1. Description of Plan

The following brief description of the Ultrafab, Inc. Employees' Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on June 1, 1988 and is a salary reduction plan pursuant to Section 401(k) of the Internal Revenue Code. It covers substantially all employees of Ultrafab, Inc. (Company) who meet certain age and length of service requirements. The Plan is also subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation

Each employee shall be entitled to make his or her own contributions (elective deferrals) to the Plan upon attainment of age 18. Co-op's and seasonal interns will be excluded from participation in the plan. In addition, each employee shall be entitled to receive employer matching contributions and qualified discretionary contributions (qualified non-elective contributions) after completing one thousand hours of service in a 12-consecutive month period. Each employee shall be entitled to receive a discretionary profit sharing contribution after completing one thousand hours of service in a 12-consecutive month period and by being employed on the last day of the plan year. The Plan has an automatic withholding and contribution of 2% of an employee's eligible salary in the event that a salary reduction agreement or waivers are not submitted to the sponsor. Eligible employees may become participants commencing on the first day of the month coinciding with or following the attainment of the eligibility requirements.

Contributions

The Company shall make deferral contributions (elective deferrals) on behalf of each participant who has an executed salary reduction agreement in effect with the Company, not to exceed 60% of compensation. The maximum contribution each participant may make each year is subject to federal limits. If an employee does not provide a written waiver or election to make deferral contributions, the Company will automatically withhold and contribute 2% of their eligible salary to the Plan as an elective deferral.

Each year, the Company shall make matching contributions on behalf of each participant in an amount equal to 50% of the first 4% of the participant's compensation. Catch-up deferrals are not eligible for matching contributions. During 2013 and 2012, matching contributions totaled $113,148 and $114,066, respectively.

The Company may also contribute an amount which it designates as a qualified discretionary contribution (qualified non-elective contribution). This contribution may be included in the actual deferral percentage test or the actual contribution percentage test. Qualified discretionary contributions shall be allocated only to non-highly compensated employees in proportion to his or her compensation as a percentage of the compensation of all eligible employees for the plan year. During 2013 and 2012, the Company did not make qualified discretionary contributions.

1. **Description of Plan** (Continued)

Contributions (Continued)

The Company may also decide each plan year to make a discretionary profit sharing contribution on behalf of the eligible participants. Such contributions shall be allocated to eligible participants in the ratio that each participant's compensation bears to the total compensation paid to all eligible participants for the plan year. In order for a participant to qualify to receive a discretionary profit sharing contribution the participant must be employed on the last day of the plan year. Discretionary profit sharing contributions may vary annually and are determined by the Board of Directors of the Company. During 2013 and 2012, the Company did not make discretionary profit sharing contributions.

In addition, participants may transfer funds from other qualified plans, with the consent of the plan administrator.

Participant accounts

Each participant shall have an account which will be credited with the participant's contributions, Company contributions and Plan earnings. Allocations are based on participant compensation or account balances.

Vesting

The Plan provides for immediate 100% vesting on participant elective deferrals and qualified discretionary contributions plus actual earnings thereon. Vesting of employer matching contributions and employer discretionary profit sharing contributions is determined in accordance with the following schedule:

Years of Service For Vesting	Vesting Percentage
0	0%
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

1. **Description of Plan** (Continued)

Vesting (Continued)

Forfeitures arising under the Plan are used to pay the administrative expenses. Forfeiture activity during 2013 and 2012 consisted of the following:

	2013	2012
Forfeitures available for use, beginning of year	$ 3,170	$ 502
Forfeitures generated	2,094	7,319
Forfeitures used to reduce administrative expenses	(5,264)	(4,870)
Earnings on forfeitures	-	219
Forfeitures available for use, ending of year	$ -	$ 3,170

Payment of benefits

Upon retirement, death or disability the entire vested account balance, if less than $1,000, will be distributed as soon as possible following the date of termination in the form of a lump-sum payment. If the terminated participant has a vested balance that exceeds $1,000 but does not exceed $5,000, the vested portion shall be a direct rollover to an individual retirement account in the event that a distribution is not initiated by the participant. If the account balance is greater than $5,000, the participant may choose a lump-sum distribution, a joint and survivor annuity or equal installments over various periods based on life expectancy.

Withdrawals are permitted in case of financial hardship of a participant as provided for in the Plan and in government regulations. Upon a hardship withdrawal, participants' elective deferral contribution will be suspended for a period of six months following the date of the withdrawal.

Notes receivable from participants

The Plan also allows participants to borrow funds from their accounts. Loans may not exceed the lesser of 50% of the employee's vested account balance or $50,000. Repayments of principal and interest are made through payroll withholding. At any time, no more than one loan may be outstanding from the Plan to the participant. Interest on participant loans is fixed at the prime rate plus 1% at the time of the loan. At December 31, 2013, the prime rate was 3.25%. Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

1. **Description of Plan** (Continued)

Administrative expenses

Administrative costs of the Plan are paid by the Plan, with the exception of the annual fee charged by the custodian to each participant investing in specific mutual funds. The Plan allows the use of forfeitures to reduce administrative expenses. For 2013 and 2012, administrative expenses consisted of the following:

	2013	2012
Total administrative expenses	$ 37,779	$ 39,722
Less: Expenses paid by plan sponsor	-	(200)
Total plan administrative expenses	$ 37,779	$ 39,522

2. **Summary of Significant Accounting Policies**

Basis of accounting

The accounting records of the Plan are maintained on the modified cash basis.

Contributions are recognized as received. Investment income is recorded on an accrual basis. Benefit payments and administrative expenses are recorded when paid. The purchase and sale of securities are on a trade date basis.

Cash and cash equivalents

The Plan considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

Departure from accounting principles generally accepted in the United States of America

Accounting principles generally accepted in the United States of America require accrual basis accounting for contributions, benefit payments and administrative expenses. The Plan records these items on a cash basis; that is, when actually received or paid by the trustee.

If the accrual basis of accounting had been used, the net assets of the Plan would have increased as follows:

	2013	2012
Employer match contribution	$ 1,975	$ 2,139
Employee deferrals	6,909	6,893
Catch-up contributions	100	-
	$ 8,984	$ 9,032

2. Summary of Significant Accounting Policies (Continued)

Use of estimates

In preparation of financial statements, the plan administrator is required to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

2. Summary of Significant Accounting Policies (Continued)

Fair value measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at the end of the year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Plan management's review of subsequent events

The plan administrator evaluated events occurring between the end of the most recent calendar year and July 18, 2014, the date the financial statements were available to be issued.

Reclassifications

Certain prior year amounts have been reclassified to conform with the current year presentation.

3. Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Canandaigua National Bank & Trust, the trustee of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits (modified cash basis) and the schedule of assets held for investment purposes (modified cash basis) and the related investment activity reflected in the statements of changes in net assets available for benefits (modified cash basis).

6. Tax Status

The Plan obtained its latest determination letter in October, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan is qualified and is tax-exempt as of the financial statement date.
