NORTHWEST SAVINGS BANK EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of the Plan and Basis of Presentation

(a) General

The following description of the Northwest Savings Bank Employee stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Northwest Savings Bank (the “Bank”), a wholly owned subsidiary of Northwest Bancshares, Inc. (the “Company”), established the Plan effective as of January 1, 1994. Northwest Bancshares, Inc. is a Maryland corporation that was incorporated in September 2009 to be the successor to Northwest Bancorp, Inc. upon completion of the mutual-to-stock conversion of Northwest Bancorp, MHC, its mutual holding company parent. The Plan, a leveraged plan, is designed to be a qualified stock bonus plan under Section 401(a) of the Internal Revenue Code of 1986 (“Code”) and an employee stock ownership plan within the meaning of 407(d)(6) of Employee Retirement Income Security Act of 1974, as amended (“ERISA”) and Section 4975(e)(7) of the Code. The Plan is subject to the applicable provisions of the ERISA. The Plan purchases shares of the Company, the stock holding company of the Bank, and holds the stock in a trust established under the Plan. Northwest Savings Bank (“Trustee”) serves as the Plan’s trustee and Northwest Savings Bank Investment Management and Trust (“Custodian”) serves as the Plan’s custodian.

From December 18, 2009 through February 2, 2010, the Plan purchased shares of the Company’s common stock in the open market using proceeds of a loan from the Company (see Note 8). The borrowing is to be repaid over a period of 20 years. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees’ accounts in accordance with applicable regulations under the Code. The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2013 and 2012, and for the years then ended, present separately the assets and liabilities and changes therein pertaining to (a) the account of employees with vested rights in allocated common stock (allocated), and (b) common stock not yet allocated to employees (unallocated).

The Plan evaluated subsequent events for recognition and disclosure through July 25, 2014, the date the financial statements were available to be issued.

(b) Eligibility

Full-time and part-time employees age twenty-one or older are eligible to participate after one year of service providing they have worked at least 1,000 hours during such Plan year. Effective January 1, 2012, the Plan was amended to include temporary employees who otherwise satisfy the eligibility requirements.

(c) Contributions

The Plan is a defined contribution plan under which a separate individual account is established for each participant.

NORTHWEST SAVINGS BANK EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2013 and 2012

Beginning in 2010, the Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's investment income, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Contributions of \$910,714 and \$619,212 were made for the years ended December 31, 2013 and December 31, 2012, respectively.

(d) Participant Accounts

Contributions are allocated at the end of the Plan year to each participant's account according to a fraction, the numerator of which is the participant's compensation for the Plan's year and the denominator of which is the total compensation paid to all participants for the Plan's year. However, no contribution allocation is made to the account of a participant who is not employed on the last day of the Plan's year. Dividends declared on allocated shares are paid directly to the participants in cash based on the number of shares held in a participant's account at the date determined by the dividend declaration terms.

(e) Benefits

Upon termination of employment with the Bank, participants will be entitled to a distribution of their vested interest. The vested interest is earned according to years of continuous service. A participant is 100% vested after six years of credited service at a graded rate of 20% per year of credited service beginning after two years of credited service. A participant's interest is also 100% vested in the event that service is terminated by retirement, disability, or death. Benefits are distributed in cash or in the Company's stock. The amount to be distributed is based upon the account valuation date immediately preceding the distribution.

(f) Plan Administration

The Plan administrator and the Custodian are appointed by the Bank. All administrative expenses of the Plan are paid by the Bank, and are therefore, not reflected in the accompanying financial statements.

(g) Forfeited Accounts

Forfeitures arising from participants with less than fully vested interest in the Plan will be added to the Bank's contribution and reallocated to the accounts of eligible participants in accordance with the Plan document. Forfeitures of \$18,954 and \$14,834 were reallocated for the years ended December 31, 2013 and 2012, respectively.

(h) Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. Unallocated shares are voted by the Trustee on behalf of the collective best interest of the Plan participants and beneficiaries.

NORTHWEST SAVINGS BANK EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(i) Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, participants will become 100% vested in their accounts, and the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Employee Benefits Administration Committee of the Company shall direct the Custodian to pay all liabilities and expenses of the trust fund and sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

(j) Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are age 55 or older with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. Participants' accounts totaling \$536,807 and \$380,082 were transferred out of the Plan in 2013 and 2012, respectively. Participants can also elect to have any Company common stock dividends paid out to them in cash or have them automatically reinvested in the Company's common stock.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) Put Option

The Company's stock is publicly traded. However, under federal income tax regulations, if the Company stock that is held by the Plan and its participants is not readily determinable on an established market, or is subject to trading limitations, includes a put option. The put option will permit the participant to sell the employer securities to the Company, at any time during two option periods, at the current fair market value. The option periods are either within the 60 day period that begins on the date on which the shares to be purchased by the Company were distributed from the Plan or within the 60 day period that begins on the first day of the Plan Year immediately following the Plan Year in which the shares to be purchased by the Company are distributed from the Plan. If a participant (beneficiary) exercises their put option, the Company must purchase the Company securities at fair market value. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

(c) Valuation of Investments and Income Recognition

The Plan's investment is reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 7 for a discussion of fair value measurements. Quoted market prices are used

NORTHWEST SAVINGS BANK EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2013 and 2012

to value the investment. Purchases and sales of the Plan's investment are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/ (depreciation) includes gains and losses on the Plan's investments bought and sold as well as held during the year.

(d) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(e) Payment of Benefits

Distributions to participants are recorded when paid.

(f) Cash and cash equivalents

Cash and cash equivalents may include cash and amounts due from depository institutions, interest-bearing deposits in other financial institutions, federal funds sold, and other short-term investments with original maturities of three months or less.

(3) Investments

The following table presents the Plan's investments as of December 31, 2013 and 2012:

	2013		2012	
	Allocated	Unallocated	Allocated	Unallocated
Northwest Bancshares, Inc. Common Stock :				
Number of shares	3,112,168	2,020,490	3,107,140	2,146,770
Cost	\$ 20,963,459	23,703,464	19,942,982	24,855,557
Fair value	\$ 45,997,843	29,862,842	37,720,679	26,061,788
Market price per share	\$ 14.78	14.78	12.14	12.14

The Plan's investment in Company common stock represents 5% or more of the Plan's net assets available for benefits at December 31, 2013 and 2012, the Plan's investment in Company common stock (including gains and losses bought, sold, as well as held during the year) appreciated (depreciated) in value by \$13,607,727 and \$(1,570,765), respectively.

NORTHWEST SAVINGS BANK EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(4) Tax Status

The Plan obtained its latest determination letter on May 14, 2012, in which the Internal Revenue Service ("IRS") stated that the Plan is qualified, under the Internal Revenue Code and therefore, the related trust is exempt from taxation. Therefore, no provision for income tax has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(5) Information Certified by Custodian

The plan administrator has elected the method of compliance by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2013 and 2012. Accordingly, the Custodian of the Plan has certified to the completeness and accuracy of all investments reported in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012 and the supplemental schedule of assets (held at end of year) as of December 31, 2013, and the related investment activity reported in the statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012 and the supplemental schedule of reportable transactions for the year ended December 31, 2013.

(6) Related Party and Party in Interest Transactions

The plan sponsor, Northwest Savings Bank, is a related party to the Custodian, the Northwest Savings Bank Investment Management and Trust. The Northwest Savings Bank Investment Management and Trust performs investment management functions and serves as the custodian for the Plan. All fees paid to the Northwest Savings Bank Investment Management and Trust are paid by the Bank, and are therefore, not included in the financial statements. Certain administrative functions of the Plan are performed by the Company, for which no fees are charged. The Plan invests in the common stock of the Company, and therefore, these transactions qualify as party in interest transactions. The Plan earned dividends related to the investment in Company common stock of \$2,570,895 and \$3,147,191 during 2013 and 2012, respectively.

(7) Fair Value Measurements

Financial assets and liabilities recognized or disclosed at fair value on a recurring basis are measured using a three-level hierarchy of valuation technique based on whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to quoted prices with readily available independent data in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable market inputs (Level 3). When various inputs for measurement fall within different levels of the fair value hierarchy, the lowest level input that has a significant impact on fair value measurement is used.

NORTHWEST SAVINGS BANK EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2013 and 2012

Financial assets and liabilities are categorized based upon the following characteristics or inputs to the valuation techniques:

- Level 1 – Financial assets and liabilities for which inputs are observable and are obtained from reliable quoted prices for identical assets or liabilities in actively traded markets. This is the most reliable fair value measurement and includes, for example, active exchange-traded equity securities.
- Level 2 – Financial assets and liabilities for which values are based on quoted prices in markets that are not active or for which values are based on similar assets or liabilities that are actively traded. Level 2 also includes pricing models in which the inputs are corroborated by market data, for example, matrix pricing.
- Level 3 – Financial assets and liabilities for which values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Level 3 inputs include the following:
 - Quotes from brokers or other external sources that are not considered binding;
 - Quotes from brokers or other external sources where it cannot be determined that market participants would in fact transact for the asset or liability at the quoted price;
 - Quotes and other information from brokers or other external sources where the inputs are not deemed observable.

The Plan is responsible for the valuation process and as part of this process may use data from outside sources in establishing fair value. The Plan performs due diligence to understand the inputs used or how the data was calculated or derived. The Plan corroborates the reasonableness of external inputs in the valuation process.

The Plan's investment that is measured at fair value on a recurring basis is classified within Level 1 of the fair value hierarchy. The fair value of this investment is valued based on quoted market prices in active markets. The Plan had no investments that were classified as Level 2 or Level 3 assets during the years ended December 31, 2012 and 2011. There have been no changes in the valuation methods used at December 31, 2012 and 2011.

The following table represents the Plan's investments measured at fair value on a recurring basis as of December 31, 2013:

	Level 1	Level 2	Level 3	Total fair value
Northwest Bancshares, Inc. common stock	\$ 75,860,685	-	-	75,860,685
Cash equivalents	13,655	-	-	13,655
Total investments	<u>\$ 75,874,340</u>	<u>-</u>	<u>-</u>	<u>75,874,340</u>

NORTHWEST SAVINGS BANK EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2013 and 2012

The following table represents the Plan's investments measured at fair value on a recurring basis as of December 31, 2012:

	Level 1	Level 2	Level 3	Total fair value
Northwest Bancshares, Inc.				
common stock	\$ 63,782,467	-	-	63,782,467
Cash equivalents	2,745	-	-	2,745
Total investments	<u>\$ 63,785,212</u>	<u>-</u>	<u>-</u>	<u>63,785,212</u>

Common stock: Shares of common stock held are valued at the quoted market price on the last business day of the year.

Cash equivalents: Shares of the money market fund are valued at the quoted net asset value of shares held by the Plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of the Plan's financial instruments could result in a different fair value measurement at the reporting date.

(8) **Loan Payable**

During 2009, the Plan entered into a line of credit totaling an amount up to approximately \$32,000,000 with the Company, the proceeds of which were used to purchase 1,034,377 shares during 2009 and 1,491,233 shares during 2010 of Northwest Bancshares, Inc common stock. Unallocated shares were used as collateral for the line of credit. The line of credit was converted into a term note in 2010 upon the final purchase of the 2,525,610 shares of Northwest Bancshares, Inc. common stock. The \$28,851,153 term note is to be repaid over a period of 20 years with the initial payment commencing on December 29, 2010. During 2013, the Plan made a loan payment totaling \$1,984,350 of which \$1,152,092 was principal and \$832,258 was interest to Northwest Bancshares, Inc. Interest is payable, together with each installment of principal, at an annual rate of the prime rate in effect at the beginning of the fiscal year as provided in the loan agreement. As of December 31, 2013, the prime rate in effect was 3.25%.

2018	1,351,878
2019 and beyond	18,081,611
	<u>\$ 24,428,656</u>

(9) Risks and Uncertainties

The Plan invests in common stock of the Company. Common stock is exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with common stock, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.
