INDEPENDENT AUDITORS' REPORT

To the Participants of
Rockwell Collins Retirement Savings Plan for Bargaining Unit Employees

We have audited the accompanying financial statements of the Rockwell Collins Retirement Savings Plan for Bargaining Unit Employees (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Rockwell Collins Retirement Savings Plan for Bargaining Unit Employees as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Schedules

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2013 is presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These schedules are the responsibility of the Plan's management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such schedules have been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such schedules directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such schedules are fairly stated in all material respects in relation to the financial statements as a whole.

ROCKWELL COLLINS RETIREMENT SAVINGS PLAN FOR BARGAINING UNIT EMPLOYEES

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF PLAN

This brief description of the Rockwell Collins Retirement Savings Plan for Bargaining Unit Employees (the “Plan”) is provided for general information purposes only. Participants include members and retirees of the International Brotherhood of Electrical Workers locals 1362 (“1362”), and 1634 (“1634”), International Union of Electric, Electrical, Salaried, Machine and Furniture Workers - Communications Workers of America local 86787 (“86787”) and various International Alliance of Theatrical Stage Employees locals. Participants should refer to the Plan document for more complete information.

Rockwell Collins, Inc. (the “Company”) maintains two defined contribution savings plans in the U.S. for the benefit of its employees. The investment assets of these plans are held and administered by the Rockwell Collins Defined Contribution Master Trust (the “Master Trust”). These plans are the Rockwell Collins Retirement Savings Plan and the Rockwell Collins Retirement Savings Plan for Bargaining Unit Employees. Each of the participating plans has an interest in the net assets of the Master Trust and changes therein. The Master Trust provides segregated accounting for each plan and exists primarily to allow a single investment fund for the participants in the common stock of the Company at an administrative cost less than if each plan had a separate fund.

The Plan has a payment option related to the investments in Company stock to reflect an Employee Stock Ownership Plan feature as defined by the Internal Revenue Code (“IRC”). This option allows the participants whose accounts hold shares in the Rockwell Collins Stock Fund to either receive the dividends paid on these shares in cash as taxable compensation or to have the dividends reinvested in the Plan with taxes deferred. Participants are offered the opportunity to elect their choice of treatment regarding dividends paid on Company stock held in the Plan, with dividend reinvestment as the default. Participants may change this election at any time.

General – The Plan is a defined contribution plan sponsored by the Company. Substantially all U.S. based bargaining unit employees are eligible to participate in the Plan immediately upon hire. The Rockwell Collins Employee Benefit Plan Committee controls and manages the operation and administration of the Plan. The assets are held in custody with Fidelity Management Trust Company (the “Trustee”). The Employee Benefit Plan Committee of the Company selects the investment options available to participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Contributions – The Plan provides that eligible employees electing to become participants may contribute up to a maximum of 50 percent of eligible compensation. Participant contributions can be made either pre-tax or after-tax, up to IRC specified limits. However, pre-tax contributions by highly compensated participants are limited to 20 percent of the participant’s eligible compensation. Participants age 50 and over are allowed to contribute an additional amount as pre-tax catch-up contributions to the Plan, as specified in the IRC.

The Company matching contribution formula is 50 percent of the first 6 percent of eligible compensation contributed by participants. Company matching contributions are not made on the catch-up contributions. Participant contributions are allocated according to the investment fund elections of the participant, while Company matching contributions are made to the Rockwell Collins Stock Fund. Participants may elect to transfer all or a portion of their balances in the Rockwell Collins Stock Fund to any of the available investment funds within the Plan at any time, which makes the Rockwell Collins Stock Fund a partially nonparticipant directed investment.

Newly eligible employees are automatically enrolled in the Plan with a one percent pre-tax contribution rate. For those participants that do not select an investment option, participant contributions were made to the Fidelity Freedom Funds through October 24, 2013 and after that date to the State Street Global Advisors (SSgA) Target Retirement Income Fund closest to the date the participant reaches age 65.

Each May, employees contributing less than 6 percent to the Plan will have their contribution rates increased by one percent each year unless they opt out of the Annual Increase Program. For those participants that do not select an investment option, participant contributions were made to the age appropriate Fidelity Freedom Fund through October 24, 2013 and after that date to the State Street Global Advisors (SSgA) Target Retirement Income Fund closest to the date the participant reaches age 65.

Participants may elect to change their contribution rate or transfer all or a portion of their balances to any of the available investment alternatives at anytime.

In May 2013, an agreement was reached between the Company and the three bargaining unit unions listed previously. The contract covers a five year period from May 4, 2013 through May 4, 2018. The contract requires that Company matching contributions begin immediately; previously, a participant needed one year of service to receive these contributions. Contribution rates and vesting schedules remained the same and are described in detail below.

Effective January 1, 2014, pre-tax contributions made by highly compensated employees will be limited to 8% of the participant's eligible compensation.

Participant Accounts – Individual accounts are maintained for each Plan participant. Each participant's account is increased for participant and Company contributions, and an allocation of Plan earnings. Each participant's account is decreased for withdrawals, directly attributable expenses (such as loan fees) and an allocation of Plan losses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants do not own specific securities or other assets in the various funds, but have an interest therein represented by units valued as of the end of each business day. However, voting rights are extended to participants in proportion to their interest in Rockwell Collins, Inc. common stock held in the Rockwell Collins Stock Fund. Participants' accounts are charged or credited, as the case may be, with the number of units properly attributable to each participant.

Investments – Participants may elect to have participant contributions made to any of the investment funds of the Plan in one percent increments. Participants may change such investment elections on a daily basis. If a participant does not have an investment election on file, contributions will be made to the age appropriate Fidelity Freedom Fund through October 24, 2013 and then to the State Street Global Advisors (SSgA) Target Retirement Income Fund closest to the date the participant reaches age 65 thereafter.

Investment options available to participants to direct the investment of their account balances and future contributions include various mutual funds, common collective trust funds, and the following stock fund specific to the Plan:

Rockwell Collins Stock Fund – The Rockwell Collins Stock Fund invests principally in the common stock of Rockwell Collins, Inc. and holds cash or liquid short term investments to allow participants to buy or sell units in the fund without the usual trade period for stock transactions. Typically, the Rockwell Collins Stock Fund holds one percent of its value in cash or liquid short-term investments. Participants may elect to transfer all or a portion of their balances in the Rockwell Collins Stock Fund to any of the various fund alternatives at any time.

Vesting – Each participant is fully vested at all times in the portion of a participant's account that relates to the participant's contributions and earnings thereon. Vesting in the Company contribution portion of participant accounts plus actual earnings thereon is based on years of vested service. Generally, a participant is 100 percent vested after three years of vested service or when the participant reaches age 65.

Participant Loans – Loans may be obtained from the balance of a participant's account in amounts not less than \$1,000 and not greater than the lesser of \$50,000 reduced by the participant's highest outstanding loan balance during the 12-month period before the date of the loan or 50 percent of the participant's vested account balance less any outstanding loans. Participants may have up to two outstanding loans at a time. Loans are collateralized by the remaining balance in the participant's account. Interest is charged at a rate equal to the prime rate plus one percent on the last day of the month before the loan is requested. Loan repayments of principal and interest are collected through payroll deductions over terms of 12, 24, 36, 48, or 60 months or up to 120 months for the purchase of a primary residence, or repaid in full at any time. Payments of principal and interest are credited to the participant's account.

A deemed distribution results when a participant, who is classified as an active employee, has defaulted on a loan. Loan defaults occur when a participant, who is no longer an active employee, defaults on a loan or receives an actual distribution that was offset by the loan amount.

Rollovers – Participants may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Payment of Benefits – Active participants may withdraw certain amounts from their account. The funds available for participants under age 59-1/2 are funds in after-tax, rollover, and Company matching sources. Participants may also withdraw pre-tax sources if they meet the requirements for a hardship withdrawal. At age 59-1/2 all vested sources may be withdrawn. Participant vested amounts are payable upon retirement, death, or other termination of employment.

Upon retirement or termination at age 55 or later, participants may elect to receive the vested portion of their account balance (employee and Company contributions) in the form of a lump sum or in annual installment payments for up to 10 years, subject to the distribution rules of the IRC.

Upon termination of employment prior to reaching age 55, participants may receive the vested portion of their account balance (employee and Company contributions) in the form of a lump sum subject to the distribution rules of the IRC, or the balance may remain in the Plan without further contributions.

Forfeited Accounts – The non-vested portion of a participant’s account is forfeited when certain terminations described in the Plan occur. Forfeitures remain in the Plan and are used to reduce the Company’s contributions and administrative expenses of the Plan. The Plan contains specific break in service provisions that enable a participant’s account to be restored upon re-employment and fulfillment of certain requirements. At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$2,933 and \$5,139, respectively. During the years ended December 31, 2013 and 2012, Company contributions were reduced by \$7,586 and \$1,293, respectively, from forfeited non-vested accounts.

Plan Termination – Although the Company has not expressed any intent to terminate the Plan, the Company has the authority (subject to the collective bargaining agreements) to terminate or modify the Plan or suspend contributions to the Plan in accordance with ERISA. In the event the Plan is terminated, each participant’s account will be fully vested. Benefits under the Plan will be provided solely from Plan assets.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities may occur and that such changes could materially affect the value of the participants’ account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition – The Plan’s investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at the closing price reported on the active market on which the mutual funds are traded on the last business day of the Plan year, which represent the net asset value of shares held by the Plan at year end. The Rockwell Collins Stock Fund is stated at fair value based on the underlying Rockwell Collins, Inc. common stock, which is valued at the closing price reported on the active market on which the stock is traded on the last business day of the Plan year, and also includes cash. The Managed Income Portfolio fund with underlying investments in investment contracts is valued at the fair market value of the underlying investments and then adjusted by the issuer to the contract value for those investment contracts that are fully benefit-responsive. The fair values of the State Street Global Advisors (SSgA) Target Retirement funds are based on the collective trusts’ net asset values (“NAV”). The NAVs, as obtained from the audited financial statements of the collective trusts at year end, are used as a practical expedient to estimate fair value. Each NAV is based on the underlying investments held by each collective trust.

In accordance with the FASB’s standards related to Investment Companies and Plan Accounting for Defined Contribution Pension Plans, the stable value fund is included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. Contract value is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are presented on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Participant Loans – Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Administrative Expenses – Administrative expenses of the Plan are paid by the Plan Sponsor as provided in the Plan document or by paying the expenses from the Forfeiture Account.

Payment of Benefits – Benefit payments are recorded when paid. There were no participants who had elected to withdraw from the Plan but have not been paid at December 31, 2013 and 2012.

Net Transfers Between Affiliated Plans – Along with this Plan, the Company also sponsors a 401(k) plan for nonbargaining unit employees. If employees change their status between bargaining unit and nonbargaining unit during the year, their account balances are transferred into the corresponding plan. For the year ended December 31, 2013, the net transfer into this Plan was \$46,753, and for the year ended December 31, 2012, the net transfer out of this Plan was \$48,938.

Excess Contributions Payable – The Plan is required to return contributions received during the Plan year in excess of the IRC limits.

3. DEFINED CONTRIBUTION MASTER TRUST

As of December 31, 2013 and 2012, the Plan's assets, with the exception of the participant loan receivable, are held in the Master Trust account at the Trustee. This Plan participates in the Master Trust along with the Rockwell Collins Retirement Savings Plan (collectively, the "participating plans"). Each of the participating plans has an interest in the net assets of the Master Trust and changes therein. The Trustee maintains supporting records for the purpose of allocating the net assets and net gain or loss of the investment accounts to each of the participating plans.

The Master Trust investments are valued at fair value at the end of each day.

The net earnings or loss of the accounts for each day are allocated by the Trustee to each participating plan investment fund based on the relationship of the interest of each plan to the total of the interests of all participating plans.

The Master Trust holds investments in common collective trust funds, one of which sponsored by the Trustee that is a stable value fund (the "Stable Value Fund"). The beneficial interest of each participant in the net assets of the Stable Value Fund is represented by units. Units are issued and redeemed daily at the Stable Value Fund's constant NAV of \$1 per unit. Distribution to the Stable Value Fund's unit holders are declared daily from the net investment income and automatically reinvested in the Stable Value Fund on a monthly basis, when paid. It is the policy of the Stable Value Fund to use its best efforts to maintain a stable NAV of \$1 per unit, although there is no guarantee that the Stable Value Fund will be able to maintain this value.

Fair Value Measurements of Investments in Certain Entities that Calculate Net Asset Value per Share — The State Street Global Advisors (SSgA) Target Retirement funds' fair values are based on the collective trusts' NAV. The NAVs, as obtained from the audited financial statements of the collective trusts at year end, are used as a practical expedient to estimate fair value. Each NAV is based on the underlying investments held by each collective trust. The strategy of the funds are to approximate as closely as possible, the performance of a custom benchmark index over the long term, before expenses, while providing participants the ability to purchase and redeem units on an "as of" basis. As of December 31, 2013, the Funds had a fair value of \$385,595,195 and an unfunded commitment of \$0. Funds may be redeemed immediately and no other redemption restrictions exist for these funds.

The Stable Value Fund's fair value is estimated using net asset value per share and invests in insurance contracts, fixed-income securities, and money market funds to provide daily liquidity. The strategy of this fund is to provide participants with income while maintaining stability of principal. As of December 31, 2013, the Stable Value Fund had a fair value of \$194,808,347 and an unfunded commitment of \$0. Funds may be redeemed immediately and no other redemption restrictions exist for this fund.

The Stable Value Fund imposes certain restrictions on the Plan, and the Stable Value Fund itself may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs. Plan management believes that the occurrence of events that would cause the Stable Value Fund to transact at less than contract value are not probable.

Restrictions on the Plan — Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the Plan Sponsor. The following employer initiated events may limit the ability of the Stable Value Fund to transact at contract value:

- A failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA
- Any communication given to Plan participants designed to influence a participant not to invest in the Stable Value Fund or to transfer assets out of the Fund
- Any transfer of assets from the Stable Value Fund directly into a competing investment option
- The establishment of a defined contribution plan that competes with the Plan for employee contributions
- Complete or partial termination of the Plan or its merger with another plan

Circumstances That Impact the Fund — The Stable Value Fund invests in assets, typically fixed-income securities or bond funds, and enters into “wrapper” contracts issued by third parties. A wrap contract is an agreement by another party, such as a bank or insurance company to make payments to the Stable Value Fund in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

The wrap contracts generally contain provisions that limit the ability of the Stable Value Fund to transact at contract value upon the occurrence of certain events. These events include:

- Any substantive modification of the Stable Value Fund or the administration of the Stable Value Fund that is not consented to by the wrap issuer
- Any change in law, regulation, or administrative ruling applicable to a plan that could have a material adverse effect on the Stable Value Fund’s cash flow
- Employer-initiated transactions by participating plans as described above

In the event that wrap contracts fail to perform as intended, the Stable Value Fund’s NAV may decline if the market value of its assets declines. The Stable Value Fund’s ability to receive amounts due pursuant to these wrap contracts is dependent on the third-party issuer’s ability to meet their financial obligations. The wrap issuer’s ability to meet its contractual obligations under the wrap contracts may be affected by future economic and regulatory developments.

The Stable Value Fund is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets. This could result from the Stable Value Fund’s inability to promptly find a replacement wrap contract following termination of a wrap contract. Wrap contracts are not transferable and have no trading market. There are a limited number of wrap issuers. The Stable Value Fund may lose the benefit of wrap contracts on any portion of its assets in default in excess of a certain percentage of portfolio assets.

The net assets of the Master Trust at December 31, 2013 and 2012 consisted of the following:

	2013	2012
Mutual Funds	\$ 1,665,998,807	\$ 1,578,822,680
Rockwell Collins Stock Fund	422,244,892	385,571,742

Plan's percentage interest in Master Trust net assets	<u>4.2 %</u>	<u>4.2 %</u>

The net investment income (loss) of the Master Trust for the years ended December 31, 2013 and 2012 consisted of the following:

	2013	2012
Net appreciation of investments:		
Mutual funds	\$ 311,901,940	\$ 130,884,093
Rockwell Collins Stock Fund	96,912,329	19,540,724

Plan's portion of Master Trust investment income	<u>\$ 21,031,055</u>	<u>\$ 8,340,190</u>

While the Plan participates in the Master Trust, each participant's account is allocated earnings (or losses) consistent with the performance of the funds in which the participant's account is invested. Therefore, the investment income (loss) of the Master Trust may not be allocated evenly among the plans participating in the Master Trust.

The Master Trust's investments at fair value that exceeded 5 percent of Master Trust net assets as of December 31, 2013 and 2012 were as follows:

4. FAIR VALUE MEASUREMENTS

The FASB's standard related to fair value measurements defines fair value, establishes a framework for measuring fair value and expands the related disclosure requirements. The standard indicates, among other things, that a fair value measurement assumes that the transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. The standard established a valuation hierarchy for disclosure of the inputs to valuation techniques used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 - quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument

Level 3 - unobservable inputs based on the Plan's own assumptions used to measure assets and liabilities at fair value

Asset Valuation Techniques - Shares of mutual funds held are categorized as Level 1. They are valued at closing quoted market prices on the active market on which the mutual funds are traded on the last business day of the Plan year.

Shares of the Rockwell Collins Stock Fund are categorized as Level 1. It is valued based on the underlying Rockwell Collins, Inc. common stock, which is valued at closing quoted market prices on the active market on which the stock is traded on the last business day of the Plan year.

Investments in common collective trust funds are valued based upon the redemption price of units held by the Plan, which is based on the current fair value of the common collective trust funds' underlying assets. Unit values are determined by the financial institution sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation dates. Investments in common collective trust funds are categorized as Level 2.

A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The fair value of the Master Trust assets as of December 31, 2013 and 2012 was as follows:

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no investments held by the Master Trust that changed levels during the years ended December 31, 2013 and 2012, respectively.

5. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated April 14, 2003, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. In January 2011, the Company filed an application (the "Application") for a compliance statement from the IRS under the Voluntary Correction Program ("VCP"). The compliance statement was sought with respect to certain operational errors and failure to amend the plan for required legislative changes. The IRS has completed its review of the Application and indicated its acceptance of the proposed corrective actions in a compliance statement dated June 5, 2013. The Company completed the corrective actions within the required timeframe. At the time of the VCP application, the Company amended and restated the the Plan document and requested that a new determination letter be issued by the IRS with regards to the restated plan. The request for a new determination letter is still pending with the IRS. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. As a result, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2013 and 2012, the Master Trust held Company common stock with a market value of \$417,833,539 and \$382,064,923, respectively. During the years ended December 31, 2013 and 2012, the Master Trust recorded dividend income from the Company of \$7,263,534 and \$7,805,890, respectively.

Certain Plan investments are managed by the Trustee and these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services are included as a reduction of the return earned on each investment fund.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2013:
