual Life Insurance Company. Principal Mutual Life Insurance Company is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services and other administrative services amounted to $27,769 and $22,394 for the years ended December 31, 2013 and 2012, respectively.

Note 9: Reconciliation of Financial Statements to Form 5500 -

The classification of change in net assets available for benefits for the year ended December 31, 2013 differs between the financial statements and Form 5500. The total change in net assets available for benefits for the year then ended also differs between these financial statements and Form 5500. There were no differences for the year ended December 31, 2012.
