REPORT OF INDEPENDENT AUDITORS

To the Participants and Administrative Committee
Texas Oil and Chemical Co. II, Inc. 401(k) Plan

We have audited the accompanying financial statements of Texas Oil and Chemical Co. II, Inc. Employee 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant

accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013 in conformity with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Note 1 - Description of Plan

The Plan is a defined contribution plan sponsored by Texas Oil and Chemical Co. II, Inc. (the "Company"). The Company is a wholly owned subsidiary of Trecora Resources, formerly Arabian American Development Company which was traded on the New York Stock Exchange under ticker symbol ARSD. It is now traded on the New York Stock Exchange under ticker symbol TREC. The following provides only general information and participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which became effective on September 1, 1978, as amended and restated effective November 1, 2008, is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC"). New employees shall become a participant on the entry date coincident with or following the completion of six months of service.

Employee Contributions

Participants may contribute up to 100% of their compensation, as defined. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans. Participants' salary deferral contributions are subject to IRC limitations, which was $17,500 in 2013. The Plan allows catch-up contributions (within the meaning of Section 414(v) of the IRC) for participants who have reached age 50 by the end of the plan year. Participants are only permitted to make catch-up contributions if they have made their maximum salary deferral contribution for the year.

Employer Contributions

The Company makes matching contributions equal to 100% of the participant's deferral up to the first 6% of the participant's eligible compensation. In addition, each year the Company may at its discretion, make a profit-sharing contribution for the plan year not to exceed certain limitations prescribed by the IRC. The Company did not make a profit-sharing contribution for the year ended December 31, 2013.

Participant Accounts

Each participant's account reflects the participant's contribution, the Company's matching contribution, Plan earnings or losses on the account, an allocation of the Company's discretionary contribution, if any, based on participant compensation and a charge for any distributions and direct expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan - (Continued)

Vesting

Participants are immediately vested in their contributions and rollover accounts, plus actual earnings thereon. Vesting in the Company's matching contributions and profit-sharing contributions, if any, is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6 or more	100 %

Administrative Expenses

In accordance with the Plan, administrative expenses may be paid out of the Plan unless paid by the Company.

Participant Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions in 1% increments in various investment options offered by the Plan. The Plan currently offers shares of pooled separate accounts, guaranteed interest accounts, and common stock of Trecora Resources as investment options for participants. Participants can change their investment options daily.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000, minus the highest outstanding note receivable balance during the immediate preceding twelve months. The notes receivable are secured by the balance in the participant's account. Each loan shall bear a reasonable fixed rate of interest to be determined by the Administrator. Interest rates ranged from 5.25% to 7.0% as of December 31, 2013. Notes receivable are to be repaid within five years. Principal and interest is paid ratably through periodic payroll deductions.

Note 1 - Description of Plan - (Continued)

Notes Receivable from Participants - continued

Notes receivable are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. Participant loans are considered delinquent if any payment or principal and interest, or any portion thereof, remains unpaid for more than 90 days after due.

Payment of Benefits

Upon termination of service, the participant or their beneficiary has the option to choose a lump sum payment, installment payment, or to purchase an annuity equal to the value of the participant's vested interest in his or her account. Participants that reach the age of 70 ½ are required to take a minimum distribution from their account.

Forfeitures

Forfeitures can be used to reduce future employer contributions or to pay administrative expenses. The Plan used approximately $16,000 and $3,000 of non-vested amounts to reduce current year employer contributions and pay administrative expenses, respectively, in the current year. See Note 4.

Voting Rights

Each participant is entitled to exercise voting rights attributable to Trecora Resources shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote in the best interest of plan participants' shares for which instructions have not been given by a participant.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America and are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally

Note 2 - Summary of Significant Accounting Policies - (Continued)

Use of Estimates - continued

accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets available for benefits during the reporting period. Actual results could differ from those estimates. See Note 5 for discussion of significant estimates used to measure fair value of investments.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as, held during the year.

Benefits Paid to Participants

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Risks and Uncertainties

The Plan and its participants invest in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities will occur at any given time, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Asset Management Fees

Plan participants are charged for asset management fees based on fund balances. Asset management fees are accrued daily by the Trustee based on participant balances in each fund and are included in net appreciation.

Note 2 - Summary of Significant Accounting Policies - (Continued)

Subsequent Events

Management of the Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through July 22, 2013, the date which the financial statements were issued.

Note 3 - Investments

All of the Plan's investments, except the forfeiture account, are participant directed. As of December 31, 2013, and 2012, the Plan's investments that represent 5% or more of the net assets available for benefits are as follows:

	2013		2012	
Trecora Resources	**$ 5,409,197**	**28.4 %**	$ 4,022,314	27.5 %
Principal Large Capital S&P 500 Index Separate Account	**1,697,350**	**8.9**	1,331,725	9.1
Principal Small Capital Blend Separate Account	**1,847,560**	**9.7**	1,130,894	7.7
Principal Mid Capital Value I Separate Account	**1,465,502**	**7.7**	1,016,539	7.0
Principal Money Market Separate Account	*	*	791,616	5.4
	$10,419,609	**54.7 %**	$ 8,293,088	56.7 %

* Represents less than 5% of net assets.

Note 3 - Investments - (Continued)

During 2013 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Employer security	$	**1,925,272**
Separate accounts		**2,048,569**
Mutual funds		**47,939**
Net appreciation in fair value of investments	$	**4,021,780**

The market volatility of equity-based investments can substantially impact the value of such investments at any given time. It is possible that the value of the Plan's investments, both in total and in individual participant accounts, has changed substantially since December 31, 2013.

Note 4 – Nonparticipant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	December 31	
	2013	2012
Net assets:		
Forfeiture account	$ **42**	$ 65

	Year Ended December 31, 2013
Changes in net assets:	
Forfeitures relating to current year activities	$ **18,925**
Forfeitures used to offset employer contributions	**(16,000)**
Forfeitures used to pay administrative expenses	**(3,020)**
Earnings	**72**
	$ **(23)**

Note 5 - Fair Value Measurements

Financial Accounting Standards Board Statement Accounting Standards Codification Topic 820 "Fair Value Measurements and Disclosures" (ASC 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Employer security: Valued at the closing price reported on the active market on which the individual security is traded.

Note 5 - Fair Value Measurements - (Continued)

Guaranteed interest contracts: Fair value is the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other death, disability, termination or retirement. This fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

Mutual funds: Valued at the closing price reported on the active market on which the Fund is traded.

Separate accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Fair Value Measurements - (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013.

		Guaranteed Interest Contracts
Balance, beginning of year	$	1,671,081
Total gains/(losses)		4,297
Purchases		210,144
Issuances, Settlements		(537,680)
Balance, end of year	$	1,347,842

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan document to terminate the Plan at any time subject to the provisions of ERISA, as amended. In the event of plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 7 - Related-Party Transactions

The Plan owned 431,012 and 484,033 shares of Arabian American Development Company (Note 1) common stock valued at $5,409,198 and $4,022,314 at December 31, 2013, and 2012, respectively.

Certain plan investments in shares of pooled separate accounts and guaranteed interest contracts are managed by Principal Insurance Company and qualifying employer securities are held by Principal Trust Company. Principal Insurance Company and Principal Trust Company are also the trustees, custodians and record keepers as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these accounts and the underlying investments comprising these accounts are open market

Note 7 - Related-Party Transactions - (Continued)

transactions at fair market value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA and applicable exemptions promulgated thereunder.

Note 8 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated February 7, 2011, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that, more likely than not, would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years 2009 and prior.

Note 9 - Excess Participant Contributions Payable

The Plan failed the discrimination test for the year ended December 31, 2013 and 2012. Excess contributions amounting to $25,128 and $21,990 are recorded as a liability in the accompanying statement of net assets for benefits at December 31, 2013 and 2012, respectively. $25,128 was recorded as a reduction of participant-directed contributions for the year ended December 31, 2013. The Plan expects to reimburse these excess contributions to its participants during 2014 and 2013, respectively.

Note 10 – Net Asset Value (NAV) Per Share - (Continued)

(a) The pooled separate account invests mainly in short-term securities such as commercial paper.

(b) The investment seeks current income. The fund normally invests at least 80% of net assets in intermediate maturity fixed-income or debt securities rated BBB or higher by Standard & Poor's Rating Service or Baa3 or higher by Moody's Investor Service, Inc. It may invest up to 20% of assets in noninvestment grade securities.

(c) The investment seeks to provide a high level of current income consistent with safety and liquidity. The fund invests primarily in securities issued by the U.S. government, its agencies or instrumentalities or securities that are rated AAA by S&P, AAA by Fitch, or Aaa by Moody's.

(d) The investment seeks a total return consisting of long-term growth of capital and current income. The fund invests in underlying Principal domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. It allocates the assets more conservatively over time.

(e) The investment seeks current income and, as a secondary objective, capital appreciation. The fund invests in underlying Principal domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors primarily seeking current income and secondarily capital appreciation. Its asset allocation is designed for investors who are approximately 15 years beyond the normal retirement age of 65.

(f) The investment seeks long-term growth of capital. The fund normally invests at least 80% of net assets in common stocks of companies with large market capitalizations at the time of purchase. It invests in value equity securities; the value orientation selection emphasizes buying equity securities that appear to be undervalued.

(g) The investment seeks long-term growth of capital. The fund normally invests at least 80% of net assets in equity securities of companies with market capitalizations within the range of companies in the Russell 1000 Growth Index at the time of purchase. It may also invest in initial public offerings and foreign securities. It invests in growth equity securities; growth orientation emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average.

(h) The investment seeks long-term growth of capital. The fund invests at least 80% of net assets in common stocks of companies that compose the S&P 500 Index. It uses an indexing strategy or a passive investment approach designed to track the performance of the S&P 500.

Note 10 – Net Asset Value (NAV) Per Share - (Continued)

(i) The investment seeks long-term growth of capital. The fund invests at least 80% of net assets in equity securities of companies with medium market capitalizations (those with market capitalizations similar to companies in the Russell Midcap Value Index) at the time of purchase. It invests in value equity securities; the value orientation selection emphasizes buying securities that appear to be undervalued.

(j) The investment normally invests the majority of assets in common stocks of companies that compose the S&P MidCap 400 Index. Management attempts to mirror the investment performance of the index by allocating assets in approximately the same weightings as the S&P MidCap 400 Index. Over the long-term, management seeks a very close correlation between the performance of the Separate Account before expenses and that of the S&P MidCap 400 Index.

(k) The investment seeks long-term growth of capital. The fund normally invests at least 80% of net assets in equity securities of companies with small market capitalizations (those with market capitalizations similar to companies in the Russell 2000 Index) at the time of purchase. It invests in equity securities with value and / or growth characteristics and constructs an investment portfolio that has a "blend" of equity securities with these characteristics.

(l) The investment seeks long-term growth of capital. The fund invests primarily in equity securities of companies domiciled in any of the nations of the world including those in countries with emerging markets. It has no limitation on the percentage of assets that are invested in any one country or denominated in any one currency, but the fund typically invests in at least 30 countries.

(m) The pooled separate account invests mainly in commercial real estate and includes mortgage loans which are backed by the associated properties. Certain high need payments, such as death, disability, certain eligible retirements, and hardship withdrawals were not subject to the withdrawal limitation. Other withdrawal requests were subject to the limitation until certain liquidity levels were achieved.
