A. DESCRIPTION OF PLAN

The following description of NRG Systems, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

1. General

The Plan, adopted January 1, 1992, is a defined contribution plan covering substantially all employees of NRG Systems, Inc. (the Company and Plan sponsor), who have completed three consecutive months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan assets were invested with TD Ameritrade Trust Company through January 2012 at which time they were moved to Fidelity Management Trust Company.

2. 401(k) Contributions

Participants may contribute up to 100% of eligible compensation, limited to a maximum amount as periodically set by the Internal Revenue Service (IRS). Participants who have attained the age of 50 before the end of the plan year can contribute an additional amount set by the IRS. Employees can elect to make pre-tax 401(k) deferrals or after-tax Roth 401(k) deferrals. Participants may also contribute amounts representing rollovers from other qualified defined benefit or contribution plans.

Eligible compensation is defined as reportable earnings on W-2, excluding reimbursements or other expense allowances, fringe benefits, moving expenses, deferred compensation, military wages and welfare benefits and including salary reduction contributions the participant made to an employer sponsored cafeteria, qualified transportation fringe or 401(k) plan.

3. Employer Discretionary 401(k) Matching Contribution

The matching contribution is determined by the Plan Sponsor. Effective May 2012, discretionary matching contribution is 50% of employee contributions, up to 5% of the employee's salary or wage. The discretionary matching contributions totaled $138,441 and $251,261 in 2013 and 2012, respectively. Discretionary matching contributions are invested as participants direct within the funds selected. At December 31, 2013 and 2012, the employer match receivable was $0.

A. DESCRIPTION OF PLAN (continued)

3. Employer Discretionary 401(k) Matching Contribution (continued)

During 2012 end testing, it was noted that the Company over contributed to several participants totaling $7,795 for the year. A payable was established at December 31, 2012 to reimburse the Company and was paid in full in 2013. Of these participants, two participants are no longer employed, left the plan and had distributed their accounts. A receivable was established at December 31, 2012 in the amount of $2,620 to account for the funds to be returned to the plan by these individuals and was received in 2013.

4. Discretionary Profit-Sharing Contributions

Each year the Company may make a discretionary employer profit-sharing contribution without regard to current or accumulated net profits of the Company. The Company deposits the profit-sharing contribution for each employee after the general eligibility requirements are met. The profit-sharing contribution is allocated to employees of the company based on compensation. In order to receive the profit-sharing contribution, each employee must have completed a year of service during the Plan Year, defined as 1,000 hours of service, and must be employed on the last day of the Plan Year. Total discretionary profit-sharing contributions in 2013 and 2012 were $0. At December 31, 2013 and 2012 the amount of profit-sharing receivable was $0.

5. Participant Accounts

Each participant's account is credited with the participant's and the employer's contributions and plan earnings. Participant accounts are charged with an allocation of administrative expenses and investment fees based on the ratio of the participant's account balance to the account balance of all participants in the same investment. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant account statements are available online through Fidelity Management Trust Company's website (the Plan's trustee and custodian). The assets in the plan are invested in available investment options and a separate account is established for each participant who receives and/or makes a contribution. Participants have the option to invest in thirty mutual funds and one money market fund. The value of each participant's account is updated each business day to reflect any contributions, exchanges between investment options, investment earnings or losses for each investment option and withdrawals.

(continued)

A. DESCRIPTION OF PLAN (continued)

6. Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of the participant's account plus actual earnings thereon is based on years of continuous service. A participant is 20% vested after one full year of service, with an additional 20% per year thereafter until fully vested after five full years. Upon normal retirement age, 65 years, death or disability, a participant becomes fully vested.

7. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive distributions equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or leave the funds in the Plan until retirement age or transfer to a trustee of another qualified plan or individual retirement account. If the terminating employee's non-forfeitable account balance is less than $1,000 including rollovers, the Plan maintains the right to immediately distribute the entire account balance, less forfeitures, if any.

8. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The number of loans approved for a participant in any 12-month period shall be limited to one. The loans are secured by the vested balance in the participant's account. Loan terms shall not exceed ten years. The loans bear interest at a rate commensurate with local prevailing rates and shall remain fixed throughout the duration of the loan. In 2013 the plan set the interest rate, on new loans, at Wall Street Prime plus 1%, currently 4.25%. Maturity dates on loans range from 2014 to 2017. Principal and interest is paid ratably through bi-weekly payroll deductions. Upon termination, those who have outstanding loans have 60 days to repay the total balance. In the event it is not repaid, the amount due is deducted from the vested balance as a deemed distribution. Deemed distributions were $0 and $1,566 for 2013 and 2012, respectively.

(continued)

A. DESCRIPTION OF PLAN (continued)

9. Forfeited Accounts

When termination of service occurs, any non-vested portion of a participant's account will be considered forfeited. The forfeited balance of a terminated employee is moved to the forfeitures account when the employee's account is distributed from the Plan. At December 31, 2013 and 2012, the forfeited non-vested employer matching cash account balance was $0 and $11,454, respectively. These forfeitures may first be used to pay administrative expenses at the discretion of the Company. The remaining balance will be used to reduce the employer matching or profit-sharing contributions. The amount of forfeitures used to reduce employer matching contributions were $22,436 and $0, in 2013 and 2012, respectively. Forfeitures used during 2013 consisted of $10,982 from current year forfeitures as well as $11,454 from 2012 that were allocated to the participants in 2013.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

2. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices based on their reported value on the national securities exchange, which represents the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a mutual trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4. Payment of Benefits

Benefits are recorded when paid.

5. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

6. Subsequent Events

The Company has evaluated subsequent events through July 21, 2014, which is the date that the financials were available to be issued.

C. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

It was determined that there was a partial plan termination in the Plan in 2012. The time period selected for determination was January 1, 2012 through December 31, 2012. Affected employees represented 25% of the plan participants. All employees terminated during this timeframe became 100% vested in their salary deferrals, employer match, and profit sharing contributions.

D. TAX STATUS

In February 2012, The Plan adopted the Fidelity Prototype Plan ("Basic Plan Document No. 14") from Fidelity Management Trust Company. Prior to February 2012, the Plan had adopted the Future Planning Associates, Inc. Prototype Non-standardized Profit Sharing Plan. Both plan adoptions rely on the prototype sponsor's opinion letter from the Internal Revenue Service dated March 31, 2008. This letter states that the prototype and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan Administrator and prototype sponsor believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(continued)

D. TAX STATUS (continued)

The Plan also uses a more-likely-than-not measurement for all tax positions taken or expected to be taken on a tax return in order for those tax positions to be recognized in the financial statements. If the Plan were to incur interest and penalties related to income taxes, these would be included in the provision for income taxes. Generally the three tax years previously filed remain subject to examination by federal and state tax authorities.

E. BENEFIT OBLIGATION

As of December 31, 2013 and 2012, the Plan had benefit obligations of $2,495,517 and $3,130,118, respectively, for terminated participants with vested balances, who had not withdrawn their funds.

H. PLAN EXPENSES/PARTY-IN INTEREST TRANSACTIONS

Plan audit expenses and the annual filing fee, preparation of Form 5500 and plan testing are paid by the Company.

Certain plan investments are shares of mutual funds and money market funds offered by the trustee and therefore, these transactions qualify as party-in-interest. All investment fees are paid for by the individual participant accounts. Participants are also charged $25 for distributions, $75 for each participant loan taken, and $25 for annual loan maintenance fees.

The administrative expenses totaled $593 and $2,715 for plan years ending December 31, 2013 and 2012, respectively.

I. INVESTMENTS

The following investments represent 5% or more of the Plan's net assets at December 31:

Registered investment companies (mutual funds)	$ 1,360,392	$ 734,613

J. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

A. DESCRIPTION OF PLAN

The following description of NRG Systems, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

1. General

The Plan, adopted January 1, 1992, is a defined contribution plan covering substantially all employees of NRG Systems, Inc. (the Company and Plan sponsor), who have completed three consecutive months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan assets were invested with TD Ameritrade Trust Company through January 2012 at which time they were moved to Fidelity Management Trust Company.

2. 401(k) Contributions

Participants may contribute up to 100% of eligible compensation, limited to a maximum amount as periodically set by the Internal Revenue Service (IRS). Participants who have attained the age of 50 before the end of the plan year can contribute an additional amount set by the IRS. Employees can elect to make pre-tax 401(k) deferrals or after-tax Roth 401(k) deferrals. Participants may also contribute amounts representing rollovers from other qualified defined benefit or contribution plans.

Eligible compensation is defined as reportable earnings on W-2, excluding reimbursements or other expense allowances, fringe benefits, moving expenses, deferred compensation, military wages and welfare benefits and including salary reduction contributions the participant made to an employer sponsored cafeteria, qualified transportation fringe or 401(k) plan.

3. Employer Discretionary 401(k) Matching Contribution

The matching contribution is determined by the Plan Sponsor. Effective May 2012, discretionary matching contribution is 50% of employee contributions, up to 5% of the employee's salary or wage. The discretionary matching contributions totaled $138,441 and $251,261 in 2013 and 2012, respectively. Discretionary matching contributions are invested as participants direct within the funds selected. At December 31, 2013 and 2012, the employer match receivable was $0.

A. DESCRIPTION OF PLAN (continued)

3. Employer Discretionary 401(k) Matching Contribution (continued)

During 2012 end testing, it was noted that the Company over contributed to several participants totaling $7,795 for the year. A payable was established at December 31, 2012 to reimburse the Company and was paid in full in 2013. Of these participants, two participants are no longer employed, left the plan and had distributed their accounts. A receivable was established at December 31, 2012 in the amount of $2,620 to account for the funds to be returned to the plan by these individuals and was received in 2013.

4. Discretionary Profit-Sharing Contributions

Each year the Company may make a discretionary employer profit-sharing contribution without regard to current or accumulated net profits of the Company. The Company deposits the profit-sharing contribution for each employee after the general eligibility requirements are met. The profit-sharing contribution is allocated to employees of the company based on compensation. In order to receive the profit-sharing contribution, each employee must have completed a year of service during the Plan Year, defined as 1,000 hours of service, and must be employed on the last day of the Plan Year. Total discretionary profit-sharing contributions in 2013 and 2012 were $0. At December 31, 2013 and 2012 the amount of profit-sharing receivable was $0.

5. Participant Accounts

Each participant's account is credited with the participant's and the employer's contributions and plan earnings. Participant accounts are charged with an allocation of administrative expenses and investment fees based on the ratio of the participant's account balance to the account balance of all participants in the same investment. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant account statements are available online through Fidelity Management Trust Company's website (the Plan's trustee and custodian). The assets in the plan are invested in available investment options and a separate account is established for each participant who receives and/or makes a contribution. Participants have the option to invest in thirty mutual funds and one money market fund. The value of each participant's account is updated each business day to reflect any contributions, exchanges between investment options, investment earnings or losses for each investment option and withdrawals.

(continued)

A. DESCRIPTION OF PLAN (continued)

6. Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of the participant's account plus actual earnings thereon is based on years of continuous service. A participant is 20% vested after one full year of service, with an additional 20% per year thereafter until fully vested after five full years. Upon normal retirement age, 65 years, death or disability, a participant becomes fully vested.

7. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive distributions equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or leave the funds in the Plan until retirement age or transfer to a trustee of another qualified plan or individual retirement account. If the terminating employee's non-forfeitable account balance is less than $1,000 including rollovers, the Plan maintains the right to immediately distribute the entire account balance, less forfeitures, if any.

8. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The number of loans approved for a participant in any 12-month period shall be limited to one. The loans are secured by the vested balance in the participant's account. Loan terms shall not exceed ten years. The loans bear interest at a rate commensurate with local prevailing rates and shall remain fixed throughout the duration of the loan. In 2013 the plan set the interest rate, on new loans, at Wall Street Prime plus 1%, currently 4.25%. Maturity dates on loans range from 2014 to 2017. Principal and interest is paid ratably through bi-weekly payroll deductions. Upon termination, those who have outstanding loans have 60 days to repay the total balance. In the event it is not repaid, the amount due is deducted from the vested balance as a deemed distribution. Deemed distributions were $0 and $1,566 for 2013 and 2012, respectively.

(continued)

A. DESCRIPTION OF PLAN (continued)

9. Forfeited Accounts

When termination of service occurs, any non-vested portion of a participant's account will be considered forfeited. The forfeited balance of a terminated employee is moved to the forfeitures account when the employee's account is distributed from the Plan. At December 31, 2013 and 2012, the forfeited non-vested employer matching cash account balance was $0 and $11,454, respectively. These forfeitures may first be used to pay administrative expenses at the discretion of the Company. The remaining balance will be used to reduce the employer matching or profit-sharing contributions. The amount of forfeitures used to reduce employer matching contributions were $22,436 and $0, in 2013 and 2012, respectively. Forfeitures used during 2013 consisted of $10,982 from current year forfeitures as well as $11,454 from 2012 that were allocated to the participants in 2013.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

2. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices based on their reported value on the national securities exchange, which represents the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a mutual trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4. Payment of Benefits

Benefits are recorded when paid.

5. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

6. Subsequent Events

The Company has evaluated subsequent events through July 21, 2014, which is the date that the financials were available to be issued.

C. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

It was determined that there was a partial plan termination in the Plan in 2012. The time period selected for determination was January 1, 2012 through December 31, 2012. Affected employees represented 25% of the plan participants. All employees terminated during this timeframe became 100% vested in their salary deferrals, employer match, and profit sharing contributions.

D. TAX STATUS

In February 2012, The Plan adopted the Fidelity Prototype Plan ("Basic Plan Document No. 14") from Fidelity Management Trust Company. Prior to February 2012, the Plan had adopted the Future Planning Associates, Inc. Prototype Non-standardized Profit Sharing Plan. Both plan adoptions rely on the prototype sponsor's opinion letter from the Internal Revenue Service dated March 31, 2008. This letter states that the prototype and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan Administrator and prototype sponsor believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(continued)

D. TAX STATUS (continued)

The Plan also uses a more-likely-than-not measurement for all tax positions taken or expected to be taken on a tax return in order for those tax positions to be recognized in the financial statements. If the Plan were to incur interest and penalties related to income taxes, these would be included in the provision for income taxes. Generally the three tax years previously filed remain subject to examination by federal and state tax authorities.

E. BENEFIT OBLIGATION

As of December 31, 2013 and 2012, the Plan had benefit obligations of $2,495,517 and $3,130,118, respectively, for terminated participants with vested balances, who had not withdrawn their funds.

All investment fees are paid for by the individual participant accounts.
