RETIREMENT:	Age 65 (or current age, if later). All Non-Highly Compensated participants assumed to elect lump sum payment
EXPENSES:	NONE

**ACTUARIAL FUNDING METHOD**

Under the mandated method, there is determined the value of the plan liability for all plan benefits which have been accrued by participants under the plan as of the beginning of the plan year (which is the valuation date). This liability is referred to as the Funding Target. If the Funding Target exceeds the value of plan assets, then there exists a Funding Shortfall. There is also determined the value of plan benefits which are accrued during the current plan year. This is referred to as the Target Normal Cost. This cost is zero because benefits are Frozen. The required contribution for the year equals the Target Normal Cost plus, if applicable, the amortization of the current year Funding Shortfall over a 7 year period and prior year Shortfalls over the remaining portion of the original 7 year amortization period. If the value of Plan assets exceeds the Funding Target, then the excess reduces the current year contribution.

The Pension Protection Act mandates the interest rates and mortality tables to be used in the actuarial valuation. 3 interest rates are mandated – the 1<sup>st</sup> interest rate to be used to discount expected benefit payments from the plan during the 5 year period following the valuation date, the 2<sup>nd</sup> interest rate to be used to value expected benefit payments from the plan during the period from 5 to 20 years following the valuation date, and the 3<sup>rd</sup> interest rate to be used to value expected benefit payments from the plan after 20 years from the valuation date. Male participants are valued using a male-derived mortality table and female lives are value using a female-derived mortality table.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
