CHIPMAN CORPORATION 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

Note 1. Plan Description:

The following description of the Chipman Corporation (the "Company") 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all employees who are not excluded employees as defined under the Plan document. The Plan was originally effective on January 1, 1985. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

Eligibility and Plan Entry Date
The Plan is available to employees of the Company who have attained the age of twenty-one (21) and have completed at least one (1) hour of service within the first 12 consecutive month(s) of employment. Employees may enter the Plan as of the first day of the calendar quarter coinciding with or next following the date eligibility requirements have been met.

Contributions
Each year, participants may contribute up to 100% of pretax annual compensation, subject to annual statutory limitations. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participant in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contribution is invested directly into Vanguard Wellington Adm. Participants may also contribute ("rollover") amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make discretionary profit sharing contributions. The Company may also make additional contributions in order to pass discrimination tests required under the Internal Revenue Code (IRC). In addition, the Company may make matching contributions to the Plan. All Company contributions are subject to the vesting schedule.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (a) any Company contributions (b) Plan gains and losses (c) and an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeiture Accounts
If a participant is not vested or is partially vested in their account balance when they terminate employment, the non-vested portion of their account balance will be forfeited immediately following the Plan year in which the forfeiture occurs. At December 31, 2013 and 2012 forfeited non-vested accounts totaled $3,020 and $339, respectively. Forfeitures are used to reduce future Company matching contributions or non-elective contributions.

Note 1. Plan Description (continued):

Investment Options
Investments are entirely participant directed. Upon enrollment in the Plan, a participant may direct employee contributions in any of the investment options offered. A variety of investment options offer participants a diversified portfolio.

Participants may change their investment options at will.

Vesting
Participants are immediately vested in their contributions and rollovers plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as indicated in the table below:

Years of Service	Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Generally, an employee is credited with a year of service if the employee completes at least 1 hour of service during the year.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their account balance or $50,000, reduced by the highest outstanding loan balance attributable to the participant during the 12-month period immediately prior to the new loan application date. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans fund. Loan terms shall not exceed 5 years or 15 years for the purchase of a principal residence. The loans are fully amortized and secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Loans outstanding as of December 31, 2013 bear interest rates ranging from approximately 3.25% to 4.25%. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits
On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments equal to the required minimum distribution amount. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Note 2. Summary of Significant Accounting Policies:

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits
Benefits are recorded when paid.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant defaults on their loan, the balance will be reduced and reclassified as distributions in accordance with plan document.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to administration of notes receivable from participants are charge directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) include the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 3. Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that provides the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 3. Fair Value Measurements (continued):

The following table sets forth by level, within the fair value framework, the Plan's assets at fair value as of December 31, 2013 and 2012:

Total Investments at Fair Value	$ -	$ 5,325,882	$ -	$ 5,325,882

Methodology Used to Determine Fair Value of Investments

Pooled Separate Accounts
The Standard's pooled separate accounts are not themselves publicly traded but are composed of assets that are either priced by a pricing service or directly by the relevant mutual fund company trading partner. The accounts are subject to unitization valuation processes. The underlying mutual funds are traded daily on an active market and all the unit values are observable.

The Plan believes its valuation methods are appropriate and consistent with other market participants. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Investments – Participant Directed:

The following investments represent 5% or more of the Plan's net assets for the years ended December 31, 2013 and 2012:

Investment Fund	2013	2012
T Rowe Price Retirement 2015	$ 375,564	$ 304,500
T Rowe Price Retirement 2025	478,472	383,765

T Rowe Price Retirement 2040	505,232	372,018

Mainstay Large Cap Growth I	568,723	420,664
Vanguard Equity Income Adm	379,971	282,319

During 2013 and 2012 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,006,263 and $612,526, respectively.

Note 5. Information Certified by the Trustee:

The Standard has provided the plan administrator with a certification as to the completeness and accuracy of the following information presented in the accompanying statements of net assets available for benefits and statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012:

	2013	2012
Investments	$ 6,639,665	$ 5,325,882
Notes receivable from participants	183,917	180,211

Note 6. Parties-in-Interest Transaction:

Various investment options offered by the Plan are investments which are managed by The Standard, custodian of the Plan. Any purchases and sales of these funds are performed in the open market. Such transactions, while considered parties-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of parties-in-interest transactions under ERISA.

Note 7. Income Tax Status:

The Company has adopted the Standard Volume Submitter Profit Sharing Plan (the "Prototype Plan"). The Internal Revenue service has informed The Standard by a letter dated March 31, 2008, that the form of the Volume Submitter Plan is acceptable under section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees.

The Plan has not requested a separate determination letter from the Internal Revenue Service; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Pursuant to IRC Sec 6501(a) and (e), the Plan is no longer subject to income tax examinations for years prior to 2007.

Note 8. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, participants will become 100% vested in their account balance.

Note 9. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, overall market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Subsequent Events:

Subsequent events were evaluated through June 27, 2014, which is the date the financial statements were available to be issued. Management has not identified any subsequent events that would require an adjustment to the financial statements or disclosures as required under generally accepted accounted principles.
