Independent Auditor's Report

To the US Foods, Inc. Retirement Administration Committee
US Foods 401(k) Plan

We have audited the accompanying financial statements and supplemental schedule of US Foods 401(k) Plan (formerly U.S. Foodservice 401(k) Retirement Savings Plan; the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012 and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the US Foods, Inc. Retirement Administration Committee
US Foods 401(k) Retirement Savings Plan

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2013 and 2012 and the changes in net assets for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE A - DESCRIPTION OF THE PLAN

The following brief description of the US Foods 401(k) Plan (formerly U.S. Foodservice 401(k) Retirement Savings Plan; the “Plan”) is provided for general information purposes only. Participants should refer to the plan agreement for more information.

General

The Plan is a defined contribution plan covering all full-time employees of US Foods, Inc. (the “Company” or “Plan Sponsor”) who (i) have at least 30 days of service and are not covered by a collective bargaining agreement for which retirement benefits have been the subject of good-faith negotiations, (ii) are not leased employees, or (iii) are not employees specifically excluded from the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Amendments

Effective October 1, 2013, the Plan was amended to reflect the change in plan sponsor name from U.S. Foodservice, Inc. to US Foods, Inc. Additionally, the Plan was amended to reflect certain changes made during collective bargaining.

Contributions

Each year, participants may contribute 1% to 25% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 50% of the first 6% of compensation that a participant contributes to the Plan. The Company may also make a discretionary supplemental matching contribution to the Plan on behalf of a participant. Generally, the Company will not make a profit-sharing contribution, except in certain circumstances covered by collective bargaining agreements.

Participant Accounts

An individual account is established for each participant and provides benefits that are based on (a) amounts the participants and the Company contributed to a participant’s account and (b) investment earnings (losses) less an allowance of any administrative expenses charged to the Plan. Investment income is allocated to each participant’s account based on a pro-rata share of the individual’s investment allocation. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings (losses) thereon. A participant becomes fully vested in the Company's contributions upon the participant's death, disability, or attainment of normal retirement age while employed, the occurrence of a plan termination, or in accordance with the vesting schedule.

If a participant was employed by the Company, or if one of the Company's affiliates adopted the Plan on or after March 1, 2007, the participant's vested interest in the matching and discretionary contributions made to their account, and any earnings (losses) thereon made for periods on or after January 1, 2002, are as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1	0%
1 to 2	33%
2 to 3	67%
3 or more	100%

If a participant terminated employment on or before March 1, 2007, but was employed by the Company, or if one of the Company's affiliates adopted the Plan on or after January 1, 2003, the participant's vested interest in the matching and discretionary contributions made to their account, and any earnings (losses) thereon made for periods on or after January 1, 2002, are as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

Vesting - continued

If a participant terminated employment with the Company, or if one of the Company's affiliates adopted the Plan before January 1, 2003, the participant's vested interest in the matching and discretionary contributions made to their account, and any earnings (losses) thereon made for the periods on or after January 1, 2002, are as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5 or more	100%

Participant Notes Receivable

Participants may borrow from their accounts a minimum of \$1 up to a maximum equal to the lesser of \$50 or 50% of their vested account balance. Notes receivable transactions are treated as a transfer between one of the other funds and the note receivable fund. The notes receivable are secured by the balance in the participant's account and bear interest at the Wall Street Journal published prime rate plus 1%. Notes receivable terms range from one to five years; however, terms can be extended over a 10-year period for the purchase of a principal residence. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of their vested account balance, a direct rollover to another qualified plan, or a combination of both. When a participant attains age 59½, the participant is entitled to receive 100% of their vested account balances.

Forfeitures

In accordance with the provisions of the Plan, the non-vested portion of a participant's account is forfeitable upon termination. Participant terminations prior to vesting resulted in forfeitures of \$589 in 2013 and \$594 in 2012. In 2013 and 2012, employer contributions were reduced by \$719 and \$398, respectively, from forfeitures of non-vested accounts. Forfeitures were also used to reduce administrative expenses by \$40 and \$61 during 2013 and 2012, respectively. At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$211 and \$376, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan pays for a majority of the administrative expenses. Certain administrative expenses are paid by the Plan Sponsor.

Subsequent Events

The Plan has evaluated subsequent events through July 22, 2014, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS

NOTE D - FAIR VALUE MEASUREMENTS

The Plan follows current guidance which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 -** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 -** Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 -** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Following is a description of the valuation methodologies used for assets measured at fair value. The methods described below may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the closing price reported on the active market where the individual fund is traded.

Common collective trust: Investment contracts held by a defined contribution plan are reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in Fidelity's Managed Income Portfolio II (MIP II), a fully benefit-responsive collective trust fund. The statement of net assets available for benefits present the fair value of MIP II as well as the adjustment of MIP II from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. The fair value and contract value of the Plan's investment in MIP II are valued using the NAV of units held by the Plan at year end.

The Plan is applying the practical expedient to its investment in MIP II. MIP II's investment objective is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital. Participants' ownership of MIP II is represented as units. Units are issued and redeemed daily at MIP II's constant NAV of one dollar per unit. MIP II allows for daily liquidity with no additional days' notice required for redemption. It is the policy of MIP II to use its best efforts to maintain a stable NAV of one dollar per unit, although there is no guarantee that MIP II will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment in MIP II at contract value. Contract value represents contributions made to MIP II, plus earnings, less participant withdrawals and administrative expenses. MIP II imposes certain restrictions on the Plan, and MIP II itself may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs.

US Foods 401(k) Plan

NOTES TO FINANCIAL STATEMENTS - Continued

December 31, 2013 and 2012

(In thousands)

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Plan management believes the occurrence of events that would cause MIP II to transact at less than contract value is not probable.

MIP II invests largely in assets (typically in certain types of fixed-income securities) and enters into “wrapper” contracts issued by third parties and invests in cash equivalents represented by shares in a money market fund. A wrap contract is an agreement by another party, such as a bank or insurance company, to make payments to MIP II in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

The following events may limit the ability of the Plan to transact at contract value:

- The Plan’s failure to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.
- Any communication given to plan participants designed to influence a participant not to invest in MIP II or to transfer assets out of MIP II.
- Any change in law, regulation, or administrative ruling applicable to the Plan that could have a material adverse effect on MIP II’s cash flow.
- Any transfer of assets from MIP II directly into a competing investment option.
- The establishment of a defined contribution plan that competes with the Plan for employee contributions.
- Complete or partial termination of the Plan or its merger with another plan.
- Any substantive modifications of MIP II or the administration of MIP II that is not consented to by the wrap issuer.

US Foods 401(k) Plan

NOTES TO FINANCIAL STATEMENTS - Continued

December 31, 2013 and 2012

(In thousands)

NOTE D - FAIR VALUE MEASUREMENTS - Continued

MIP II is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets that are not otherwise invested in money market funds. For example, this could result from MIP II's inability to promptly find a replacement wrap contract following termination of a wrap contract. The wrap issuer's ability to meet its contractual obligations under the wrap contracts may be affected by future economic and regulatory developments. In the event that wrap contracts fail to perform as intended, MIP II's NAV may decline if the market value of its assets declines.

The investment in MIP II is presented in the statement of net assets available for benefits at fair value with an adjustment to contract value. Fair value is determined by taking the proportionate ownership of the fair value of the underlying investments.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2013 and 2012.

NOTE E - RELATED PARTY TRANSACTIONS

Plan investments are managed by the Plan's Trustee, Fidelity Management Trust Company, and, as such, these transactions qualify as party-in-interest transactions. Fees paid during the year for legal, accounting, actuarial and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, participants would become 100 percent vested in their employer contributions.

US Foods 401(k) Plan

NOTES TO FINANCIAL STATEMENTS - Continued

(In thousands)

NOTE G - TAX STATUS

The Plan has received a determination letter dated April 10, 2004, in which the Internal Revenue Service (IRS) stated that the Plan, as designed, is in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Company and Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes it is no longer subject to tax examinations for years prior to 2010.

NOTE H - RISKS AND UNCERTAINTIES

The Plan offers a number of investment options including a variety of mutual funds, some of which are registered investment companies. The investment funds include U.S. equities, international equities, and fixed-income securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across participant-directed fund elections. Additionally, the investments within each participant-directed election are further diversified into various financial instruments.
