Alcan 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan and Subsequent Event

The following description of the Alcan 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all salaried employees of participating employer divisions of Alcan Corporation (the Company). Covered full-time employees are eligible to participate in the Plan upon date of hire. Covered employees who work less than full-time are eligible to participate in the Plan upon completion of one year of service. There were no active participants for the year ended December 31, 2013. The Plan has appointed Vanguard Fiduciary Trust Company to be the trustee of the Plan. The Rio Tinto America Benefit Governance Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974.

Contributions: There were no active participants for the year ended December 31, 2013. There were no contributions to the Plan for the year ended December 31, 2013.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) plan earnings (losses). Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-directed options for investments: Participants have the option to allocate plan contributions of their account balances among several investment options. All choices vary in types of investments, rates of return and investment risk. Participants may elect to have all or part of their account balances and future contributions invested in one fund, transferred to another fund, or in any combination. As provided in the Plan, the participant may change this election and/or elect to transfer any portion of the account balance from one fund to any other fund on a daily basis. All dividends, interest and other distributions received by any fund will be reinvested automatically in the same fund.

Vesting: Participants are immediately vested in their contributions and vest in their share of the Company's contributions according to the respective agreement, with full vesting after a maximum of five years.

Payment of benefits: Upon termination for any reason, or when a participant becomes permanently and totally disabled and has received disability benefits for two years, a participant with an account balance of \$5,000 or more may elect to receive a distribution of their vested balance in various forms as defined in the Plan document. This election may be made at any time up until age 65. At age 65, the participant's vested interest will automatically be distributed. If the value of the vested portion of a participant's account is less than \$5,000, final payment cannot be deferred, and the vested portion of the account will be distributed in a lump-sum payment as soon as practicable. During employment, participants may receive a hardship withdrawal of their pre-tax account balance, or may withdraw the portion of their account related to rollover and after-tax contributions up to twice per year.

Notes receivable from participants: Participants may borrow from their accounts up to a maximum of the lesser of \$50,000 or 50% of the participant's total vested account balance. Note terms range from one to five years or up to 15 years for the purchase of a primary residence. The notes are collateralized by the vested balance in the participant's account. The applicable rate of interest is the prime rate plus 1% at the beginning of the last month preceding the calendar quarter in which the note is approved. Principal and interest are paid ratably through payroll deductions.

Alcan 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan and Subsequent Event (Continued)

Plan merger: In 2014, the Board of Directors of Pechiney Plastic Packaging, Inc., the Plan's sponsor, made the decision to merge the Plan into the Rio Tinto Alcan 401(k) Savings Plan for Former Employees, effective July 28, 2014. All plan assets are expected to transfer to the Rio Tinto Alcan 401(k) Savings Plan for Former Employees on July 28, 2014.

Forfeitures: Forfeited nonvested accounts totaled approximately \$199,500 and \$585,600 as of December 31, 2013 and 2012, respectively. Forfeitures are used to reduce future Company contributions or to pay plan expenses. Because there are no active contributions into the Plan, the Plan will reallocate forfeitures and use them for future plan expenses. During the year ended December 31, 2013, forfeitures of approximately \$84,900 were used to pay administrative expenses and \$311,850 were reallocated to plan participants in order to utilize forfeitures built up over several years.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, currency exchange rate, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Rio Tinto America Inc. Savings Plan Investment Committee determines the Plan's valuation policies, utilizing information provided by the investment advisers and Plan Trustee. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based on the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Investment fees and fund management expenses are deducted from the investment returns of each fund. Loan origination and maintenance fees are paid for by the participant. Remaining administrative expenses are paid either by the Plan or the Company. Expenses that are paid by the Company are excluded from these financial statements.

Notes to Financial Statements

Note 2 Summary of Significant Accounting Policies (Continued)

Recent accounting pronouncement: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update are effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of this Update is not expected to have a significant impact on future periods.

Subsequent events: The Plan has evaluated subsequent events through July 25, 2014, the date on which the financial statements were available to be issued.

Note 3. Fully Benefit-Responsive Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the Plan's interest in the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract-value basis for fully benefit-responsive investment contracts.

Note 4. Information Certified or Provided by Vanguard Fiduciary Trust Company, the Plan Trustee

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Vanguard Fiduciary Trust Company (Vanguard), the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan

Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 6. Fair Value Measurements

Accounting guidance provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted market prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 6. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective fund: Valued based on the NAV of units of the common collective fund. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Note 6. Fair Value Measurements (Continued)

The availability of market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers in or out of Level 3.

The Plan follows guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of the guidance can be determined using NAV per share as a practical expedient, when fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV.

The following tables summarize investments measured at fair value based on NAV per share as of December 31, 2013 and 2012:

		2013		
		Fair Value Estimated Using Net Asset Value per Share		
		Fair Value	Unfunded Commitment	Redemption Frequency Redemption Notice Period
Asset category:				
Common collective fund -				
Stable value (a)		\$ 14,484,095	\$ -	Immediate 1 year

		Fair Value	Unfunded Commitment	Redemption Frequency Redemption Notice Period
Asset category:				
Common collective fund -				
Stable value (a)		\$ 20,757,071	\$ -	Immediate 1 year

- (a) This investment seeks to provide participants with an attractive rate of interest and safety of principal by investing in investment contracts issued by financial institutions and in contracts that are backed by high quality bonds and bond mutual funds owned by the Trustee on behalf of the Trust.

Note 7. Parties-In-Interest Transactions

Certain plan investments are shares of mutual funds and units of a common collective fund managed by The Vanguard Group, a Company affiliated with Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee as defined by the Plan, and therefore, these transactions, as well as notes receivable from participants, qualify as party-in-interest. Fees paid by the Plan for administrative expenses to Vanguard Fiduciary Trust Company amounted to approximately \$22,200 for the year ended December 31, 2013.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is received from the Plan.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants would become fully vested in their accounts.

Note 9. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 7, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

The Plan Administrator has evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years prior to 2010.
