HARPER SYSTEMS, INC. 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2013

1. DESCRIPTION OF PLAN

The following description of the Harper Systems, Inc. ("Company") 401(k) Plan ("Plan"), formerly the Harper Corporate Services 401(k) Plan, provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have completed 6 consecutive months of service and are age 21 or older. Union employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining, unless such agreement expressly provides for participation in the Plan and certain nonresident aliens who have no earned income from sources within the United States are excluded from participating in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan commenced operations on January 1, 1992. The Plan entry dates are January 1, April 1, July 1, and October 1. The Plan changed its name effective March 1, 2012.

Employee Contributions

Pursuant to Section 401(k) of the Internal Revenue Code (the "IRC"), participants may contribute up to the lesser of 100% of their compensation or \$17,500 for 2013. Employees who are age 50 or older may also make catch-up contributions of up to \$5,500 for 2013. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer Contributions

The Company may contribute a discretionary matching contribution. During 2013, the Company matched 25% of the participants' contribution up to 4%. The Plan also allows for a discretionary profit sharing contributions at the option of the Company's owner. During 2013, no profit sharing contribution was made.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary matching contribution (b) the Company's discretionary profit sharing contribution and, (c) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the plan. Allocations are based on participant earnings or account balances, as defined. The benefit of which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and safe harbor contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 20% vested after 2 years of service, 20% vested for every year of credited service after that and 100% vested after six years of credited service.

Notes Receivable from Participants

Under the terms of the Plan, participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes are secured by the balance in the participants' accounts and bear interest at rates of 4.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions over a period not to exceed 5 years unless residential type loans.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over the life expectancy of the participant and/or designated beneficiary.

Forfeitures

A forfeiture is the non-vested portion of a terminated participant's account balance. The forfeited amount remains in the Plan and is first used to pay any administrative expenses and then used to reduce any subsequent discretionary employer contributions. As of December 31, 2013 and 2012, there were \$242 and \$1,131 forfeitures outstanding, respectively.

Administrative Expense

Certain expenses incurred in the administration of the Plan are paid directly by the Company. Investment related expenses are included in net appreciation of fair value of investments.

Investment Options

The assets of the Plan are allocated to the various funds at the direction of the participant.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded on the Schedule H of the 5500. Under generally accepted accounting principles, the defaulted loan will remain a note receivable from participant until a distributable event occurs. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition

The investments in all of the funds are presented at fair value based on the quoted market prices of the underlying securities within each fund at December 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The investment committee determines the Plan's valuation policies. See note 4 for discussion on fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

3. ASSET INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

At December 31, 2013 and 2012, the Plan's investments were held by Capital Bank and Trust Company, the trustee of the Plan. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds –

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds –

Valued at the net asset value (NAV) of shares held by the Plan at year-end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

Fair Value Measurements at December 31, 2013 using:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)

6. EXCESS CONTRIBUTIONS REFUNDABLE

As of December 31, 2013 and 2012, payables of \$13,055 and \$13,891, respectively, are recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

7. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Capital Research and Management Company, the record keeper of the Plan. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the recordkeeping services amounted to \$1,175 for the year ended December 31, 2013.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated May 8, 2002, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administration and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

10. RISKS AND UNCERTAINTIES

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

11. SUBSEQUENT EVENTS

For the year ended December 31, 2013, the Company has evaluated subsequent events for potential recognition and disclosure through July 10, 2014, the date of financial statement issuance. No events requiring disclosure were noted.
